Subject: **Milpitas Walmart Expansion Project – Response to Brett Jolley Letter (May 25, 2010)**

Dear Cindy:

Michael Brandman Associates prepared this letter to respond to various comments contained in a letter dated May 25, 2010 authored by Brett Jolley that concerns the Milpitas Walmart Expansion Project. Mr. Jolley represents the Milpitas Coalition for a Better Community and submitted the letter to support the appeal his client filed with the City of Milpitas regarding the Planning Commission's March 2010 certification of the Environmental Impact Report (EIR) for the Walmart expansion project.

This response will address each of the points raised in Mr. Jolley's letter about the EIR (Comments No. 1 through No. 5), as our firm prepared this document. Please note that we will not address the comments that pertain to the Statement of Overriding Considerations (Comment No. 6), as we did not prepare this document.

Store Closures and Urban Decay

Mr. Jolley claimed that the EIR's urban decay analysis fails to account for current blight and redevelopment activities in the City of Milpitas. Mr. Jolley cited recent Redevelopment Agency actions to expand the boundaries of Project Area No. 1 as evidence of existing blight that was not accounted for by CBRE Consulting in its urban decay study. Mr. Jolley noted that the expansion of the redevelopment project area boundaries "reveals" that property owners are not maintaining their properties. Mr. Jolley also asserted that the closure of Save Mart in Calaveras Plaza would result in physical impacts on the environment in terms of longer travel lengths for current customers and impaired redevelopment efforts in Project Area No. 1. Mr. Jolley stated that the EIR also failed to provide evidence that the proposed Walmart expansion would not result in closure of ethnic-oriented markets.

There is a significant distinction between the terms "blight" and "urban decay." Blight" is a legal term set forth in California Health and Safety Code Sections 33031(a) and (b), and a finding of blight is necessary to establish a redevelopment zone. Examples of blighted conditions include:

- Depreciated or stagnant property values or impaired investments, including as a result of hazardous wastes.
- Abnormally high business vacancies, abnormally low lease rates, high turnover rates, abandoned buildings, or excessive vacant lots within an area developed for urban uses and served by utilities.
- A lack of necessary commercial facilities that are normally found in neighborhoods, including grocery stores, drug stores, banks, and other lending institutions.

- Residential overcrowding or an excess of bars, liquor stores, or other businesses that cater exclusively to adults, which has led to problems of public safety and welfare.
- A high crime rate that constitutes a serious threat to the public safety and welfare.
- Buildings in which it is unsafe or unhealthy for persons to live or work. These conditions can be caused by serious building code violations, dilapidation and deterioration, defective design or physical construction, faulty or inadequate utilities, or other similar factors.
- Factors that prevent or substantially hinder the economically viable use or capacity of buildings or lots. This condition can be caused by a substandard design, inadequate size given present standards and market conditions, lack of parking, or other similar factors.
- Adjacent or nearby uses that are incompatible with each other and which prevent the economic development of those parcels or other portions of the project area.
- The existence of subdivided lots of irregular form and shape and inadequate size for proper usefulness and development that are in multiple ownership.

The term "urban decay" was established by the *Bakersfield Citizens for Local Control v. City of Bakersfield*, 5th Dist. 124 Cal. App 4th (2004) court decision and pertains to "precipitating a downward spiral of store closures and long-term vacancies in existing shopping centers that ultimately result in urban decay." As such, in the context of the California Environmental Quality Act, urban decay clearly relates to new commercial retail development.

To summarize, "blighted" conditions often are not indicative of "urban decay" conditions and vice versa. For example, a neighborhood without grocery stores, drug stores, or banks and an excessive number of vacant lots may be considered blighted even if well-kept, but would not meet the definition of urban decay. Likewise, a property with several abandoned building with graffiti and broken windows may manifest signs of "urban decay," but because it is only one isolated property, it may not meet the "abnormally high" standard for "blight." For these reasons, the presence of existing redevelopment zones does not have a material bearing on the urban decay analysis.

Regarding Mr. Jolley's claims of physical impacts from closure of the Save Mart in Calaveras Plaza, first, it should be clarified that the Walmart project *itself* is not anticipated to divert substantial sales such that closure of Save Mart is foreseeable. Rather, it is only under the cumulative scenario (which accounts for several other planned or approved supermarket projects in the Market Area) in which Save Mart was identified as being at risk of closure. In other words, only under the "worst-case" scenario is Save Mart expected to be at risk of closure. As will be discussed later this letter, this is an important distinction that was not acknowledged by Mr. Jolley in his various comments. Refer to Master Response 2 in the Final EIR for further discussion of the urban decay conclusions.

As for the issue of environmental impacts associated with Save Mart customer trips being diverted elsewhere, this question was previously addressed in Master Response 2 in the Final EIR. To summarize, the proposed Walmart expansion is expected to attract new vehicle trips, and the EIR evaluated the air quality, noise, and traffic impacts associated with those trips. Although it would be expected that a portion of those trips would represent existing trips that are reassigned to Walmart from other supermarkets such as Save Mart, there is no agency-approved or industry-accepted methodology for reliably estimating this phenomenon. Accordingly, all Walmart trips were assumed to be "new" trips, which provides for a conservative evaluation of air quality, noise, and traffic impacts. Furthermore, the reassignment of existing trips associated with Save Mart would be unlikely to result in "new" environmental impacts, as these are existing trips that emit tailpipe emissions, generate noise, and contribute to traffic congestion. As such, the EIR appropriately does not attempt to make projections related to these issues.

Finally, regarding Mr. Jolley's claims that the EIR did not support its conclusions that ethnic-oriented markets would not experience lost sales, this issue was also addressed at length in Master Response 2 in the Final EIR. To summarize, a key tenet in retail sales analysis is that stores compete with similar competitors. As shown in Table 2-1 in the Final EIR, there are substantial differences in product selection between Marina Grocery (an ethnic-oriented grocery store) and Save Mart (a conventional grocery store that is most similar to the proposed Walmart grocery component). Furthermore, each store offers a different and distinct shopping experience (displays, bilingual or monolingual signage, store activity, layout, etc.). As such, it would be unlikely that a typical consumer would view an ethnic-oriented grocery store and a conventional grocery store as similar and interchangeable. For these reasons, the EIR provided evidence to support its conclusions that ethnic-oriented markets would not experience lost sales.

Inconsistent Traffic Study Area and Market Area

Mr. Jolley asserted the urban decay Market Area does not correspond with the traffic study area. Mr. Jolley claimed that the EIR indicates that the proposed project would generate \$12.4 million in food sales from the Market Area, and the traffic analysis shows that 19 percent of the trips will come from west of McCarthy Boulevard and 34 percent of the trips will come from east of Milpitas Boulevard. Mr. Jolley alleged that the EIR does not evaluate traffic impacts at any intersections west of McCarthy Boulevard and east of Milpitas Boulevard. Mr. Jolley claimed that the EIR is inadequate for failing to consider traffic impacts from trip generation across the market area and not merely at select intersections near the project.

As explained in the Final EIR in Master Response 2, both CBRE Consulting (urban decay sub-consultant) and Kimley-Horn Associates (traffic sub-consultant) coordinated their respective study areas. All of the study intersections and roadway segments (Exhibit 4.10-1) are wholly within the boundaries of the Market Area (Exhibit 4.11-1).

For a regional retail outlet such as Walmart, its Market Area will inherently be fairly large. In this case, the Milpitas Walmart Market Area encompasses the entire City of Milpitas, as well as portions of Fremont, San Jose, Santa Clara, and Sunnyvale. Vehicle trips associated with the Walmart store will be concentrated in the vicinity of the store site, and they dissipate as distance from the store increases. For this reason, the traffic study focused on intersections and roadways that would experience the greatest amounts of project-related traffic.

Based on the characteristics of the roadway network in Milpitas (which provides only two freeway crossings of I-880 between the northern city limit and State Route 237), project-related vehicle trips would be largely concentrated on McCarthy Boulevard, Dixon Landing Road, and Calaveras Boulevard. (Note that City staff reviewed and approved the geographic scope of the traffic study and specifically identified the intersections and roadway segments that were ultimately studied in the EIR). McCarthy Boulevard was studied between Dixon Landing Road and Tasman Drive, which constitutes almost the entire length of this roadway within the City of Milpitas. Dixon Landing Road and Calaveras Boulevard were studied between N. McCarthy Boulevard/I-880 and Milpitas Boulevard. Intersection operations, roadway segment operations, and queuing analyses were performed for all three roadways. Thus, traffic impacts on the principle roadways that serve the Walmart store were examined at length.

Regarding Mr. Jolley's statements about the percentages of traffic shown coming from west of McCarthy Boulevard and east of Milpitas Boulevard, the trip distribution values shown in Exhibit 4.10-6 are consistent with the Market Area boundaries. For example, the 19 percent figure shown coming from west of McCarthy Boulevard signifies freeway trips on SR-237. Again, the Market Area encompasses portions of San Jose, Santa Clara, and Sunnyvale; therefore, this value is consistent with the attraction of customers from these communities. Likewise, the area east of Milpitas Boulevard is also within the urban decay

Market Area boundaries. Thus, the trip distribution percentages do not in any way pose an inconsistency with the Market Area boundaries.

As for Mr. Jolley's statements about why these roadways were not studied, it should be emphasized that the Santa Clara Valley Transportation Authority's (VTA) Transportation Impact Analysis Guidelines (March 2008) establishes the following criteria for evaluating an intersection or roadway in a traffic study:

- If the project would add 10 or more peak hour trips per lane to any movement
- The intersection is adjacent to the project site
- Engineering judgment

None of the roadways in the two areas cited by Mr. Jolley (west of McCarthy Boulevard and east of Milpitas Boulevard) would meet the above criteria. For example, as discussed in Response to VTA-7 in the Final EIR, the total number of peak hour trips that would occur west of McCarthy Boulevard on the three-lane segment of SR-237 would range from 5 to 12 (or 1.67 to 4 trips per lane) and, thus, would not meet the first criterion of 10 or more peak hour trips per lane. At the Calaveras Boulevard/Milpitas Boulevard intersection, the highest peak hour movements traveling east of Milpitas Boulevard total 10 trips on a three-lane roadway segment (or 3.33 trips per lane). This also does not meet the 10 or more peak hour trips per lane threshold. Additionally, none of these roadways meet the second criterion, which is adjacency to the project site. Finally, as previously noted, City staff reviewed the scope of the traffic study and did not indicate that intersections or roadway segments west of McCarthy Boulevard or east of Milpitas Boulevard warranted study. In summary, the scope of the traffic analysis was consistent with VTA guidance and industry accepted practice.

For these reasons, Mr. Jolley's claims that the urban decay Market Area does not correspond with the traffic study area is incorrect. Thus, his assertion that the EIR is inadequate is also incorrect.

Greenhouse Gas Emissions

Mr. Jolley claimed that the EIR failed to evaluate and mitigate the proposed project's greenhouse gas emissions. Mr. Jolley asserted that the EIR improperly indicates that the proposed project would emit only 710 metric tons of carbon dioxide equivalent (MTCO_{2e}) because it only considers emissions associated with the 19,000-square-foot expansion and fails to account for the entire "project." Mr. Jolley alleged that if the entire "project" were accounted for, emissions would be 8,135 MTCO_{2e}, well in excess of the Bay Area Air Quality Management District's (BAAQMD) draft threshold of 1,100 MTCO_{2e}. Mr. Jolley asserted that this impact should be identified as significant and mitigation measures should be imposed.

Mr. Jolley's statements misrepresent the greenhouse gas emissions analysis provided on pages 4.2-51 through 4.2-67 of the Draft EIR. The analysis inventoried existing emissions with the Walmart store (Table 4.2-16) and then estimated emissions with the expanded store (Table 4.2-17). The net increase is shown in Table 4.2-17 and totals 710 MTCO_{2e}. This approach, known as "netting out," is intended to identify the increase attributable to the project. The EIR consistently used this approach throughout the document, including in Section 4.2, Air Quality (operational air emissions), Section 4.8, Noise (roadway noise), Section 4.9, Public Services and Utilities (water, wastewater, solid waste, and energy consumption estimates), Section 4.10, Transportation (trip generation), and Section 4.11, Urban Decay (store sales).

Mr. Jolley's claim that 8,135 MTCO_{2e} is the appropriate value to use for estimating greenhouse gas emissions is incorrect for several reasons. First, it accounts for existing motor vehicle emissions, which constitute 94 percent of the motor vehicle line item total. As should be obvious, it is not appropriate to include existing emissions in the net total since these are already occurring and would not change whether the project advances or not. Second, the 8,135-MTCO_{2e} figure encompasses only motor vehicle

emissions; Mr. Jolley mistakenly asserts this represents total emissions, which it does not. (This figure excludes natural gas, electricity, and water transport emissions.) Thus, the 8,135-MTCO_{2e} figure is not correct or appropriate to cite as representative of the proposed project's emissions.

Finally, contrary to Mr. Jolley's assertion, the EIR did in fact propose mitigation for greenhouse gas emissions. Refer to Mitigation Measures AIR-7a through AIR-7e.

For these reasons, there is no legal basis to revise the EIR as indicated by Mr. Jolley.

Solid Waste Impacts

Mr. Jolley claimed that the EIR did not provide sufficient mitigation measures that reduce the proposed project's solid waste impacts. Mr. Jolley asserted that the EIR should be revised and recirculated to address individual and cumulative impacts from recyclable and non-recyclable materials.

As stated on page 4.9-12 of the Draft EIR, CEQA Guidelines Appendix G establishes the following thresholds for solid waste:

- Be served by a landfill with sufficient permitted capacity to accommodate the project's solid waste disposal needs?
- Comply with federal, state, and local statutes and regulations related to solid waste?

The Draft EIR's analysis of solid waste impacts in Impact PSU-6 quantifies construction and operational waste, assesses whether this project's waste generation constitutes a significant impact on landfill capacity, and requires mitigation in the form of construction and demolition debris recycling and operational facilities and practices. This impact concludes that with the implementation of Mitigation Measures PSU-6a and PSU-6b, project-level impacts on landfill capacity and compliance with solid waste regulations would be reduced to a level of less than significant.

The Draft EIR evaluated cumulative solid waste impacts on page 6-12. That analysis concluded that impacts would not be cumulatively considerable because other projects would be required to implement recycling and waste reduction measures. Underscoring this point, two nearby projects listed in Table 6-1 are required to provide recycling and waste reduction practices and facilities. The Campus at McCarthy Ranch EIR indicates that the applicant will be required to participate in the City's business recycling program. The Creekside Landing EIR requires the applicant to recycle construction and demolition debris in accordance with Municipal Code requirements and mandates the applicant to prepare and implement a Recycling and Waste Reduction Plan for operational practices. Thus, there is certainty that the other cumulative projects considered in the Walmart EIR cumulative effects analysis would implement recycling and waste reduction measures. As such, the conclusions of cumulative solid waste analysis are supported by substantial evidence. Therefore, no legal basis exists to revise and recirculate the EIR as indicated by Mr. Jolley.

General Plan Inconsistencies

Mr. Jolley stated that although the proposed project is consistent with "some" of the Guiding Principles and Implementing Policies set forth in the City of Milpitas General Plan, it is inconsistent with a "sufficient number" of policies. The four principles and policies identified by Mr. Jolley are listed in Table 1, along with his interpretation of why the project is inconsistent with them. In the right-hand column, we have provided a response to Mr. Jolley's interpretation. As shown in the table, we believe that Mr. Jolley's interpretation of the various General Plan principles and policies are not supported by any statements contained in the EIR and also do not reflect the intent of the General Plan.

Table 1: General Plan Consistency Matrix

No.	Guiding Principle/ Implementing Policy Text	Brett Jolley's Interpretation	MBA Response
2.a-I-3	Encourage economic pursuits, which will strengthen and promote development through stability and balance.	<p>The Project's potential to result in the closure of at least one grocery store in the redevelopment Project Area No. 1 conflicts with General Plan Policy 2.a-1-3. Increasing vacancies and decreasing convenient neighborhood shopping in the Project Area No. 1 in order to establish grocery sales outside of Milpitas redevelopment areas will weaken and prevent rather than strengthen and promote development through stability and balance.</p>	<p>As stated on page 4.7-11 of the Draft EIR, the proposed project would create new employment opportunities and offer 24-hour grocery and general merchandise sales in a safe and secure environment. These characteristics are consistent with the objective of providing stable and balanced economic development.</p> <p>Furthermore, Policy 2.a-I-3 contains the phrase "encourage economic pursuits," implying that the City should facilitate the development of new and expanded business operations. Mr. Jolley's interpretation of the policy indicates the opposite, suggesting that the City should engage in protectionist practices that prevent the entry of new or the expansion of existing businesses.</p> <p>Finally, Policy 2.a-I-3 is silent about the issue of grocery sales within redevelopment areas; therefore, no factual basis exists to make any such conclusions.</p>
2.a-I-6	Endeavor to maintain a balanced economic base that can resist downturns in any one economic sector.	<p>The Walmart Project simply adds grocery sales to a market area that is oversaturated by a variety of supermarkets, including discount, upscale, and ethnic grocery stores (all of which will compete with the Supercenter), and, therefore, the Project will not enhance the City's retail offerings.</p>	<p>As stated on pages 4.7-11 and 4.7-12 of the Draft EIR, the proposed project consists of expanding and upgrading the existing Walmart store to offer grocery sales and enhance general merchandise sales. The proposed project would enhance Milpitas's commercial retail offerings, particularly for everyday household items, and would contribute to maintaining a balanced economic base that can resist downturns in any one economic sector.</p> <p>Mr. Jolley incorrectly characterizes the Market Area as being "oversaturated" with grocery stores. This statement</p>

No.	Guiding Principle/ Implementing Policy Text	Brett Jolley's Interpretation	MBA Response
			<p>misrepresents a key finding of the urban decay retail sales leakage analysis, which is that the City of Milpitas is an "attraction" market. This does not mean oversaturation is occurring; rather, it means that Milpitas is capturing retail sales from other communities. In any event, the EIR's urban decay analysis concludes that the Walmart expansion <i>itself</i> will not result in closure of other competing grocery stores in Milpitas, including Save Mart. (As noted previously, it is only under the "worst case" cumulative scenario that Save Mart was identified as being at risk of closure.) This faulty assumption underpins Mr. Jolley's flawed interpretation of this policy.</p> <p>Finally, Policy 2.a-I-6 contains the phrase "maintain a balanced economic base that can resist downturns in any one economic sector," suggesting that the City should play an active role in the local economy (e.g., allowing the entry of new businesses or the expansion of existing businesses). Mr. Jolley's interpretation of the policy indicates the opposite, suggesting that the City should engage in protectionist practices and not actively pursue measures to maintain a balanced economic base.</p>
2.a-I-7	Provide opportunities to expand employment, participate in partnerships with local business to facilitate communication, and promote business retention.	Because the Supercenter is likely to result in the closure of at least one grocery store (e.g., Save Mart anchor located in Calaveras Plaza), the Project will not promote business retention, but will actually promote business attrition from areas declared blighted and subject to redevelopment. Such action is inconsistent with the Milpitas General Plan.	<p>As stated on page 4.7-12 of the Draft EIR, the proposed project is anticipated to create as many as 75 new jobs, which is consistent with the objective of expanding employment opportunities. (Note that the applicant now indicates the project would create as many as 85 new jobs.)</p> <p>Again, Mr. Jolley mischaracterizes a key finding of the urban decay study, which is that the Walmart expansion <i>itself</i></p>

No.	Guiding Principle/ Implementing Policy Text	Brett Jolley's Interpretation	MBA Response
			<p>is not expected to result in closure of Save Mart. This faulty assumption underpins Mr. Jolley's flawed interpretation of this policy.</p> <p>Regardless, Policy 2.a-I-7 contains the phrases "provide opportunities to expand employment" and "promote business retention," which the Walmart expansion would clearly achieve. Mr. Jolley's interpretation does not dispute these facts.</p>
3.a-G-2	<p>Maintain acceptable service standards for all major streets and intersections.</p>	<p>The Project will result in significant and unavoidable traffic impacts. Although Walmart will be required to pay a traffic mitigation fee, the impacts to four roadway segments will remain significant and unavoidable even after improvements are implemented. Therefore, approving the Project would be inconsistent with Policy 3.a-G-2 of the Milpitas General Plan and the City Council should not approve a project that will contribute to unacceptable levels of service for major streets and intersections in Milpitas.</p>	<p>As stated on page 4.7-13 of the Draft EIR, the proposed project would implement all feasible mitigation for its traffic impacts, which is consistent with the objective of maintaining acceptable service standards for all major streets and intersections.</p> <p>As discussed in Section 4.10, Transportation of the Draft EIR, all project-related intersection and queuing impacts can be mitigated to a level of less than significant. Roadway operations impacts would remain significant and unavoidable after mitigation (i.e., payment of a traffic management fee to the City). This is a result of City staff determining that widening N. McCarthy Boulevard did not constitute a feasible improvement. Accordingly, City staff reconciled Guiding Principle 3.a-G-2 with the practical realities of roadway infrastructure constraints and appropriately concluded that the intent of the principle has been satisfied with the payment of the traffic management fee. It should be noted that the language is a "guiding principle" and not a mandatory prohibition; therefore, it is appropriate for the City to reconcile the realities with the intent.</p>

Closing Remarks

Based on our review of Mr. Jolley's comments, we conclude that they do not identify any deficiencies or new concerns in the Milpitas Walmart Expansion EIR that were not previously addressed in either the Draft EIR or the Final EIR. Please let us know if you have any questions.

Sincerely,

A handwritten signature in black ink, appearing to read "Grant Gruber". The signature is fluid and cursive, with the first name "Grant" being more prominent than the last name "Gruber".

I don't want Wal-Mart to become a grocery store do to the congestion of traffic go in and coming it is a big hassle. Further more I like to walk to save mart with my grandson on nice days and if you take that from us it keep us from reaching the store that is closes to us. This would make it very difficult for me to get my grocery. I do not want to shop at a department store where people shop for clothes and food it doesn't feel right. Wal-mart Should not mix food we clothing items it is not sanitary.

Sincerely:

Dear Council member Althea Polanski,

I am a long time resident of the marion area. and I have great concerns on the expansion of Walmart to accommodate grocery and alcohol sales. In allowing this to happen will have a great affect in the traffic and the fear of losing a grocery store that's conveniently located in the area. Traffic on 237 and 880 is already congested. I've seen many occasions people have made illegal U-turns as well as people not using the pedestrian walkway to and from stores and restaurants along 237. Further more, having a grocery store very close to home has been without a doubt convenient to send the kids on a bike ride to pick up a few items. There are others in the area who don't drive, ~~and~~ but walk to the grocery store.

In my opinion this small town has enough grocery stores; Savemart, Safeway, Nob Hill, Ducky's, four large Asian Markets, and a handful of small mom and pop stores. How much more does this small town need?

Dear City Councilmembers,

As a Walmart shopper and local resident I urge you to support the expansion of the Milpitas Walmart store. Our Milpitas Walmart has been part of the community for over 16 years and this expansion will provide jobs, shopping value and community giving dollars for many Milpitas residents and organizations. At just over 18,000 square feet, the expansion is a small project that will greatly enhance the shopping experience at Walmart, attract more shoppers to other McCarthy Ranch businesses and generate additional tax revenue for Milpitas.

Additional Comments:

Help the economy;
provide complete services;
location already established

Subject: another example of obvious bias in the EIR

Dear Council Members,

The attorney for the Milpitas Coalition for a Better Community recently sent a letter to you outlining grounds on which the Walmart EIR should be rejected. In section 3, Greenhouse Gas Emissions, we learn that the completed project will emit 8135 units of GHG and cover 150K sq. ft., or about 54 units of GHG per 1000 square feet (or 54G/1K).

Bias #1: Instead of using 54G/1K, the EIR uses 37G/1K for the expansion area, resulting in a total of 710 GHG units for the 19K sq. ft. expansion area ($37 \times 19 = 703$). Doing so reduces their GHG emission below the limit of significance (which is 1100 units). If the EIR used 54G/1K, the total would be 1026 GHG units ($54 \times 19 = 1026$), much closer to the threshold – and more likely to draw attention.

Bias #2: The EIR focuses on just the 19K sq. ft. expansion when nearly twice that floor space is directly impacted. The attorney argues that the entire 150K sq. ft. store is impacted by the extended hours of operation and, therefore, should be included in the GHG calculation. Clearly, the additional 14K sq. ft. of existing space that is being switched from taxable items to groceries (which tend to draw customers more frequently) must be included. Even using the artificially low number of 37G/1K, total GHG for the 33K sq. ft. ($19K + 14K$) exceeds the 1100 limit at 1221 GHG units, and blows it away at 1782 GHG units when using 54G/1K.

Choosing both the (questionably) low number for GHG emissions and the lowest possible number for measuring square feet shows a clear bias in the EIR - and further demonstrates that this EIR and the consultants selected and paid by Walmart cannot be trusted. Please reject this EIR as inadequate and deny the Conditional Use Permit.

Subject: Calls from citizens on Walmart Expansion Project

Hi James and Cindy,

These calls came in yesterday, Tuesday, May 25th, from the following Milpitas residents voicing their opposition to the Walmart expansion project:

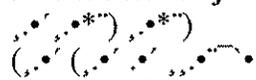

- Patricia Hom - 100 Marylinn Drive
- Devinder Singh - 108 Sudbury Drive
- Trang Nguyen - 109 Beaumere Way
- David Brandt - 1193 Clear Lake Ct.
- Raymond Lau - 1217 Park Heights Drive
- Cindy Lam - 124 South Temple Drive
- Mr. Ranbir - 1505 Kennedy Drive
- Patrick Bennett - 134 Berrendo
- Thanh Nguyen - 1778 Conway Street
- Lee McGarvey - 1479 Mt. Shasta
- Leo Guterrez - 1475 Arizona Avenue
- Leslie Maciejewski - 1592 Yosemite Drive
- Victoria Gonzalez - 167 Mountain Drive

Also, on Friday, May 21st, we received about ten calls from residents voicing their opposition to Walmart and they said they would be e-mailing Cindy Hom their information directly.

Thank you,

Veronica

Hi James and Cindy,

These calls came in today , Tuesday, May 26th, from the following Milpitas residents voicing their opposition to the Walmart expansion project:

- Xiang Yao - 1043 Ridgemont Drive
- Michael Henry - 108 Lacrosse Drive
- Kara Drouin - 1156 Tice Drive
- Doug Macintosh - Milpitas Resident
- Arlene Kisor - 1283 Traughber Street
- Maryanne Urista - 1281 Moonlight Way
- Daniel Choy - Milpitas Resident
- Vidya Ullal - 1350 Cuciz Lane
- John James - 1454 Lassen Avenue
- Kamwaldeep Singh - 1481 Michael Court
- David Wood - 1585 Greenwood Way
- Kavita Pathak - 231 Dixon Landing, #113
- Mark Hoyt - 278 Merz Court

On another note, Alejandro Valdez who lives at 1315 Kennedy Drive is in favor of the Walmart expansion.

Thank you,

Veronica

Hi Cindy and James,

The following Milpitas Residents are against the Walmart Expansion:

- Antonia SanJuan - 1356 Traughber Street
- Ernie Salle - 1143 El Camino Higuera
- Linda Wong - 122 Piedmont Road
- Richard - Milpitas Resident

The following Milpitas Residents are in favor of the expansion:

- Shirley Spengler - 1775 Milmont Drive
- Jarnail Rai - 260 Coelho Street

Thanks,

Veronica

Subject: support for proposed Walmart expansion

Hello !

I would like to show my support for this expansion which we really need for the community during this recession- low prices!

thanks
Raj

Dear Milpitas City Councilmembers,

I am a Walmart shopper and I support the plans to expand the Milpitas Walmart on Ranch Drive.

Expanding the Milpitas Walmart will increase consumer choice and tax revenue for the city while providing dozens of new jobs for local residents. Many Milpitas area residents rely on Walmart for our most essential shopping needs and Walmart has proven over the years to be an active and important member of the Milpitas community. Adding groceries to our Milpitas Walmart is good for families and seniors.

In these difficult economic times, Milpitas should be encouraging businesses to expand and create new jobs. Please vote to uphold the Planning Commission's certification of the EIR and support Walmart's expansion plans for its Milpitas store.

Additional Comments I SUPPORT THE EXPANSION

FOR MILPITAS WALMART BECAUSE AS AN ASSC.

I WOULD LIKE THE "ONE STOP SHOP" PLUS THE

MORE JOBS IT'LL WILL CREATE.

Sincerely,

Name SINIVA S. GAOPDA

Date 5/08/10

Dear Milpitas City Councilmembers,

I am a Walmart shopper and I support the plans to expand the Milpitas Walmart on Ranch Drive.

Expanding the Milpitas Walmart will increase consumer choice and tax revenue for the city while providing dozens of new jobs for local residents. Many Milpitas area residents rely on Walmart for our most essential shopping needs and Walmart has proven over the years to be an active and important member of the Milpitas community. Adding groceries to our Milpitas Walmart is good for families and seniors.

In these difficult economic times, Milpitas should be encouraging businesses to expand and create new jobs. Please vote to uphold the Planning Commission's certification of the EIR and support Walmart's expansion plans for its Milpitas store.

I am a Walmart shopper and I support the plans to expand the Milpitas Walmart on Ranch Drive.

Expanding the Milpitas Walmart will increase consumer choice and tax revenue for the city while providing dozens of new jobs for local residents. Many Milpitas area residents rely on Walmart for our most essential shopping needs and Walmart has proven over the years to be an active and important member of the Milpitas community. Adding groceries to our Milpitas Walmart is good for families and seniors.

In these difficult economic times, Milpitas should be encouraging businesses to expand and create new jobs. Please vote to uphold the Planning Commission's certification of the EIR and support Walmart's expansion plans for its Milpitas store.

Dear Milpitas City Councilmembers,

I am a Walmart shopper and I support the plans to expand the Milpitas Walmart on Ranch Drive.

Expanding the Milpitas Walmart will increase consumer choice and tax revenue for the city while providing dozens of new jobs for local residents. Many Milpitas area residents rely on Walmart for our most essential shopping needs and Walmart has proven over the years to be an active and important member of the Milpitas community. Adding groceries to our Milpitas Walmart is good for families and seniors.

In these difficult economic times, Milpitas should be encouraging businesses to expand and create new jobs. Please vote to uphold the Planning Commission's certification of the EIR and support Walmart's expansion plans for its Milpitas store.

Dear Milpitas City Councilmembers,

I am a Walmart shopper and I support the plans to expand the Milpitas Walmart on Ranch Drive.

Expanding the Milpitas Walmart will increase consumer choice and tax revenue for the city while providing dozens of new jobs for local residents. Many Milpitas area residents rely on Walmart for our most essential shopping needs and Walmart has proven over the years to be an active and important member of the Milpitas community. Adding groceries to our Milpitas Walmart is good for families and seniors.

In these difficult economic times, Milpitas should be encouraging businesses to expand and create new jobs. Please vote to uphold the Planning Commission's certification of the EIR and support Walmart's expansion plans for its Milpitas store.

Dear Milpitas City Councilmembers,

I am a Walmart shopper and I support the plans to expand the Milpitas Walmart on Ranch Drive.

Expanding the Milpitas Walmart will increase consumer choice and tax revenue for the city while providing dozens of new jobs for local residents. Many Milpitas area residents rely on Walmart for our most essential shopping needs and Walmart has proven over the years to be an active and important member of the Milpitas community. Adding groceries to our Milpitas Walmart is good for families and seniors.

In these difficult economic times, Milpitas should be encouraging businesses to expand and create new jobs. Please vote to uphold the Planning Commission's certification of the EIR and support Walmart's expansion plans for its Milpitas store.

Date 05-09-10

Dear Milpitas City Councilmembers,

I am a Walmart shopper and I support the plans to expand the Milpitas Walmart on Ranch Drive.

Expanding the Milpitas Walmart will increase consumer choice and tax revenue for the city while providing dozens of new jobs for local residents. Many Milpitas area residents rely on Walmart for our most essential shopping needs and Walmart has proven over the years to be an active and important member of the Milpitas community. Adding groceries to our Milpitas Walmart is good for families and seniors.

In these difficult economic times, Milpitas should be encouraging businesses to expand and create new jobs. Please vote to uphold the Planning Commission's certification of the EIR and support Walmart's expansion plans for its Milpitas store.

Dear Milpitas City Councilmembers,

I am a Walmart shopper and I support the plans to expand the Milpitas Walmart on Ranch Drive.

Expanding the Milpitas Walmart will increase consumer choice and tax revenue for the city while providing dozens of new jobs for local residents. Many Milpitas area residents rely on Walmart for our most essential shopping needs and Walmart has proven over the years to be an active and important member of the Milpitas community. Adding groceries to our Milpitas Walmart is good for families and seniors.

In these difficult economic times, Milpitas should be encouraging businesses to expand and create new jobs. Please vote to uphold the Planning Commission's certification of the EIR and support Walmart's expansion plans for its Milpitas store.

Dear Milpitas City Councilmembers,

I am a Walmart shopper and I support the plans to expand the Milpitas Walmart on Ranch Drive.

Expanding the Milpitas Walmart will increase consumer choice and tax revenue for the city while providing dozens of new jobs for local residents. Many Milpitas area residents rely on Walmart for our most essential shopping needs and Walmart has proven over the years to be an active and important member of the Milpitas community. Adding groceries to our Milpitas Walmart is good for families and seniors.

In these difficult economic times, Milpitas should be encouraging businesses to expand and create new jobs. Please vote to uphold the Planning Commission's certification of the EIR and support Walmart's expansion plans for its Milpitas store.

Additional Comments I come all the way from
Campbell to shop at this WalMart,
I can't wait to make it my "one"
Stop Shopping Store with
groceries & all the other products
they sell

Sincerely,

Name Lori Larson

I drive from Campbell specifically to
shop at this Walmart because it is
the one I like. I also drive a distance
to do my grocery shopping at Food Maxx.

May-25-10

Milpitas City Council,

I am against Walmart expanding,
I shop there once in awhile, only
if a friend goes.

I do my grocery shopping at Save
Mart only, and I've told them al-
ready, I've complained before about
prices going up (when I heard they
might close) but I won't ever
again. It's so nice to be able to
walk there.

I'm old, don't drive, can't walk
too far and Oh yes Arthur-it's
lived with me, and he doesn't
drive either.

Please hear us.

R. Garcia
