

Project Description

This is a Karaoke place, we divide the whole space into 12 rooms, 8 small rooms which can contain up to 5 people, 1 middle room(room #4) which can contain up to 8 people, 3 large rooms which can contain up to 12 people. We will have a glass window on each door and there are NO locks on the door.

We have a waiting area at the front for the customer waiting for a room, people just sing inside those rooms and we charge by hours. We will sell snacks such as chips and popcorn and beverage such as coke and sprite to customer.

We DO NOT have any cook, we DO NOT sell alcohol and DO NOT allow customer bring any alcoholic beverage with them. We will let the customer sign an agreement before they start, if they bring any alcoholic beverage and caught by us, they will be banished and there is an \$100 fine.

There is a place called Music Land near Milpitas square, we run business exactly the same way like them.

The operation hour will be 4:00pm-12:00am (Monday to Thursday), 12:00pm-1:00am (Friday to Sunday). We will not have any outside session such as chairs and tables in case the customer make noise outside after their party and disturb the neighbourhood. We will have an alarm company to monitor both interior and exterior as the police department guide. We will also install security camera at entrance of the property.
