On-line plan check submittals

In effort to further improve customer service and streamline the permitting process effective January 1, 2013, Building and Safety Department introduced new on-line plan check submittals service. Currently, homeowners, building contractors, developers and other interested parties are already able to schedule inspections, check status of their building permit applications, inspections and obtain some types of building permits on-line without leaving their home or office. Now the developers, homeowners, contractors and others can submit their building permit applications and plans on-line.

ISO Rating

Building and Safety Department achieved highest rating in ISO quality standards, making Milpitas one of the very few cities nationwide with this top rating.

Online and IVR Public Works inspection scheduling

Currently, building contractors, developers and other interested parties are already able to schedule building inspections and check status of inspections on-line or through automated telephone line IVR-(Integrated Voice Recognition system). Now they can also schedule inspections for Public work projects online & IVR system as well.
