CITY OF MILPITAS
PLANNING DIVISION**ACTION TIME**

02.20.2014

To City of Milpitas Planning Commission:

This is to explain our proposal for the conditional use permit process which is required per plan review comments of the plan check application with the plan check number B-BP13-0384.

At Great Mall, we would like to operate an amusement ride, a "bungee Trampoline" which is inspected and permitted by amusement rides and tramway division of DIR (Department of Industrial Relations) per California Labor code 7906 that requires ride owners to obtain a permit.

For your information, as a prerequisite for permitting, the State of California also requires any ride to be certified by a California licensed civil engineer per labor Code 7903. This particular ride we would like to operate at Great Mall is certified.

We also carry a five-million-dollar accident insurance although only two million dollar is required by the State of California.

Please see below pages for pictures of the bungee trampoline locations we are currently operating.

Best Regards
