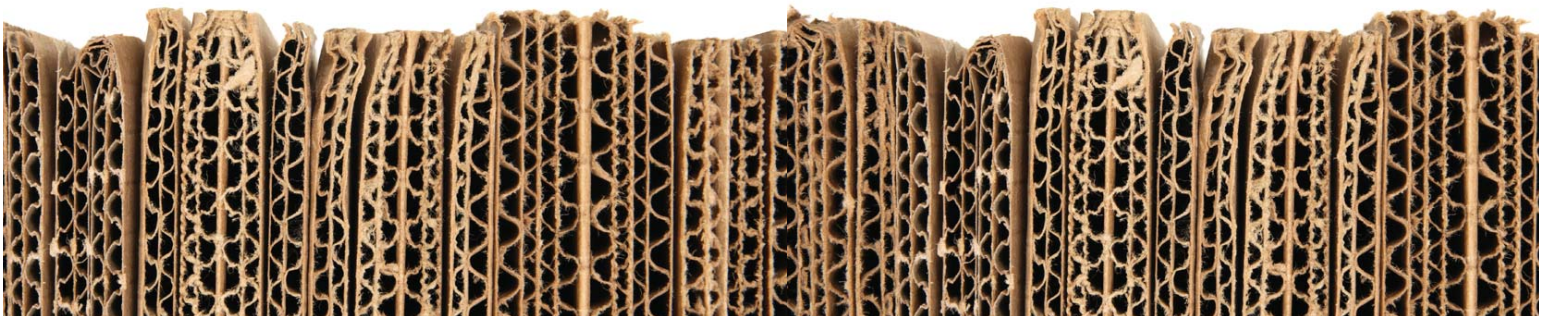
A Few Words About Cardboard

Always flatten and cut or fold cardboard to fit inside your cart. When the cart is full, flatten and size cardboard to fit inside the cart, and then stack it next to the cart.

Your driver can collect cardboard placed next to the cart only when it is sized to fit inside the cart. *Cardboard that does not fit into your cart can't be collected. If this happens, drivers will leave a non-collection notice.*


For extra cardboard, drivers first empty your full recycling cart, dismount the vehicle to put properly sized cardboard into the cart and then empty the cart again.
