The differences I want to make in the community all have to do with how involved they are with local activities. There needs to be a larger emphasis on community organizing and some ways we could do that are by expanding on events we have already like Milpitas Got Talent, and making youth facilities more available and accessible, like the Teen Center.

2. How did you hear about the Youth Advisory Commission?

Sam mentioned the Commission and recommended I join when we were working together organizing after.

3. What have you heard or know about the Youth Advisory Commission?

The YAC organizes youth-centric events and works in conjunction with many facilities that attract kids and teens. They basically serve as the proxy through which the local government interacts with kids.

4. Have you ever attended a Youth Advisory Commission meeting? If so, explain your experience.

I have not yet attended a meeting.

2008-2012; Youth Volunteer at Cultural Center; Member

**2. Briefly describe the personal qualifications you possess which you believe would be an asset.**

Leadership, communication, passion, and experience are some of my qualities that would be beneficial to the Youth Advisory Commission. Focusing on leadership, this ability will allow me to take initiative with new projects and guide them to success. Along with this, I can facilitate the commission discussions and come up with original, but practical, ideas. My communication skills can enhance the commission by providing them with a member who can express her beliefs openly, speak in front of large groups of people, and collaborate with her peers to solve problems. Additionally, I can comprehend my colleagues' ideas and incorporate them into the action plan, thus creating a stronger and more thorough plan.

Next, my passion to serve my community can be an asset to the commission because it will bring out the best qualities in me; my love for Milpitas will fuel the creativity and thoughtfulness that I display in everything that I do. Lastly, the Youth Advisory Commission will benefit from the years of experience that I have working in my school's student council. As a class representative, I attended weekly meetings about school problems, spirit ideas, and fundraising. Then my team would take action by solving the problems, executing the spirit activities, and conducting the fundraisers. This experience can prove valuable to the commission because I can calmly solve problems,

come up with creative ideas, raise awareness for events, and conduct fundraisers. I have also gained experience as a member of a Girls For A Change club; here, my team and I worked to reduce bullying in our community by performing an anti-bullying skit at local elementary schools. This experience rewarded me with a plethora of valuable skills such as time management, communication, teamwork, and advertising skills. Additionally, I have developed my public speaking experience as a debater and an instructor for the American Red Cross, and I have enhanced my leadership skills as a member of Girl Scouts and as the co-captain of my school's chess club.

**3. What type of difference do you want to make for the youth in our community? (Please list two of your ideas.)**

I want the youth in our community to become empowered; I want them to believe in themselves and realize that they have the ability to solve their problems and achieve all their goals. I also want the Milpitas youth to become involved with their community and perform community service. This will give them a chance to show their gratitude to their community and learn many lifelong skills. To make these visions reality, I have come up with two ideas that the commission can put into action for the Milpitas youth. My first idea is to host a workshop about goal-setting, problem solving, time management, leadership skills, positive thinking, and more. There may also be a special session about the academic and extra-curricular requirements to get into a good college, for this will be extremely beneficial for many of the high school students. This workshop will empower the Milpitas youth, thus creating a big difference in our community.

My second idea is to organize fun activities for Milpitas youth who have earned fifty or more hours of community service within a six month period. These activities will be held twice a year at a variety of places like ice skating rinks, rock climbing facilities, bowling alleys, and more! I will collaborate with the specific organizations we are conducting the activities at and work out some group discounts for these events. These activities will accomplish my goal of encouraging the youth to perform community service, and the youth will have lot of fun!

**4. How did you hear about the Youth Advisory Commission?**

I heard about the Youth Advisory Commission through the Milpitas Post.

**5. What have you heard or know about the Youth Advisory Commission?**

I know that the Youth Advisory Commission advises the City Council about matters pertaining to Milpitas youth; they want to get the youth involved in our community and provide them with many ways to enjoy life and have fun. Another goal of the commission is to give the youth in our community a voice. Through the commission members, all the youth's problems discussed and solved. Along with this, the youth's opinions are taken into consideration when the commission makes substantial decisions. Lastly, I know that the Youth Advisory Commission organizes fundraisers and hosts events for Milpitas families such as Milpitas Got Talent.

**6. Have you ever attended a Youth Advisory Commission meeting? If so, explain your experience.**

Yes, I have attended a few Youth Advisory Commission meetings. My experience was extremely enlightening, for I discovered that the commission does so much for our community. Additionally, I was thoroughly impressed by the commission members' devotion to serving their community. The many items on the meeting agendas, like social media and YAC buttons, showed that the commission really tries to make Milpitas a better place to be. After attending the meetings, I want to become a part of the Youth Advisory Commission even more! I have a burning desire to enrich the lives of the Milpitas youth, and I will try my very best to achieve this goal.
