

Capital Improvement Program 2007-2012

Proposed Annual Report

City of Milpitas
CALIFORNIA

CITY OF MILPITAS

455 East Calaveras Boulevard, Milpitas, California 95035-5479 www.ci.milpitas.ca.gov (408) 586-3000

April 2007

Honorable Mayor, Members of the City Council and Board of the Redevelopment Agency:

INTRODUCTION

Transmitted herewith is the Proposed 2007-2012 Five-Year Capital Improvement Program (CIP).

The CIP is a comprehensive five-year plan of capital improvement projects for the City of Milpitas. Capital improvements projects are usually purchases or construction of capital assets including streets, park developments or upgrades, the acquisition of land, major construction of public facilities, and major repair/rehabilitation of City infrastructure and facilities. The CIP reflects Council's priorities and policies to ensure that the needs of the community are met.

This document arranges the projects in the following six fund groups: Community Improvements, Parks, Streets, Water, Sewer, and Storm Drain and includes:

- A Table of Contents with numerical and alphabetical listings of all projects.
- Summaries of the 2007-2012 CIP showing fund group expenses and finance sources and projects.
- Detailed CIP project descriptions by fund groups.
- Appendices that provide the estimate level descriptions, abbreviations, prioritization description, and previously funded projects that will be closed by June 30, 2007.

Midyear budget appropriations of current active projects will be reflected in the Final 2007-2012 Five-Year Capital Improvement Program (CIP).

ACCOMPLISHMENTS IN 06/07

Following is a partial list of Capital Improvement projects that have been completed in the last year or are nearing completion:

- S. Park Victoria Drive Rehabilitation, Project 4225
- Slurry Seal 2006, Project 4229
- Singley Area Phase IV (Santa Rita), Project 8181
- Street Resurfacing (Lomer/Holly), Project 4229
- Main Sewer Pump Station (Access Way), Project 6079
- Sewer Deficiency (Pipe Bursting), Project 6073
- Sewer Deficiency (Open Cut), Project 6073
- Sewer Deficiency (Phase III), Project 6073
- Ball Park Fence Field Extension, Project 5064
- Montague Expressway Eastbound Median Modification, Project 4179
- Berryessa Pump Station, Project 8138

2007-2008 CAPITAL BUDGET

Only new funding for projects in Fiscal Year 07-08 of the five-year program is requested for approval at this time. Funding projected for subsequent years in the CIP is shown for planning purposes and does not become available until it is appropriated in future CIP documents. The 2007-08 Capital Budget, totaling approximately \$8.5 million is summarized below:

PROJECT CATEGORY	FY 07-08	% OF TOTAL
Community Improvement Projects	1,690,000	20.0%
Park Projects	590,000	7.0%
Street Projects	3,305,000	39.1%
Water Projects	2,540,000	30.1%
Sewer Projects	150,000	1.8%
Storm Drain Projects	170,000	2.0%
TOTAL	\$8,445,000	100.0%

Projects recommended for funding during 2007-08 are shown in the summaries at the beginning of each section. The Planning Commission reviewed this document on April 11, 2007 and found it in conformance with the General Plan.

PROPOSED 2007-2012 FIVE-YEAR CAPITAL IMPROVEMENT PROGRAM

The proposed five-year Capital Improvement Program totals approximately \$53.0 million. It should be noted that the RDA funding of many of these projects was made possible by the Agency's successful efforts to increase the tax increment cap. The proposed 2007-2012 CIP program is compared with last year's program below. The proposed CIP shows a reduction of 45 million in the five-year program due to the completion of fund programming for the Midtown Projects, and the Main Sewer Pump Station Replacement Program.

FUND GROUP	2007-2012 PROGRAM		2006-2011 PROGRAM	
	Cost	% of Total	Cost	% of Total
Community Improvement Projects	2,995,000	5.6%	45,280,000	46.3%
Parks Projects	9,720,000	18.3%	7,895,000	8.1%
Streets Projects	17,215,000	32.5%	15,951,294	16.3%
Water Projects	13,720,000	25.9%	11,224,000	11.5%
Sewer Projects	7,513,000	14.2%	16,666,000	17.0%
Storm Drain Projects	1,885,000	3.6%	800,000	0.8%
TOTAL	\$53,048,000	100.0%	\$97,816,294	100.0%

FUND GROUP FINANCING

COMMUNITY IMPROVEMENTS

This fund group includes projects related to the Milpitas Sports Center, Fire and Police departments, Senior Center, Library, Technology and other improvements. This fund group relies largely on Redevelopment Agency Funds, but also includes funding from Grants, Developer Fees and other sources. Staff has been working with the Attorney's Office and the Finance Department in development of the findings that qualify specific projects for RDA funding.

PARKS

Park Dedication Fees are the primary source of revenue for this fund group. Additional revenue sources include Redevelopment Agency, County, State and Federal Grants. Staff continues to pursue outside funding sources in order to fund additional projects. For example, several million dollars from Park Dedication Fees were received from the Crossings Apartments. These fees are earmarked for the Berryessa Creek Trail Improvements.

STREETS

The Street Fund revenues are primarily derived from State gas taxes. The Redevelopment Agency, however, funds a few eligible projects, and staff has been successful in obtaining significant State and Federal Grants.

WATER

Revenues for this fund group are derived from the rate structure (Water Fund) as well as developer hookup fees (Water Line Extension). Where appropriate, projects are proposed to be funded by the Redevelopment Agency and the Water Line Extension Fund, thereby minimizing possible water rate increases.

SEWER

Revenues for this fund group are derived from the rate structure (Sewer Fund) and developer hookup fees (Sewer Treatment Plant) fees. Sewer Bonds were approved by Council, in order to fund the replacement of the Main Sewer Pump Station.

STORM DRAIN

Storm Drain projects are funded from a combination of the RDA, and Street Fund, based on eligibility for these respective funding sources. A draft Storm Master Plan has been completed, and several more projects have been identified for the Capital Improvement Program. Staff will seek additional funding sources at the local, state and federal levels and may propose additional fees. As mentioned in the Utility Financial Management Plan, staff will be proposing connection fee increases and evaluating the possibility of a yearly storm drain fee to assist in the funding of these projects.

FIVE-YEAR PROGRAM REVISIONS

Seventeen new projects have been added to the proposed 2007-2012 Capital Improvement Program. The projects were added on a need and affordability basis. New projects recommended for funding are listed in **bold italics** in the summaries at the beginning of each section. The summaries identify the projects within each fund group, project costs, funding sources, and the year funding is proposed.

ESTIMATES

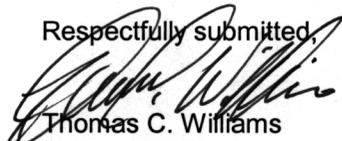

The accuracy of estimated project costs throughout this document varies depending on the degree of detail given to project proposals. Estimates range from "educated" guesses for funding of conceptually desirable projects to detailed design estimates for projects ready to go out to bid. Staff used three categories of "estimate levels" in determining project cost estimates for the projects in the annually revised CIP. The estimate level for each project is identified in the upper right hand corner of the individual projects pages and further described in Appendix A.

CONCLUSION

I want to thank the members of the City Council and Agency for their integrity in directing the financial affairs of the City in a responsible and progressive manner. I also want to thank the Department Heads, Division Managers and all staff involved in the project selection/prioritization process for the many long hours of work that have made the production of this document possible.

This Capital Improvement Program was developed in order to protect and enhance the City's capital assets and infrastructure, so as to preserve and better the quality of life for Milpitas residents. The City of Milpitas is in an enviable position compared to many other cities when looking at the future.

Respectfully submitted,

Thomas C. Williams
City Manager

Category	Project	Estimate Level
Community Improvement	3397 Public Cable Access Facility	1

CONTACT: Bill Marion [2701]

PRIORITY: Improve the Quality of Life

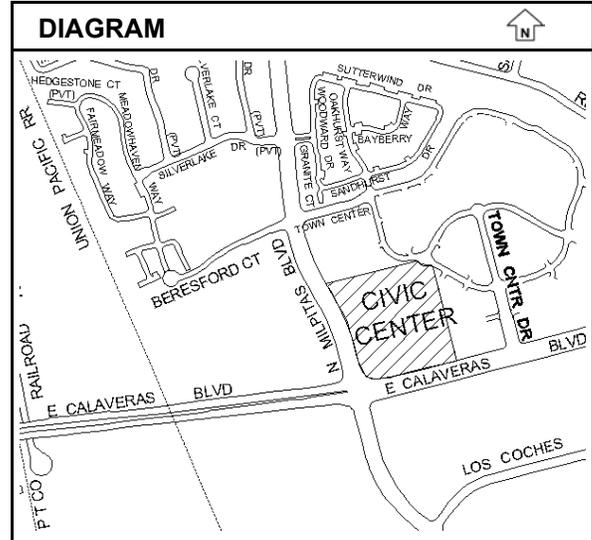

ANNUAL MAINTENANCE COST: \$0

DESCRIPTION

This project provides for the design, development and installation of a Public, Educational and Government (PEG) cable access facility within the Milpitas City Hall. The facility and associated equipment will support the production and broadcast of Public, Educational and Government programming for the resident's of Milpitas. The studio will be located on the first floor of the City Hall.

COMMENTS:

Design and construction work has been completed. The additional franchise funding provides for operating and additional equipment purchases.

Uncommitted Balance as of 3/31/2007: \$420

Category	Project	Estimate Level
Community Improvement	8174 Range Lead Containment System	1

CONTACT: Dennis Graham [2502]

PRIORITY: Mandatory or Committed Projects

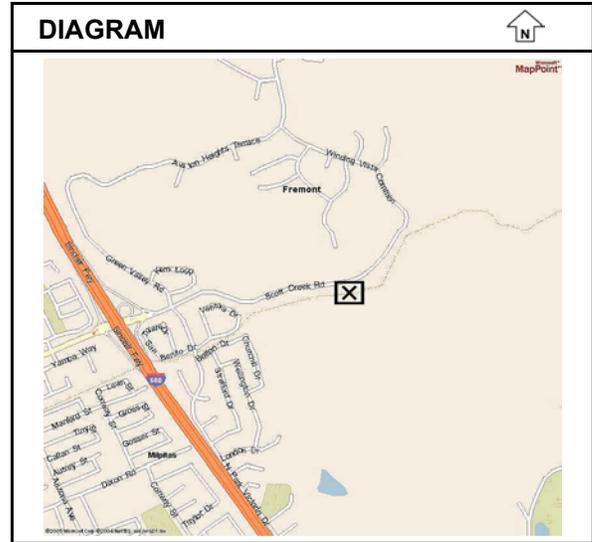

ANNUAL MAINTENANCE COST: \$0

DESCRIPTION

This project involves the construction of an environmentally safe bullet containment system (Bullet Trap) at the Milpitas Police Shooting Range, 2000 Scott Creek Road. This project will also include grading and other improvements to the site. Phase 2 of this project also provides for environmental studies of the site and any restoration if needed.

COMMENTS:

This shooting range is also used by California Highway Patrol (CHP). The environmental study is planned in the next 12 months.

Uncommitted Balance as of 3/31/2007: \$74,938

Category	Project	Estimate Level
Community Improvement	New Community Warning System Master Plan	1

CONTACT: Clare Frank [2811] / Patricia Joki [3370]

PRIORITY: Health and Safety Projects

ANNUAL MAINTENANCE COST: \$0

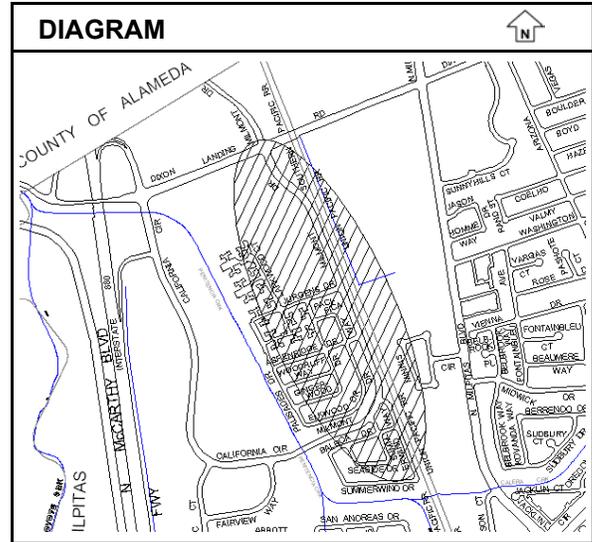

DESCRIPTION

This project provides a Master Plan for a Community Warning System. Currently there are warning systems at three locations in Milpitas. The Master Plan will review the existing systems and available technologies in order to provide recommendations for a City wide Community Warning System.

COMMENTS:

The six California Landing sirens were installed nearly fifteen years ago and are approaching the end of their service life although they remain a key element of the Integrated Emergency Public Information System.

Newer technology sirens are installed at Parc Metro and the Crossing apartment complexes. Additional development in the Midtown will provide the opportunity to expand and develop a City wide community warning system.

Category	Project	Estimate Level
Community Improvement	New In-ground Water Clarifiers	1

CONTACT: Patricia Joki [3370]

PRIORITY: Mandatory or Committed Projects

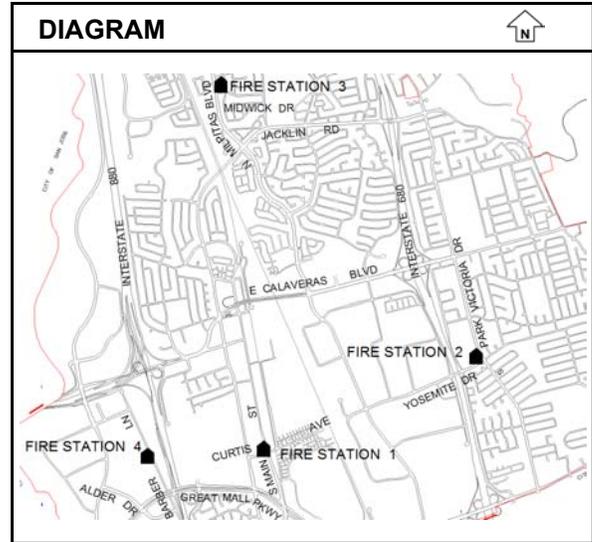

ANNUAL MAINTENANCE COST: \$500

DESCRIPTION

This project provides for the design and installation of in-ground water clarifiers (water recycle-system) at each fire station. This would allow washing fire vehicles with detergent at each station. Current urban runoff permit requirements do not allow water with detergents to enter the storm drain system.

COMMENTS:

Other Fire departments in the Bay Area subject to the same regulations are installing in-ground clarifiers. The Regional Water Quality Control Board may require this level of protection be provided prior to the suggested project priority date. Fire apparatus are currently washed with water only at the station; if detergents are needed, the vehicle is washed at the City's corporation yard. This improvement allows the apparatus to be in service from their primary assigned response district, for the best response time. Stations 1 & 4 are scheduled to be constructed in 2008 and stations 2 & 3 will be scheduled for construction in 2011.

Community Improvement	New Midtown EIR Amendment	1

CONTACT: Felix Reliford [3071]

PRIORITY: Mandatory or Committed Projects

ANNUAL MAINTENANCE COST:

DESCRIPTION

This project would provide an update to the Midtown EIR through preparation of an amendment. This update would include a public participation process to help evaluate current goals and policies and changes to the existing EIR, as a result of the current and proposed Midtown development and the community's needs and desires for the future.

FINANCE NOTES

**City of Milpitas
2007-12 CAPITAL IMPROVEMENT PROGRAM**

Category	Project	Estimate Level
Community Improvement	New Public Art Renovations	1

CONTACT: Diana Whitecar (3059)

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

ANNUAL MAINTENANCE COST:

DESCRIPTION

Two existing public art installations, the Flute Player in the City Hall Plaza fountain and Legends of Milpitas in Murphy Park, have structural deficiencies that need to be corrected to ensure their structural integrity. The Flute Prayer will need to be raised so that the left foot is hanging above the water line, not cover by the water. The Legends of Milpitas totems were not treated with the correct adhesive allowing the underlying metal to rust and distort the visual image.

COMMENTS:

The construction efforts for both public art installations will be coordinated with the individual Artists, the Public Arts Committee and Arts Commission. These one time modifications will reduce annual maintenance required for the installations and will ensure a longer life for each art piece.

Category	Project	Estimate Level
Park Improvement	5055 Alviso Adobe Renovation	1

CONTACT: Greg Armendariz [3317]

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

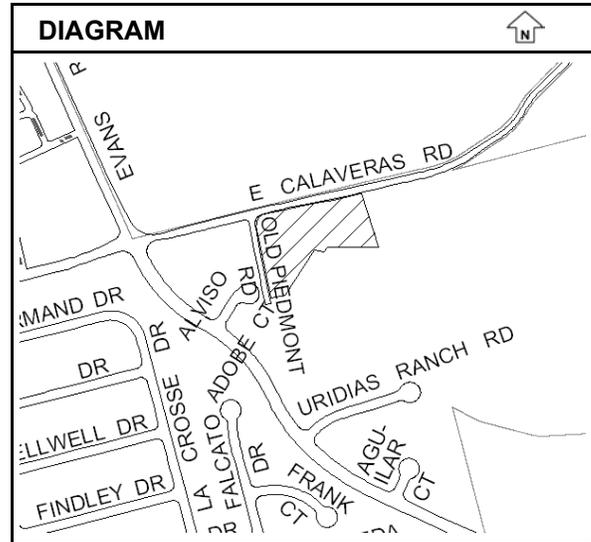

ANNUAL MAINTENANCE COST: \$4,000

DESCRIPTION

This project provides new park improvements and restoration of the historic Alviso Adobe building. The first phase will provide structural stabilization and seismic strengthening of the Alviso adobe building. The second phase would provide park improvements including picnic areas, lighting, walkways, a parking lot, apricot orchard, herb garden, landscaping and access improvements. The final phase would provide interior restoration of the 1st floor of the Alviso Adobe, to its 1920's appearance for use as a museum by appointment.

COMMENTS:

The Alviso Adobe was placed on the National Registry on October 7, 1997. Grants received include \$60,138 and \$59,000 from SCC Historical Heritage Commission. Additionally, the City obtained a Santa Clara County Open Space Authority Grant in the amount of \$356,837 for the Park improvements. The total cost estimate is \$7,000,000 to \$8,000,000. Staff will be pursuing additional grants for both the renovation of the historic buildings and the new park.

Uncommitted Balance as of 3/31/2007: \$1,781,104

FINANCE NOTES

Other Sources: Piedmont 237 Limited Liability Corporation (LLC) development fees \$3,935
 Grants: SCC Historical Heritage \$60,138 + \$59,000 (The grant of \$59,000 provided the matching funds used to re-roof the building) ;
 Milpitas Historical Society \$97,000, not included in the budget yet. Grants: SCC Open Space Authority Grant \$356,837.
 An additional appropriation of \$5,000,000 from an unidentified source is needed to completely fund the scope as currently defined.
 Prop 1B grant may be available for \$1.0 million.

Category	Project	Estimate Level
Park Improvement	5081 Berryessa Creek Trail, Reach 4	1

CONTACT: Greg Armendariz [3317]

PRIORITY: Improve the Quality of Life

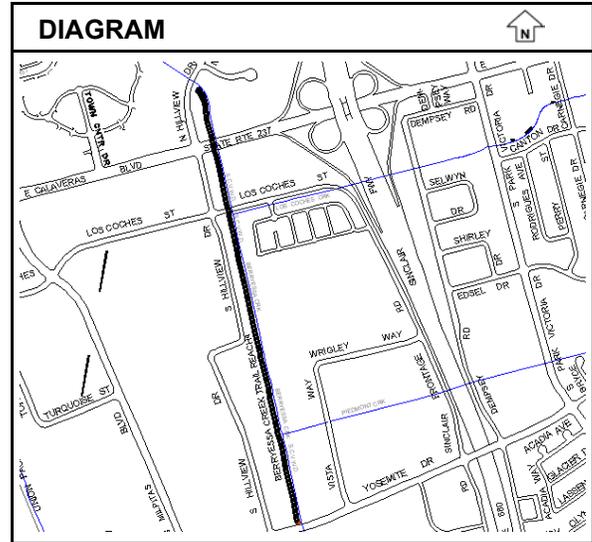

ANNUAL MAINTENANCE COST: \$10,000

DESCRIPTION

This project provides for the development of Berryessa Creek Trail Reach 4, a one mile segment from Town Center to Yosemite Drive. The project may include intersection modifications at Calaveras Blvd., Hillview Drive, Los Coches/S. Hillview Drive and Yosemite Drive/S. Hillview Drive. The scope of work includes plantings and trail amenities. The project will be coordinated with the proposed US Army Corp of Engineers and Santa Clara Valley Water District (SCVWD) creek flood improvement projects.

COMMENTS:

This project is identified and described in the "Berryessa Creek Trail and Coyote Creek Trail Feasibility Report." This project will also provide a trail connection between the Town Center and the Transit Area Plan.

Uncommitted Balance as of 3/31/2007: \$23,397

Park Improvement	5082 Park Renovation Project 2007	1

CONTACT: Craig Wisneski [2661]

PRIORITY: Health and Safety Projects

ANNUAL MAINTENANCE COST:

DESCRIPTION

This project provides for miscellaneous park renovations including the installation and replacement of the park equipment and additional park equipment. The renovations and equipment replacement are prioritized based on safety and condition of equipment. This project also provides for PG&E service connection to the irrigation controller at the H/H trail, an aerator and electrical upgrades at Hall Park Lagoon.

Category	Project	Estimate Level
Park Improvement	New Berryessa Creek Trail, Reach 6A	1

CONTACT: Greg Armendariz [3317]

PRIORITY: Improve the Quality of Life

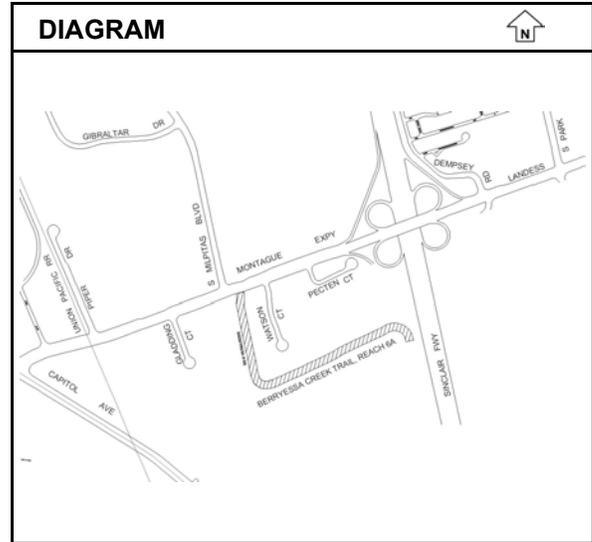

ANNUAL MAINTENANCE COST: \$3,000

DESCRIPTION

This project provides for the design and construction of reach 6A of the Berryessa Creek Trail from Montague Expressway to the Capitol Mall apartments. The project consists of an engineered pedestrian/bicycle bridge, trail paving, plantings and trail amenities. The project also will be coordinated with the proposed US Army Corp of Engineers and SCVWD creek enlargement project.

COMMENTS:

This project is identified in the "Berryessa Creek Trail and Coyote Creek Trail Feasibility Report" which includes features described above exclusive of a ramp which is outside of the project area. The project includes a pedestrian/bike bridge to be funded by developer fees of approximately \$200,000.

Park Improvement	New Cardoza Park Playground Renovation	1

CONTACT: Craig Wisneski [2661]

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

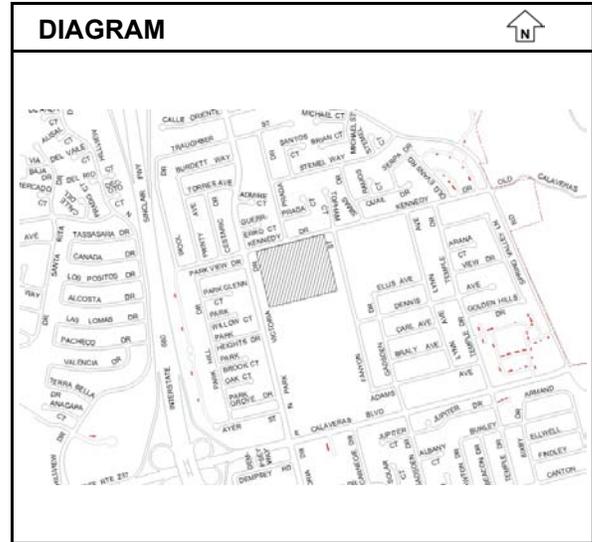

ANNUAL MAINTENANCE COST:

DESCRIPTION

This project replaces and renovates various park elements at Cardoza park. This includes the playground located by the washrooms, ADA compliance assessment and improvements, drainage, landscaping, walkways and other related improvements.

COMMENTS:

Cardoza is one of the City's most activity parks, with the equipment used daily. The Park Master Plan will provide improvement recommendations for this park. The Park Master Plan effort is underway.

Park Improvement	New Park Irrigation System Rehabilitation	1

CONTACT: Craig Wisneski [2661]

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

ANNUAL MAINTENANCE COST: \$0

DESCRIPTION

This project provides new central computer irrigation system and updates the irrigation systems at all City parks. This system will also alert staff of broken sprinklers and irrigation lines, by sensing loss of water pressure during operation. Repair response is much quicker, eliminating loss of water and water damage to the park landscaping.

COMMENTS:

This project will increase staff efficiency and also provide more efficient watering, resulting in reduced operational costs.

Category	Project	Estimate Level
Streets	4039 Tasman / I-880 Interchange	1

CONTACT: Liz Racca-Johnson [3306]

PRIORITY: Mandatory or Committed Projects

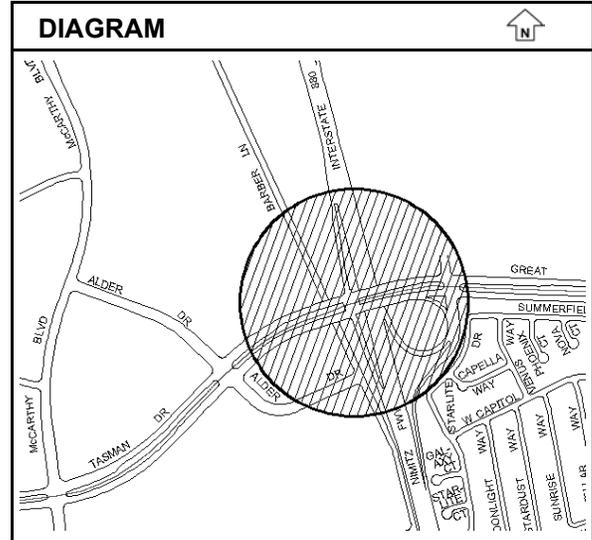

ANNUAL MAINTENANCE COST: \$0

DESCRIPTION

This project involved the design and construction of an interchange at Tasman Drive-Great Mall Parkway and Interstate 880. Construction has been completed and Right-of Way transfer is currently in progress with Caltrans. A utility relocation agreement is part of the remaining right of way work.

COMMENTS:

Caltrans and the City agreed to leave an abandoned Shell oil pipeline (now owned by Air Products) in the widened Caltrans right-of-way. If I-880 is widened to an 8 lane freeway in the future, the City and Caltrans agreed to share the relocation costs of this pipeline, outside of the Caltrans right-of-way.

Uncommitted Balance as of 3/31/2007: \$18,955

FINANCE NOTES

Grants: SB 300: \$405,902 + Santa Clara County Transit Agency (SCCTA): \$2,526,032 = \$2,931,934

Should a future project require the nitrogen line to be relocated, Caltrans and Milpitas will enter into a 50/50 cost share. An agreement is currently being prepared. The 2004 estimated cost is \$500,000.00, with Milpitas share of \$250,000.00. Costs will be adjusted for inflation rise.

\$50,000.00 under ROW Administration is for the additional Staff time that will be needed to complete the ROW transfer to Caltrans.

**City of Milpitas
2007-12 CAPITAL IMPROVEMENT PROGRAM**

Category	Project	Estimate Level
Streets	4047 Dixon Landing Road / I-880 Interchange	1

CONTACT: Liz Racca-Johnson [3306]

PRIORITY: Enhance Economic Development

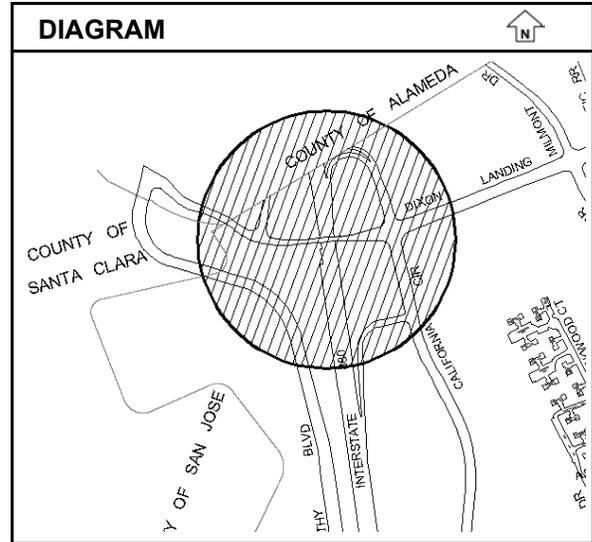

ANNUAL MAINTENANCE COST: \$6,000

DESCRIPTION

This project involved the construction of a full interchange at Dixon Landing Rd. and I-880. It provided access to the industrial parks to the west of I-880 and improved the access from the east. Design is based upon 6 lanes for Dixon and 8 lanes for I-880 including commuter lanes. All the construction work has been completed. The remaining work includes right of way transfer to Caltrans.

COMMENTS:

The interchange was completed and opened for traffic in March 2004. PG&E contract resolution and Right of Way transfer to Caltrans is currently in progress.

Uncommitted Balance as of 3/31/2007: \$0

Category	Project	Estimate Level
Streets	4170 Hwy 237/I-880 Interchange	1

CONTACT: Liz Racca-Johnson [3306]

PRIORITY: Mandatory or Committed Projects

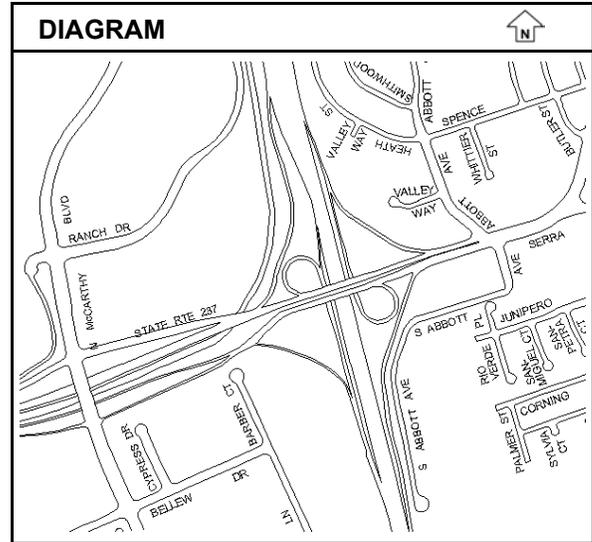

ANNUAL MAINTENANCE COST: \$0

DESCRIPTION

This project designed and constructed the 237/880 Interchange through a cooperative agreement between Milpitas and Santa Clara County Traffic Authority (TA). When the TA ceased to exist March 31, 1997, the City assumed the administration of the TA's remaining consultant design work. TA transferred \$1.6 million to the City for this effort. Construction began late 1997 and was completed in 2004. Caltrans administered the construction. The remaining work includes transfer of Right of Way to Caltrans, landscaping and a gateway monument.

COMMENTS:

Two separate cost-sharing agreements between the City/Caltrans and City/VTA (\$2 million and \$1.5 million respectively) will provide the funding for the landscape improvements.

Uncommitted Balance as of 3/31/2007: \$341,427

Streets	4202 Calaveras Blvd. R/R Overcrossing Sidewalk Improvements	1

CONTACT: Greg Armendariz [3317]

PRIORITY: Improve the Quality of Life

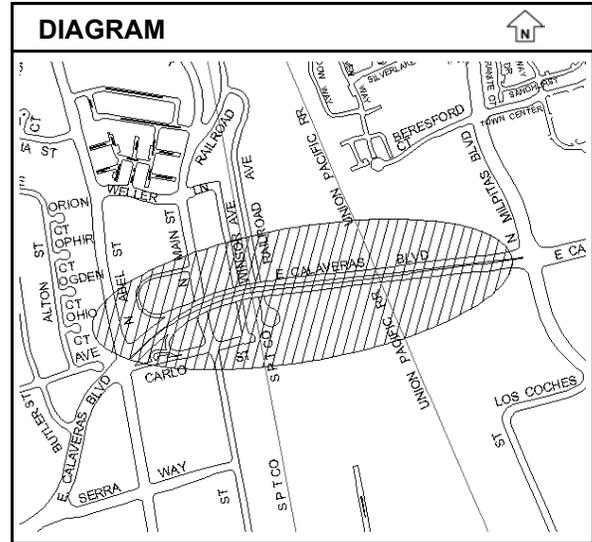

ANNUAL MAINTENANCE COST: \$50,000

DESCRIPTION

This project provides for sidewalk safety improvements, on the Calaveras Boulevard railroad overcrossing bridge. These improvements consist of widening of the existing sidewalk. This existing sidewalk is only five feet wide and is heavily use by both pedestrians and bicyclists.

COMMENTS:

This overcrossing is owned and currently maintained by Caltrans. Caltrans will need to provide approval and permits for these improvements. These sidewalk improvements will become a priority once the new Library and other Midtown improvements are completed.

Category	Project	Estimate Level
Streets	4227 Gateway Signs Project	1

CONTACT: Diana Whitecar (3059) / Julie Waldron [3314]

PRIORITY: Enhance Economic Development

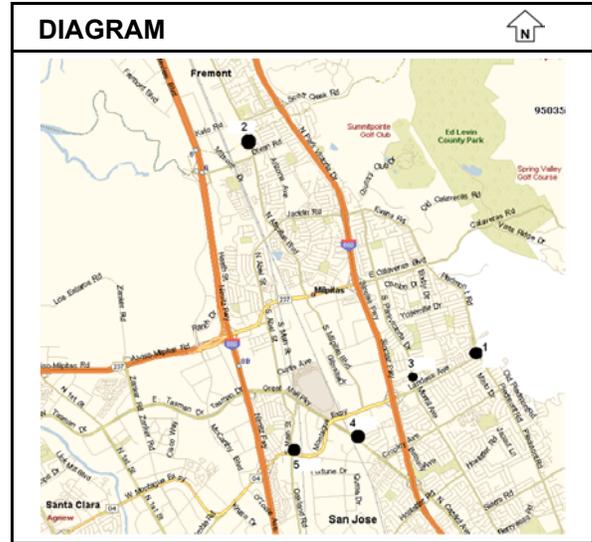

ANNUAL MAINTENANCE COST: \$1,000

DESCRIPTION

In 2006, the City Council approved the location of minor gateway signs at the following locations: 1) Park Victoria Drive at Landess Avenue; 2) South Main Street at Montague Expressway; 3) North Milpitas Boulevard at Dixon Landing Road; and 4) McCarthy Drive at Montague. These locations reflect heavily traveled intersections that will provide more visible promotion for the City.

COMMENTS:

The Economic Development Commission requested that funding for a third minor gateway sign be included in the 2006/07 mid year budget. Staff is working to bring the design of the minor gateways into conformance with the design of the Calaveras Blvd and Route 237 gateway feature that has been submitted for Caltrans approval. The new designs will be presented for City Council approval prior to fabrication and installation.

Category	Project		Estimate Level
Streets	8164	Bart Extension Coordination and Planning	1

CONTACT: Julie Waldron [3314]

PRIORITY: Mandatory or Committed Projects

ANNUAL MAINTENANCE COST:

DESCRIPTION

The Bart extension from Fremont to San Jose will pass through Milpitas and include a BART station in Milpitas. This project includes the coordination and engineering analysis of utilities, Right of Way and other BART design impacts on the City's infrastructure.

COMMENTS:

Coordination with the VTA for the design of the future Bart Extension will require substantial resources from the City. Most of the work involves the review of proposals, plans, identifying infrastructure improvements and engineering analysis and development of alternatives to BART proposed improvements.

Streets	New Carlo St. & Calaveras Blvd Ramp Conversion Study	

CONTACT: Jaime Rodriguez [3335]

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

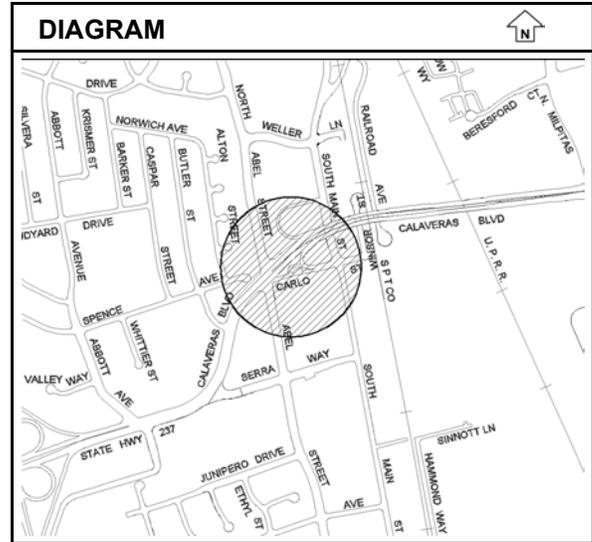

ANNUAL MAINTENANCE COST:

DESCRIPTION

This project involves preparation of the completion of a traffic study and preliminary plans, specifications & engineer's estimates for the conversion of the Carlo St On-Ramp to Eastbound Calaveras Blvd to an Off-Ramp. The purpose of this conversion is to provide more direct access to the Midtown District. The traffic study will be focused on operational impacts to existing traffic patterns. A construction estimate will be prepared and programmed, after development of 30% design.

COMMENTS:

This project will require an encroachment permit from the California - Department of Transportation (Caltrans) and the preparation of a Supplemental Environmental Impact Report to the Midtown District EIR.

Category	Project	Estimate Level
Streets	New Sidewalk Replacement 2009	1

CONTACT: David Gordillo [2634]

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

ANNUAL MAINTENANCE COST: \$0

DESCRIPTION

This bi-annual project involves citywide replacement of existing curb, gutter and sidewalk. The project also involves street tree root cutting to prevent further damage to sidewalk. An annual visual inspection is conducted to determine and establish a priority list of areas for replacement. Sections of sidewalk with vertical separation of 3/4" or more are completely removed and replaced. At locations where a vertical separation less than 3/4" exists, the concrete may be ground down instead of being replaced.

COMMENTS:

Uncommitted Balance as of 3/31/2007: \$0

Streets	New Singley Area Phase 5	1

CONTACT: Andrew Brozyna [3315] / Joe Ezeokeke [3316]

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

ANNUAL MAINTENANCE COST:

DESCRIPTION

This project involves the replacement of existing curb and gutters, driveways, ramps, sidewalks, and asphalt pavement sections with the new facilities, installation of asphalt concrete overlay and deep lift, storm drain pipes, drainage inlets, and subsurface drainage system in various streets in the Singley Area.

COMMENTS:

Phases 1 to 4 of this project have been completed. Phase 5 includes all the areas that were not part of the original Singley Area Study, but were identified during the construction of previous phases, with input from the residents and Public Works staff.

Category	Project	Estimate Level
Streets	New Street Resurfacing Project 2008	1

CONTACT: Jimmy Nguyen [3318]

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

ANNUAL MAINTENANCE COST: \$0

DESCRIPTION

This project provides for the street resurfacing in 2008. The program includes a variety of pavement treatments from slurry seal to major rehabilitation /reconstruction. Streets to be selected for improvements are determined from the City's Pavement Management System. This project also includes \$200,000 to Public Works maintenance for pothole patching.

COMMENTS:

There are over 122 miles of streets that are owned and maintained by the City of Milpitas. Approximately 30 miles of streets (almost 30% of the City total) were built 30 years ago, and have not been resurfaced in the last ten years. These improvements include an increase of the pavement structural section, in order to strengthen the pavement sections due to increases in current and projected traffic.

Category	Project	Estimate Level
Water	7070 Pressure Reducing Valve Replacement	2

CONTACT: Marilyn Nickel [3347]

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

ANNUAL MAINTENANCE COST: \$0

DESCRIPTION

This project involves the phased replacement of the existing pressure reducing valves (PRV) within the City's water system.

COMMENTS:

All of the valves are over 20 years old and now may require an extraordinary amount of maintenance. Proper operation of valves are crucial to assure proper delivery pressures for drinking and fire suppression purposes.

Uncommitted Balance as of 3/31/2007: \$83,183

Category	Project		Estimate Level
Water	7086	Water System Air Relief Valve Modifications	1

CONTACT: Joe Ezeokeke [3316]

PRIORITY: Health and Safety Projects

ANNUAL MAINTENANCE COST: \$0

DESCRIPTION

This project retrofits existing air relief valves which are currently located below ground level to vaults above ground level. This work is required by State Code, Title 22, Chapter 16 and is mandated by the California Department of Health Services (DOHS). The purpose of placing valves above ground is to eliminate the possibility of water system contamination by backflow into valves during flooding.

COMMENTS:

Approximately 500 sites throughout the City have been identified for retrofitting. 40 of the highest priority sites have been completed. Funding in 2008-09 and 2009- 2010 is for remaining valves in the flood plain areas only.

Uncommitted Balance as of 3/31/2007: \$25,550

Category	Project	Estimate Level
Water	7098 South Milpitas Water Line Replacement	1

CONTACT: Andrew Brozyna [3315]

PRIORITY: Health and Safety Projects

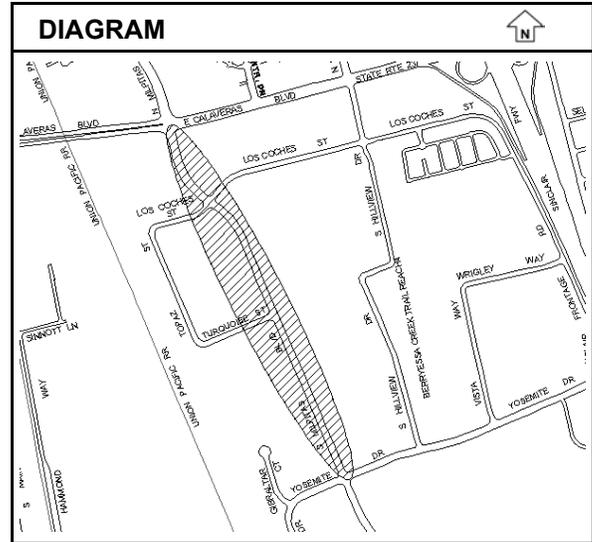

ANNUAL MAINTENANCE COST: \$0

DESCRIPTION

This project replaces approximately 3,900 linear feet of 16" diameter steel cylinder pipe along South Milpitas Blvd. between Calaveras Blvd. and Yosemite Drive. This pipe is in a very corrosive soil environment and has reached its useful life of 35 years. In addition, the new pipe will be designed to meet seismic strength criteria, and corrosion protection.

COMMENTS:

The pipeline has experienced excessive corrosion which is causing line breaks. Replacement must occur to minimize impacting critical water customers.

Uncommitted Balance as of 3/31/2007: \$11,103

2007-12 CAPITAL IMPROVEMENT PROGRAM**

Category	Project	Estimate Level
Water	7100 Water System Seismic Improvements	1

CONTACT: Jeffery Leung [3326]

PRIORITY: Health and Safety Projects

ANNUAL MAINTENANCE COST: \$0

DESCRIPTION

This project provides seismic upgrades to the City's water system at key locations throughout the City. These locations include water lines in near proximity of geologic faults and areas subject to soil liquefaction.

The first phase is a study including:

1. Development of priority list of improvements.
2. Revisions to City Standard Drawings related to water improvements and trench.

The study report by DSWA was completed in May 2006.

The next phase is to design and construct the improvements identified in the priority list (Appendix F of DSWA report), and as modified by the First Phase Study.

COMMENTS:

Uncommitted Balance as of 3/31/2007: \$287,518

Water	7103 Minor Water Projects 2007	1

CONTACT: Andrew Brozyna [3315] / Steve Smith [2640]

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

ANNUAL MAINTENANCE COST: \$0

DESCRIPTION

This on-going project involves the analysis and implementation of various water projects which arise during the year. This project also provides for on-going modifications and improvements to existing water system including enhancing security at various water facilities, relocation or addition of fire hydrants, and other minor water system improvements.

COMMENTS:

Water	New Abel Street Pipeline Extension	1

CONTACT: Marilyn Nickel [3347]

PRIORITY: Health and Safety Projects

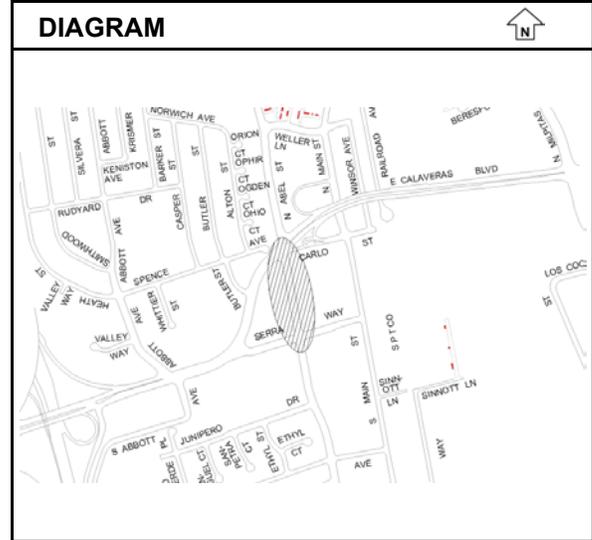

ANNUAL MAINTENANCE COST: \$0

DESCRIPTION

This project installs 300 linear feet of 12-inch pipe to connect three dead-end pipes, one on Abel Street and two on Carlo Street. This improvement will improve water pressure and water quality through improved system circulation.

COMMENTS:

This is identified as Project No 3 in Section 6.3.4.4. the 2002 Water Master Plan.

Uncommitted Balance as of 3/31/2007: \$0

ANNUAL MAINTENANCE COST: \$0

DESCRIPTION

This project provides an evaluation study and installation of corrosion monitoring station and recommendations for retrofit or anode replacement. The project will also provide for upgrades of deficiencies defined in the evaluation study.

COMMENTS:

The work will follow the recommendations of the recent corrosion report.

Category	Project	Estimate Level
Sewer Improvement	6073 Sewer Deficiency Program	1

CONTACT: Andrew Brozyna [3315] / Steve Smith [2640]

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

ANNUAL MAINTENANCE COST: \$0

DESCRIPTION

This project involves the design and construction of sewer line replacement due to structural deficiencies, differential settlement, and damaged sewer lines. These sewer lines have been identified through usually high maintenance and confirmed with the City's video inspection program.

COMMENTS:

Sewer line settlement, due to such factors as ground water variations and poor soil conditions, can result in sewer line clogging which requires excessively high maintenance. Replacement of problem sewer lines is a cost-effective option to correct excessive maintenance problem areas and potential system failures. The following are the highest priority locations from a list of over 40 problem locations: Edsel @ Monmouth, Roswell @ Edsel, Cortez St., Moonlight Circle, Capitol Ave. @ Venus Dr., Terra Bella Dr., Valencia Dr., Dixon Landing @ Conway, Calaveras Blvd. @ Hillview, Chestnut @ Larch, Heath @ Chestnut, Erie @ Tramway, Larch @ Maple, and Calaveras Blvd. between Milpitas Blvd. and Railroad Ave. (21 inch sewer). Work will continue on the highest priority locations.

Uncommitted Balance as of 3/31/2007: \$570,944

DESCRIPTION

This project involves the complete renovation of this existing sewer lift station, located at Capitol Ave/Venus Way, the Pines neighborhood. The work includes the replacement of two pumps, upgrades of the electrical controls and installation of an electrical transfer switch, so an emergency generator can power the lift station when needed.

Category	Project	Estimate Level
Sewer Improvement	8167 S. Main St. Sewer Replacement	1

CONTACT: Marilyn Nickel [3347]

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

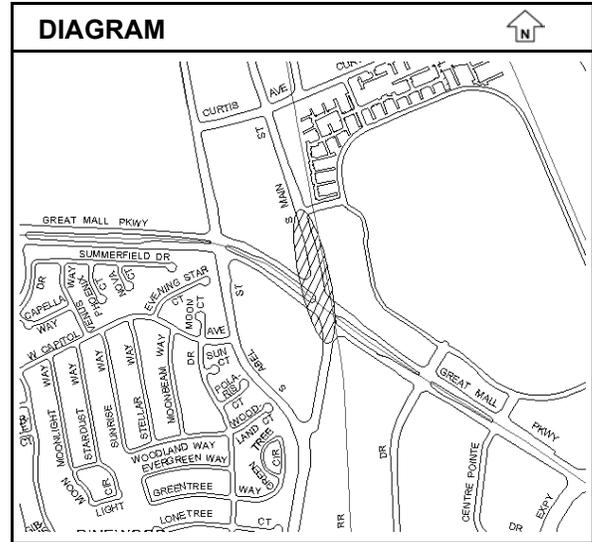

ANNUAL MAINTENANCE COST: \$0

DESCRIPTION

This project replaces 590 linear feet of 18-inch sanitary sewer pipe with 27-inch sanitary sewer pipe and replaces 370 linear feet of 12-inch sanitary sewer pipe with 27-inch sanitary sewer pipe. The location is S. Main St. north of Great Mall Dr.

COMMENTS:

This project is recommended in the 2004 Wastewater Master Plan Update as project 11A on page 6 - 8. Additional wet weather flow monitoring in 2004 determined that this project will not be needed until the 2009-10 fiscal year. However, the scope for this project maybe affected due to the development in the Transit Center Area. RMC Study to be completed by Spring 2007.

Sewer Improvement	New	South Bay Water Recycling Program, Phase II	2

CONTACT: Marilyn Nickel [3347]

PRIORITY: Mandatory or Committed Projects

ANNUAL MAINTENANCE COST: \$0

DESCRIPTION

This project provides the City's share of Phase II South Bay Water Recycling Program Improvements (SBWRP) to develop extensions to the water recycling system as required by the California Regional Water Quality Control Board (RWQCB) as a mitigation in lieu of a Water Pollution Control Plant flow cap.

COMMENTS:

Based upon the June 1997 Revised Action Plan submitted to the RWQCB and the 1997 SBWRP Financing Plan, the Milpitas share of the program is \$9.543 million about \$1.248 million is being financed directly to SBWRP through grants and other sources and are not included in the total below. Under project 6080, the City paid \$5,225,653 to SBWRP for Phase II prior to June 2002. Project 6080 was closed. The next payment will be due approximately Fiscal Year 2008-2009.

Storm Drain Improvement	4224 Abbott Avenue Storm Drain Improvements	1

CONTACT: Mehdi Khaila [3328] / Joe Ezeokeke [3316]

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

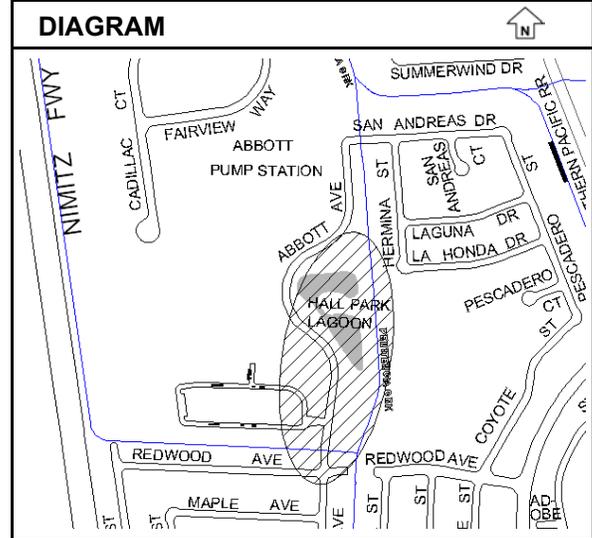

ANNUAL MAINTENANCE COST: \$0

DESCRIPTION

This project constructs a new 36-inch storm drain pipeline from Redwood Avenue to Curtner Lagoon to improve flood protection in the Manor area.

COMMENTS:

Additional flood protection improvements for the Manor area are identified in the Storm Master Plan.

Uncommitted Balance as of 3/31/2007: \$229,612

CONTACT: Greg Armendariz [3317] / Steve Smith [2640]

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

ANNUAL MAINTENANCE COST: \$0

DESCRIPTION

This project involves the ongoing analysis and implementation of various minor modifications and improvements to the existing storm drain system. Work may include minor improvements to pump stations, such as, the replacement of the corrugated steel pipe on the discharge piping at California Circle Storm Pump Station.

COMMENTS:

Uncommitted Balance as of 3/31/2007: \$9,345

2007-12 CAPITAL IMPROVEMENT PROGRAM**

Category	Project	Estimate Level
Storm Drain Improvement	8140 Oakcreek Pump Station Improvement	1

CONTACT: Andrew Brozyna [3315]

PRIORITY: Major Service Equipment Replacement

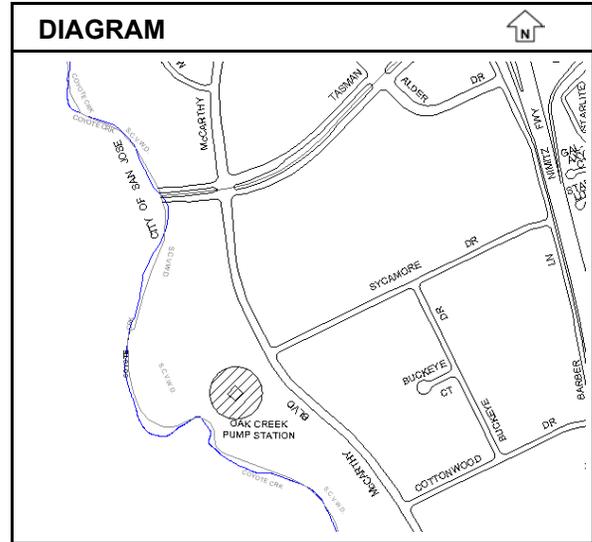

ANNUAL MAINTENANCE COST: \$0

DESCRIPTION

This project provides for the replacement of engine control panels and upgrades to the existing engines at Oakcreek Pump Station per the Storm Drain Master Plan. The roof is also in need of replacement as well as other minor items. The pump station is located near Sycamore Dr. and McCarthy Blvd. and provides drainage for the Oakcreek Industrial Park area.

COMMENTS:

This storm pump station pumps large volumes of storm water into Coyote Creek requiring three 400 horsepower diesel engines. Modifications to the wet well are needed to reduce the drag and wear on the pumps and engines.

Uncommitted Balance as of 3/31/2007: \$83,597

Category	Project	Estimate Level
Storm Drain Improvement	New Minor Storm Drain Projects 2009	1

CONTACT: Andrew Brozyna [3315]

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

ANNUAL MAINTENANCE COST: \$200

DESCRIPTION

This project involves the ongoing analysis and implementation of various minor modifications and improvement to the existing storm drain system. A new inlet is proposed at the northwest corner of Kennedy Drive and Dimas Drive, in addition this project may also include minor improvements to pump stations.

COMMENTS:

The new drainage inlet will eliminate pounding at the intersection after rainy weather and improve pedestrian accessibility at the intersection.

Category	Project	Estimate Level
Storm Drain Improvement	New Storm Master Plan Update	

CONTACT: Mehdi Khaila [3328]

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

ANNUAL MAINTENANCE COST: \$0

DESCRIPTION

This project provides an update to the City Storm Drain Master Plan. This update is needed due to several changes and modifications made by Midtown Specific Plan and proposed Transit Area Specific Plan. It is also important to revise and update the Master Plan in order to account for land use changes and capital projects that have taken place in the City since the original Master Plan was published in 2001, and to provide proper environmental documentation.

2007-12 CAPITAL IMPROVEMENT PROGRAM

Category	Project	Estimate Level
Community Improvement	3389 Expanded Public Safety Technology	1

CONTACT: Bill Marion [2701]

PRIORITY: Health and Safety Projects

ANNUAL MAINTENANCE COST: \$0

DESCRIPTION

This project replaces the existing Computer-Aided Dispatch (CAD) system, Police Records Management System (RMS), Mobile Computer Terminal (MCT) systems and the Fire Records Management System (RMS).

COMMENTS:

The replacement or upgrade to the Police RMS, Fire RMS and CAD systems have all been completed. Additionally, the installation of mobile computing in both Fire and Police vehicles has been accomplished. The remaining tasks are the upgrades to the Police Records Management System and the installation of a Police Property System.

The new RMS systems enhances the Fire and Police Departments ability to meet the community's public safety needs by providing state-of-the-art tools to quickly and efficiently gather critical information. A Digital Photography lab and Communications Console Controls is included in the newly renovated Dispatch Center. This project also funded the acquisition of 5 thermal cameras, a security camera system and a portable weather system to aid the Fire Department in the protection and preservation of life.

2007-12 CAPITAL IMPROVEMENT PROGRAM**

Category	Project	Estimate Level
Storm Drain Improvement	3391 Abbott Pump Replacement	1

CONTACT: Steve Smith [2640]

PRIORITY: Major Service Equipment Replacement

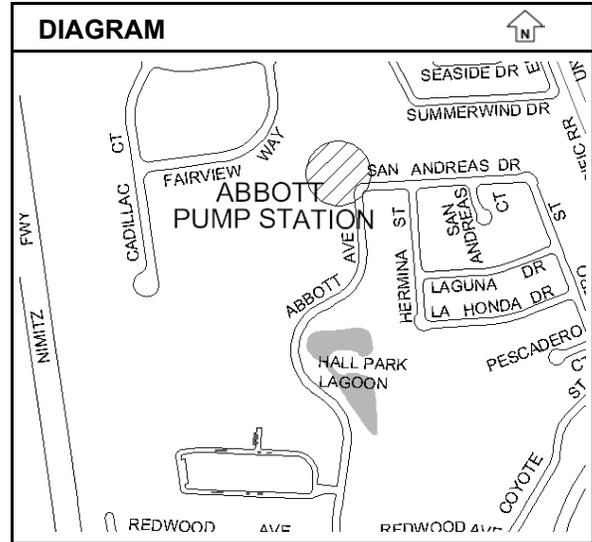

ANNUAL MAINTENANCE COST: \$0

DESCRIPTION

This project involves replacement of 2 electric pumps at the Abbott Storm Pump Station including emergency standby power and flap gate protection per the Storm Drain Master Plan. This pump station is located off Abbott Street providing drainage for the north Manor neighborhood. The work also includes roof improvements, and other minor related work.

COMMENTS:

The existing pumps have exceeded their design (or useful) life and replacement will assure continuous operation during future inclement weather.

Uncommitted Balance as of 3/31/2007: \$51,950

**City of Milpitas
2007-12 CAPITAL IMPROVEMENT PROGRAM**

Category	Project	Estimate Level
Streets	4029 Calaveras Road Slope Protection	1

CONTACT: Joe Ezeokeke [3316]

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

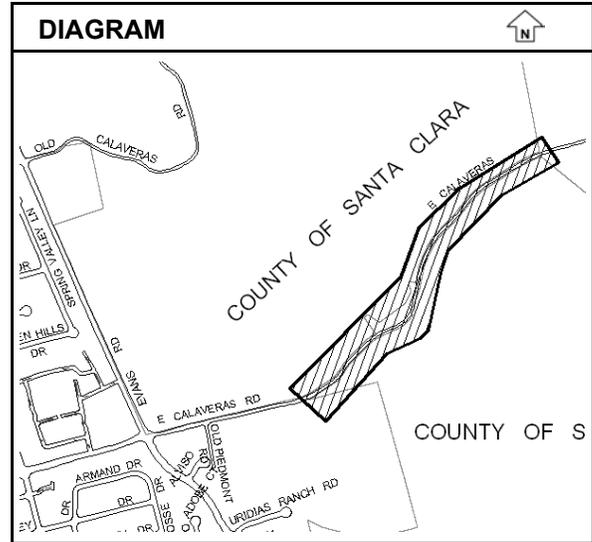

ANNUAL MAINTENANCE COST: \$1,500

DESCRIPTION

This project involves ongoing maintenance and repair work on the Calaveras Rd. slide area slope between Piedmont Rd. and Downing Rd. The project also involves the ongoing monitoring of the slide area by geologists. Improvements included the installation of a slope drainage system, slope stabilization systems, removal of hillside material, as well as restoration of storm damage to Calaveras Road slope.

COMMENTS:

Part of the solution to the slide area is the need to remove the hill area along key locations on the north side of Calaveras Rd. To date, 650,000 cubic yards of material have been removed. Approximately 450,000 cubic yards remain to be removed. In addition, a project to provide stabilization of the worst stretches of road using a Caltrans developed soil nailing technology, concrete piers and hydroseeding has been completed. A Mitigation and Monitoring plan as required by permitting Agencies started in March 2003 for a period of five years. The cost to implement the 5-year monitoring plan is estimated to be \$60,000.

Streets	4133	Tasman Extension - Great Mall Parkway to I-880	1

CONTACT: Liz Racca-Johnson [3306]

PRIORITY: Improve the Quality of Life

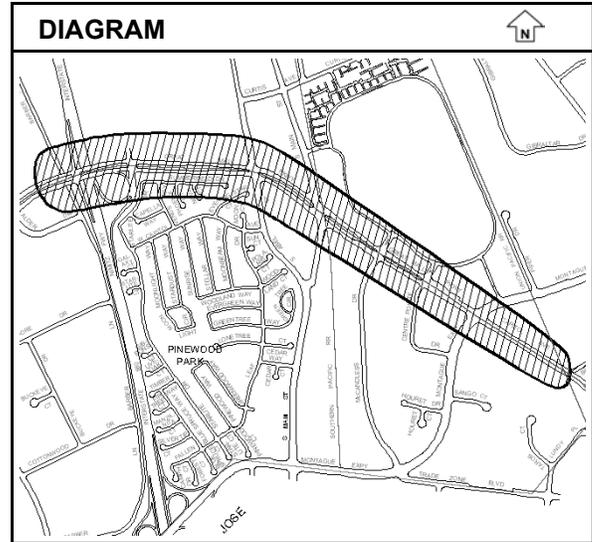

ANNUAL MAINTENANCE COST: \$25,000

DESCRIPTION

This project involves the extension of Tasman along Great Mall Parkway from the I-880 Interchange to southerly of the Montague Expressway and other VTA LRT related improvements. Scope includes the design and construction of median landscape improvements. The project also provides for the resurfacing of Capitol Ave. and Great Mall Parkway.

COMMENTS:

All of the roadway work has been completed under a cooperative agreement with Santa Clara Valley Transportation Authority (VTA). The Medians have been treated with bark as an interim landscape solution until the full landscape/irrigation design is complete and funds are available. Sidewalk trees have also been installed.

Category	Project	Estimate Level
Streets	4173 Audible Pedestrian Signal Installation	1

CONTACT: Jaime Rodriguez [3335] / Cliff Wong [3336]

PRIORITY: Health and Safety Projects

ANNUAL MAINTENANCE COST: \$500

DESCRIPTION

This project provides for the installation of audible pedestrian signal indicators and improved pedestrian buttons at key intersections throughout the City. These assist the visually impaired and elderly when crossing the street.

COMMENTS:

Audible pedestrian signal indicators have been installed at the intersections of Park Victoria /Calaveras, Main/Weller, Jacklin/Escuela, Milpitas/Beresford, Jacklin/Arizona and Main/Cedar. These devices are now being installed as part of any new traffic signal project. The remaining signalized intersections have been prioritized by the traffic engineering staff. Priority is given to requested locations and locations near commercial sites. Installation of audible signal indicators for the intersections along Great Mall Parkway are underway.

Category	Project	Estimate Level
Streets	4179 Montague Expwy Widening at Great Mall Pkwy	1

CONTACT: Julie Waldron [3314]

PRIORITY: Mandatory or Committed Projects

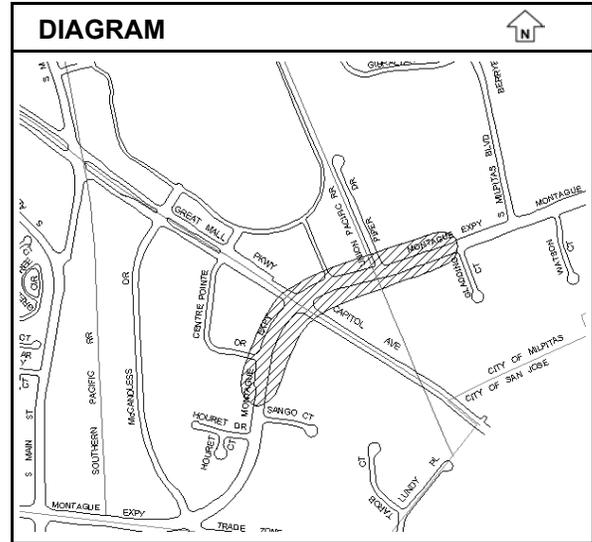

ANNUAL MAINTENANCE COST: \$40,000

DESCRIPTION

This project provides a fourth through lane in each direction on Montague Expressway at Great Mall Parkway. It also includes adding one westbound lane on Montague Expressway from Hwy 680 to UPRR rails, however, these limits may be revised due to right of way availability.

COMMENTS:

A portion of this project, Phase I, is required as a result of the Cisco Systems development. Phase I is the improvement of the Great Mall Parkway/Capitol intersection from Center Point Drive to the UPRR rails, and is funded 50% by Cisco Systems. Phase I was constructed by VTA in conjunction with their LRT project. The remaining portion of the project, phase II, will "close the gaps" that exist between Phase I and Project 4180 which widened the south side of the expressway from west of Gladding CT. to I-680.

2007-12 CAPITAL IMPROVEMENT PROGRAM

Category	Project		Estimate Level
Streets	4219	Silicon Valley - Intelligent Transportation System	1

CONTACT: Michael Boitnott [3315]

PRIORITY: Health and Safety Projects

ANNUAL MAINTENANCE COST: \$1,200

DESCRIPTION

This Federally funded multi-jurisdictional project extends fiber optic communication lines between the Caltrans Traffic Management Center (TMC) and the TMCs in the cities of Fremont and Milpitas. Installs cameras at strategic intersections along the various east-west roadways between I-680 and I-880 in the Cities of Fremont and Milpitas including Auto Mall Parkway to the north and Montague Expressway to the south. Installs cameras along Milpitas Blvd, Warm Springs Blvd; SR237 and SR238. The fiber optic lines through the Fremont Bart station connect Caltrans' Oakland offices to several South Bay cities. The fiber optic communication lines allows Caltrans to selectively view any of the cameras attached to the system.

COMMENTS:

The City of San Jose is the lead design agency for this project. Milpitas is the lead construction administrator. Construction is complete.

Category	Project	Estimate Level
Streets	4225 South Park Victoria Drive Phase 1	2

CONTACT: Jimmy Nguyen [3318]

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

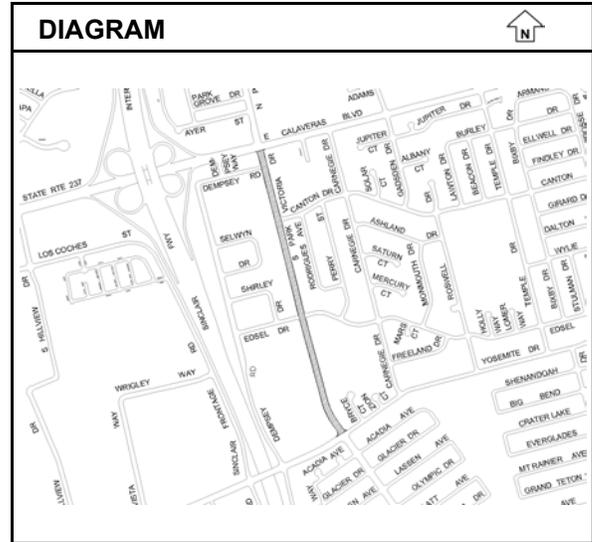

ANNUAL MAINTENANCE COST: \$0

DESCRIPTION

This Project will consist of roadway improvements on S Park Victoria Drive Pavement between Yosemite Drive and Calaveras Blvd. Work will include placing a rubberized asphalt concrete overlay, localized full depth AC repairs, cold planning, replacement of traffic detector loops, sealing of cracks, replacement of paint markings, and the installation of new bike lanes.

COMMENTS:

This project is part of the City Wide Pavement Rehabilitation program. Rubberized asphalt is an effective and environmentally friendly method to recycle used vehicle tires. The City has successfully used rubberized asphalt on North Park Victoria, Calaveras and Piedmont Roads.

Uncommitted Balance as of 3/31/2007: \$55,121

Close project at the end of the fiscal year, June 30, 2007.

**City of Milpitas
2007-12 CAPITAL IMPROVEMENT PROGRAM**

Category	Project		Estimate Level
Streets	4229	Annual Street Resurfacing Project 2006	1

CONTACT: Jimmy Nguyen [3318]

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

ANNUAL MAINTENANCE COST: \$0

DESCRIPTION

This project provides for a slurry seal and minor pavement repairs of approximately ten residential streets in town. The streets selected for improvements are determined by the City's Pavement Management System. This project also provides \$200,000 for Public Works street maintenance including pothole patching, and emergency pavement repairs.

COMMENTS:

There are over 122 miles of streets that are owned and maintained by the City of Milpitas. Approximately 30 miles of streets (almost 25% of the City total) were built 30 years ago, and have not been resurfaced in the last ten years.

Uncommitted Balance as of 3/31/2007: \$79,377

2007-12 CAPITAL IMPROVEMENT PROGRAM**

Category	Project		Estimate Level
Streets	4230	Abel and S. Main Streets Median Island Plan Line Study	1

CONTACT: Jaime Rodriguez [3335]

PRIORITY: Enhance Economic Development

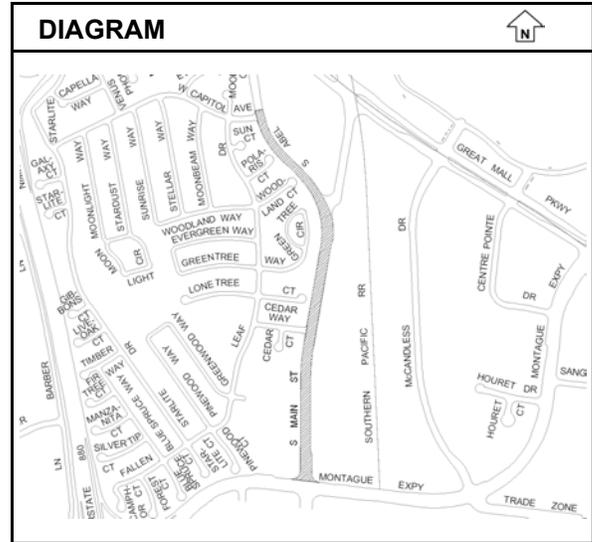

ANNUAL MAINTENANCE COST:

DESCRIPTION

Staff is recommending that a Plan Line study be prepared to identify the appropriate configuration of median islands on Abel Street between Capitol Avenue and S Main Street and on S Main Street between Abel Street and Montague Expressway. The cost of the study is approximately \$150,000.

COMMENTS:

Having the configuration of future median islands predetermined ensures smart growth by assisting developers in the preparation of their site plans via helping them to line-up their driveways with pre-approved full access driveway locations if appropriate. Full access driveways allow vehicles to make left-turn and right-turn movements into out of a driveway. There is also a benefit to existing businesses and property owners by allowing them to participate in the development of the Plan Lane through the Community Outreach Process and allows them to see development impacts before they occur as well as increase in property values due to improved access and by enhanced aesthetics resulting from landscaping improvements. To the City, having pre-approved access locations accelerates the plan development process.

Category	Project	Estimate Level
Streets	4235 Sidewalk Replacement 2007	1

CONTACT: David Gordillo [2634]

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

ANNUAL MAINTENANCE COST: \$0

DESCRIPTION

This bi-annual project involves citywide replacement of existing curb, gutter and sidewalk. The project also involves street tree root cutting to prevent further damage to sidewalk. An annual visual inspection is conducted to determine and establish a priority list of areas for replacement. Sections of sidewalk with vertical separation of 3/4" or more are completely removed and replaced. At locations where a vertical separation less than 3/4" exists, the concrete may be ground down instead of being replaced.

Park Improvement	5074 Berryessa Creek Trail, Reach 3	1

CONTACT: Michael Boitnott [3315]

PRIORITY: Improve the Quality of Life

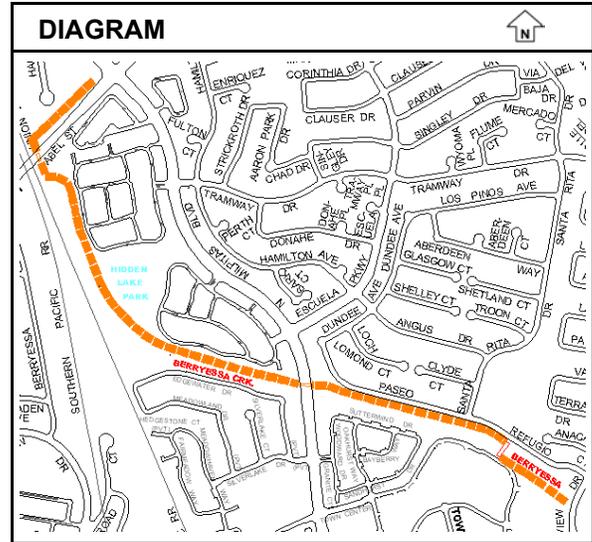

ANNUAL MAINTENANCE COST: \$8,500

DESCRIPTION

This project includes installation of trail surfacing from N Abel Street at N Milpitas Blvd. to Hillview Drive, a pedestrian bridge at Gill Park, and related trail amenities.

COMMENTS:

The Project was coordinated with the proposed Santa Clara Valley Water District levee raising project on Berryessa Creek. This project is completed. Some additional minor work on the paths may be required due to shifting soils in the levees.

PRIORITY: Improve the Quality of Life

ANNUAL MAINTENANCE COST:

DESCRIPTION

This project will provide an in-depth study of the City's existing parks and future Parks needs. This study will result in the development of a Park Master Plan. The Park Master Plan will also become the guide for placing conditions on proposed development projects for new park space within the City. In addition it will also identify and prioritize the level of improvements needed for each park, including cost estimates and recommended timelines. This information will be utilized in programming Park Capital Improvement Projects.

2007-12 CAPITAL IMPROVEMENT PROGRAM**

Category	Project	Estimate Level
Sewer Improvement	6079 Main Sewer Pump Station Site Improvements	1

CONTACT: Greg Armendariz [3317] / Steve Smith [2640]

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

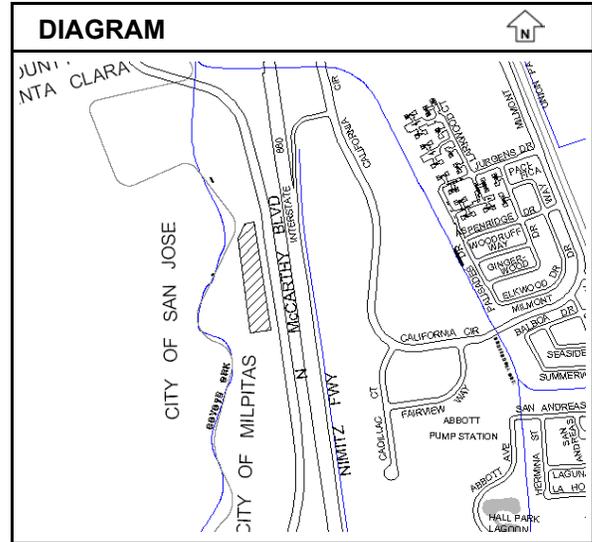

ANNUAL MAINTENANCE COST: \$15,000

DESCRIPTION

This project provides design and construction of drainage, pavement, lighting security and other improvements at the Main Sewer Pump Station (SPS). This project also involves the removal of the existing abandoned facilities, tanks, miscellaneous piping and control panels that were once part of the sewage treatment facility. In addition, this project acquires a 70' wide strip of right-of-way between McCarthy Blvd and the Main Sewer Pump Station, through a no-cost land exchange with adjacent property owner.

COMMENTS:

This site will be improved to accommodate the relocated Public Works Corp Yard at Main St., allowing the construction of the new Library project. This site contained several abandoned treatment plant structures. Phase I, completed in 2005, included demolition and removal of abandoned facilities and hazardous materials. The remaining work includes a new operations building that will be constructed after completion of the new pump station identified in Project 6103.

Sewer Improvement	6082 Recycled In Kind Services	1

CONTACT: Marilyn Nickel [3347]

PRIORITY: Mandatory or Committed Projects

ANNUAL MAINTENANCE COST: \$0

DESCRIPTION

This project tracks expenditures in accordance with the first amendment to the In-Kind Service Agreement with the City of San Jose on the South Bay Water Recycling Program approved by City Council on June 24, 1997. The project effort consists primarily of private development recycled water irrigation system retrofits. The project costs are reimbursed to the City from the South bay Water Recycling Program.

COMMENTS:

Work may also include evaluation of City Parks for possible conversion to recycle water irrigation. This project is being completed in phases.

Category	Project		Estimate Level
Sewer Improvement	6093	South Bay Water Recycle Project, Phase 2	1

CONTACT: Joe Ezeokeke [3316]

PRIORITY: Mandatory or Committed Projects

ANNUAL MAINTENANCE COST: \$0

DESCRIPTION

This project involves the design and construction of the second phase of the South Bay Water Recycling Program (SBWRP) improvements required as a mitigation in lieu of a Water Pollution Control Plant flow cap. This pipeline serves landscape irrigation customers including schools and parks in the central and northern area of the City. Projects include M-2 (Central Milpitas), M-3 (McCandless Extension), M-4 (Town Center), Tasman Interconnection and Barber Lane.

COMMENTS:

This project is fully reimbursable by the SBWRP through the December 10, 2003 Agreement (Amendment 7). The agreement includes pipelines being constructed through other projects - Barber Court (4191) and Coyote Creek (6078). Projects 6094 (McCandless Extension), 6095 (Town Center Extension), 6096 (Tasman Dr. Interconnection), and 6097 (Barber Ln. Interconnection) have been integrated into Project 6093 for administrative and design/construction cost efficiencies. The project has been substantially completed. Close after warranty period.

**City of Milpitas
2007-12 CAPITAL IMPROVEMENT PROGRAM**

Category	Project		Estimate Level
Sewer Improvement	6103	Main Sewage Pump Station Improvements	1

CONTACT: Greg Armendariz [3317]

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

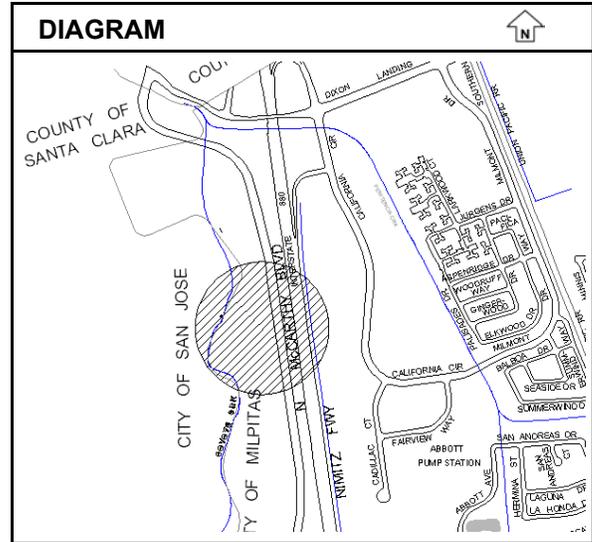

ANNUAL MAINTENANCE COST: \$20,000

DESCRIPTION

This project provides for the replacement of the Main Sewage Pump Station (SPS). The existing pump station is over 40 years old and has reached the end of its useful life. It does not have the capacity to handle the increase in sewer flows from the Midtown and Transit Area planned development, and it is also susceptible to significant damage from a major seismic event.

COMMENTS:

Construction started in February 2007 and will continue through November 2008.

Uncommitted Balance as of 3/31/2007: \$3,190,894

**City of Milpitas
2007-12 CAPITAL IMPROVEMENT PROGRAM**

Category	Project	Estimate Level
Sewer Improvement	6104 Sewer Treatment Capacity	1

CONTACT: Marilyn Nickel [3347]

PRIORITY: Mandatory or Committed Projects

ANNUAL MAINTENANCE COST: \$0

DESCRIPTION

This project involves increasing the City's share of treatment plant capacity at the regional Water Pollution Control Plant. Options include leasing or purchasing capacity from other agencies.

COMMENTS:

Milpitas, as a tributary agency, is required to purchase sufficient treatment plant capacity for the needs of the city. The additional capacity needed is estimated at between 0.5 to 1.0 million gallons per day. The 1983 Master Agreement for Waste Water Treatment allows transfers of capacity rights between agencies after recommendation by the Treatment Plant Advisory Committee and upon approval by the City of San Jose and the City of Santa Clara. The estimated cost of purchasing capacity is about \$6.57 per gallon per day (June 2004 ENR 8146). The cost below assumes a purchase of 1 million gallons per day capacity. Estimate excludes additional capacity for potential Transit Oriented Overlay area projects.

Uncommitted Balance as of 3/31/2007: \$38,439

Category	Project	Estimate Level
Sewer Improvement	6106 Sewer Replacement Study	1

CONTACT: Marilyn Nickel [3347]

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

ANNUAL MAINTENANCE COST: \$0

DESCRIPTION

This project involves field determination of the remaining useful life of the following sewer pipes: 360 linear feet of 42 inch RCP crossing I-880 at the Main Lift Station, 490 linear feet of 42 inch RCP at Cadillac Court and I-880, 310 linear feet of 42 inch RCP at Milmont near Penitencia Creek, 5,400 linear feet of 33-42 inch RCP along Milpitas Blvd between Hidden Lakes and Midwick, 90 linear feet of 24 inch RCP at Folsom and Hetch-Hetchy crossing, 1,500 linear feet of 30 inch RCP between Folsom and Escuela, and 170 linear feet of 12 inch RCP at Dempsey.

COMMENTS:

The Schaaf and Wheeler 2002 Depreciation Study has estimated the remaining life of the existing sewer infrastructure. This work is to field determine the condition of sewers and verify need to replace those sewers identified as having an estimated useful life ending by 2008. The study will refine the scope of work and costs, and prioritize these projects.

Category	Project	Estimate Level
Water	7084 Los Coches Water Valve Replacement	1

CONTACT: Steve Smith [2640]

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

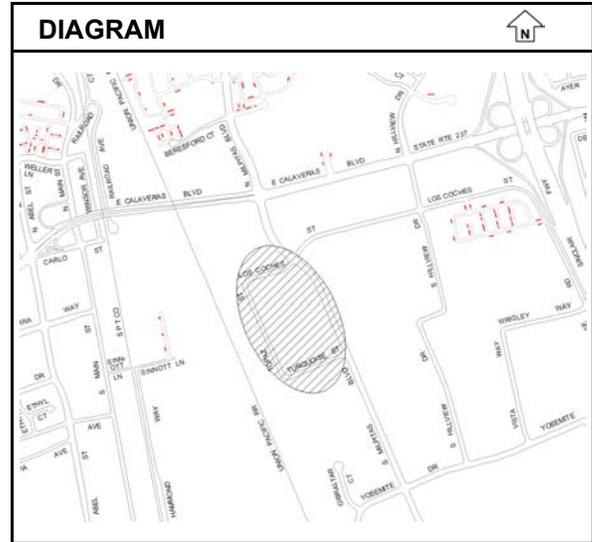

ANNUAL MAINTENANCE COST: \$0

DESCRIPTION

This project involves the design and construction of four water main valve replacements on Los Coches St. The water valves are frozen open and can no longer be shut off. Isolation of the water system in this area can not be achieved quickly in case of an emergency.

COMMENTS:

May be done in conjunction with South Milpitas Blvd. water main Replacement.

Uncommitted Balance as of 3/31/2007: \$80,871

Water	7091	City Reservoir Evaluation & Upgrades	1

CONTACT: Andrew Brozyna [3315]

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

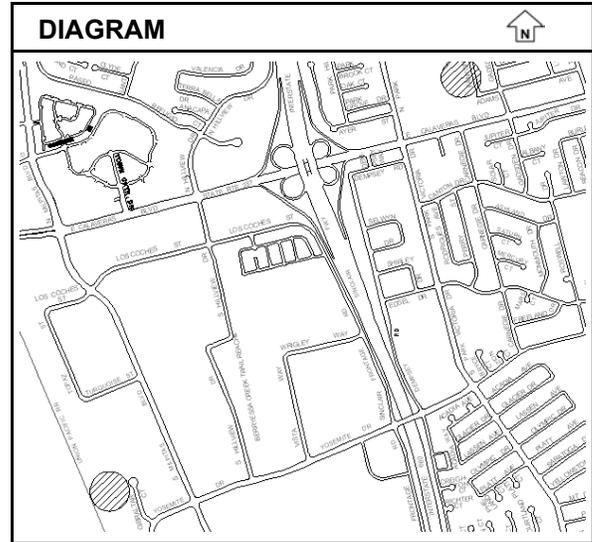

ANNUAL MAINTENANCE COST: \$0

DESCRIPTION

Upgrades to the Gibraltar and Ayer Reservoir are needed to optimize operations due to chloramines conversion by San Francisco Public Utility Commission in February 2004.

COMMENTS:

These changes are necessary to insure proper circulation of water through the reservoirs to avoid degradation of water quality. Consultant has prepared a preliminary evaluation. Design is being completed.

Uncommitted Balance as of 3/31/2007: \$29,099

Water	7104 Water Main Replacement Study	1

CONTACT: Marilyn Nickel [3347]

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

ANNUAL MAINTENANCE COST: \$0

DESCRIPTION

This project involves field evaluation of the remaining useful life of the city's waterlines including but not limited to: Lonetree, Evans between Stemel and Calle Oriente, near Dempsey and Yosemite, and along Piedmont between Yosemite and Glenview.

COMMENTS:

The 2002 Depreciation Study has estimated the remaining life of the existing water system infrastructure. This work is to field verify the projects identified with useful life ending by 2008, confirm need and scope of work, and prioritize these projects.

Uncommitted Balance as of 3/31/2007: \$100,000

2007-12 CAPITAL IMPROVEMENT PROGRAM**

Category	Project	Estimate Level
Community Improvement	8093 Telecommunications Infrastructure	1

CONTACT: Bill Marion [2701]

PRIORITY: Enhance Economic Development

ANNUAL MAINTENANCE COST: \$0

DESCRIPTION

This project provides for the design and installation of a City wide telecommunications network. The backbone of this wide area network is the installation of fiber optic cable that carries larger volumes of data than conventional copper wire telephone systems. This fiber optic installation will connect all major City facilities in a "fiber ring" configuration to provide critical redundancy in the system. The system includes hardware upgrades, network management software, video conferencing hardware and software. This project will also include the upgrade of the City's radio system infrastructure.

COMMENTS:

Work has been completed on fiber connections between Fire Station 1, Fire Station 2, Fire Station 3, Fire Station 4, the Public Works Building, Police Department Building, the Great Mall Police Substation, the new City Hall, the Public Works Facilities building, the Temporary Senior Center and the Fleet Garage. Wireless connections have also been completed for the Sports Center, Crowne Plaza Hotel, the new Public Works Corporation Yard and the Main Sewer Lift Station. In addition, the City has installed a Wireless Network for approximately 8 square miles within the City to support the Public Safety systems.

The next major milestones include the running of fiber optic cable down Abel Street that will ultimately support the City's telecommunications and traffic communications between the Public Works Corporation Yard down Abel Street to the new Library and ultimately ending at Fire Station 1.

Uncommitted Balance as of 3/31/2007: \$180,495

CONTACT: Michael Boitnott [3315] / Steve Smith [2640]

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

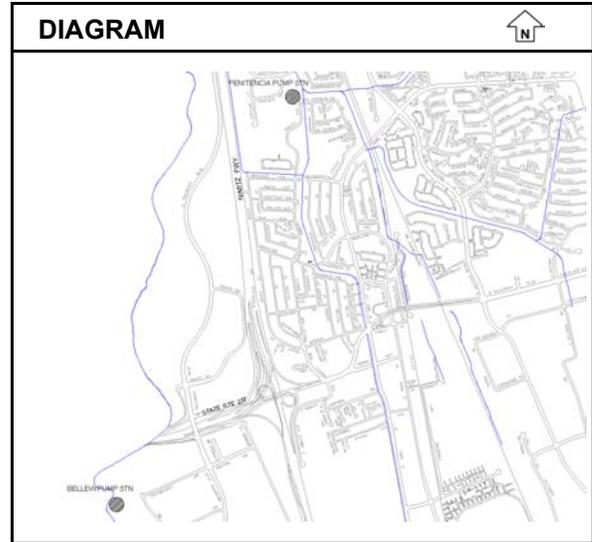

ANNUAL MAINTENANCE COST: \$500

DESCRIPTION

This project provides new roofs and level control panel replacement at Penitencia pump station and new roof at Bellew pump station.

COMMENTS:

These roof improvements are required to prevent damage to electrical control panels due to water intrusion. The level control panels have exceeded their useful life and need to be replaced. Level controls and roof repair at Abbott pump station are part of project 3391, and those at Oak Creek pump station are part of project 8140. Level central panel replacement at Berryessa is included at part of project 8138. Design is complete.

Category	Project	Estimate Level
Community Improvement	8109 Desktop Technology	1

CONTACT: Bill Marion [2701]

PRIORITY: Mandatory or Committed Projects

ANNUAL MAINTENANCE COST: \$0

DESCRIPTION

This project continues the standardization of all City microcomputer hardware and software and the acquisition of new equipment needed by department staff. The project has upgraded existing word processing, spreadsheet, data base and graphics software to current versions, and has unified nearly all City staff on the same versions of these applications. This project also includes the acquisition of hand held computers and specialized software for Engineering and Human Resources. This project also supports the upgrade of software licensing for all applications running on the City's microcomputer hardware.

COMMENTS:

The personal computer systems for all staff were upgraded during the past 5 years to reflect a median range desktop standard. Additionally, outdated printers and monitors have been replaced with more energy efficient models. The hardware, software and equipment for the new City Hall has been purchased and installed. Funding for FY 2003/04, FY 2004/05 and FY 2005/06 was used for the Desktop equipment associated with the new CAD system, installation of a wireless network for Public Safety vehicles, implementation of Mobile computing, a computer tape backup system and the replacement of obsolete phone, computer and network equipment. The funding levels shown below, allow for replacement of City computers every 5 years and provides for software upgrades on a similar cycle.

2007-12 CAPITAL IMPROVEMENT PROGRAM**

Category	Project	Estimate Level
Community Improvement	8112 GIS	1

CONTACT: Alan Rich [2713]

PRIORITY: Mandatory or Committed Projects

ANNUAL MAINTENANCE COST: \$0

DESCRIPTION

This project is to provide an enterprise Geographic Information System (GIS) designed to eventually integrate with and GIS-enable all relevant City information systems. The initial phase of this project resulted in the development of an electronic base map and database of location related data (parcels, street centerlines and easements) and a GIS maintenance system. The next phases will add new layers to the existing base map to include infrastructure (utilities), zoning, and police and fire districts. GIS functionality will be integrated where possible into existing systems and development of new GIS-enabled applications will be initiated.

COMMENTS:

Progress continues on the City's GIS with the completion of the base map, validation of the utility layer of the map and incorporating GIS products into the City's mainstream of work. GIS products support many City departments including Building, Engineering, Fire, Planning and the Police Departments. Fire run maps have been converted from hand drawn maps to GIS maps. The City completed an update of the aerial photo in FY 03-04 which now displays construction in the 880/237 and McCarthy Ranch area in addition to development occurring within the Midtown area. Incremental aerial photo updates are planned as the Midtown Area and the Transit Sub-Area continue to develop.

Category	Project	Estimate Level
Community Improvement	8125 Mobile Radio Replacement Plan	1

CONTACT: Bill Marion [2701]

PRIORITY: Mandatory or Committed Projects

ANNUAL MAINTENANCE COST: \$0

DESCRIPTION

This project addresses the replacement of portable, mobile radios and supporting equipment for Police, Fire and Public Works.

COMMENTS:

Progress continues on the replacement of all Police, Fire and Public Works radios. There is the possibility that the F.C.C. may reorganize the emergency and non emergency radio frequencies to narrower bands. This may result in "compromised" Public Safety frequencies due to "bleed over." Complete radio equipment replacement with new technologies would be required, including additional funding (not shown).

CONTACT: Bill Marion [2701]

PRIORITY: Mandatory or Committed Projects

ANNUAL MAINTENANCE COST: \$0

DESCRIPTION

This project will implement a document management and imaging system within the City. The implemented document management system will allow City staff to comprehensively store, locate and manage all City related information through the use of imaging, optical character recognition (OCR), database, and workflow technologies. Benefits of this technology includes significant reductions in file space, mis-filing, and document location/retrieval times. This portion of the project was formerly called Document Imaging. The project also includes web based interfaces, web development, video streaming and data warehousing.

COMMENTS:

The first phase of this project included the scanning and indexing of Police Department, Fire Department and Building Department records. Subsequent phases included the scanning and indexing of documents for the City Clerk, Engineering, Finance, HR and Planning Departments. To date over 3.5 million documents have been converted to an electronic format. Work continues on the scanning and indexing of various Departmental records.

This project also supported the development of numerous on-line WEB applications such as the City Officials Event Calendar, the Public Access Information System, the on-line Commissioner's Application and various on-line surveys to solicit input from the residents of Milpitas.

2007-12 CAPITAL IMPROVEMENT PROGRAM**

Category	Project	Estimate Level
Community Improvement	8135 Buildings Improvements	1

CONTACT: Jorge Bermudez [3404] / Eddie Loreda [2662]

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

ANNUAL MAINTENANCE COST: \$0

DESCRIPTION

This project provides for various improvements to existing City buildings. These improvements are considered beyond the scope of routine building maintenance, and defined under the Public Contract Code as improvements which must be competitively bid and constructed. These projects are for all city buildings including the Senior Center, Sports Center, Police Department, Public Works, and Fire Stations.

COMMENTS:

Various improvements and upgrades to miscellaneous city facilities and comply with newer building and fire code requirements. This project will also include soundproofing for the Police Community Room, storage loft for the sign shop including stairs and railing, maintenance access for the Tasman Gateway feature, painting of the corporation yard building and carpet in Information Systems and Police. It will also replace a dry rot portion of the front wall to fire station 3, replace apparatus driveways at station 2&3, replace dilapidated fencing at station 2, and make building repair to the modular building at station 1.

FINANCE NOTES

Budget Transfer Detail: #8147 (\$24,358) FY 05-06 Funding for Tasman Gateway Feature maintenance access.
 RDA received \$100,000 settlement with WATCO to resolve complaint by city on CP 8089. Settlement will correct deficiencies by WATCO during the execution of their contract.
 Grants: \$30,000 in CDBG funding appropriated July 5, 2005 and transferred to Interim Senior Center Re-roofing on October 4, 2005.
 \$25,000 in RDA Tax Increment Funding was appropriated September 20, 2005 and transferred to the Interim Senior Center Re-roofing project October 4, 2005.
 Mid-Year appropriation of \$14,000 from RDA Tax Increment 9/20/05. Mid-Year appropriation of \$60,000 from RDA Tax Increment 2/7/06.

**City of Milpitas
2007-12 CAPITAL IMPROVEMENT PROGRAM**

Category	Project	Estimate Level
Storm Drain Improvement	8138 Berryessa Pump Station Improvements	1

CONTACT: Michael Boitnott [3415]

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

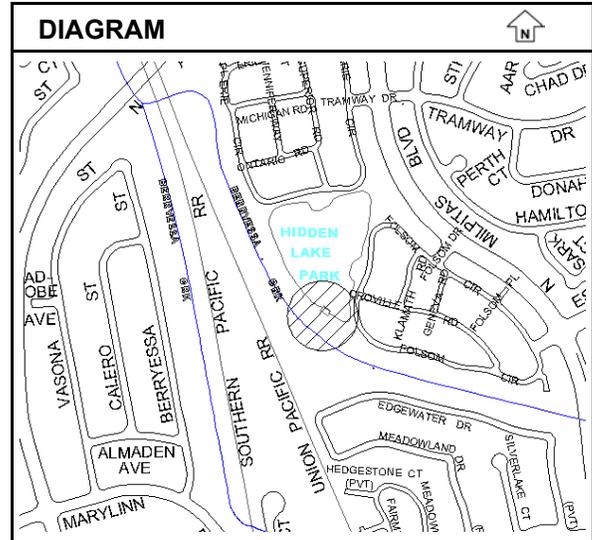

ANNUAL MAINTENANCE COST: \$0

DESCRIPTION

This project provides replacement of three diesel engines and engine and station controls and electrical systems at the Berryessa Storm Pump Station. The project will evaluate if the diesel engines should be replaced in kind or be replaced with more efficient and quieter submersible electric pumps and a backup generator. This project includes replacement of the existing 7.5 HP with a 50 HP jockey pump to efficiently pump low flows during dry weather with an electric variable speed jockey pump rather than the large pumps that are more costly to operate. Work also includes replacing the existing roof, painting the station, installation of flap-gates on creek discharge pipes and retrofitting of vent pipes per the Storm Drain Master Plan. The Berryessa Storm Pump Station is located at Hidden Lake Park and provides drainage for portions of the City bounded by Calaveras Blvd. (on the south), Wrigley Creek (on the west), Jacklin Rd. (on the north), and Hwy. 680 (on the east).

COMMENTS:

This pump station is 24 years old and has not been rebuilt or rehabilitated. The 3 engines have exceeded their design (or useful) life. Construction has been substantially completed with minor related work remaining.

Uncommitted Balance as of 3/31/2007: \$516,431

Community Improvement	8154	Land Acquisition, Abatement & Site Prep.	1

CONTACT: Mark Rogge [3403] / Steve Erickson [3414]

PRIORITY: Mandatory or Committed Projects

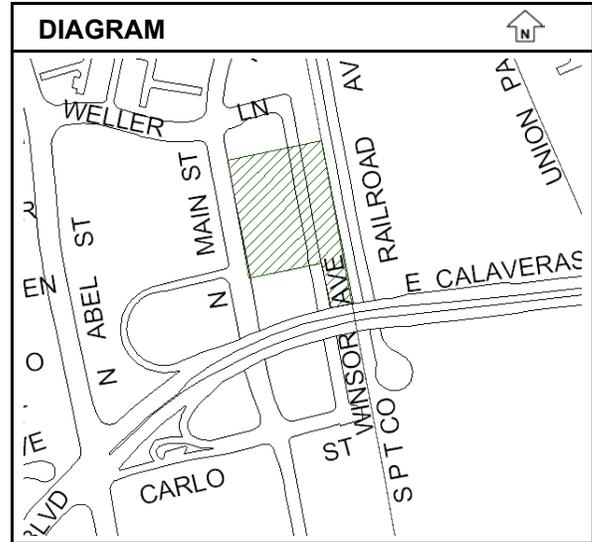

ANNUAL MAINTENANCE COST: \$0

DESCRIPTION

This project includes the \$4.5 million identified in the RDA Bond proceeds cost plan for: appraisals, preparation of documents, acquisition services, and land acquisition associated with the Midtown East Parking Structure. After acquisition the project includes remediation of hazardous materials and the removal and disposal of existing structures and improvements. Work to prepare the site for bidding and construction and construction office costs are also included.

COMMENTS:

Property acquisition process has begun. The project will offer the sale of the Winsor Blacksmith shop and preserve portions of the building for display.

Uncommitted Balance as of 3/31/2007: \$992,660

FINANCE NOTES

\$4.5 million for this project was shown in the RDA Bond Allocation Cost Plan. The City Council approved the following budget: \$2.4M Real Property Acquisition; \$1.2M Haz-Mat Abatement and Site Clearing; \$0.5M Construction Office, Site Utilities and Security; \$0.4M Professional Services, Project Management and Testing.

**City of Milpitas
2007-12 CAPITAL IMPROVEMENT PROGRAM**

Category	Project	Estimate Level
Streets	8155 Calaveras/Abel Dual Left Turn Lanes	1

CONTACT: Julie Waldron [3314]

PRIORITY: Projects Which Avoid Future Additional Costs

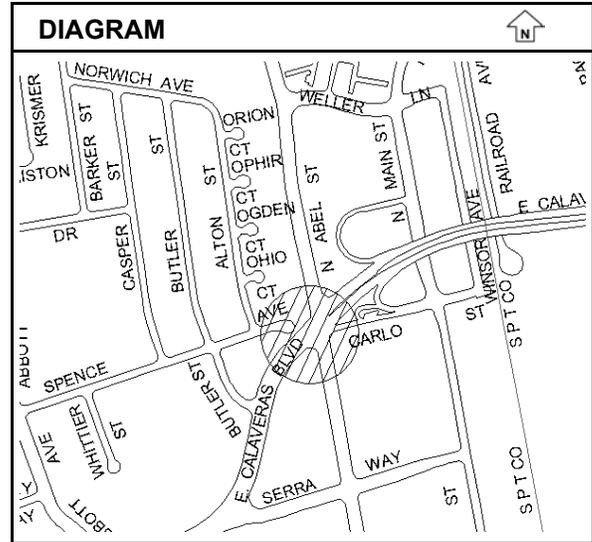

ANNUAL MAINTENANCE COST: \$2,000

DESCRIPTION

This project involves the addition of a second left turn lane from eastbound Calaveras Blvd. to northbound Abel for capacity improvements. A Midtown EIR amendment will reevaluate the traffic pattern changes, due to Carlo street off ramp proposal. This study may modify this project' workscope.

COMMENTS:

The cost estimates are very preliminary and might change. Project costs assumes no right-of-way acquisitions and minimal culvert and roadway improvements. If extensive right-of-way and improvements are necessary additional funding would be needed.

Uncommitted Balance as of 3/31/2007: \$245,417

Other sources of funding are 3-COM development fees collected by the City of San Jose and transferred to the City of Milpitas for intersection improvements within the City of Milpitas. The agreement with the City of San Jose approved by Council on 12/2/03 requires that the improvements be completed by 2008.

Developer Contributions: 3-Com via City of San Jose 173,500.

**City of Milpitas
2007-12 CAPITAL IMPROVEMENT PROGRAM**

Category	Project	Estimate Level
Streets	8157 Abel Street Midtown Improvements	1

CONTACT: Mehdi Khaila [3328]

PRIORITY: Mandatory or Committed Projects

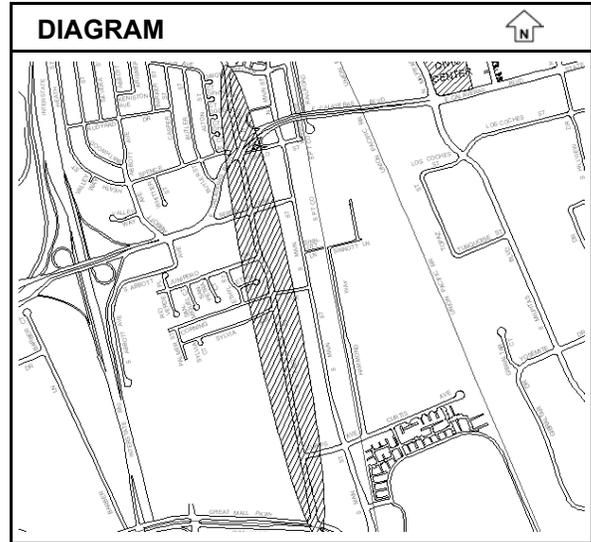

ANNUAL MAINTENANCE COST:

DESCRIPTION

This project provides for design of the street reconstruction and streetscape on Abel Street, in accordance with the Midtown Plan. The limits of the project are from Weller (at the North) to Great Mall Parkway (at the South). These improvements transform Abel Street into a boulevard setting, with landscaped median islands, and street furniture amenities. The work includes utility upgrades as required for the implementation of the Midtown Plan. KB will construct the improvements from Great Mall to Corning and the city will construct the improvements from Corning to Weller Lane.

COMMENTS:

KB Homes will develop the vacant parcels surrounding the Elmwood facility and adjoining Abel Street, with approximately 823 new residential units and 2 new parks. The developer is conditioned to provide their cost share of Abel Street improvements in accordance with the DDA and build that portion now. The budget below provides for the design work in 2005. After completion of the design an additional appropriation will be needed to fund the construction of the improvements.

**City of Milpitas
2007-12 CAPITAL IMPROVEMENT PROGRAM**

Category	Project	Estimate Level
Community Improvement	8159 Evidence Freezer	1

CONTACT: Jorge Bermudez [3404] / Dave Rossetto [2405]

PRIORITY: Mandatory or Committed Projects

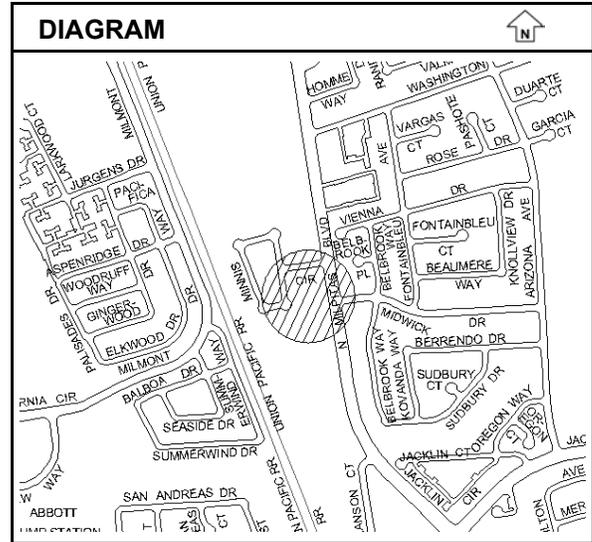

ANNUAL MAINTENANCE COST:

DESCRIPTION

This project provides a walk-in freezer measuring 17'x17', modifications to existing shelving and related work in the Police Property Evidence Room. The refrigerator/freezer is a combination of a frost-free and conventional models requiring defrosting. The freezers are used to store biological evidence to be used for court prosecutions. Because of recent law changes, biological evidence requires special handling that must be maintained and kept for longer periods of time. The City is no longer able to purge old evidence and free up needed freezer space especially those associated with homicides and DNA samples. These regulations are described in Penal Code sections 1417.9(b) PC, 1405 PC and 1417.9(a) PC.

COMMENTS:

The Police Property/Evidence Room currently has five (5) freezers to store evidence as required by law. They are filled to near capacity requiring additional units to be added over the next several years. Design is currently underway and construction is scheduled to be completed by the end of 2006.

Uncommitted Balance as of 3/31/2007: \$15,513

Totals	135,000	0	0	0	0	0	135,000

FINANCE NOTES

Mid-Year appropriation of \$10,000 from RDA Tax Increment 2/7/06. Additional funding may be needed to meet ADA requirements.

Close project at the end of the Fiscal year, June 30, 2007.

**City of Milpitas
2007-12 CAPITAL IMPROVEMENT PROGRAM**

Category	Project	Estimate Level
Community Improvement	8160 Sports Center Large Gym Improvements	1

CONTACT: Andrew Brozyna [3415] / Bonnie Greiner [3227]

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

ANNUAL MAINTENANCE COST:

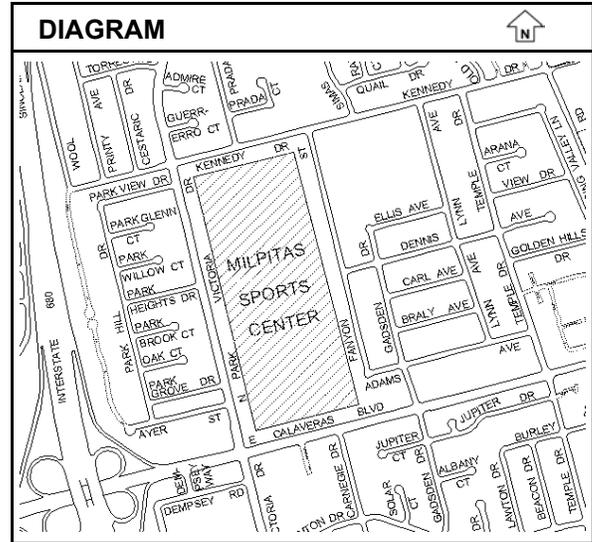

DESCRIPTION

This project provides improvements to the gym necessary for the health, safety, maintenance, and expansion of the Sports Center programming. This project includes replacing the gym floor and support structure, installation of new bleachers, replacement of basketball backboards, new lighting, painting, installation of air conditioning and related insulation, roof repairs, repair of sewer lateral, and safety padding on gym walls. Additionally this project will install an informational sign along Calaveras Blvd and alterations to the parking lot lighting.

COMMENTS:

This popular gym operates as the only City indoor gymnasium. Air conditioning and related improvements are needed for the comfort and safe use of the facility.

This project previously was pursuing a FEMA grant to seismically strengthen the building to meet FEMA's care and shelter facility requirements. Due to the recent natural disasters such as Katrina, FEMA is redirecting all funds toward their recovery and reconstruction efforts. Staff will pursue this grant in 2008.

Community Improvement	8161 Midtown Parking Garage East	1

CONTACT: Mark Rogge [3403] / Steve Erickson [3414]

PRIORITY: Mandatory or Committed Projects

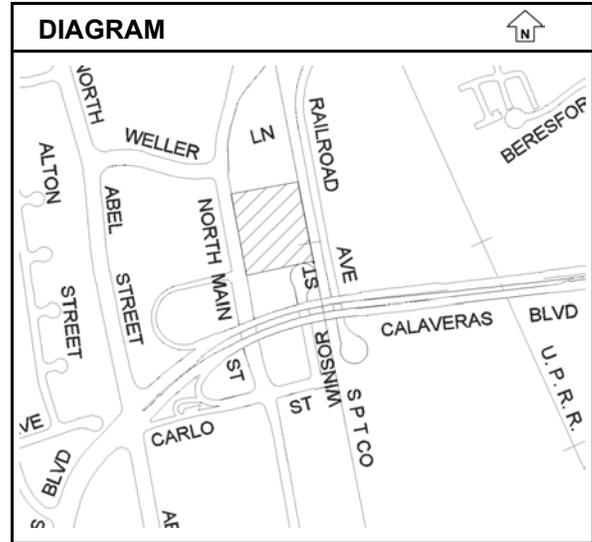

ANNUAL MAINTENANCE COST:

DESCRIPTION

The new Midtown East Parking Garage will consist of a four story structure that will serve the new Library and other Midtown uses. It will be located on Main Street, South and East of the new library. The East Parking Garage will have sufficient space for approximately 280 parking spaces. Special features of the parking garage include: a public display area for the City's restored antique fire truck; attractive vehicle entries/exits; pedestrian entries, including direct entry into the new library; elevators and stairs.

COMMENTS:

This project is under construction and completion is scheduled for August 2007.

Category	Project	Estimate Level
Community Improvement	8162 Library Project	1

CONTACT: Mark Rogge [3403] / Steve Erickson [3414]

PRIORITY: Mandatory or Committed Projects

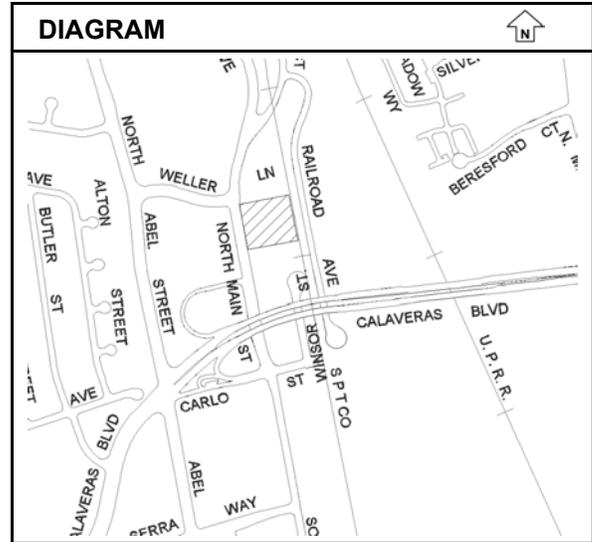

ANNUAL MAINTENANCE COST:

DESCRIPTION

This project provides the design and construction of the new library, in response to the Library Needs Assessment, previously approved by the City Council and following the Library Building Program approved by the City Council. The New Milpitas Public Library will be located at the historic Milpitas Grammar School at 160 North Main Street. The new library will be approximately 60,000 square feet and will incorporate and renovate the existing historic grammar school. The library will be a two-story facility, and will be designed with multi-functional spaces, and flexibility to adapt to technological and use changes.

COMMENTS:

The new library will provide adequate space for all of the programs requested by the community including children's, teen and adult collections, group study rooms, homework center, computer workstations, multi-use conference rooms, children's activity and story hour space, reading areas and library service areas. The building design shall provide for energy efficient lighting, heating, air condition, and other power needs. The design shall place emphasis on durable building systems that keep maintenance costs low.

**City of Milpitas
2007-12 CAPITAL IMPROVEMENT PROGRAM**

Category	Project	Estimate Level
Community Improvement	8163 Sports Center Underwater Pool Lighting	1

CONTACT: Julie Waldron [3314] / Bonnie Greiner [3227]

PRIORITY: Health and Safety Projects

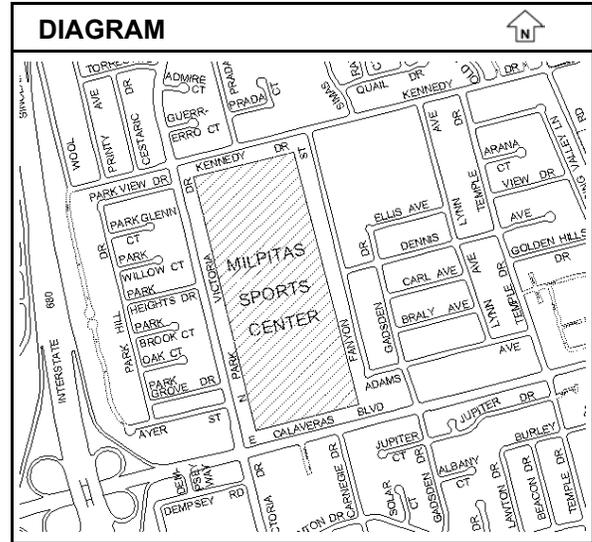

ANNUAL MAINTENANCE COST:

DESCRIPTION

This project provides for under water pool lighting replacement at the Sports Center yard pool, in accordance with the California Health Code, Section 3114B. Illumination to underwater areas provides direct vision and enables surveillance of all swimming activities. This project would provide upgraded electrical panels, transformers and light fixtures in compliance with code. The project would include replacement of fixtures with low voltage (under 15-Volt), installation of 3 transformers, separation of low and high voltage electrical lines and two separate junction boxes. In addition, project would include necessary concrete replacement.

COMMENTS:

It is appropriate to have lighting in the pool if it is to be used at night. Eliminating night time pool use would impact the City's ability to offer a variety of programs including evening and morning lap swimming, water aerobics, Arthritis Aerobics, Water Exercise and swim lessons. The project is substantially complete and final billing will occur in FY 06/07.

Uncommitted Balance as of 3/31/2007: \$2,413

Mid-Year appropriation of \$25,000 from RDA Tax Increment 11/15/05.

Close project at the end of the fiscal year, June 30, 2007.

**City of Milpitas
2007-12 CAPITAL IMPROVEMENT PROGRAM**

Category	Project	Estimate Level
Streets	8165 N. Main St. Midtown Streetscape Improvements	1

CONTACT: Andrew Brozyna [3415] / Mark Rogge [3403]

PRIORITY: Mandatory or Committed Projects

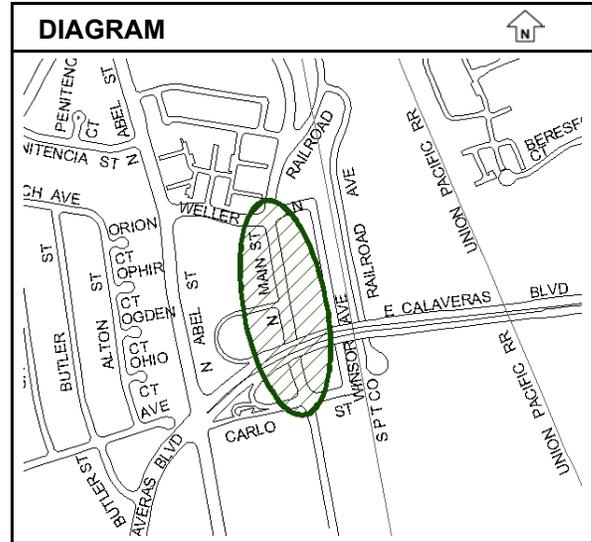

ANNUAL MAINTENANCE COST: \$75,000

DESCRIPTION

This project provides for street reconstruction and streetscape on Main Street from Weller Lane to Carlo St., in accordance with the Midtown Plan. This project transforms Main Street into a pedestrian friendly setting; with decorative lighting, street trees and other landscaping, use of traffic calming elements such as median landscape islands, narrowing the intersections, decorative crosswalks, sidewalk improvements, and street furniture. The first phase of construction improvements is from Weller Lane to 237 off ramp. The second phase is from the off ramp to Carlo Street and portions of Winsor near the new Milpitas Public Library/garage, in order to coordinate with the library improvements.

COMMENTS:

A construction budget will be developed after the design is complete. The scope of the construction will be adjusted to meet available funding. The Construction of phase 1 is underway and will be completed to meet the completion of the Senior Housing project. Phase 2 will be completed to meet the grand opening of the Library Project in 2008.

Uncommitted Balance as of 3/31/2007: \$5,823,129

Category	Project	Estimate Level
Community Improvement	8176 Senior Center	1

CONTACT: Greg Armendariz [3317] / Bonnie Greiner [3227]

PRIORITY: Mandatory or Committed Projects

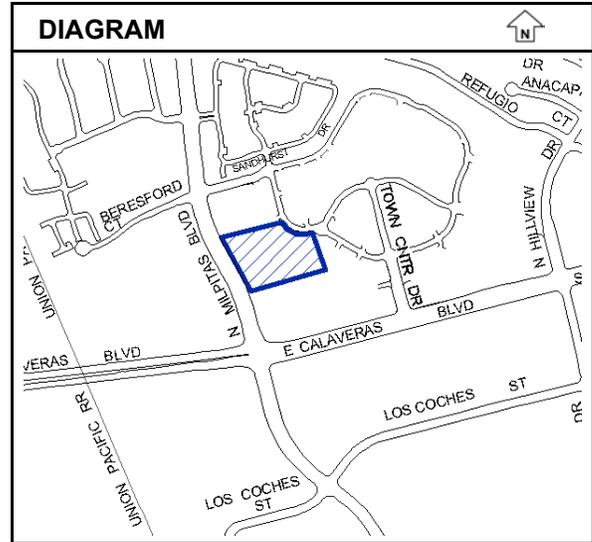

ANNUAL MAINTENANCE COST: \$20,000

DESCRIPTION

This project provides for the design and construction of a new Senior Center at the Civic Center by remodeling the existing library building. Building improvements will include new roofing, HVAC equipment, sitework, interior modifications and restroom facilities, building code upgrades, kitchen facilities, and other improvements to support current and future senior facility programming.

COMMENTS:

Only 2.3 million of the \$11.0 million of the 2003 RDA Tax Allocation Bonds, have been appropriated in order to complete the building programming and conceptual design work, which is underway. The remainder of the funding will be appropriated for construction when the Council approves the final design in 2008, and a final cost estimate is available.

Uncommitted Balance as of 3/31/2007: \$994,927

Category	Project	Estimate Level
Community Improvement	8177 Transit Area Specific Plan	1

CONTACT: Felix Reliford [3071]

PRIORITY: Studies and Analyses

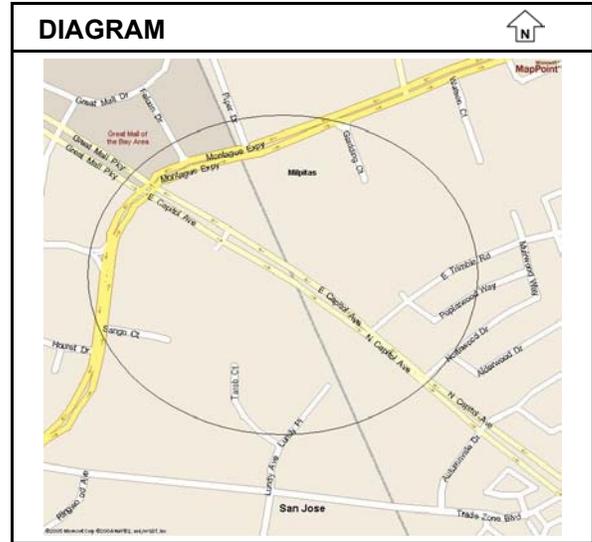

ANNUAL MAINTENANCE COST: \$0

DESCRIPTION

This project involves the preparation of a Transit-Oriented Development Study for the ±400-acre area around the existing light rail and future BART station at the Montague/Capitol intersection. The product will be the Transit Area Specific Plan that will regulate land use for the subject area.

COMMENTS:

Concept plans authorized by the City Council to be used as starting points in the planning process envision between 5,000 and 10,600 dwelling units, non-residential development ranging between 1.7 million square feet to 5.6 million square feet, mixed-use development, purchase of sufficient sewage treatment capacity, and infrastructure improvements to support the developments. After the Specific Plan is adopted, developers will pay their fair share of the costs of the preparation of the Specific Plan at the time they apply for any of the following permits: Amendment of the Specific Plan, a land use permit, Conditional Use Permit, construction, building, or similar permit, a variance, a tentative subdivision or parcel map, Site and Architectural Review, a Development Agreement, Rezoning, Building Permit or any other ministerial permit and any other approval granted by the Planning and Neighborhood Services Director, Planning Commission or City Council.

Uncommitted Balance as of 3/31/2007: \$644,027

Category	Project	Estimate Level
Community Improvement	8180 Sports Center Swimming Pool	1

CONTACT: Julie Waldron [3314]

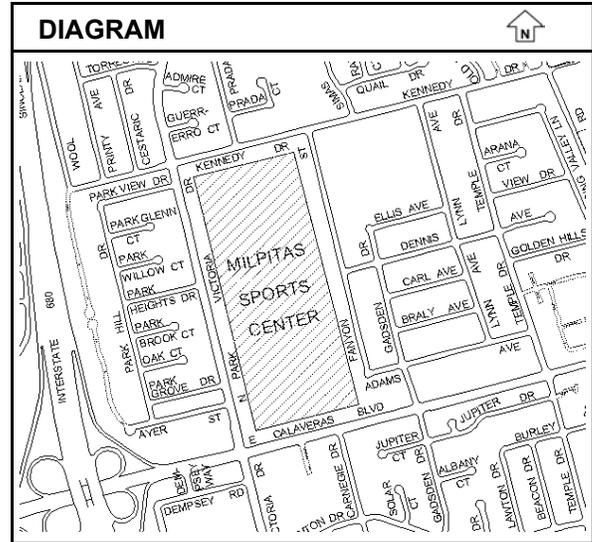

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

ANNUAL MAINTENANCE COST: \$0

DESCRIPTION

This project provides improvements to the Sports Center swimming pools. The project includes resurfacing of swimming pools, replacement of existing furnaces, pool covers and installation of a drinking fountains on the pool deck. Currently, the pool surfaces are deteriorating due to heavy usage, repeated cleaning and exposure to chemicals. For energy efficiency and utility cost savings, the project funds the replacement of (3) three existing furnaces with two (2) high efficiency (98%) furnaces

COMMENTS:

Uncommitted Balance as of 3/31/2007: \$156

Category	Project	Estimate Level
Streets	8181 Singley Area Phase 4	1

CONTACT: Joe Ezeokeke [3316]

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

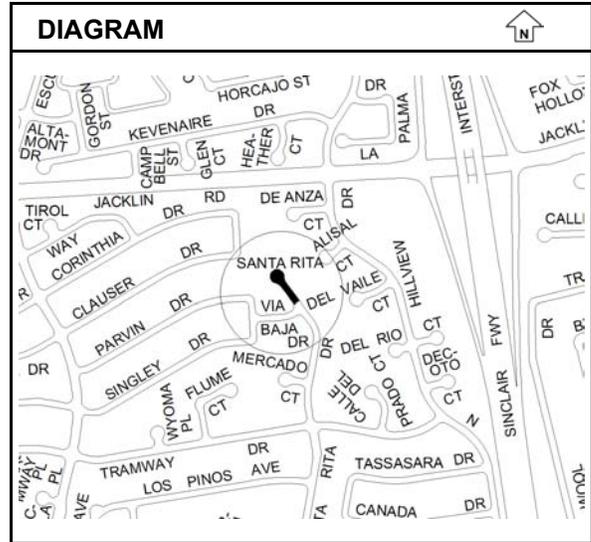

ANNUAL MAINTENANCE COST: \$0

DESCRIPTION

This project involves the replacement of existing curb and gutters, driveways, ramps, sidewalk, and asphalt pavement sections with new facilities, installation of asphalt concrete overlay and deep lift, storm drain pipes, drainage inlets, and subsurface drainage system in various streets in the Singley street area.

COMMENTS:

Phases I to III of this project have been completed. Phase IV includes all the areas that were not part of the Singley Area Study, but were identified during the construction of phases I through III, with input from the residents. The Santa Rita portion will be done in 2006/07 for approximately \$150k.

Uncommitted Balance as of 3/31/2007: \$18,844

FINANCE NOTES

Grant Funding: Traffic Congestion Relief 51,330.15 + 80,655.63 = 131,985.78

Close project at the end of the Fiscal year, June 30, 2007.

APPENDIX A

ESTIMATE LEVEL DESCRIPTIONS

The following are detailed descriptions for each of the three estimate levels used in this document:

Estimate Level 1 – Conceptual Estimate

This level of estimating is the least accurate and is used when the conceptual idea or plan has been prepared without precise details. Examples of such would be freeway interchanges prior to completion of any plans (and estimates based thereon), projects where final location is unknown and right-of-way or land costs are involved.

Estimate Level 2 – Detailed Estimate

This level of estimating is based on an approved design plan or conceptual plan which has some level of assurance that the items contained within are complete and acceptable to the approving agency. Examples of this category are most street projects where City staff has prepared estimates based on typical street structural and geometric details, using experienced bid prices. Other examples are water or sewer lines that have been proposed and identified with estimates in consultant reports.

Estimate Level 3 – Design Estimate

This is the highest level of estimating and is based on a completed set of design drawings and specifications that are ready for bidding. This level is what could also be called the bid or engineer's estimate.

APPENDIX C

PRIORITIZATION DESCRIPTIONS

In order to assist in the review of the various projects, all CIP projects are prioritized using the following categories (listed in priority order):

1. **Mandatory or Committed Projects**

Mandatory projects are those which the City is legally required to undertake. These include Federal or State mandated activities such as access modifications to public facilities to meet Americans with Disabilities Act requirements, Clean Water Act, etc. Committed projects are those that the City has contracted or partially completed. This can also include projects that have received grants with time restrictions. A funded project that has not yet started, does not necessarily mean that the project is “committed”, since the project is still subject to review. If this project is no longer necessary, it can be delayed or deleted and defunded.

2. **Health and Safety Projects**

Health and Safety projects are those infrastructure improvements needed for health and/or safety reasons. Examples include such projects as sidewalk repair work, installation of traffic signals and signs, modification of park playground equipment to eliminate a hazardous situation and additional lighting in public areas, etc.

3. **Rehabilitation of Existing Capital Assets or Systems**

These are projects that are required to maintain the City’s investment in infrastructure and capital equipment. This includes projects ranging from street resurfacing/reconstruction, to bridge maintenance, water, sewer improvements, facilities rehabilitation, etc.

4. **Major Service Equipment Replacement**

These are projects involving the replacement of equipment required in the operations of the City services. This would include pumps at storm drainage pump stations, MSC swimming pool pumps and motor replacements.

5. **Projects which Avoid Future Additional Costs**

This includes those projects which assists the City in reducing and/or eliminating future operating or capital costs. This would include acquisition of image processing equipment for document control, computer networking, replacing existing high maintenance landscaping with drought resistant and low maintenance plantings, automation of maintenance or data gathering activities, etc.

6. **Studies and Analyses**

This category is for projects that allow the City to examine new approaches for improvements to service delivery, cost savings, capital improvement projects and/or ways to enhance the financial stability of the City. Examples include the Calaveras Plan Line Study and San Jose Parallel Forcemain Study.

7. **Enhance Economic Development**

This category is for those projects that will attract new businesses or retain existing. Examples include the installation of utilities for future development and fiber optics installation for telecommunications.

8. **Improve the Quality of Life**

These are projects that allow the City to enhance the City’s quality of life, such as landscaping projects, new Sports Center improvements, etc.

APPENDIX D

Previously Funded Projects to be Closed as of June 30, 2007

Community Improvement Projects

3389	Expanded Public Safety Technology
