Subj: your thoughts

Mayor Esteves:

Since 2004 I have represented the City on the JPA Library group and the City's Library Commission as their council representative. As I continue with JPA duties and you are now assigned to the Library Commission, my thoughts would be toward these duties to be under one person, it seems more beneficial to act in the capacity of a Library representative to have the flow of information between these two groups in a manner that would benefit all. How do you feel on this subject?

Councilmember Giordano
