**City of Milpitas  
2014-19 CAPITAL IMPROVEMENT PROGRAM**

Category	Project	Estimate Level
Community Improvement	3403 Fire Station Improvements	1

**CONTACT:** Michael Boitnott [3315]

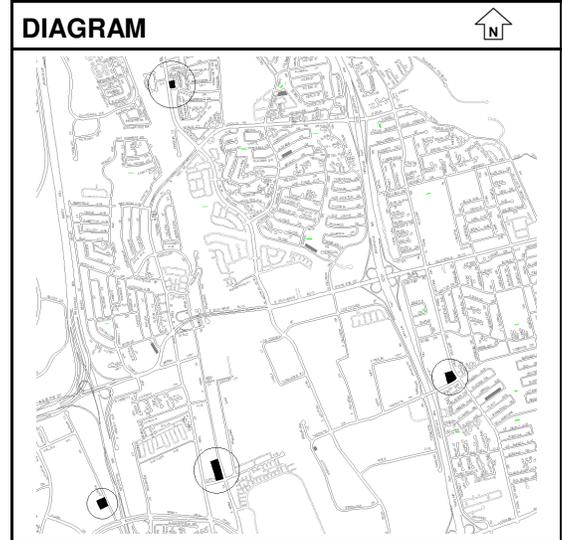

**PRIORITY:** Rehabilitation of Existing Capital Assets or Systems

**DESCRIPTION**

This project provides various improvements at all four fire stations. The work involves renovation and/or replacement of electrical and mechanical systems, plumbing renovation, parking lots, emergency power generator systems, interior and exterior paintings, replacement of floor coverings, restroom and shower facilities, kitchen improvements, re-roofing and other building and site related improvements. Work will also include energy savings improvements. All work will be performed on a priority basis.

**COMMENTS:**

This project will also evaluate the need for replacement of station 2 & 3 or determine if the stations can be remodeling and modernized to meet the current codes and needs of the Fire Department. Fire Stations 2 & 3 are identical and were originally built back in the late 1960's.

**Uncommitted Balance as of 2/28/2014:** \$1,122,285

**FINANCE NOTES**

**City of Milpitas  
2014-19 CAPITAL IMPROVEMENT PROGRAM**

Category	Project	Estimate Level
Community Improvement	3406 City Building Improvements	1

**CONTACT:** Michael Boitnott [3315]

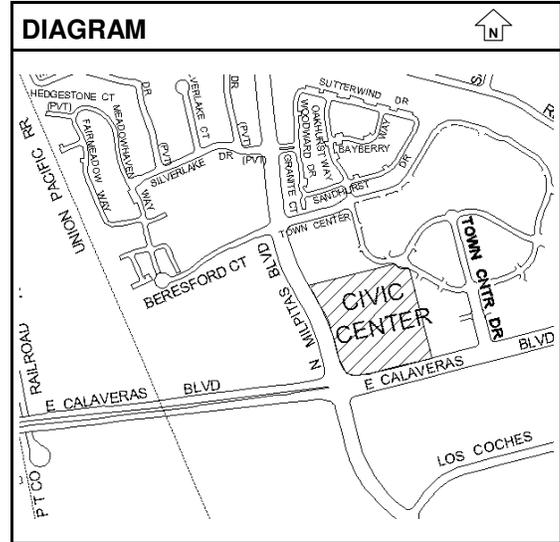

**PRIORITY:** Rehabilitation of Existing Capital Assets or Systems

**DESCRIPTION**

This project involves renovation and rehabilitation improvements at all City buildings including Public Works/Police, Community Center, City Hall, and Sports Center. The work involves replacement of electrical and mechanical systems at the Community Center, water heater/co-generator and pool equipment renovations at the Sports Center, electrical upgrades, including an emergency generator at the Sports Center. PW/PD and City Hall retrofit work, interior and exterior painting, carpeting and other related improvements. Work will also include energy savings improvements, such as replacement of lighting fixtures with energy saving fixtures, and installation of a more efficient climate controls systems.

**COMMENTS:**

Projects will be implemented based on a prioritized building renovation list, to assure a high level of service to the community and to maximize the life of the City Facilities. This project will also make improvements identified in the City Building ADA Compliance Study, starting with the highest priority projects, as funding is available.

**Uncommitted Balance as of 2/28/2014:** \$164,896

**FINANCE NOTES**

City Council - 5/21/13 Midyear Budget Appropriation \$100,000 from General Government CIP Fund

**City of Milpitas  
2014-19 CAPITAL IMPROVEMENT PROGRAM**

Category	Project	Estimate Level
Community Improvement	3408 MSC Facility Improvements	1

**CONTACT:** Julie Waldron [3314] / Jaime Chew [3369]

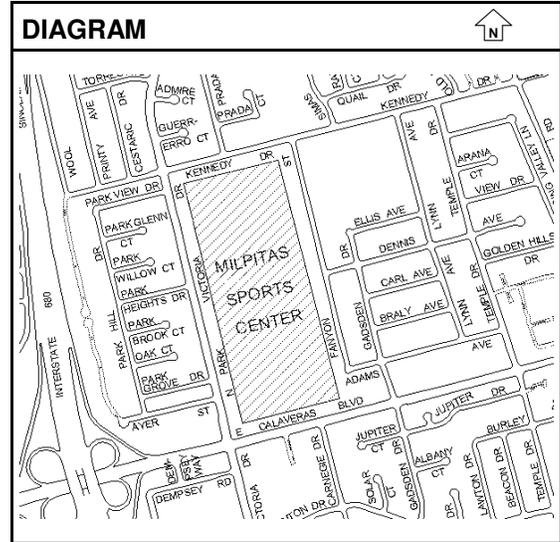

**PRIORITY:** Rehabilitation of Existing Capital Assets or Systems

**DESCRIPTION**

This project provides for various improvements to the Milpitas Sports Center facility. The work includes resurfacing the plaster at the three swimming pools and replacement of tile work, lane lines, and other pool elements. The project will reconstruct the Men's and Women's showers/restroom area, replace the locker room flooring and other code related upgrades to the facility.

**COMMENTS:**

These pools are heavily used year round and require resurfacing every 5 years. California Health and Safety Code, Section 3106B.3 states that the finished pool shell shall be lined with a smooth waterproof interior finish that will withstand repeated brushing, scrubbing and cleaning procedures. The locker room improvements will be prioritized ahead of the pool resurfacing.

**Uncommitted Balance as of 2/28/2014:** \$339,394

Community Improvement	New 2015 Finance System Upgrade	

**CONTACT:** Jane Corpus [3125]

**PRIORITY:** Rehabilitation of Existing Capital Assets or Systems

**DESCRIPTION**

This project provides upgrades to keep our Financial system up to date. It is essential that the system be current in order to utilize technology efficiently and effectively. This major system includes General Ledger, Accounts Payable, Cash Collection, Payroll/Human Resources, Job Costing and Purchase Order. In addition, the Finance system also manages Budget Preparation, Business License, Investment Software and Fixed Asset systems.

**COMMENTS:**

The proposed funding is for the system required upgrades, equipment and staff training.

Community Improvement	<b>New</b> City Buildings, Exterior Painting	1

**CONTACT:** Steve Erickson [3301]

**PRIORITY:** Rehabilitation of Existing Capital Assets or Systems

**DESCRIPTION**

This project provides for the minor exterior repairs, patching and painting of the Community Center, Public Works corporation yard buildings and the Milpitas Sports Center. The exterior of the buildings should be painted approximately every ten years to maintain the buildings appearance and to prevent damage caused by moisture infiltration.

**COMMENTS:**

Category	Project	Estimate Level
Community Improvement	New City Hall Pond & Water Feature Rehabilitation	1

**CONTACT:** Steve Erickson [3301]

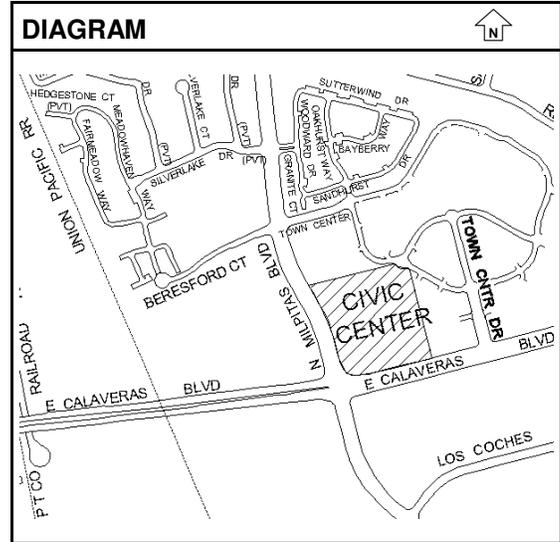

**PRIORITY:** Rehabilitation of Existing Capital Assets or Systems

**DESCRIPTION**

The project provides for the replacement of the pump system for the pond and water feature in front of City Hall, and provides for the replacement and upgrade of the chlorination and water quality systems. The project also provides for the re-coating of the pond at the rear of City Hall with a system that is less prone to annual maintenance.

**COMMENTS:**

The City Hall pond and water features require a significant amount of maintenance to maintain operational. The system for the front fountain failed several years ago and is in need of replacement. The chlorination and water quality systems are also in need of rehabilitation due to corrosion and age. The rear pond has recently required annual patching and coating to fill cracks that leak water. The installation of a coating system similar to what is installed in swimming pools is desired to seal the pond and reduce the amount of maintenance.

Category	Project		Estimate Level
Community Improvement	<b>New</b>	<b>Police Records Management System</b>	1

**CONTACT:** Armando Corpuz [2534]

**PRIORITY:** Rehabilitation of Existing Capital Assets or Systems

**DESCRIPTION**

This project provides upgrades to the Police Department's Records Management System (RMS). It is imperative that the Police Department maintain a reliable RMS to input and store data to respond to public requests, respond to public information requests, the processing of data for criminal cases and to meet the California Government Code requirements of preserving information.

**COMMENTS:**

The proposed funding is to upgrade or replace the existing software and hardware. The vendor (Tiburon) for the City current existing RMS will not support the current version after 2017. The RMS system will need to be upgraded or replaced before 2017.

2014-19 CAPITAL IMPROVEMENT PROGRAM**

Category	Project	Estimate Level
Park Improvement	5092 Main Street Park	1

**CONTACT:** Steve Erickson [3301]

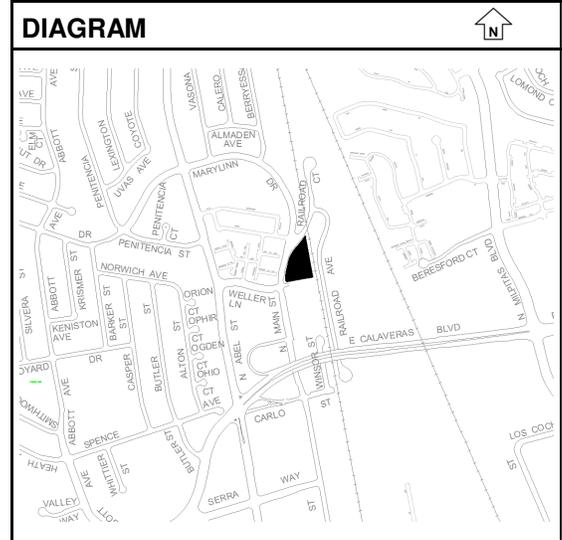

**PRIORITY:** Improve the Quality of Life

**DESCRIPTION**

This project provides for the design and construction of a new park on the City owned parcel just north of the Milpitas Library. Improvements will include a large gathering area to accommodate Park's activities such as "Music in the Park", shade structures, landscaping, drainage, hardscape and walkways. This project will also include street modifications to the intersection of Railroad Ave. and Main St., removing the pork-chop island and reconfiguring the south and east curbs of Main St. and Railroad Ave. Pedestrian improvements to the library parking garage are also included.

**COMMENTS:**

An optional historic museum could be added to the park for an additional \$1 to \$2 million.

**Uncommitted Balance as of 2/28/2014:** \$350,000

Category	Project		Estimate Level
Park Improvement	5097	Higuera Adobe Park Picnic and Playground Renovation	1

**CONTACT:** Michael Boitnott [3315]

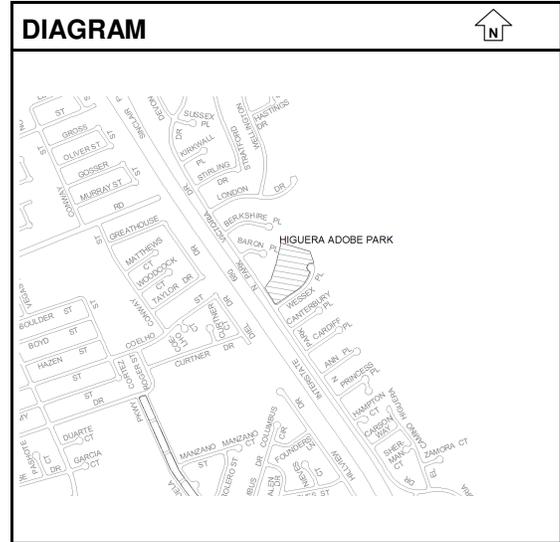

**PRIORITY:** Rehabilitation of Existing Capital Assets or Systems

**DESCRIPTION**

This project provides for the design and construction of renovation improvements of various park elements at the Higuera Adobe Park. This includes the large picnic area behind the adobe building, playground including shade structures, and surrounding area. The project will evaluate the maintenance to the care takers building, ADA compliance assessment and improvements, drainage, landscaping, walkways and related improvements.

**COMMENTS:**

Higuera Adobe Park is a Historical Site that is heavily used by large groups due to the rental opportunities of the Adobe building.

**Uncommitted Balance as of 2/28/2014:** \$300,000

Category	Project		Estimate Level
Park Improvement	5098	Park Irrigation System Repair & Improvement 2014	1

**CONTACT:** Steve Erickson [3301]

**PRIORITY:** Improve the Quality of Life

**DESCRIPTION**

This project provides for the repair and replacement of park irrigation systems and related equipment in City Parks.

**COMMENTS:**

The City has over 25 parks thru out the City, and many of these have irrigation systems that are over 40 years old. These older systems are not well document, and are problematic to locate to for repair. The systems are inefficient and leak, and there are some that are no longer operational. Irrigation systems that do operate require a significant amount of maintenance to fix continuous line breaks or to adjust worn parts. The project would also provide for restoration of existing landscaping within the park.

**Uncommitted Balance as of 2/28/2014:** \$90,000

Category	Project	Estimate Level
Park Improvement	New Berryessa Creek Trail, Reach 4, 5, 6A	1

**CONTACT:** Jeff Moneda [3345]

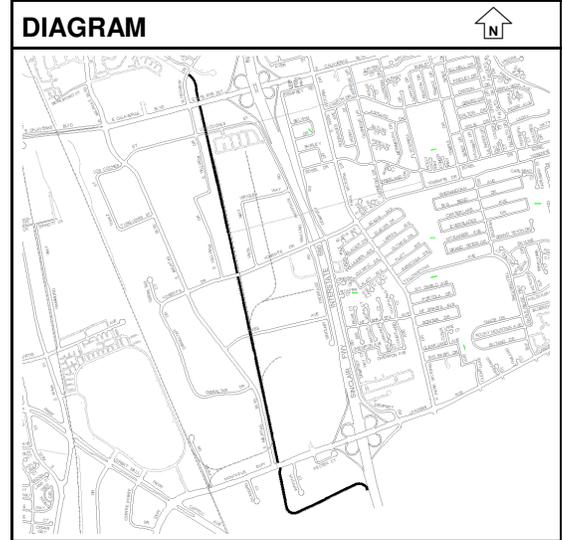

**PRIORITY:** Improve the Quality of Life

**DESCRIPTION**

This project provides for the design and construction of Reach 4, 5 and 6A of the Berryessa Creek Trail from Calaveras Blvd to San Jose City limits South of Montague Expressway. The scope of work includes trail paving, trail accessibility improvements, intersection modifications at Yosemite/S. Hillview, Ames Ave./S. Milpitas Blvd., and Gibraltar Ave/S. Milpitas Boulevard, and S. Milpitas/Montague, plantings and trail amenities. The project will be coordinated with the proposed US Army Corp of Engineers and SCVWD creek flood improvements project. It is also identified in the VTP 2040 Plan, as it provides a direct pedestrian/bicycle connection from the Town Center to the future BART station.

**COMMENTS:**

This project is identified and described further in the "Berryessa Creek Trail and Coyote Creek Trail Feasibility Report".

**Uncommitted Balance as of 2/28/2014:** \$0

Category	Project	Estimate Level
Streets	4267 Soundwall Renovation	1

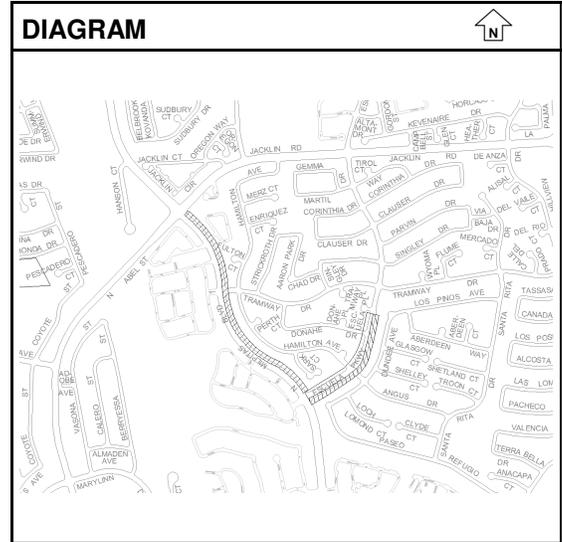

**CONTACT:** Julie Waldron [3314]

**PRIORITY:** Rehabilitation of Existing Capital Assets or Systems

**DESCRIPTION**

This project renovates the City owned sound walls along N. Milpitas Boulevard, Escuela Parkway, Jacklin Road at Horcajo, La Palma, Hillview Drive at Tularcitos Creek, Nicklaus at N. Park Victoria and other locations. Portions of the walls have deteriorated and will need to be structurally repaired or completely replaced. In some locations, the ground elevation on the residence side is much higher than on the public street side. The soundwalls were not designed as retaining walls, so they require structural retrofit work or replacement.

2014-19 CAPITAL IMPROVEMENT PROGRAM**

Category	Project		Estimate Level
Streets	<b>4273</b>	<b>Street Landscape Irrigation Repair 2014</b>	1

**CONTACT:** Steve Erickson [3301]

**PRIORITY:** Rehabilitation of Existing Capital Assets or Systems

**DESCRIPTION**

This project provides for the repair and replacement of streetscape and median irrigation systems and related equipment on City streets.

**COMMENTS:**

The City has many miles of landscaped street medians and curb planter areas in the City. The older irrigation systems are not well documented, leak, and are inefficient and do not provide suitable irrigation to support healthy landscape. The project would also provide for restoration of existing landscaping within the medians and curb planters.

**Uncommitted Balance as of 2/28/2014:** \$150,000

Streets	New Milpitas Boulevard Plan Line Study	1

**CONTACT:** Steve Erickson [3301]

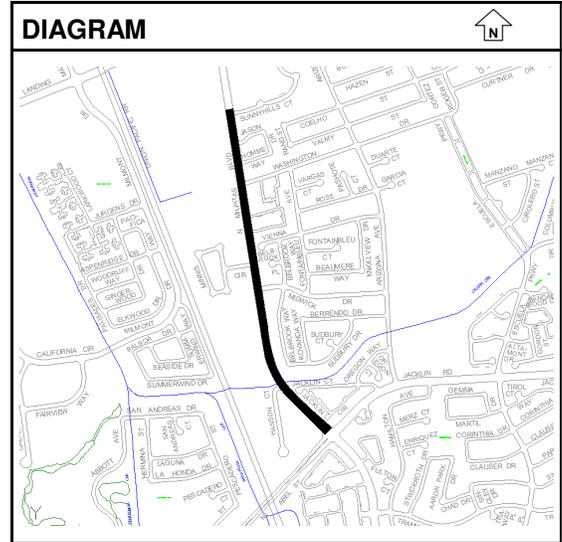

**PRIORITY:** Studies and Analyses

**DESCRIPTION**

This project provides for the preparation of a Plan Line Study to evaluate the feasibility of installing landscaped median islands on N. Milpitas Blvd between Jacklin and Sunnyhills Ct. Raised medians can provide improvements to traffic safety and provide an opportunity for street beautification. This study will also evaluate the feasibility of installing other street amenities such as street lighting, access control, pedestrian and bicycle improvements.

**COMMENTS:**

Plan Line Study will include an extensive community outreach plan, and will recommend a funding plan for the improvement.

Streets	New	S. Milpitas Blvd Bike/Ped. Improvements	1

**CONTACT:** Steve Chan [3324]

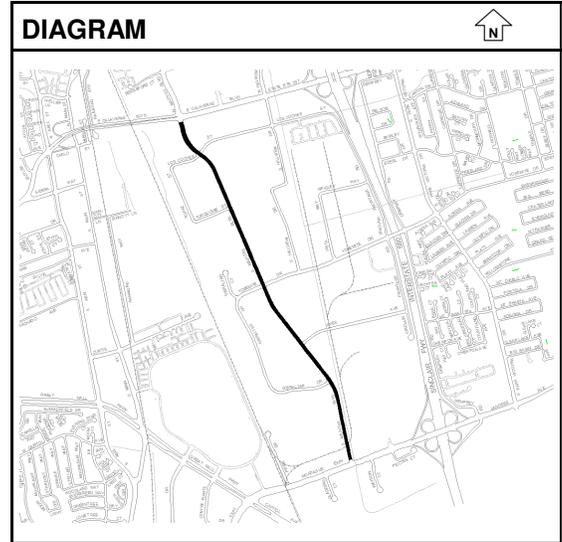

**PRIORITY:** Rehabilitation of Existing Capital Assets or Systems

**DESCRIPTION**

This project provides a Plan Line Study to evaluate opportunities and constraints to install Class I bicycle lanes on either side of Milpitas Blvd. and to provide improved sidewalk facilities on South Milpitas Blvd. between Calaveras Blvd. and Montague Expressway. Roadway modifications will also be required to accommodate these enhanced facilities. The Plan Line Study will also identify additional right of way required for these improvements.

**COMMENTS:**

This project has been added to the VTP 2040 Plan for State Regional Grant Funding.

Category	Project	Estimate Level
Streets	<b>New</b> Street Resurfacing Project 2015	1

**CONTACT:** Jimmy Nguyen [3318]

**PRIORITY:** Rehabilitation of Existing Capital Assets or Systems

**DESCRIPTION**

This project provides for a variety of pavement resurfacing treatments, from slurry seal to major rehabilitation and reconstruction. Streets are selected for improvements based on the City's Pavement Management System to optimize the pavement condition based on available the budget. There are currently over 123 centerline miles of streets that are owned and maintained by the City of Milpitas. This project will also include citywide replacement of existing curb, gutter and sidewalk, installation of ADA ramps and implementation of Class II bike lanes and Class III bike route facilities as described in the 2009 updated City of Milpitas Bikeway Master Plan.

**COMMENTS:**

The project also includes installation of ADA ramps along roads that are reconstructed or receive an AC overlay. Annually a visual inspection of city sidewalks is conducted to determine and establish a priority list of candidate sites for replacement. An annual funding of \$4.5 million is required to maintain the city wide pavement condition index of 70. A PCI of 70 is defined as "good condition" by Metropolitan Transportation Commission (MTC).

**Uncommitted Balance as of 2/28/2014:** \$0

Category	Project	Estimate Level
Streets	<b>New</b> Street Resurfacing Project 2016	1

**CONTACT:** Jimmy Nguyen [3318]

**PRIORITY:** Rehabilitation of Existing Capital Assets or Systems

**DESCRIPTION**

This project provides for a variety of pavement resurfacing treatments, from slurry seal to major rehabilitation and reconstruction. Streets are selected for improvements based on the City's Pavement Management System to optimize the pavement condition based on available the budget. There are currently over 123 centerline miles of streets that are owned and maintained by the City of Milpitas. This project will also include citywide replacement of existing curb, gutter and sidewalk, installation of ADA ramps and implementation of Class II bike lanes and Class III bike route facilities as described in the 2009 updated City of Milpitas Bikeway Master Plan.

**COMMENTS:**

The project also includes installation of ADA ramps along roads that are reconstructed or receive an AC overlay. Annually a visual inspection of city sidewalks is conducted to determine and establish a priority list of candidate sites for replacement. An annual funding of \$4.5 million is required to maintain the city wide pavement condition index of 70. A PCI of 70 is defined as "good condition" by Metropolitan Transportation Commission (MTC).

Streets	<b>New</b>	<b>Traffic Signal Installation</b>	1

**CONTACT:** Steve Chan [3324]

**PRIORITY:** Improve the Quality of Life

**DESCRIPTION**

This project provides for the design and construction of a traffic signal system. The following three intersections are being monitored for traffic signal warrants: Milpitas Blvd & Tramway Dr., S. Park Victoria Dr. & Mt. Shasta Ave., and McCarthy Blvd. & SanDisk Dr.

**COMMENTS:**

The State traffic signal warrant criteria is used to determine the warrants for signaling an intersection.

Streets	New	Utility Undergrounding 2017	1

**CONTACT:** Jeff Moneda [3345]

**PRIORITY:** Improve the Quality of Life

**DESCRIPTION**

This project provides preliminary engineering and City administration for the undergrounding of existing overhead electric telephone and CATV facilities at various locations City-wide. Construction is funded by the PG&E Rule 20A Program and other utilities (Approximately \$3.6 million in PG&E credits are available as of January 2013.)

Category	Project		Estimate Level
Water	2002	Second SCVWD Water Reservoir and Pump Station	1

**CONTACT:** Marilyn Nickel [3347]

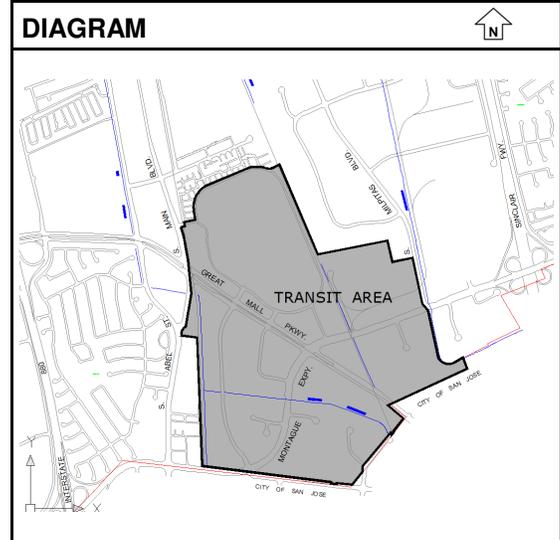

**PRIORITY:** Mandatory or Committed Projects

**DESCRIPTION**

This project will provide potable water reservoir (6.6 million gallons) and pump station to serve the SCVWD water service area, as recommended in the Milpitas 2009 Water Master Plan Update. This facility is necessary to serve the Midtown and Transit Area Specific Plan and other future development. The scope includes land purchase, design and construction of a reservoir, pump station, a second SCVWD water supply turnout and related improvements. The new water facility will require acquisition of approximately 3 acres in the Transit Area at an estimated cost of \$6.7 million. Design and Construction will be programmed in the future at a cost estimate of \$15 Million. Total cost estimate is \$21.7 Million.

**COMMENTS:**

The new water facility will require acquisition of approximately 3 acres in the Transit Area at an estimated cost of \$6.7 million. Design and Construction will be programmed in the future at a cost estimate of \$15 Million. Total cost estimate is \$21.7 Million.

**Uncommitted Balance as of 2/28/2014:** \$200,000

Category	Project		Estimate Level
Water	2003	TASP Recycled Water Line Extension	1

**CONTACT:** Steve Erickson [3301]

**PRIORITY:** Rehabilitation of Existing Capital Assets or Systems

**DESCRIPTION**

This project constructs new 8 inch diameter water lines in the Transit Area Specific Plan area. The first phase will include S. Milpitas Blvd, south of Gibraltar, McCandless Drive between Penitencia Creek and Montague, and along Trade Zone.

**COMMENTS:**

Streetscape and onsite common area landscaping within the Transit Area Specific Plan area shall be irrigated with recycled with recycled water. The project will be used to pay for projects in the TASP area that are not covered by the redevelopment of the area.

**Uncommitted Balance as of 2/28/2014:** \$1,000,000

Category	Project	Estimate Level
Water	7100 Water System Seismic Improvements	1

**CONTACT:** Michael Boitnott [3315]

**PRIORITY:** Health and Safety Projects

**DESCRIPTION**

This project develops a comprehensive Water System Seismic Improvements Program which includes seismic upgrades to the City's "back-bone" water system as defined in the Water System Seismic Improvement Strategic Plan. The scope also includes purchase of water system materials and equipment for emergency response to a major disaster. A complete list of improvements is identified in the priority list (Appendix F of DSWA report) with additional work scope identified in follow up engineering studies.

**COMMENTS:**

Total program preliminary cost estimate is a minimum of \$25 million, through 2020.

**Uncommitted Balance as of 2/28/2014:** \$5,496,136

Water	7110 Hydrant Replacement	1

**CONTACT:** Michael Boitnott [3315]

**PRIORITY:** Rehabilitation of Existing Capital Assets or Systems

**DESCRIPTION**

This project involves replacement of hydrants in the Manor, Sunnyhills, and Milford neighborhoods. Other locations may include Calaveras Blvd, Park Victoria and Jacklin Road. Additional work may include replacement of the water valve for the hydrant.

**COMMENTS:**

These hydrants have reached the end of their useful life and need to be replaced.

**Uncommitted Balance as of 2/28/2014:** \$169,379

Category	Project		Estimate Level
Water	7118	Dempsey Road Water Line Replacement	1

**CONTACT:** Michael Boitnott [3315]

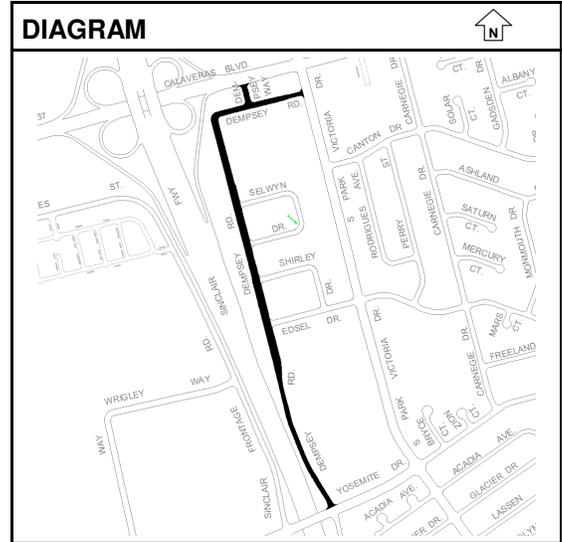

**PRIORITY:** Rehabilitation of Existing Capital Assets or Systems

**DESCRIPTION**

This project replaces approximately 3,400 linear feet of 12" diameter cast iron pipe along Dempsey Rd. between Calaveras Blvd. and Yosemite Dr. The pipe line was installed in 1950's and has reached the end of its useful life.

**COMMENTS:**

The pipeline has experienced excessive corrosion which is causing line breaks. Replacement must occur to minimize impacting water customers. This segment of water line is going to be constructed to the seismic back bone standard and the Water System Seismic Improvement Project is going to pay for the incremental cost of the upgrade.

**Uncommitted Balance as of 2/28/2014:** \$495,376

Category	Project	Estimate Level
Water	<b>New Automated Water Meter Replacement</b>	1

**CONTACT:** Steven Machida [3355]

**PRIORITY:** Projects Which Avoid Future Additional Costs

**DESCRIPTION**

A City-Wide replacement of existing water meters will be implemented to improve overall service to the City's customers and improve the reliability of the meter reading data. As meters age, the meter readings will read lower over time. Other cities have experienced a reduction ranging of 10-13% lower readings before they completed their meter change out.

**COMMENTS:**

The project will replace all of the City meters over a five year period. The new meters will provide electronic results for the 17,000 water accounts and thereby eliminating manual reads. The system will continuously monitor customer water usage and provide alerts for extraordinary usage patterns or possible leaks.

**Uncommitted Balance as of 2/28/2014:** \$0

Water	New BART Project - Water Improvements	1

**CONTACT:** Jeff Moneda [3345]

**PRIORITY:** Rehabilitation of Existing Capital Assets or Systems

**DESCRIPTION**

The BART project will cause the relocation of existing utilities along the BART corridor at its own expense. In addition, there are other related water system improvements which have been identified by the City, to be completed as part of the BART utility relocation effort. The City is required to cost share for these enhancements. Water projects include: the upsize of existing water crossing at Montague and Capitol, installation of 2 new water crossings south of Montague, and possible upsizing of pipelines in the area of Piper Drive.

Water	New Construction Water	1

**CONTACT:** Jeff Moneda [3345]

**PRIORITY:** Rehabilitation of Existing Capital Assets or Systems

**DESCRIPTION**

The construction activities for public infrastructure and private development require the use of water for increasing moisture content to achieve optimum compaction, dust control as well as other uses. This project will install recycled water construction pay stations in strategic locations and will provide for the use of recycled water instead of potable water for these construction activities.

Water	New Daniel Court Water Service Replacement	1

**CONTACT:** Steven Machida [3355]

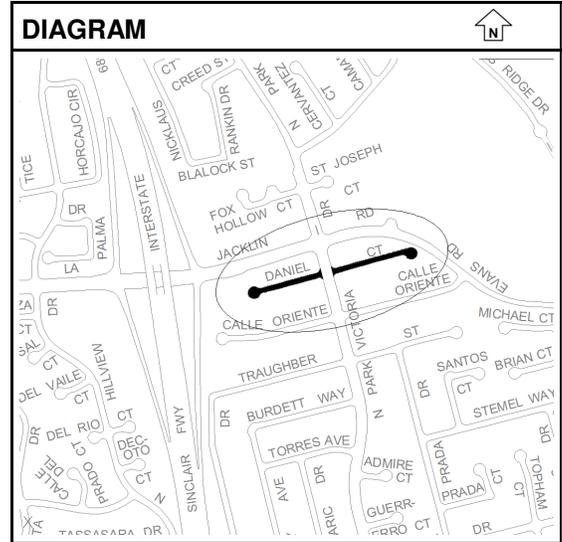

**PRIORITY:** Rehabilitation of Existing Capital Assets or Systems

**DESCRIPTION**

This project will replace approximately 1,300 feet of 4-inch cast iron water services with 4-inch PVC services on Daniel Court (east and west of N. Park Victoria)

**COMMENTS:**

The 4-inch water service laterals serving the apartments on Daniel Court have been experiencing numerous breaks over the last few years. To minimize the inconvenience to the residents and reduce the potential liability and water loss, all of the services are scheduled to be replaced with 4-inch PVC pipe.

**Uncommitted Balance as of 2/28/2014:** \$0

Category	Project	Estimate Level
Water	New Los Coches Backbone	1

**CONTACT:** Michael Boitnott [3315] / Steven Machida [3355]

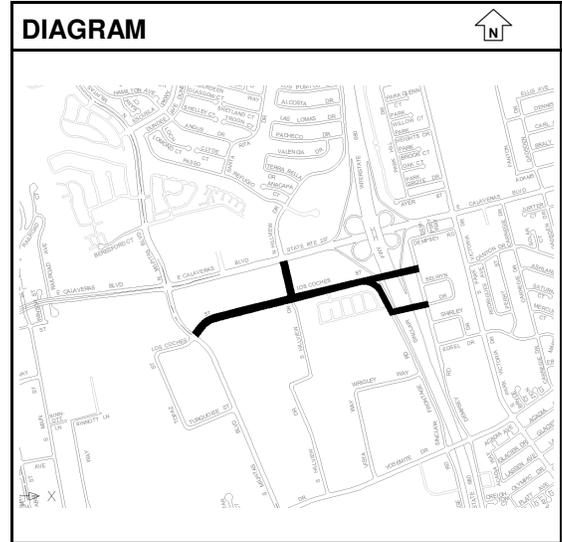

**PRIORITY:** Major Service Equipment Replacement

**DESCRIPTION**

The Los Coches Transmission Main will be constructed between S. Milpitas Boulevard and Dempsey Road. The main will tie the existing dead end main Zone 2 San Francisco PUC at S. Milpitas and Los Coches to tie into the Dempsey Road water main to the east. The project also involves the construction of a new water turnout on Los Coches Street adjacent to E. Calaveras Boulevard near Hillview Drive. The new turnout will improve the overall City water system reliability and convert a few parcels of Zone 2 Santa Clara Valley Water District service area to Zone 2 San Francisco PUC.

**COMMENTS:**

The intent of this project is to eliminate the dead end main in S. Milpitas Boulevard and avoid traffic and utility disruption in E. Calaveras during the project construction. The turnout work has to be designed and constructed by San Francisco PUC, which normally takes approximately 2-3 years.

**Uncommitted Balance as of 2/28/2014:** \$0

Water	New	SCVWD Second Water Supply Turnout	1

**CONTACT:** Marilyn Nickel [3347]

**PRIORITY:** Projects Which Avoid Future Additional Costs

**DESCRIPTION**

This is a joint project with SCVWD to install a second water supply turnout to Milpitas as describe in the Milpitas 2009 Water Master Plan.

**COMMENTS:**

A second turnout is required to meet increasing flow requirements in the City's south-central and western areas. Future appropriations are required as the total cost is estimated at \$2.8 million.

Water	<b>New Supervisory Control and Data Acquisition (SCADA)</b>	1

**CONTACT:** Jeff Moneda [3345]

**PRIORITY:** Rehabilitation of Existing Capital Assets or Systems

**DESCRIPTION**

A Supervisory Control and Data Acquisition System (SCADA) provides real-time data, such as water tank level, pump operational status, system pressure, and flow rates to water system operators. Operators can use this data to identify operational problems, such as high velocities and low pressures, pressure spikes, both indicators of pipe breaks. SCADA also allows for remote monitoring and operation of pumps and valves to implement corrective actions and maintain water supply.

**COMMENTS:**

Currently operators rely on unsophisticated alarms at limited locations and customer complaints to become aware of water system problems. Operators must drive to sites to evaluate the problem and implement corrective action, such as starting a back-up pump, when the main pumps fail.

Water	New	Water O&M Database Management	1

**CONTACT:** Steve Erickson [3301]

**PRIORITY:** Projects Which Avoid Future Additional Costs

**DESCRIPTION**

This project would integrate and expand the GIS database to include water system facility data, such as age of pipe, year of installation, type of pipe, age of valves, maintenance history, and frequency and type of breaks.

**COMMENTS:**

Some of the City's water system infrastructure is now 50 years old and reaching the end of its useful life. This database would enable staff to maintain repair records, identify and record the status of infrastructure and provide timing recommendations for replacement.

Water	<b>New</b>	<b>Water System Air Relief Modifications 2015</b>	1

**CONTACT:** Steve Erickson [3301]

**PRIORITY:** Health and Safety Projects

**DESCRIPTION**

This project retrofits existing air relief valves which are currently located below ground level to vaults above ground level. This work is mandated by the California Department of Public Health, under State Code, Title 22, Chapter 16. The purpose of placing valves above ground is to eliminate the possibility of water system contamination by backflow into valves during flooding.

**COMMENTS:**

Approximately 250 sites throughout the City have been identified for retrofitting. 150 of the highest priority sites have been completed.

**Uncommitted Balance as of 2/28/2014:** \$0

Category	Project	Estimate Level
Sewer Improvement	6115 Sewer System Replacement 11-12	1

**CONTACT:** Michael Boitnott [3315]

**PRIORITY:** Rehabilitation of Existing Capital Assets or Systems

**DESCRIPTION**

This project provides for the replacement of the highest priority facilities, including upgrades to the Sewer Pump Stations, forcemain, and seismic retrofit work. The replacement prioritization is based on several factors including age, type of pipe material, soil conditions and physical evaluation based on video camera observations.

**COMMENTS:**

**City of Milpitas  
2014-19 CAPITAL IMPROVEMENT PROGRAM**

Category	Project	Estimate Level
Sewer Improvement	6117 TASP Sewer Line Replacement	1

**CONTACT:** Steve Erickson [3301]

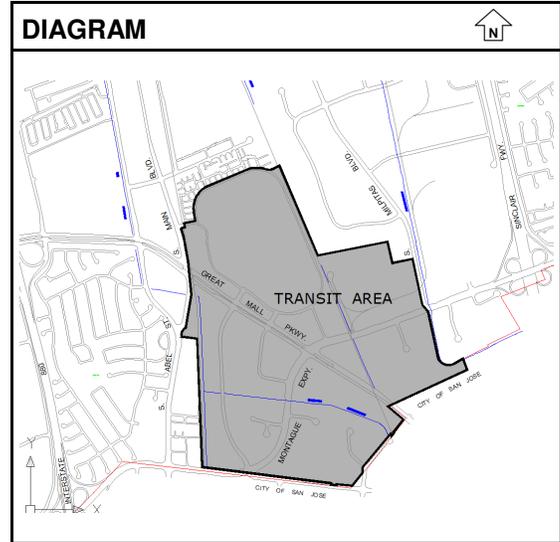

**PRIORITY:** Rehabilitation of Existing Capital Assets or Systems

**DESCRIPTION**

This project constructs sewer pipeline upgrade projects 11A-D as described in the 2009 Sewer Master Plan: Project 11A: South Main, North of Great Mall Parkway Project 11B: Great Mall Parkway between South Main and Montague Expressway Project 11C: Montague Expressway Project 11D South Main Street, South of Great Mall Parkway

**COMMENTS:**

The City's sewer collection system is at full capacity within the Transit Area Specific Plan area. Construction of these sewer pipeline upgrades provide sufficient capacity for planned development.

**Uncommitted Balance as of 2/28/2014:** \$5,000,000

**FINANCE NOTES**

The TASP Fund is going to reimburse Developers directly rather than the CIP. Close project at the end of the fiscal year, June 30, 2014.

**City of Milpitas  
2014-19 CAPITAL IMPROVEMENT PROGRAM**

Category	Project	Estimate Level
Sewer Improvement	6118 San Jose/Santa Clara Regional Waste Water Facility	1

**CONTACT:** Marilyn Nickel [3347]

**PRIORITY:** Rehabilitation of Existing Capital Assets or Systems

**DESCRIPTION**

The City of Milpitas pumps our sewage to the San Jose/Santa Clara Regional Waste Water Facility for waste water treatment before it can be discharged into the San Francisco Bay. This project will fund Milpitas's share of the facilities rehabilitation costs. The facility was originally constructed in 1956 and is reaching the end of its useful life and is in need of a complete overhaul. The City of San Jose which operates the facility is undergoing a large rehabilitation project to completely overhaul the facility over the next 30 years. The City of Milpitas uses approximately 7% of the facility and will be responsible for 7% of the estimated \$2 billion or \$140 million in improvements that will be made over the next 30 years.

**COMMENTS:**

**Uncommitted Balance as of 2/28/2014:** \$1,750,000

**FINANCE NOTES**

**City of Milpitas  
2014-19 CAPITAL IMPROVEMENT PROGRAM**

Category	Project	Estimate Level
Sewer Improvement	New BART Project - Sewer Improvements	

**CONTACT:** Jeff Moneda [3345]

**PRIORITY:** Rehabilitation of Existing Capital Assets or Systems

**DESCRIPTION**

The BART project will cause the relocation of existing sewer pipelines utilities along the BART corridor at its own expense. The City has identified sewer pipelines improvements which should be completed as part of the BART utility relocation effort. These include rerouting and upsizing based on the City's Sewer Master Plan. These additional sewer system improvements are outside of the BART project scope and are to be paid for by the City.

2014-19 CAPITAL IMPROVEMENT PROGRAM**

Category	Project	Estimate Level
Sewer Improvement	New CCTV Sanitary Sewer	1

**CONTACT:** Steven Machida [3355]

**PRIORITY:** Rehabilitation of Existing Capital Assets or Systems

**DESCRIPTION**

A Closed Circuit Television (CCTV) program is needed to be performed city-wide to determine the condition of the City's sanitary sewer system.

**COMMENTS:**

A CCTV program is used to measure the structural integrity and flow conditions of the underground pipes. During the initial construction, the pipes are constructed to grade and are structurally sound. However over time, pipes may develop "sags" and cracks that may cause pipe failures. Aggressive CCTV programs will identify conditions in the pipe before pipe failure and reduce the amount of pipe replacement that the City will need to perform.

Sewer Improvement	<b>New Sanitary Sewer Overflow Improvements</b>	1

**CONTACT:** Marilyn Nickel [3347]

**PRIORITY:** Mandatory or Committed Projects

**DESCRIPTION**

This project includes multiple measures to reduce sewer system overflows. A pilot program for "smart" manhole covers would be implemented. These manhole covers contain a sewer manhole flow level sensor that would transmit alarms prior to overflows. In addition, sewer backflow devices would be installed at selected sites.

**COMMENTS:**

State regulations require sewer system agencies to reduce sewer system overflows.

Sewer Improvement	New Sewer Main Replacement Study 2018	1

**CONTACT:** Marilyn Nickel [3347]

**PRIORITY:** Studies and Analyses

**DESCRIPTION**

This project involves field evaluation of the remaining useful life of the city's sewer lines including but not limited to: McCarthy/Technology/Cypress and Barber/Bellew.

**COMMENTS:**

The 2002 Depreciation Study has estimated the remaining life of the existing sewer system infrastructure. This work is to field verify the projects identified with useful life ending by 2017, confirm the need and scope of work, and prioritize these projects. It may also include pipelines requiring significant attention even if they are not at the end of their useful life.

Category	Project	Estimate Level
Sewer Improvement	<b>New Supervisory Control &amp; Data Acquisition (SCADA)</b>	1

**CONTACT:** Steve Erickson [3301]

**PRIORITY:** Projects Which Avoid Future Additional Costs

**DESCRIPTION**

A Supervisory Control and Data Acquisition (SCADA) system provides real-time data, such as wet well level, and pump operational status to sewer system operators. Operators can use this data to identify operational problems. SCADA allows for remote monitoring and operation of pumps to implement corrective actions and maintain wastewater discharge to the regional wastewater treatment plant.

**COMMENTS:**

Currently operators rely on unsophisticated alarms and must drive to sites to evaluate the problem and implement corrective action. This work includes analysis and design only. Additional funding is required for installation.

Category	Project	Estimate Level
Storm Drain Improvement	3700 Storm Drain System Deficiency Program	1

**CONTACT:** Steve Erickson [3301]

**PRIORITY:** Rehabilitation of Existing Capital Assets or Systems

**DESCRIPTION**

This project involves the design and construction of storm drain pipeline at various locations, primarily due to insufficient capacity and aging infrastructure. The areas include but are not limited to: Wrigley and Vista Way, Rocky Mountain Avenue, Watson Court, South Park Victoria Drive, Jacklin Road, Traugher Street, Park Hill Drive, Prada Drive, Abbott Avenue, Coyote Street, UPRR near Jurgens, and Sycamore Drive. In some locations, the existing storm drain pipe will be removed and replaced with larger pipe. In other locations, a second parallel pipe will be installed depending conditions of the existing pipe and space constraints with other utilities. Work scope also includes pump station rehabilitation work to electrical and mechanical systems.

**COMMENTS:**

Additional projects and work scope will be programmed based on the new Storm Drain Master Plan and urban runoff program requirements.

**Uncommitted Balance as of 2/28/2014:** \$497,218

2014-19 CAPITAL IMPROVEMENT PROGRAM**

Category	Project	Estimate Level
Storm Drain Improvement	3706 Minor Storm Drain Projects 2011-12	1

**CONTACT:** Steve Erickson [3301]

**PRIORITY:** Rehabilitation of Existing Capital Assets or Systems

**DESCRIPTION**

This project involves the ongoing analysis and implementation of various minor modifications and improvements to the existing storm drain system. The scope also includes storm drain studies, minor related improvements and regional storm drain fees.

**COMMENTS:**

The Storm Drain Master Plan identifies storm drain improvements that need to secure funding to design and construct improvements that will eliminate nuisance flooding in the City. The current funding source for these improvements is the storm water connection fees. Additional funding is required to design and construct the balance of the projects in the Master Plan. This project will also fund long term maintenance and the plant establishment phase resulting from dredging Wrigley Ford Creek.

Category	Project	Estimate Level
Storm Drain Improvement	New BART Project Storm Improvements	

**CONTACT:** Jeff Moneda [3345]

**PRIORITY:** Rehabilitation of Existing Capital Assets or Systems

**DESCRIPTION**

The BART project will cause the relocation of existing storm drain utilities along the BART corridor at its own expense. The City has identified additional storm drain improvements which should be completed as part of the BART utility relocation effort, at the City's cost. These include rerouting storm drain lines on Capitol Avenue, to eliminate localized annual flooding and other enhancements.

Category	Project	Estimate Level
Storm Drain Improvement	New Dempsey Road Storm Drain Replacement	1

**CONTACT:** Michael Boitnott [3315]

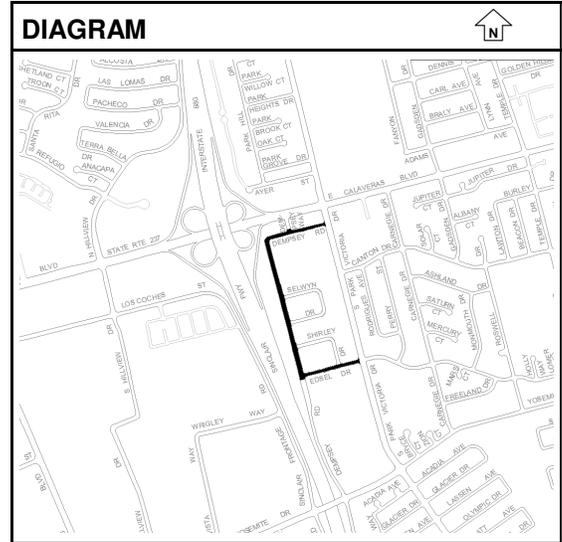

**PRIORITY:** Rehabilitation of Existing Capital Assets or Systems

**DESCRIPTION**

The work includes replacement of three segments of storm drainage piping around the Dempsey Road area and installation of two outfall into Los Coches at Dempsey. Segment one is a 36 inch diameter pipe located on Dempsey Road between South Park Victoria and Los Coches Creek, approximately 1,100 linear feet. Segment two is a 48 inch diameter pipe located on Dempsey Road between Edsel Drive and Los Coches Creek, approximately 1,400 linear feet. Segment three is a 36 inch diameter pipe located on Edsel Drive between South Park Victoria and Dempsey Road, approximately 730 linear feet.

**COMMENTS:**

This work is identified as high priority projects #6 and 7 on Table 8-1 in the 2013 Storm Drain Master Plan. Segments one and two need to be constructed simultaneously with the Dempsey water line replacement project. This work may require an environmental study.

Storm Drain Improvement	New	Oak Creek Pump Station Upgrade	1

**CONTACT:** Jeff Moneda [3345]

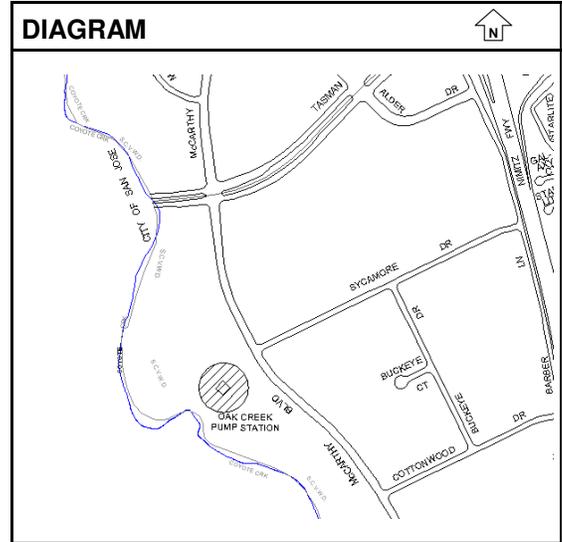

**PRIORITY:** Major Service Equipment Replacement

**DESCRIPTION**

This project provides for the replacement of the diesel engines with electric motors. The work also includes wet well modifications and new control panels, as well as other minor items. The pump is located near Sycamore Drive and McCarthy Boulevard and provides drainage for the Oak Creek Industrial Park Area.

**COMMENTS:**

This project is described on page 6-37 of the 2001 Storm Drain Master Plan. The first phase of work includes design. Additional funding will be required in subsequent years for construction.

**Uncommitted Balance as of 2/28/2014:** \$0

**City of Milpitas  
2014-19 CAPITAL IMPROVEMENT PROGRAM**

Category	Project	Estimate Level
Storm Drain Improvement	New Penitencia Pump Station Improvements	1

**CONTACT:** Steve Erickson [3301]

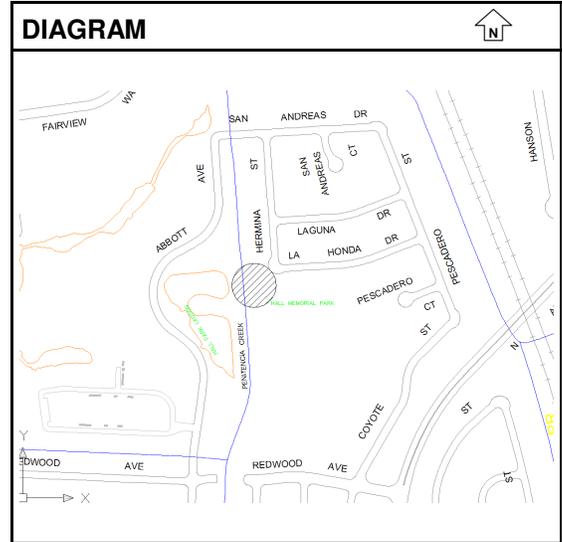

**PRIORITY:** Major Service Equipment Replacement

**DESCRIPTION**

This project provides a complete reconstruction of the pump station and wet well, work scope includes: replacement of three diesel engines and pump assemblies, electric jockey pump, station controls and electrical system upgrades. The station is located at Hall Park and provides drainage for approximately 215 acres of residential area (Manor neighborhood.)

**COMMENTS:**

This is the City's oldest storm pump station built in 1955. The Bay Area Air Quality Management District BAAQMD will no longer permit the diesel engines to be replaced in-kind; they will have to be replaced with electric motors and a backup generator. This pump station is approximately 40 years old and the engines and pumps have not been rebuilt or rehabilitated. The Fiat diesel engines and pumps have exceeded their design life and parts are no longer available to even make repairs. The first phase of the project will be to replace some engines and overhaul pumps and drives to extend the reliability of the station.

**Uncommitted Balance as of 2/28/2014:** \$0

Category	Project		Estimate Level
Storm Drain Improvement	<b>New</b>	<b>Storm Drain System Improvements 2018</b>	1

**CONTACT:** Steve Erickson [3301]

**PRIORITY:** Rehabilitation of Existing Capital Assets or Systems

**DESCRIPTION**

This project will provide for the procurement of two trailer mounted emergency generators for use at the storm pump stations (with electric capacity of 750kw and 1000kw.) The work will also include installation of transfer switches at the pump stations to allow switching PG&E power to generator power.

**COMMENTS:**

Typically, the same storms that drops heavy rainfall into the storm drain system also cause electrical service interruptions. The pump stations are inoperable at a time when they are needed the most. Secondly, a major earthquake during winter storms may also take out PG&E power.

**Uncommitted Balance as of 2/28/2014:** \$0

Storm Drain Improvement	New Trash Removal Devices	1

**CONTACT:** Steve Erickson [3301]

**PRIORITY:** Mandatory or Committed Projects

**DESCRIPTION**

This project evaluates locations for trash removal devices within the City's storm water collection system. Proposed work includes design and installation of two devices.

**COMMENTS:**

The State Regional Water Quality Control Board included trash removal requirements from storm water collection systems in the Municipal Regional Permit (MRP) issued to Bay Area cities, including Milpitas. This is one of the ways that implementation requirements with the MRP can be obtained.

2014-19 CAPITAL IMPROVEMENT PROGRAM**

Category	Project		Estimate Level
Streets	2001	Light Rail Median Landscaping	1

**CONTACT:** Julie Waldron [3314]

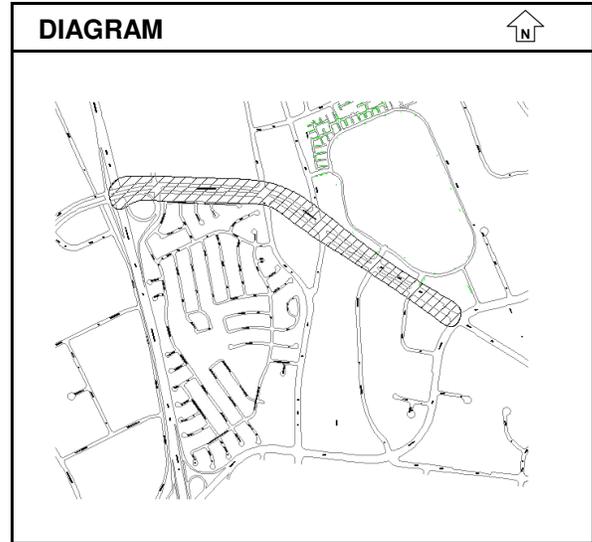

**PRIORITY:** Mandatory or Committed Projects

**DESCRIPTION**

This project involves the design and construction of median landscape improvements on Great Mall Parkway from I-880 to the southern City limits at Capitol Expressway. There are eight separate median islands under the LRT viaduct structure which will be landscaped. The scope also includes construction of a recycled water main line for this project and future Transit Area Specific Plan development project.

**COMMENTS:**

All landscaping will be irrigated with recycled water. This work is included in the cooperative agreement with the Santa Clara Valley Transportation Authority.

**Uncommitted Balance as of 2/28/2014:** \$4,097,950

Community Improvement	3400 2009 Finance System Upgrade	1

**CONTACT:** Jane Corpus [3125]

**PRIORITY:** Improve the Quality of Life

**DESCRIPTION**

This upgrade will keep our Financial system up to date. The current release, Version 7.4, will no longer have support after May 2008. It is essential that the system be current in order to utilize technology efficiently and effectively. This major system includes General Ledger, Accounts Payable, Cash Collection, Payroll/Human Resources, Job Costing and Purchase Order. In addition, the Finance system also manages Budget Preparation, Business License, Investment Software and Fixed Asset systems.

**COMMENTS:**

The proposed funding is for the system required upgrades, equipment and staff training.

Community Improvement	<b>3401</b> Solid Waste Master Plan	1

**CONTACT:** Marilyn Nickel [3347]

**PRIORITY:** Studies and Analyses

**DESCRIPTION**

This Master Plan will review the impacts of the City's short and long term planned growth and associated solid waste disposal needs. Since the current solid waste contracts expire in 2017, the plan will also review and develop strategies for economical solid waste disposal beyond 2017. Particularly, since Newby Island Landfill off Dixon Landing Road, is scheduled for closure by 2023.

**COMMENTS:**

The City has two existing contracts regarding solid waste disposal. One is for collection and hauling to the Newby Island Landfill and Recyclery for disposal. The second is to reserve capacity at the Newby Island Landfill and Recyclery for Milpitas-generated waste.

**Uncommitted Balance as of 2/28/2014:** \$91,843

2014-19 CAPITAL IMPROVEMENT PROGRAM**

Category	Project	Estimate Level
Community Improvement	3407 Midtown Parking Garage	1

**CONTACT:** Steve Erickson [3301]

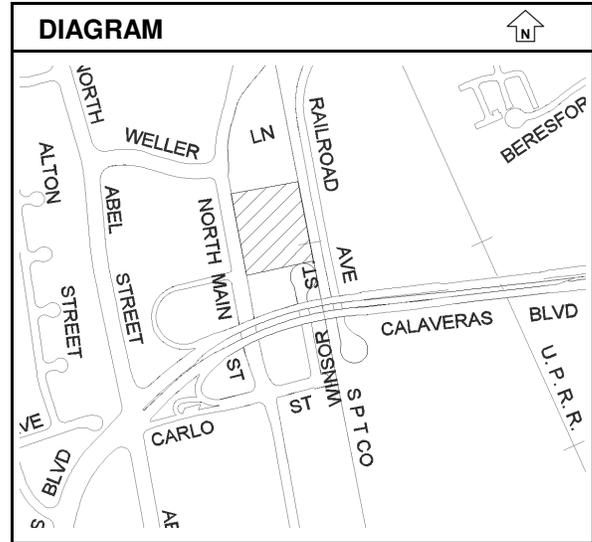

**PRIORITY:** Mandatory or Committed Projects

**DESCRIPTION**

The new Midtown East Parking Garage will consist of a four story structure that will serve the new Library and other Midtown uses. It will be located on Main Street, South and East of the new library. The East Parking Garage will have sufficient space for approximately 280 parking spaces. Special features of the parking garage include: a public display area for the City's restored antique fire truck; attractive vehicle entries/exits; pedestrian entries, including direct entry into the new library; elevators and stairs. The library garage grand opening was successfully held on January 10, 2009.

**COMMENTS:**

Work remaining is the conversion of the existing manual hand crank roll-up doors within the new library and parking garage to a motorized unit, and for the relocation of the fusible link to a location near the new motorized controls for easier access and safer operation, when being reset. Currently, if the fire alarms are actuated during annual testing or other reasons the fire doors close creating a "firewall". The manual hand cranks are located above the ceiling at two locations requiring ladder access.

**Uncommitted Balance as of 2/28/2014:** \$88,215

Community Improvement	<b>3409 Police/Public Works Generator Transfer Switch Replacement</b>	1

**CONTACT:** Steve Erickson [3301]

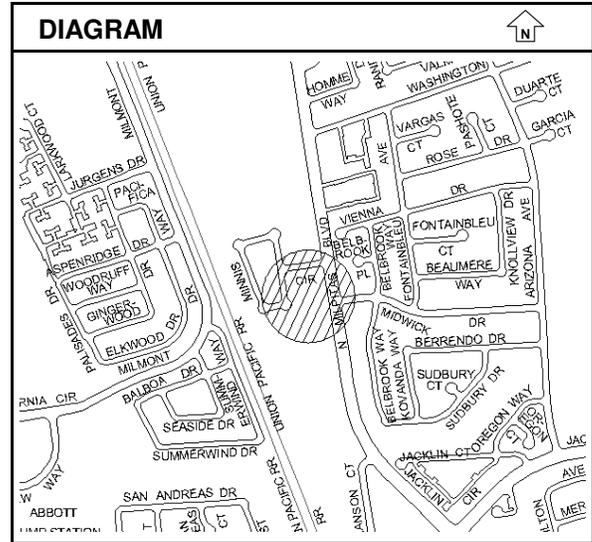

**PRIORITY:** Rehabilitation of Existing Capital Assets or Systems

**DESCRIPTION**

The project provides for the replacement and upgrade of the Public Works/Police switch gear and emergency generator automatic transfer equipment and other building management systems.

**COMMENTS:**

The Public Works/Police building has an emergency generator that provides power to operate the 911 system, computer systems, radios, and other emergency equipment when PG&E power is out, and in case of a disaster emergency. The generator and electrical switch gear system include an automatic transfer switch, the purpose of which is to switch power to the emergency generator when PG&E power is disrupted or off. The equipment was installed over 20 years ago, and the transfer switch has started to fail and not automatically switch power to emergency generator power. Work was completed under project 3406.

**City of Milpitas  
2014-19 CAPITAL IMPROVEMENT PROGRAM**

Category	Project		Estimate Level
Community Improvement	<b>3410</b>	<b>Public Works/Police Building Improvements</b>	1

**CONTACT:** Steve Erickson [3301]

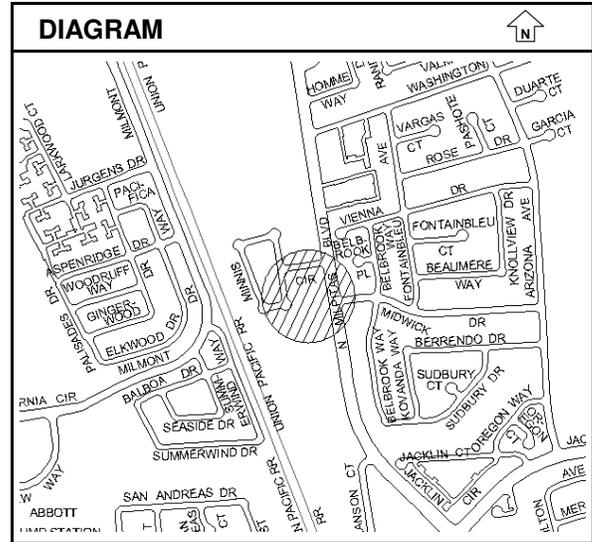

**PRIORITY:** Rehabilitation of Existing Capital Assets or Systems

**DESCRIPTION**

The project provides for the repair of the roof systems and parapet walls, repair and replacement of window systems, removal of the wooden sun shade structure, and exterior patching and painting.

**COMMENTS:**

The Public Works/Police building was constructed in the 1990's, and it is now time for significant repairs. Recently, the exterior parapet walls and roofing systems have developed water leaks that are deteriorating the buildings structure. Several of the aluminum window systems are deteriorated and are in need of repair. Within the last few years, Public Works staff removed the rotted exterior wood shade structures that surround the buildings exterior. The shades remaining along the buildings east face are rotted to the point that they need to be removed.

Category	Project	Estimate Level
Streets	3412 Street Resurfacing Project 2014	1

**CONTACT:** Jimmy Nguyen [3318]

**PRIORITY:** Rehabilitation of Existing Capital Assets or Systems

**DESCRIPTION**

This project provides for a variety of pavement resurfacing treatments, from slurry seal to major rehabilitation and reconstruction. Streets are selected for improvements based on the City's Pavement Management System.

**COMMENTS:**

There are over 123 centerline miles of streets that are owned and maintained by the City of Milpitas. An annual funding of \$4.5 million is required to maintain the city wide pavement condition index. The project also includes installation of ADA ramps along roads that are reconstructed or receive an AC overlay.

Category	Project	Estimate Level
Storm Drain Improvement	3701 Storm Drain Master Plan Update	

**CONTACT:** Jeffery Leung [3326]

**PRIORITY:** Rehabilitation of Existing Capital Assets or Systems

**DESCRIPTION**

This project provides an update to the City Storm Drain Master Plan. This update is needed due to land use modifications proposed by Midtown Specific Plan and proposed Transit Area Specific Plan. It is also important to revise and update the Master Plan in order to account for land use changes and capital projects that have taken place in the City since the original Master Plan was published in 2001, and to provide proper environmental documentation. In addition, FEMA is requiring creek levee recertification as a result of the New Orleans levee failures. SCVWD and the City are working to complete these studies by August 2009. The Storm Master Plan will model and analyze citywide existing and proposed storm drain infrastructure, identify system deficiencies and recommend improvements.

**COMMENTS:**

The project will also include updating the storm drain portion of the Financial Utility Master Plan. A Master Grading and Storm Drainage Plan is required by the Transit Area EIR.

**Uncommitted Balance as of 2/28/2014:** \$70,395

Category	Project	Estimate Level
Streets	4039 Tasman / I-880 Interchange	1

**CONTACT:** Steve Chan [3324]

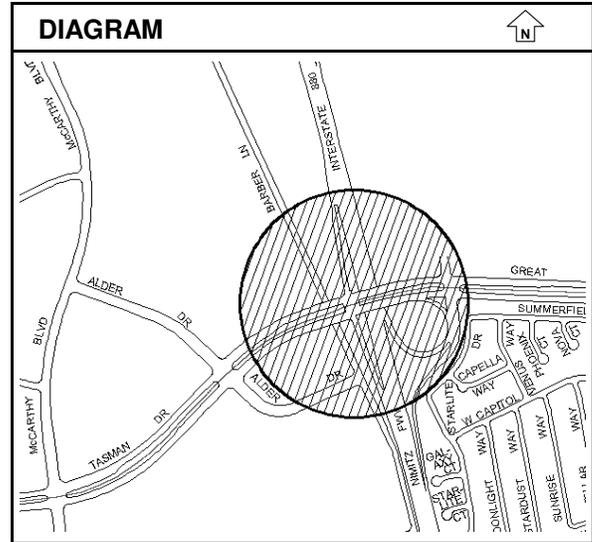

**PRIORITY:** Mandatory or Committed Projects

**DESCRIPTION**

This project involved the design and construction of an interchange at Tasman Drive-Great Mall Parkway and Interstate 880. Construction has been completed and Right-of Way transfer is currently in progress with Caltrans.

**COMMENTS:**

Caltrans and the City agreed to leave an abandoned Shell oil pipeline (now owned by Air Products) in the widened Caltrans right-of-way. If I-880 is widened to an 8 lane freeway in the future, there may be a need to relocate it outside of the Caltrans right-of-way, at an estimated cost of \$40,000 to \$500,000.

**Uncommitted Balance as of 2/28/2014:** \$45,393

**FINANCE NOTES**

Grants: SB 300: \$405,902 + Santa Clara County Transit Agency (SCCTA): \$2,526,032 = \$2,931,934

Should a future project require the nitrogen line to be relocated, Caltrans and Milpitas will enter into a 50/50 cost share. An agreement is currently being prepared. The 2004 estimated cost is \$500,000, with Milpitas share of \$250,000. Costs will be adjusted for inflation rise. \$50,000 under ROW Administration is for the additional staff time that will be needed to complete the ROW transfer to Caltrans.

Close project at the end of the fiscal year, June 30, 2014.

**City of Milpitas  
2014-19 CAPITAL IMPROVEMENT PROGRAM**

Category	Project		Estimate Level
Streets	4047	Dixon Landing Road / I-880 Interchange	1

**CONTACT:** Steve Chan [3324]

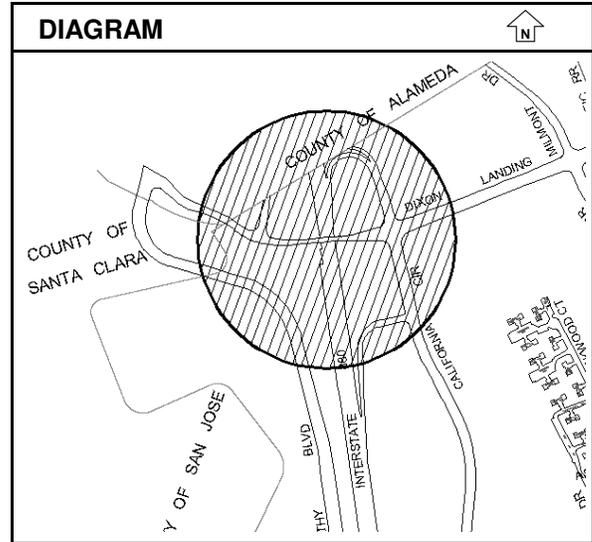

**PRIORITY:** Enhance Economic Development

**DESCRIPTION**

This project involved the construction of a full interchange at Dixon Landing Rd. and I-880. It provided access to the industrial parks to the west of I-880 and improved the access from the east. Design is based upon 6 lanes for Dixon and 8 lanes for I-880 including commuter lanes. All the construction work has been completed. The remaining work includes right of way transfer to Caltrans.

**COMMENTS:**

The interchange was completed and opened for traffic in March 2004. PG&E contract resolution and Right of Way transfer to Caltrans is currently in progress.

**City of Milpitas  
2014-19 CAPITAL IMPROVEMENT PROGRAM**

Category	Project	Estimate Level
Streets	4170 Hwy 237/I-880 Interchange	1

**CONTACT:** Julie Waldron [3314]

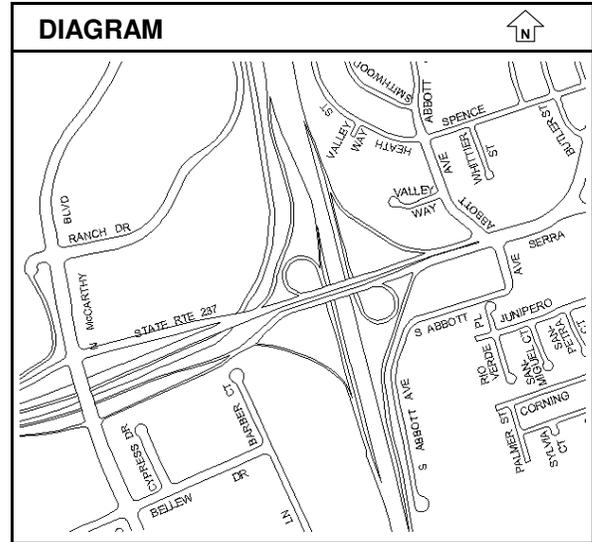

**PRIORITY:** Mandatory or Committed Projects

**DESCRIPTION**

This project designed and constructed the 237/880 Interchange through a cooperative agreement between Milpitas and Santa Clara Valley Traffic Authority (VTA). When the VTA ceased to exist in March 31, 1997, the City assumed the administration of the VTA's remaining consultant design work. VTA transferred \$1.6 million to the City for this effort. Construction began late 1997 and was completed in 2004. The remaining work includes transfer of Right-of-Way to Caltrans, landscaping and recycled water irrigation improvements.

**COMMENTS:**

Two separate cost-sharing agreements between the City/Caltrans and City/VTA (\$2 million and \$1.5 million respectively) were to provide the funding for the landscape improvements and maintenance. However, also underway is the I-880 Commuter Lane Project. It will include a significant portion of the landscape work.

**Uncommitted Balance as of 2/28/2014:** \$108,801

Grants: SCVWD \$929,256 + SCC Traffic Authority: \$2,286,424 = \$3,215,680. FY04-05: Mid-year appropriation of \$62,500 from VTA was made for repairs at Hwy 237 and Abbott. FY 2008-09: Defunded \$174,000 from the RDA Bond Tax Allocation Bonds. FY 2009-10 - Grants of \$2 million from CALTRANS (Maintenance Fund).  
 FY 2009-10 - Street Fund: \$1,284,000 currently placed in the Street Fund (VTA cost share for the median landscape project). \$300,000 of the \$1,584,000 was used to fund the street trees and mulch project. FY 2010-11- Deprogramming in FY 2010-11, of 390,000 from State grant, due to State budget crisis, funds are not available.  
 FY 2011-12- Deprogramming in FY 2010-11, of 2,000,000 from State grant.  
 Close project at the end of the fiscal year, June 30, 2014.

**City of Milpitas  
2014-19 CAPITAL IMPROVEMENT PROGRAM**

Category	Project		Estimate Level
Streets	<b>4179</b>	<b>Montague Expwy Widening at Great Mall Pkwy</b>	1

**CONTACT:** Steve Chan [3324] / Julie Waldron [3314]

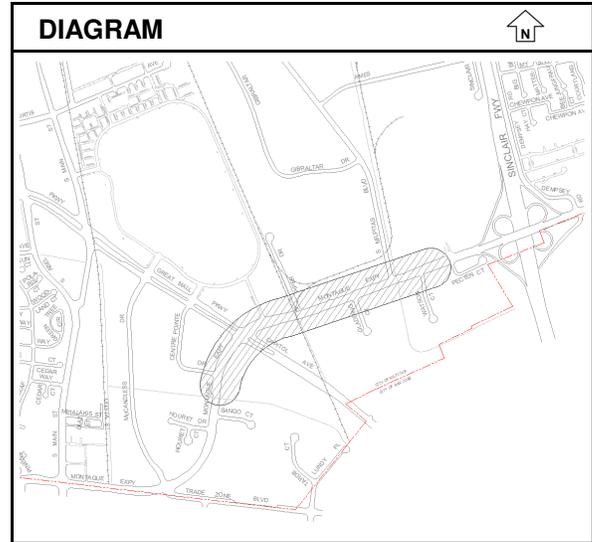

**PRIORITY:** Mandatory or Committed Projects

**DESCRIPTION**

This project provides a fourth through lane in each direction on Montague Expressway at Great Mall Parkway. It also includes adding one westbound lane on Montague Expressway from Hwy 680 to UPRR rails, however, these limits may be revised due to right of way availability.

**COMMENTS:**

A portion of this project, Phase I, is required as a result of the Cisco Systems development. Phase I is the improvement of the Great Mall Parkway/Capitol intersection from Center Point Drive to the UPRR rails, and is funded 50% by Cisco Systems. Phase I was constructed by VTA in conjunction with their LRT project. The remaining portion of the project, phase II, will "close the gaps" that exist between Phase I and Project 4180 which widened the south side of the expressway from west of Gladding Ct. to I-680.

Category	Project	Estimate Level
Streets	4254 Sidewalk Replacement 2011	1

**CONTACT:** Steve Chan [3324]

**PRIORITY:** Health and Safety Projects

**DESCRIPTION**

This project involves citywide replacement of existing curb, gutter and sidewalk. The project also involves street tree root cutting to prevent further damage to sidewalks. The scope also includes installation of ADA ramps. An annual visual inspection is conducted to determine and establish a priority list of candidate sites for replacement. Sections of sidewalk with vertical separation of 3/4" or more are completely removed and replaced. At locations where a vertical separation less than 3/4" exists, a concrete grinding method is used to eliminate trip hazards.

**COMMENTS:**

Category	Project	Estimate Level
Streets	4258 Calaveras Blvd Widening Project	1

**CONTACT:** Steve Chan [3324]

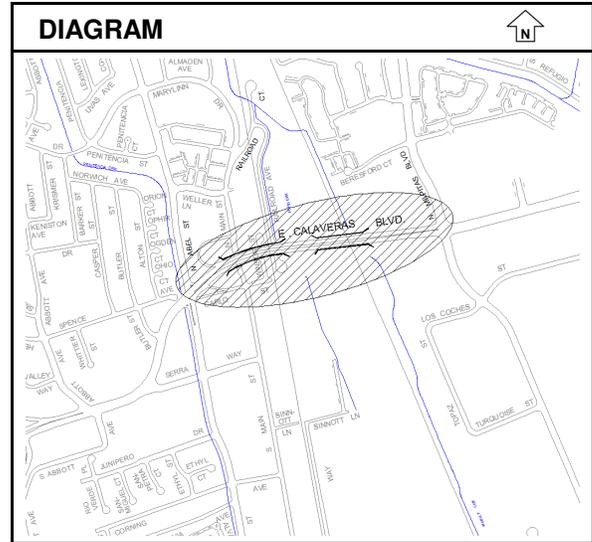

**PRIORITY:** Rehabilitation of Existing Capital Assets or Systems

**DESCRIPTION**

This project will replace the existing roadway bridges between Milpitas Boulevard and Abel Street. These bridge structures were constructed over 40 years ago are reaching their design life. In addition these structures do not have adequate bicycle and pedestrian facilities. The replacement bridge structures will be wider to include 3-lanes, 10 foot sidewalks and 6 foot bike lanes in each direction.

**COMMENTS:**

Calaveras Boulevard is a State Route and the City would be the local sponsor of this project. The City would provide a local funding match generated through Traffic Impact Fees. The total cost is estimate at \$75 Million.

**Uncommitted Balance as of 2/28/2014:** \$173,319

Category	Project	Estimate Level
Park Improvement	5055 Alviso Adobe Renovation	1

**CONTACT:** Michael Boitnott [3315]

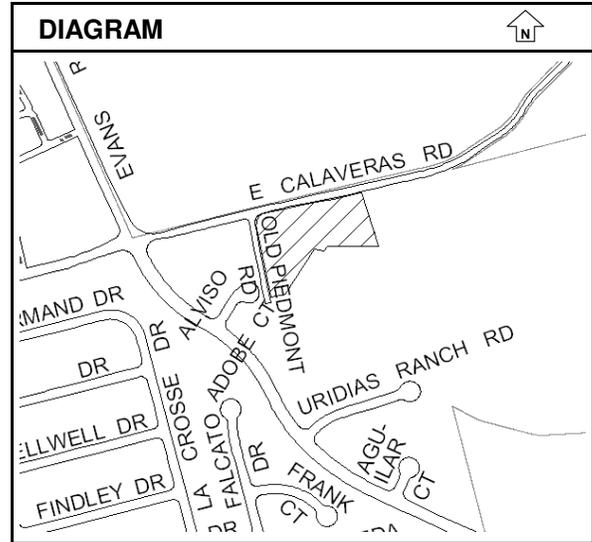

**PRIORITY:** Rehabilitation of Existing Capital Assets or Systems

**DESCRIPTION**

This project provides new park improvements and exterior restoration of the historic Alviso Adobe building. The first phase provides structural stabilization, seismic strengthening and exterior renovation of the Alviso adobe building. The second phase provides park improvements including picnic areas, lighting, walkways, a parking lot, apricot orchard, herb garden, landscaping and access improvements. Once completed, park visitors will experience the progressive history of Milpitas' from its origins as a Spanish land grant in the 1830's through the 1920's rural Santa Clara County farming era.

**COMMENTS:**

The final phase (V) provides the interior restoration of the 1st floor of the Adobe Building to museum quality level. This phase is unfunded and estimated at over \$1.0 million. Staff is pursuing additional grants for this work.

**Uncommitted Balance as of 2/28/2014:** \$3,771

Category	Project		Estimate Level
Park Improvement	5080	Penitencia Creek Trail Feasibility Study	1

**CONTACT:** Steven McHarris [3273]

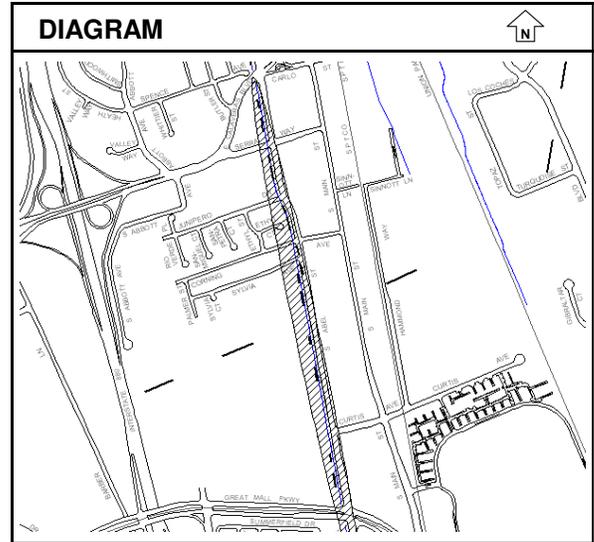

**PRIORITY:** Improve the Quality of Life

**DESCRIPTION**

This project provides for a feasibility study of a trail along the Penitencia Creek (lower and east channels) from W. Calaveras Boulevard to the southern City limits. The study would include the review of ADA Accessibility, options for major street crossings, and environmental impact assessment.

**COMMENTS:**

The Project would help in the implement of the Midtown Specific Plan Policy 3.23. The Penitencia Creek Trail is among the top three development priorities set in the Trails Master Plan.

**Uncommitted Balance as of 2/28/2014:** \$39,708

Park Improvement	<b>5086</b> Park Irrigation System Rehabilitation	1

**CONTACT:** Michael Boitnott [3315]

**PRIORITY:** Rehabilitation of Existing Capital Assets or Systems

**DESCRIPTION**

This project provides new central computer irrigation system and updates the irrigation systems at all City parks. This system will also alert staff of broken sprinklers and irrigation lines, by sensing loss of water pressure during operation. Repair response is much quicker, eliminating loss of water and water damage to the park landscaping.

**COMMENTS:**

This project will increase staff efficiency and also provide more efficient watering, resulting in reduced operational costs.

Category	Project		Estimate Level
Sewer Improvement	6079	Main Sewer Pump Station Site Improvements	1

**CONTACT:** Michael Boitnott [3315]

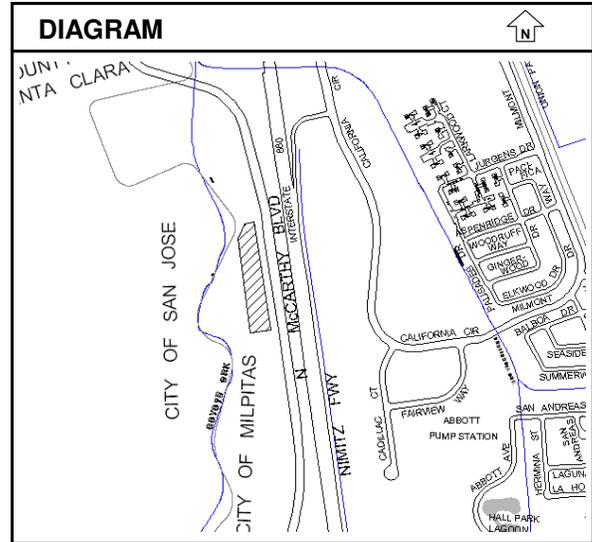

**PRIORITY:** Rehabilitation of Existing Capital Assets or Systems

**DESCRIPTION**

This project provides design and construction of drainage, pavement, lighting security and other improvements at the Main Sewer Pump Station (SPS). This project also involves the removal of the existing abandoned facilities, tanks, miscellaneous piping and control panels that were once part of the sewage treatment facility. In addition, this project acquires a 70' wide strip of right-of-way between McCarthy Blvd and the Main Sewer Pump Station, through a no-cost land exchange with adjacent property owner.

**COMMENTS:**

This site will be improved to accommodate the relocated Public Works Corp Yard at Main St., allowing the construction of the new Library project. This site contained several abandoned treatment plant structures. Phase I, completed in 2005, included demolition and removal of abandoned facilities and hazardous materials. The remaining work includes lighting, security improvements canopies for vehicle storage and photo voltaic equipment.

**Uncommitted Balance as of 2/28/2014:** \$142,477

Category	Project	Estimate Level
Sewer Improvement	6106 Sewer Replacement Study	1

**CONTACT:** Marilyn Nickel [3347]

**PRIORITY:** Rehabilitation of Existing Capital Assets or Systems

**DESCRIPTION**

This project involves field determination of the remaining useful life of the following sewer pipes: 360 linear feet of 42 inch RCP crossing I-880 at the Main Lift Station, 490 linear feet of 42 inch RCP at Cadillac Court and I-880, 310 linear feet of 42 inch RCP at Milmont near Penitencia Creek, 5,400 linear feet of 33-42 inch RCP along Milpitas Blvd between Hidden Lakes and Midwick, 90 linear feet of 24 inch RCP at Folsom and Hetch-Hetchy crossing, 1,500 linear feet of 30 inch RCP between Folsom and Escuela, and 170 linear feet of 12 inch RCP at Dempsey. The first priority includes review of the steel forcemain, Balboa Crossing, and the UPRR crossing south of Calaveras.

**COMMENTS:**

The Schaaf and Wheeler 2002 Depreciation Study has estimated the remaining life of the existing sewer infrastructure. This work is to field determine the condition of sewers and verify need to replace those sewers identified as having an estimated useful life ending by 2008. The study will refine the scope of work and costs, and prioritize these projects. The project will also include updating the sanitary sewer portion of the Financial Utility Master Plan.

**Uncommitted Balance as of 2/28/2014:** \$76,281

**City of Milpitas  
2014-19 CAPITAL IMPROVEMENT PROGRAM**

Category	Project	Estimate Level
Sewer Improvement	6109 Sewer Seismic Study	1

**CONTACT:** Marilyn Nickel [3347]

**PRIORITY:** Studies and Analyses

**DESCRIPTION**

This study includes evaluation of the various soil conditions in Milpitas, and existing sanitary sewer collection system. Recommendations may include new joint construction methods and retrofits at critical sites. The study will also recommend emergency response strategies for Public Works, during and after a major earthquake.

**COMMENTS:**

A substantial portion of the Valley Floor is subject to soil liquefaction during earthquakes. Movement of these pipes will cause pipe joints to pull apart. Large pipe joint displacements may lead to blockages, sinkholes, and sewer overflows, leading to health concerns. Improvement recommendations will be programmed under separate capital improvement projects.

**Uncommitted Balance as of 2/28/2014:** \$50,742

Water	7070 Pressure Reducing Valve Replacement	2

**CONTACT:** Michael Boitnott [3315]

**PRIORITY:** Rehabilitation of Existing Capital Assets or Systems

**DESCRIPTION**

This project involves the phased replacement of the existing pressure reducing valves (PRV) within the City's water system. These valves reduce water pressure as water moves from zone 2 to zone 1 in the City's distribution system.

**COMMENTS:**

All of the valves are over 20 years old and now require an extraordinary amount of maintenance. Proper operation of valves is crucial to assure proper delivery pressures for drinking and fire suppression purposes.

**Uncommitted Balance as of 2/28/2014:** \$18,182

2014-19 CAPITAL IMPROVEMENT PROGRAM**

Category	Project	Estimate Level
Water	7102 Ayer Reservoir & Pump Station Improvements	1

**CONTACT:** Michael Boitnott [3315] / Steve Erickson [3301]

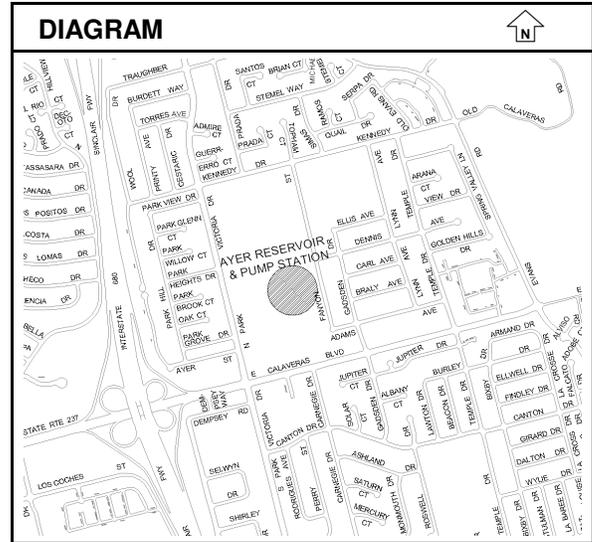

**PRIORITY:** Rehabilitation of Existing Capital Assets or Systems

**DESCRIPTION**

This project provides several improvements to the Ayer Reservoir and Pump Station located behind the Milpitas Sports Center. The overflow structure has settled and needs to be re-plumbed to the sanitary sewer system. Scope also includes sealing concrete floors (in pipe gallery, pump room, and control room), replacing manual hoist with electric, and various electrical and mechanical repairs and/or improvements. The project will also replace or upgrade the electric pumps, control systems, and various seismic improvements.

**COMMENTS:**

The pump station is a critical water supply facility that has been in service for over 15 years. These improvements are required, in order to assure continued reliability. The first phase is replacing the variable frequency drives and rehabilitate/replace pumps and motors.

**Uncommitted Balance as of 2/28/2014:** \$391,198

**City of Milpitas  
2014-19 CAPITAL IMPROVEMENT PROGRAM**

Category	Project		Estimate Level
Water	7108	Water System Hydraulic Modeling	1

**CONTACT:** Marilyn Nickel [3347]

**PRIORITY:** Studies and Analyses

**DESCRIPTION**

This project provides for miscellaneous hydraulic modeling of the water system, including impacts from new developments. This project also creates the City's first hydraulic model for the recycled water system. This computer model can be used in order to handle and direct field water system operations during an emergency.

**COMMENTS:**

Modeling is also necessary to verify pipe capacity, system pressure analysis and assists in analyzing fire flow pressure with planned water line shut offs. Some costs may be reimbursable by developers.

**Uncommitted Balance as of 2/28/2014:** \$120,528

**City of Milpitas  
2014-19 CAPITAL IMPROVEMENT PROGRAM**

Category	Project		Estimate Level
Water	7111	Minor Water Projects 2011	1

**CONTACT:** Jeff Moneda [3345]

**PRIORITY:** Rehabilitation of Existing Capital Assets or Systems

**DESCRIPTION**

This ongoing project involves the analysis and implementation of various water projects which arise during the year. This project also provides for ongoing modifications and improvements to existing water system including enhancing security at various water facilities.

**COMMENTS:**

This project involves the installation of two new gate valves on the water main, near Brian Court and Santos Court. These valves allow better isolation of the water system during waterline shut-offs. Water shut-offs may occur during routine and emergency repairs of the main water line, fire hydrants, or air and pressure relief valves. The project will also include updating the water portion of the Financial Utility Master Plan.

**Uncommitted Balance as of 2/28/2014:** \$94,279

Water	7112 Reservoir Cleaning	1

**CONTACT:** Marilyn Nickel [3347]

**PRIORITY:** Rehabilitation of Existing Capital Assets or Systems

**DESCRIPTION**

This project provides for the periodic interior cleaning of the new City's water system reservoirs.

**COMMENTS:**

The Hillside Reservoirs were last cleaned in 2002-2003 and Valley Floor Reservoirs were cleaned in 2004-05. Reservoirs should be cleaned every five years to eight years.

**Uncommitted Balance as of 2/28/2014:** \$150,000

Category	Project	Estimate Level
Water	7115 Cathodic Protection Improvements	1

**CONTACT:** Arnold Chu [3312] / Julie Waldron [3314]

**PRIORITY:** Projects Which Avoid Future Additional Costs

**DESCRIPTION**

This project provides an evaluation study and installation of corrosion monitoring station and recommendations for retrofit or anode replacement. The project will also provide for upgrades of deficiencies defined in the evaluation study.

**COMMENTS:**

The soils have been found to be highly corrosive at certain locations in Milpitas. Corrosive soils are detrimental to steel pipes in the water distribution system.

**Uncommitted Balance as of 2/28/2014:** \$576,977

Water	7120 Water Supply Blending Study	1

**CONTACT:** Marilyn Nickel [3347]

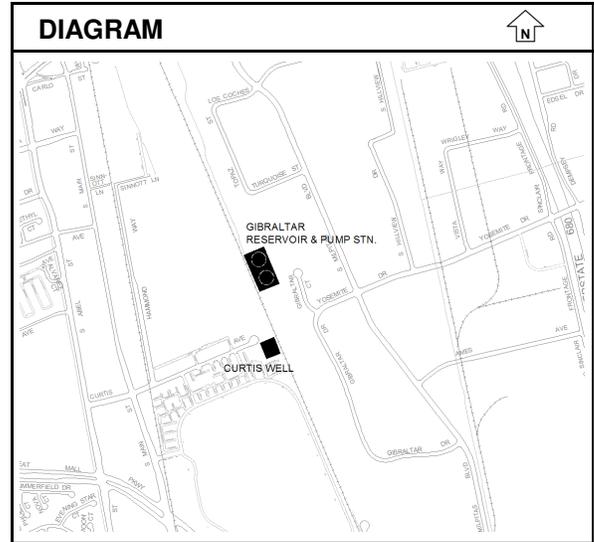

**PRIORITY:** Rehabilitation of Existing Capital Assets or Systems

**DESCRIPTION**

This project provides an engineering study to analyze the feasibility and cost benefits of connecting the Curtis Avenue ground water well to Gibraltar Reservoir and pump station for the purpose of blending well water with SC VWD and Hetch-Hetchy water, and blending of the two wholesale water supplies.

**COMMENTS:**

Ground water has a higher mineral content, and by mixing with SCVWD and/or Hetch-Hetchy, the water quality can be improved.

**Uncommitted Balance as of 2/28/2014:** \$100,000

Close project at the end of the fiscal year, June 30, 2014.

## APPENDIX A

### ESTIMATE LEVEL DESCRIPTIONS

The following are detailed descriptions for each of the three estimate levels used in this document:

#### **Estimate Level 1 – Conceptual Estimate**

This level of estimating is the least accurate and is used when the conceptual idea or plan has been prepared without precise details. Examples of such would be freeway interchanges prior to completion of any plans (and estimates based thereon), projects where final location is unknown and right-of-way or land costs are involved.

#### **Estimate Level 2 – Detailed Estimate**

This level of estimating is based on an approved design plan or conceptual plan which has some level of assurance that the items contained within are complete and acceptable to the approving agency. Examples of this category are most street projects where City staff has prepared estimated based on typical street structural and geometric details, using experienced bid prices. Other examples are water or sewer lines that have been proposed and identified with estimates in consultant reports.

#### **Estimate Level 3 – Design Estimate**

This is the highest level of estimating and is based on a completed set of design drawings and specifications that are ready for bidding. This level is what could also be called the bid or engineer's estimate.

UPS	Uninterrupted Power Supply
Y2K	Year 2000 Compliant

## APPENDIX C

### PRIORITIZATION DESCRIPTIONS

In order to assist in the review of the various projects, all CIP projects are prioritized using the following categories (listed in priority order):

1. **Mandatory or Committed Projects**

Mandatory projects are those which the City is legally required to undertake. These include Federal or State mandated activities such as access modifications to public facilities to meet Americans with Disabilities Act requirements, Clean Water Act, etc. Committed projects are those that the City has contracted or partially completed. This can also include projects that have received grants with time restrictions. A funded project that has not yet started, does not necessarily mean that the project is “committed”, since the project is still subject to review. If this project is no longer necessary, it can be delayed or deleted and defunded.

2. **Health and Safety Projects**

Health and Safety projects are those infrastructure improvements needed for health and/or safety reasons. Examples include such projects as sidewalk repair work, installation of traffic signals and signs, modification of park playground equipment to eliminate a hazardous situation and additional lighting in public areas, etc.

3. **Rehabilitation of Existing Capital Assets or Systems**

These are projects that are required to maintain the City’s investment in infrastructure and capital equipment. This includes projects ranging from street resurfacing/reconstruction, to bridge maintenance, water, sewer improvements, facilities rehabilitation, etc.

4. **Major Service Equipment Replacement**

These are projects involving the replacement of equipment required in the operations of the City services. This would include pumps at storm drainage pump stations, MSC swimming pool pumps and motor replacements.

5. **Projects which Avoid Future Additional Costs**

This includes those projects which assists the City in reducing and/or eliminating future operating or capital costs. This would include acquisition of image processing equipment for document control, computer networking, replacing existing high maintenance landscaping with drought resistant and low maintenance plantings, automation of maintenance or data gathering activities, etc.

6. **Studies and Analyses**

This category is for projects that allow the City to examine new approaches for improvements to service delivery, cost savings, capital improvement projects and/or ways to enhance the financial stability of the City. Examples include the Calaveras Plan Line Study and San Jose Parallel Forcemain Study.

7. **Enhance Economic Development**

This category is for those projects that will attract new businesses or retain existing. Examples include the installation of utilities for future development and fiber optics installation for telecommunications.

8. **Improve the Quality of Life**

These are projects that allow the City to enhance the City’s quality of life, such as landscaping projects, new Sports Center improvements, etc.
