CITY OF MILPITAS

455 East Calaveras Boulevard, Milpitas, California 95035-5479 www.ci.milpitas.ca.gov (408) 586-3000

April 2013

Honorable Mayor, Members of the City Council:

INTRODUCTION

Transmitted herewith is the Proposed 2013-2018 Five-Year Capital Improvement Program (CIP).

The CIP is a comprehensive five-year plan of capital improvement projects for the City of Milpitas. Capital improvement projects include construction of capital assets including streets, park developments or upgrades, the acquisition of land, major construction and major repair/rehabilitation of City infrastructure and facilities, and specialized high cost purchases. The CIP reflects Council's priorities and policies to ensure that the needs of the community are met.

This document arranges the projects in the following six fund groups: Community Improvements, Parks, Streets, Water, Sewer, and Storm Drain and includes:

- A Table of Contents with numerical and alphabetical listings of all projects.
- Summaries of the 2013-2018 CIP showing fund group expenses, finance sources, and projects.
- Detailed CIP project descriptions by fund groups.
- Appendices that provide the estimate level descriptions, abbreviations, prioritization description, previously funded projects closed by June 30, 2013.

ACCOMPLISHMENTS IN 2012-2013

Following is a partial list of Capital Improvement Projects that have been successfully completed in the last year:

- City Hall AV Upgrade
- Wrigley Ford Dredging
- Alviso Adobe Park
- Milpitas Blvd Overlay
- Cape Seal Resurfacing Project
- Escuela Parkway Pedestrian & Bicycle Enhancement Project
- Abel Street Transit Connection
- Fire Stations Improvements

2013-2018 CAPITAL BUDGET

Funding for projects programmed in the first Fiscal Year 2013-2014 is recommended for approval at this time. Funding for the projects in subsequent years of the CIP is shown for planning purposes and funding does not become available until it is appropriated in future CIP documents. The 2013-2014 Capital Budget, totaling approximately \$18,894,950 million is summarized below:

PROJECT CATEGORY	FY 13-14	Projected % OF TOTAL
Community Improvement Projects	1,400,000	7.4%
Park Projects	2,100,000	11.1%
Street Projects	5,494,950	29.1%
Water Projects	2,400,000	12.7%
Sewer Projects	7,500,000	39.7%
Storm Drain Projects	0	0.0%
TOTAL	\$18,894,950	100.0%

Projects recommended for funding during 2013-2018 are shown in the CIP summaries at the beginning of each section. The Planning Commission reviewed this document on April 10th and found it in conformance with the General Plan.

FINAL 2013-2018 FIVE-YEAR CAPITAL IMPROVEMENT PROGRAM

The Proposed five-year Capital Improvement Program totals approximately \$137 million. The Proposed 2013-2018 CIP program is compared with last year’s program below. The Proposed CIP shows an increase of approximately \$53.4 million in the five-year program.

FUND GROUP	2012-2017 PROGRAM		2013-2018 PROGRAM	
	Cost	% of Total	Cost	% of Total
Community Improvement Projects	4,450,000	5.3%	5,775,000	4.2%
Parks Projects	18,400,000	22.0%	19,900,000	14.5%
Streets Projects	11,578,000	13.9%	47,933,230	35.0%
Water Projects	27,550,000	33.0%	22,150,000	16.2%
Sewer Projects	12,500,000	15.0%	30,515,000	22.3%
Storm Drain Projects	8,980,000	10.8%	10,550,000	7.7%
TOTAL	\$83,458,000	100.0%	\$136,823,230	100.0%

FUND GROUP FINANCING

COMMUNITY IMPROVEMENTS

This fund group includes projects such as the City Facilities Improvements, Fire Station Improvements, Finance System Upgrades, MSC Master Plan Update and MSC Pool Resurfacing. Community Improvements projects are funded by Equipment Replacement Fund, Transient Occupancy Tax, and other sources.

PARKS

Park Dedication Fees are the primary source of revenue for this fund group. Additional revenue sources include Transit Area Specific Plan (TASP) Fees, County, State and Federal Grants. Staff continues to pursue outside funding sources in order to fund additional projects.

STREETS

The Street Fund revenues are obtained from State gas taxes, Vehicle Licensing Fees, Transient Occupancy Tax, Traffic Impact Fees, and other grants and fees.

WATER

Revenues for this fund group are derived from the water user rate structure (Water Fund) as well as developer hookup fees (Water Line Extension).

SEWER

Revenues for this fund group are derived from the sewer user rate structure (Sewer Fund) and developer hookup fees (Sewer Treatment Plant) fees.

STORM DRAIN

Storm Drain projects are funded from a combination of the Storm Drain Fund, and Developer Contributions based on eligibility for these respective funding sources. The Storm Master Plan update identifies several more projects for the Capital Improvement Program. Staff will seek additional funding sources at the local, state and federal levels and may propose a storm drain fee to fund these infrastructure projects.

FIVE-YEAR PROGRAM REVISIONS

31 new projects have been added to the Final 2013-2018 Capital Improvement Program. The projects were added on a need and affordability basis. New projects recommended for funding are listed in ***bold italics*** in the summaries at the beginning of each section. The summaries identify the projects within each fund group, project costs, funding sources, and the year funding is proposed.

ESTIMATES

The accuracy of estimated project costs throughout this document varies depending on the degree of detail given to project proposals. Estimates range from conceptual estimates to detailed design estimates for projects ready to go out to bid. Staff used three categories of "estimate levels" in determining project cost estimates for the projects in the annually revised CIP. The estimate level for each project is identified in the upper right hand corner of the individual projects pages and further described in Appendix A.

CONCLUSION

This Capital Improvement Program was developed in order to protect and enhance the City's capital assets and infrastructure, so as to preserve and improve the quality of life for Milpitas residents.

I want to thank the members of the City Council for their integrity in directing the financial affairs of the City in a responsible and progressive manner. I also want to thank the Department Heads, Division Managers and Engineering staff involved in the project selection/prioritization process, and for the successful implementation of the CIP program.

Respectfully submitted,

Thomas C. Williams
City Manager

**City of Milpitas
2013-18 CAPITAL IMPROVEMENT PROGRAM**

Category	Project	Estimate Level
Community Improvement	3403 Fire Station Improvements	1

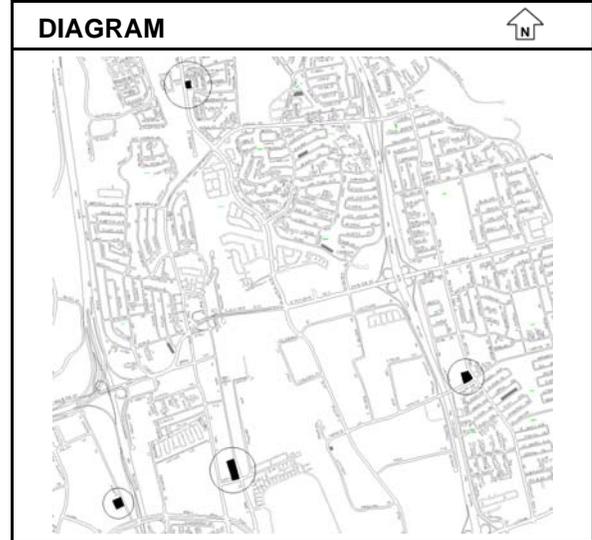

CONTACT: Steve Erickson [3301]

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

DESCRIPTION

This project provides various improvements at all four fire stations. The work involves renovation and/or replacement of electrical and mechanical systems, plumbing renovation, parking lots, emergency power generator systems, interior and exterior paintings, replacement of floor coverings, restroom and shower facilities, kitchen improvements, re-roofing and other building and site related improvements. Work will also include energy savings improvements. All work will be performed on a priority basis.

COMMENTS:

Uncommitted Balance as of 2/28/2013: \$1,161,455

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

DESCRIPTION

This project involves renovation and rehabilitation improvements at all City buildings including Public Works/Police, Community Center, City Hall, and Sports Center. The work involves replacement of electrical and mechanical systems at the Community Center, water heater/co-generator and pool equipment renovations at the Sports Center, electrical upgrades, including an emergency generator at the Sports Center. PW/PD and City Hall retrofit work, interior and exterior painting, carpeting and other related improvements. Work will also include energy savings improvements, such as replacement of lighting fixtures with energy saving fixtures, and installation of a more efficient climate controls systems.

COMMENTS:

Projects will be implemented based on a prioritized building renovation list, to assure a high level of service to the community and to maximize the life of the City Facilities.

Community Improvement	New 2015 Finance System Upgrade	1

CONTACT: Jane Corpus [3125]

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

DESCRIPTION

This project provides upgrades to keep our Financial system up to date. It is essential that the system be current in order to utilize technology efficiently and effectively. This major system includes General Ledger, Accounts Payable, Cash Collection, Payroll/Human Resources, Job Costing and Purchase Order. In addition, the Finance system also manages Budget Preparation, Business License, Investment Software and Fixed Asset systems.

COMMENTS:

The proposed funding is for the system required upgrades, equipment and staff training.

Category	Project	Estimate Level
Community Improvement	New City Hall Pond & Water Feature Rehabilitation	1

CONTACT: Steve Erickson [3301]

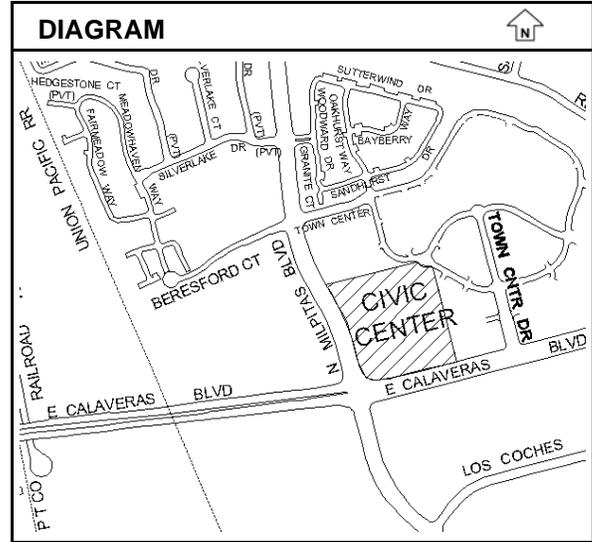

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

DESCRIPTION

The project provides for the replacement of the pump system for the pond and water feature in front of City Hall, and provides for the replacement and upgrade of the chlorination and water quality systems. The project also provides for the re-coating of the pond at the rear of City Hall with a system that is less prone to annual maintenance.

COMMENTS:

The City Hall pond and water features require a significant amount of maintenance to maintain operational. The system for the front fountain failed several years ago and is in need of replacement. The chlorination and water quality systems are also in need of rehabilitation due to corrosion and age. The rear pond has recently required annual patching and coating to fill cracks that leak water. The installation of a coating system similar to what is installed in swimming pools is desired to seal the pond and reduce the amount of maintenance.

Community Improvement	New MSC Facility Improvements	1

CONTACT: Steve Erickson [3301] / Jaime Chew (3369)

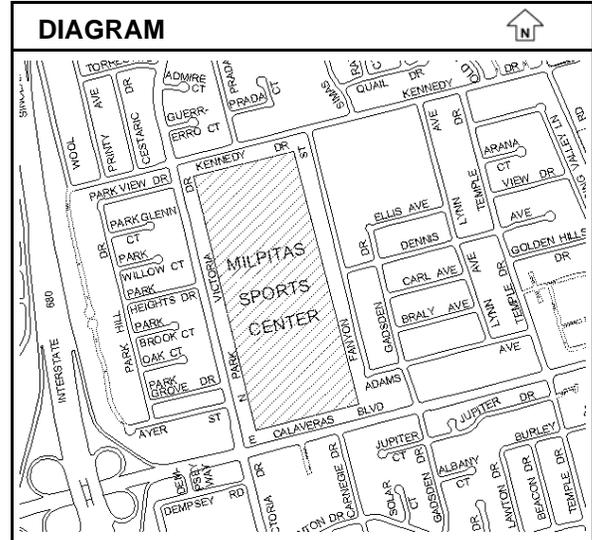

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

DESCRIPTION

This project provides for various improvements to the Milpitas Sports Center facility. The work includes resurfacing the plaster at the three swimming pools and replacement of tile work, lane lines, and other pool elements. The project will reconstruct the Men's and Women's showers/restroom area, replace the locker room flooring and other code related upgrades to the facility.

COMMENTS:

These pools are heavily used year round and require resurfacing every 5 years. California Health and Safety Code, Section 3106B.3 states that the finished pool shell shall be lined with a smooth waterproof interior finish that will withstand repeated brushing, scrubbing and cleaning procedures. The locker room improvements will be prioritized ahead of the pool resurfacing.

Community Improvement	New Police/Public Works Generator Transfer Switch Replacement	1

CONTACT: Steve Erickson [3301]

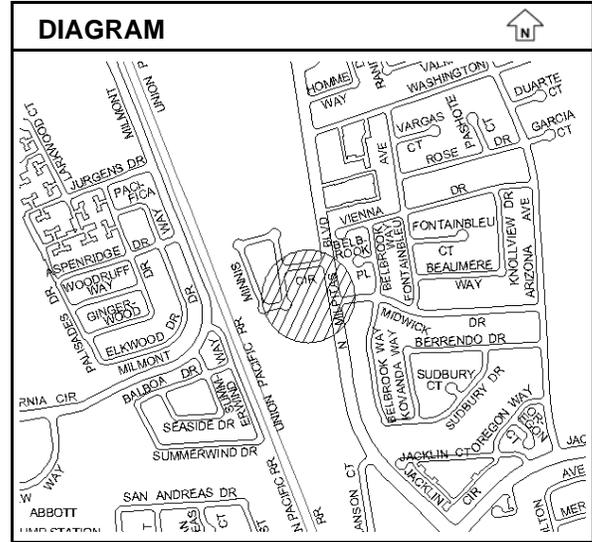

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

DESCRIPTION

The project provides for the replacement and upgrade of the Public Works/Police switch gear and emergency generator automatic transfer equipment and other building management systems.

COMMENTS:

The Public Works/Police building has an emergency generator that provides power to operate the 911 system, computer systems, radios, and other emergency equipment when PG&E power is out, and in case of a disaster emergency. The generator and electrical switch gear system include an automatic transfer switch, the purpose of which is to switch power to the emergency generator when PG&E power is disrupted or off. The equipment was installed over 20 years ago, and the transfer switch has started to fail and not automatically switch power to emergency generator power.

Community Improvement	New	Public Works/Police Building Improvements	1

CONTACT: Steve Erickson [3301]

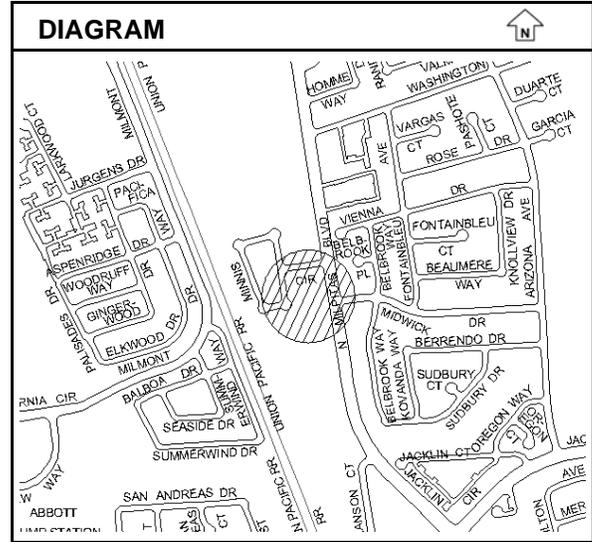

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

DESCRIPTION

The project provides for the repair of the roof systems and parapet walls, repair and replacement of window systems, removal of the wooden sun shade structure, and exterior patching and painting.

COMMENTS:

The Public Works/Police building was constructed in the 1990's, and it is now time for significant repairs. Recently, the exterior parapet walls and roofing systems have developed water leaks that are deteriorating the buildings structure. Several of the aluminum window systems are deteriorated and are in need of repair. Within the last few years, Public Works staff removed the rotted exterior wood shade structures that surround the buildings exterior. The shades remaining along the buildings east face are rotted to the point that they need to be removed.

**City of Milpitas
2013-18 CAPITAL IMPROVEMENT PROGRAM**

Category	Project	Estimate Level
Park Improvement	5092 Main Street Park	1

CONTACT: Steve Erickson [3301]

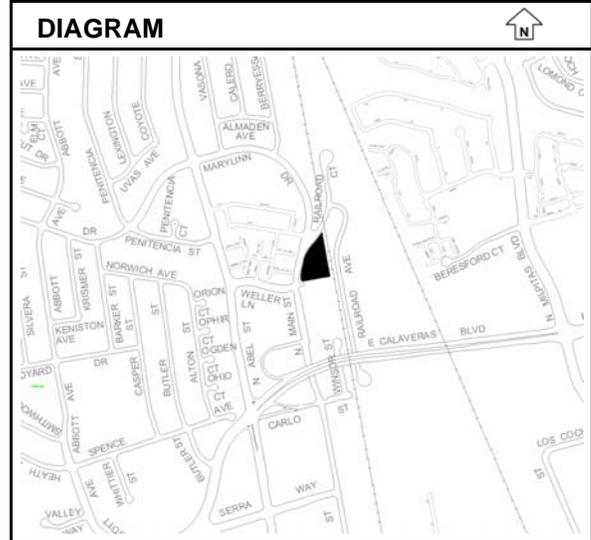

PRIORITY: Improve the Quality of Life

DESCRIPTION

This project provides for the design and construction of a new park on the City owned parcel just north of the Milpitas Library. Improvements will include a large gathering area to accommodate Park's activities such as "Music in the Park", shade structures, landscaping, drainage, hardscape and walkways. This project will also include street modifications to the intersection of Railroad Ave. and Main St., removing the pork-chop island and reconfiguring the south and east curbs of Main St. and Railroad Ave. Pedestrian improvements to the library parking garage are also included.

COMMENTS:

An optional historic museum could be added to the park for an additional \$1 to \$2 million.

Uncommitted Balance as of 2/28/2013: \$350,000

Category	Project		Estimate Level
Park Improvement	5096	Pinewood Park Picnic Renovation	1

CONTACT: Michael Boitnott [3315]

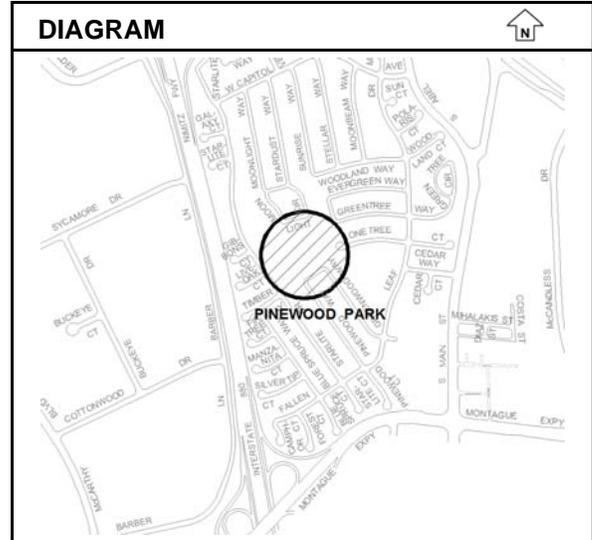

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

DESCRIPTION

This project provides for the design and construction of renovation improvements for various park elements at Pinewood Park. These include the large picnic area and perimeter landscaping, ADA compliance assessment and improvements, drainage, lighting, walkways, irrigation, and related improvements.

COMMENTS:

Pinewood Park is one of the City's oldest and heavily used parks and is in need of major renovation work.

Uncommitted Balance as of 2/28/2013: \$348,478

Category	Project	Estimate Level
Park Improvement	New Berryessa Creek Trail, Reach 4, 5, 6A	1

CONTACT: Kathleen Phalen [3345]

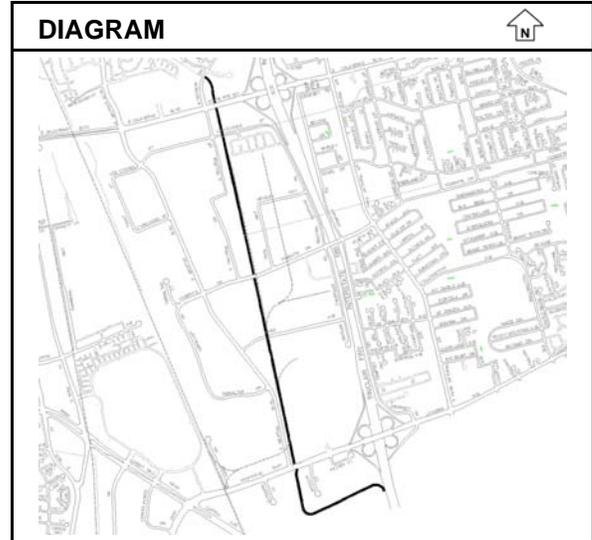

PRIORITY: Improve the Quality of Life

DESCRIPTION

This project provides for the design and construction of Reach 4,5 and 6A of the Berryessa Creek Trail from Calaveras Blvd to San Jose City limits South of Montague Expressway. The scope of work includes trail paving, trail accessibility improvements, intersection modifications at Yosemite/S. Hillview, Ames Ave./S. Milpitas Blvd., and Gibraltar Ave/S. Milpitas Boulevard, and S. Milpitas/Montague, plantings and trail amenities. The project will coordinated with the proposed US Army Corp of Engineers and SCVWD creek flood improvements project. It is also identified in the VTP 2040 Plan, as it provides a direct pedestrian/bicycle connection from the Town Center to the future BART station.

COMMENTS:

This project is identified and described further in the "Berryessa Creek Trail and Coyote Creek Trail Feasibility Report".

Uncommitted Balance as of 2/28/2013: \$0

Category	Project	Estimate Level
Park Improvement	New Cardoza Park Improvements Phase II	1

CONTACT: Michael Boitnott [3315] / Steve Erickson [3301]

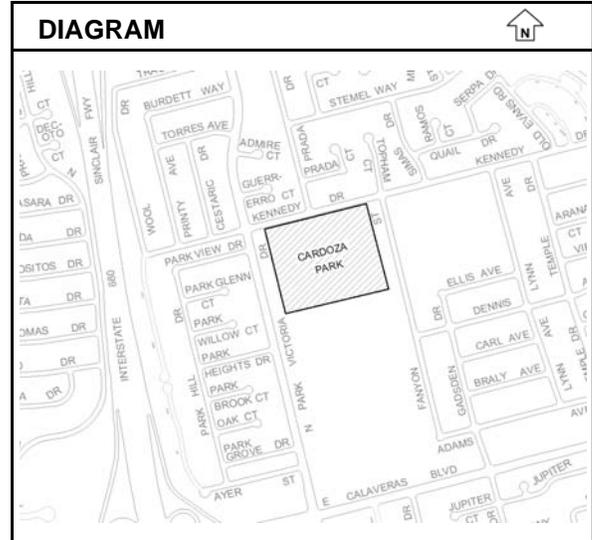

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

DESCRIPTION

This project provides for the design and construction of phase II of the Cardoza Park renovation. The phase II improvements include: parking lot rehabilitation, community building, large picnic areas, an entry gateway, water spray park, pathways and landscaping.

COMMENTS:

Cardoza is the City's most active park and is considered a "Community Park" serving all Milpitas residents. The Park Master Plan provides additional information on all phases of the park improvements. Construction costs are estimated at \$5,000,000 and will be programmed in 2018-19.

Uncommitted Balance as of 2/28/2013: \$0

Park Improvement	New Murphy Park Picnic & Playground Renovation	1

CONTACT: Michael Boitnott [3315]

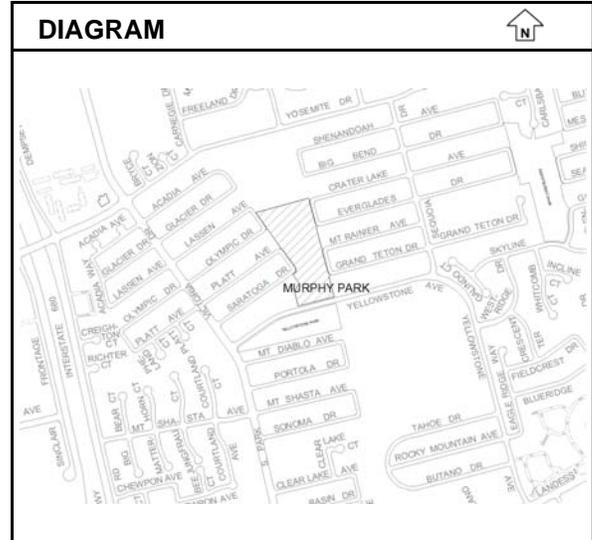

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

DESCRIPTION

This project provides for the design and construction of renovation improvements for various park elements at Murphy Park. Those includes the large picnic area, playground and surrounding area, ADA compliance assessment and improvements, drainage, landscaping, walkways and related improvements.

COMMENTS:

Murphy Park is an older park which is heavily used, including sports activities and City programs such as "Music in the Park" and is in need of major renovation. Construction costs are estimated at \$2,700,000 and will be programmed in 2016-17.

Uncommitted Balance as of 2/28/2013: \$0

Category	Project	Estimate Level
Park Improvement	New Park Irrigation System Repair & Improvement 2014	1

CONTACT: Steve Erickson [3301]

PRIORITY: Improve the Quality of Life

DESCRIPTION

This project provides for the repair and replacement of park irrigation systems and related equipment in City Parks.

COMMENTS:

The City has over 25 parks thru out the City, and many of these have irrigation systems that are over 40 years old. These older systems are not well document, and are problematic to locate to for repair. The systems are inefficient and leak, and there are some that are no longer operational. Irrigation systems that do operate require a significant amount of maintenance to fix continuous line breaks or to adjust worn parts.

City of Milpitas
2013-18 CAPITAL IMPROVEMENT PROGRAM

Category	Project	Estimate Level
Streets	4254 Sidewalk Replacement 2011	1

CONTACT: Steve Chan [3324]

PRIORITY: Health and Safety Projects

DESCRIPTION

This project involves citywide replacement of existing curb, gutter and sidewalk. The project also involves street tree root cutting to prevent further damage to sidewalks. The scope also includes installation of ADA ramps. An annual visual inspection is conducted to determine and establish a priority list of candidate sites for replacement. Sections of sidewalk with vertical separation of 3/4" or more are completely removed and replaced. At locations where a vertical separation less than 3/4" exists, a concrete grinding method is used to eliminate trip hazards.

Category	Project	Estimate Level
Streets	4267 Soundwall Renovations	1

CONTACT: Steve Erickson [3301] / Julie Waldron [3314]

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

DESCRIPTION

This project renovates the City owned sound walls along N. Milpitas Boulevard, Escuela Parkway, Jacklin Road at Horcajo, La Palma, Hillview Drive at Tularcitos Creek, Nicklaus at N. Park Victoria and other locations. Portions of the walls have deteriorated and will need to be structurally repaired or completely replaced. In some locations, the ground elevation on the residence side is much higher than on the public street side. The soundwalls were not designed as retaining walls, so they require structural retrofit work or replacement.

FINANCE NOTES

The City has applied for a \$1.65 Mil grant from STIP and it is anticipated it will be funded in spring 2014. The grant requires that the City provide an 11.47% local match of participating grant funds. Project design, City administration, and inspection costs are not grant applicable.

**City of Milpitas
2013-18 CAPITAL IMPROVEMENT PROGRAM**

Category	Project		Estimate Level
Streets	New	Bicycle Facility Improvements - Phase 1	1

CONTACT: Steve Chan [3324]

PRIORITY: Improve the Quality of Life

DESCRIPTION

The project provides for bicycle facility improvements throughout the City as described in the City of Milpitas Bikeway Master Plan Update, adopted June 2009. The program will include 5 projects: 1) S. Abel Street, Arterial Connection, Class II Facility, 2) Arizona Avenue Neighborhood Connection, Class III Facility, 3) Calaveras Boulevard, Route Arterial Connection, Class III Facility, 4) Temple Drive, Neighborhood Connection, Class III Facility 5), Sequoia Drive Neighborhood Connection, Class III Facility

COMMENTS:

Projects in the Bikeway Master Plan Update are prioritized and ranked in 3 Tiers, with Tier 1 being implemented within 1-5 years. The projects listed are the highest ranked and prioritized projects in Tier 1. The purpose of the Arterial and Neighborhood connections are to fill in gaps and connect existing bike facilities with new facilities, providing a cohesive City bicycle network.

2013-18 CAPITAL IMPROVEMENT PROGRAM**

Category	Project		Estimate Level
Streets	New	Milpitas Boulevard Plan Line Study	1

CONTACT: Steve Erickson [3301]

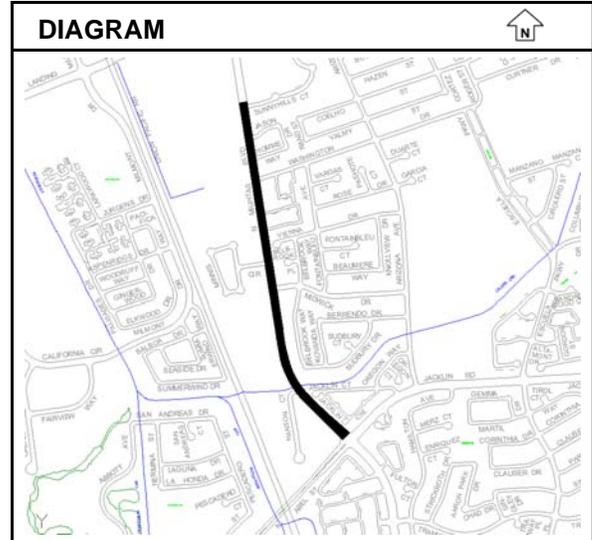

PRIORITY: Studies and Analyses

DESCRIPTION

This project provides for the preparation of a Plan Line Study to evaluate the feasibility of installing landscaped median islands on N. Milpitas Blvd between Jacklin and Sunnyhills Ct. Raised medians can provide improvements to traffic safety and provide an opportunity for street beautification. This study will also evaluate the feasibility of installing other street amenities such as street lighting, access control, pedestrian and bicycle improvements.

COMMENTS:

Plan Line Study will include an extensive community outreach plan, and will recommend a funding plan for the improvements.

Streets	New Minor Traffic Improvements 2016	1

CONTACT: Steve Chan [3324]

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

DESCRIPTION

This project provides for traffic studies, speed surveys, and traffic counts. This project also includes minor traffic improvements that result from community service requests. Typical improvements include roadway markings/signage improvements and the installation of roadway undulators.

COMMENTS:

Category	Project		Estimate Level
Streets	New	Pedestrian and Bicycle Overcrossing	1

CONTACT: Steven McHarris (3273)

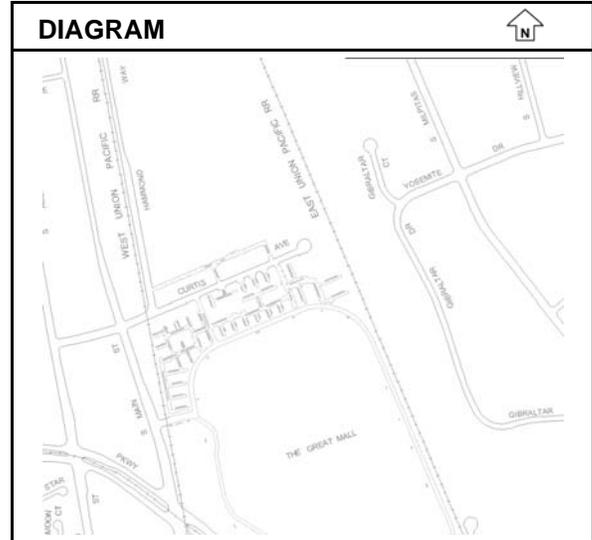

PRIORITY: Improve the Quality of Life

DESCRIPTION

The project will provide a pedestrian and bicycle overcrossing connector over Union Pacific Railroad and future BART tracks from approximately the easterly terminus of Curtis Avenue to Gibraltar Drive. This project would require that right-of-way be purchased to accommodate the connection. The overcrossing type will be selected to minimize construction cost, right-of-way requirement, and maintenance cost.

COMMENTS:

The project has right-of-way constraints, potential utility conflicts, and requires UPRR, CPUC, and BART permitting and approval. It is estimated that the total cost of the project would be \$18 million.

Category	Project		Estimate Level
Streets	New	S. Milpitas Blvd Bike/Ped. Improvements	1

CONTACT: Steve Chan [3324]

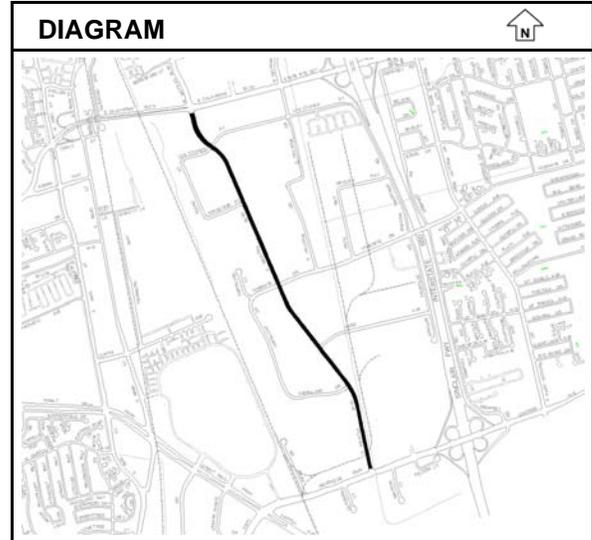

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

DESCRIPTION

This project provides a Plan Line Study to evaluate opportunities and constraints to install Class I bicycle lanes on either side of Milpitas Blvd. and to provide improved sidewalk facilities on South Milpitas Blvd. between Calaveras Blvd. and Montague Expressway. Roadway modifications will also be required to accommodate these enhanced facilities. The Plan Line Study will also identify additional right of way required for these improvements.

COMMENTS:

This project has been added to the VTP 2040 Plan for State Regional Grant Funding.

Category	Project	Estimate Level
Streets	New Sidewalk Replacement 2015	1

CONTACT: Steve Chan [3324]

PRIORITY: Health and Safety Projects

DESCRIPTION

This project involves citywide replacement of existing curb, gutter and sidewalk. The project also involves street tree root cutting to prevent further damage to sidewalks. The workscope also includes installation of ADA ramps. An annual visual inspection is conducted to determine and establish a priority list of candidate sites for replacement. Sections of sidewalk with vertical separation of 3/4" or more are completely removed and replaced. At locations where a vertical separation less than 3/4" exists, a concrete grinding method is used to eliminate trip hazards.

Streets	New Street Landscape Irrigation Repair 2014	1

CONTACT: Steve Erickson [3301]

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

DESCRIPTION

This project provides for the repair and replacement of streetscape and median irrigation systems and related equipment on City streets.

COMMENTS:

The City has many miles of landscaped street medians and curb planter areas in the City. The older irrigation systems are not well documented, leak, and are inefficient and do not provide suitable irrigation to support healthy landscape.

Category	Project	Estimate Level
Water	2002 Second SCVWD Water Reservoir & Pump Station	1

CONTACT: Kathleen Phalen [3345]

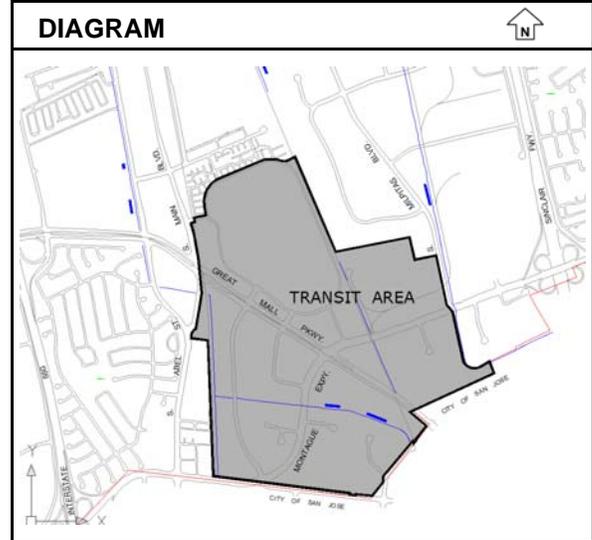

PRIORITY: Mandatory or Committed Projects

DESCRIPTION

This project will provide potable water reservoir (6.6 million gallons) and pump station to serve the SCVWD water service area, as recommended in the Milpitas 2009 Water Master Plan Update. This facility is necessary to serve the Midtown and Transit Area Specific Plan and other future development. The scope includes land purchase, design and construction of a reservoir, pump station, a second SCVWD water supply turnout and related improvements.

COMMENTS:

The new water facility will require acquisition of approximately 3 acres in the Transit Area at an estimated cost of \$6.7 million. Design and Construction will be programmed in the future at a cost estimate of \$15 Million. Total cost estimate is \$21.7 Million.

Uncommitted Balance as of 2/28/2013: \$200,000

2013-18 CAPITAL IMPROVEMENT PROGRAM**

Category	Project	Estimate Level
Water	7100 Water System Seismic Improvements	1

CONTACT: Kathleen Phalen [3345]

PRIORITY: Health and Safety Projects

DESCRIPTION

This project develops a comprehensive Water System Seismic Improvements Program which includes seismic upgrades to the City's "back-bone" water system as defined in the Water System Seismic Improvement Strategic Plan. The scope also includes purchase of water system materials and equipment for emergency response to a major disaster. A complete list of improvements is identified in the priority list (Appendix F of DSWA report) with additional work scope identified in follow up engineering studies.

COMMENTS:

Total program preliminary cost estimate is a minimum of \$25 million, through 2020.

Uncommitted Balance as of 2/28/2013: \$5,542,813

Category	Project		Estimate Level
Water	7110	Hydrant Replacement	1

CONTACT: Michael Boitnott [3315]

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

DESCRIPTION

This project involves replacement of hydrants in the Manor, Sunnyhills, and Milford neighborhoods. Other locations may include Calaveras Blvd, Park Victoria and Jacklin Road. Additional work may include replacement of the water valve for the hydrant.

COMMENTS:

These hydrants have reached the end of their useful life and need to be replaced.

Uncommitted Balance as of 2/28/2013: \$169,379

2013-18 CAPITAL IMPROVEMENT PROGRAM**

Category	Project	Estimate Level
Water	7115 Cathodic Protection Improvements	1

CONTACT: Steve Erickson [3301] / Julie Waldron [3314]

PRIORITY: Projects Which Avoid Future Additional Costs

DESCRIPTION

This project provides an evaluation study and installation of corrosion monitoring station and recommendations for retrofit or anode replacement. The project will also provide for upgrades of deficiencies defined in the evaluation study.

COMMENTS:

The soils have been found to be highly corrosive at certain locations in Milpitas. Corrosive soils are detrimental to steel pipes in the water distribution system.

Uncommitted Balance as of 2/28/2013: \$374,180

Category	Project	Estimate Level
Water	New Abel Street Pipeline Extension	1

CONTACT: Marilyn Nickel [3347]

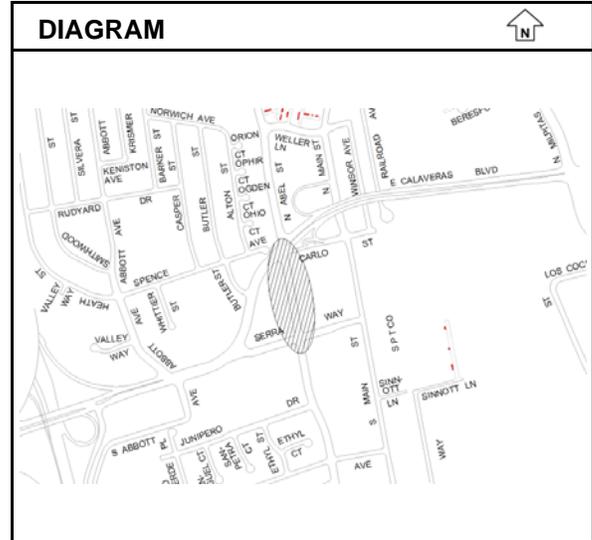

PRIORITY: Health and Safety Projects

DESCRIPTION

This project installs 300 linear feet of 12-inch pipe to connect three "dead-end" pipes, one on Abel Street and two on Carlo Street. This improvement will improve water pressure and water quality through improved system circulation.

COMMENTS:

This is identified in Section 6.3.4.4. of the 2009 Water Master Plan Update.

Uncommitted Balance as of 2/28/2013: \$0

Water	New BART Project - Water Improvements	1

CONTACT: Kathleen Phalen [3345]

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

DESCRIPTION

The BART project will cause the relocation of existing utilities along the BART corridor at its own expense. In addition, there are other related water system improvements which have been identified by the City, to be completed as part of the BART utility relocation effort. The City is required to cost share for these enhancements. Water projects include: Upsize of existing water crossing at Montague and Capitol, installation of 2 new water crossings south of Montague, and possible and upsize pipelines in Piper Drive Area.

Water	New Construction Water	1

CONTACT: Kathleen Phalen [3345]

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

DESCRIPTION

The construction activities for public infrastructure and private development require the use of water for increasing moisture content to achieve optimum compaction, dust control as well as other uses. This project will install recycled water construction pay stations in strategic locations and will provide for the use of recycled water instead of potable water for these construction activities.

Water	New Dempsey Road Water Line Replacement	1

CONTACT: Steve Erickson [3301]

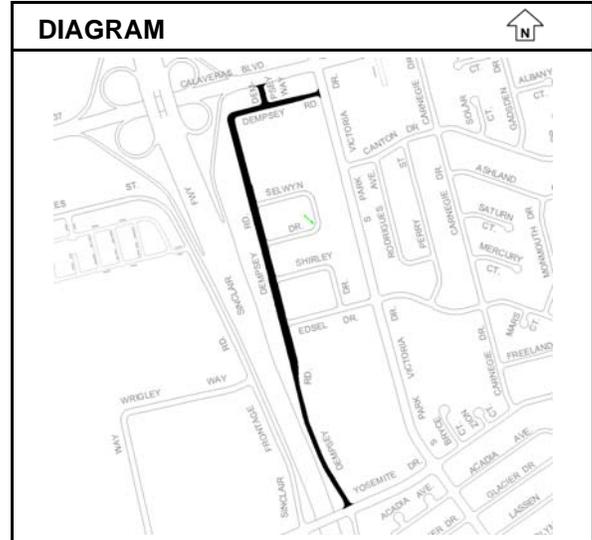

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

DESCRIPTION

This project replaces approximately 3,400 linear feet of 12" diameter cast iron pipe along Dempsey Rd. between Calaveras Blvd. and Yosemite Dr. The pipe was installed in 1950's and the pipe has reached the end of its useful life.

COMMENTS:

The pipeline has experienced excessive corrosion which is causing line breaks. Replacement must occur to minimize impacting water customers.

Category	Project	Estimate Level
Water	New Supervisory Control & Data Acquisition (SCADA)	1

CONTACT: Kathleen Phalen [3345]

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

DESCRIPTION

A Supervisory Control and Data Acquisition System provides real-time data, such as water tank level, pump operational status, system pressure, and flow rates to water system operators. Operators can use this data to identify operational problems, such as high velocities and low pressures, pressure spikes, both indicators of pipe breaks. SCADA also allows for remote monitoring and operation of pumps and valves to implement corrective actions and maintain water supply.

COMMENTS:

Currently operators rely on unsophisticated alarms at limited locations and customer complaints to become aware of water system problems. Operators must drive to sites to evaluate the problem and implement corrective action, such as starting a back-up pump, when the main pumps fail.

Water	New	Water O&M Database Management	1

CONTACT: Steve Erickson [3301]

PRIORITY: Projects Which Avoid Future Additional Costs

DESCRIPTION

This project would integrate and expand the GIS database to include water system facility data, such as age of pipe, year of installation, type of pipe, age of valves, maintenance history, and frequency and type of breaks.

COMMENTS:

Some of the City's water system infrastructure is now 50 years old and reaching the end of it's useful life. This database would enable staff to maintain repair records, identify and record the status of infrastructure and provide timing recommendations for replacement.

Water	New Water Supply Blending Study	1

CONTACT: Marilyn Nickel [3347]

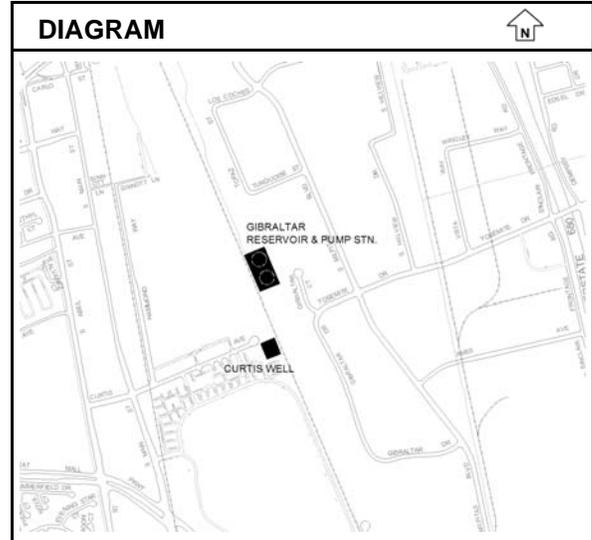

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

DESCRIPTION

This project provides an engineering study to analyze the feasibility and cost benefits of connecting the Curtis Avenue ground water well to Gibraltar Reservoir and pump station for the purpose of blending well water with SC VWD and Hetch-Hetchy water, and blending of the two wholesale water supplies

COMMENTS:

Ground water has a higher mineral content, and by mixing with SCVWD and/or Hetch-Hetchy, the water quality can be improved.

Water	New Water System Air Relief Modifications 2014	1

CONTACT: Steve Erickson [3301]

PRIORITY: Health and Safety Projects

DESCRIPTION

This project retrofits existing air relief valves which are currently located below ground level to vaults above ground level. This work is mandated by the California Department of Public Health, under State Code, Title 22, Chapter 16. The purpose of placing valves above ground is to eliminate the possibility of water system contamination by backflow into valves during flooding.

COMMENTS:

Approximately 250 sites throughout the City have been identified for retrofitting. 150 of the highest priority sites have been completed.

Category	Project	Estimate Level
Water	New Water Valve Replacement	1

CONTACT: Marilyn Nickel [3347]

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

DESCRIPTION

This project provides for the replacement of water valves on the water system. These valves are an important element of the aging infrastructure, allowing the system to be isolated during emergency or planned work on the water system.

Sewer Improvement	New BART Project - Sewer Improvements	

CONTACT: Kathleen Phalen [3345]

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

DESCRIPTION

The BART project will cause the relocation of existing sewer pipelines utilities along the BART corridor at its own expense. The City has identified sewer pipelines improvements which should be completed as part of the BART utility relocation effort. These include rerouting and upsizing based on the City's Sewer Master Plan. These additional sewer system improvements are outside of the BART project scope and are to be paid for by the City.

Sewer Improvement	New San Jose/Santa Clara Regional Waste Water Facility	1

CONTACT: Kathleen Phalen [3345]

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

DESCRIPTION

The City of Milpitas pumps our sewage to the San Jose/Santa Clara Regional Waste Water Facility for waste water treatment before it can be discharged into the San Francisco Bay. This project will fund Milpitas's share of the facilities rehabilitation costs. The facility was originally constructed in 1956 and is reaching the end of its useful life and is in need of a complete overhaul. The City of San Jose which operates the facility is undergoing a large rehabilitation project to completely overhaul the facility over the next 30 years. The City of Milpitas uses approximately 7% of the facility and will be responsible for 7% of the estimated \$2 billion or \$140 million in improvements that will be made over the next 30 years.

FINANCE NOTES

**City of Milpitas
2013-18 CAPITAL IMPROVEMENT PROGRAM**

Category	Project	Estimate Level
Sewer Improvement	New Sanitary Sewer Overflow Improvements	1

CONTACT: Kathleen Phalen [3345]

PRIORITY: Mandatory or Committed Projects

DESCRIPTION

This project includes multiple measures to reduce sewer system overflows. A pilot program for "smart" manhole covers would be implemented. These manhole covers contain a sewer manhole flow level sensor that would transmit alarms prior to overflows. In addition, sewer backflow devices would be installed at selected sites.

COMMENTS:

State regulations require sewer system agencies to reduce sewer system overflows.

Category	Project		Estimate Level
Sewer Improvement	New	Sewer Main Replacement Study 2018	1

CONTACT: Kathleen Phalen [3345]

PRIORITY: Studies and Analyses

DESCRIPTION

This project involves field evaluation of the remaining useful life of the city's sewer lines including but not limited to: McCarthy/Technology/Cypress and Barber/Bellew.

COMMENTS:

The 2002 Depreciation Study has estimated the remaining life of the existing sewer system infrastructure. This work is to field verify the projects identified with useful life ending by 2017, confirm the need and scope of work, and prioritize these projects. It may also include pipelines requiring significant attention even if they are not at the end of their useful life.

Sewer Improvement	New Supervisory Control & Data Acquisition (SCADA)	1

CONTACT: Steve Erickson [3301]

PRIORITY: Projects Which Avoid Future Additional Costs

DESCRIPTION

A Supervisory Control and Data Acquisition (SCADA) system provides real-time data, such as wet well level, and pump operational status to sewer system operators. Operators can use this data to identify operational problems. SCADA allows for remote monitoring and operation of pumps to implement corrective actions and maintain wastewater discharge to the regional wastewater treatment plant.

COMMENTS:

Currently operators rely on unsophisticated alarms and must drive to sites to evaluate the problem and implement corrective action. This work includes analysis and design only. Additional funding is required for installation.

Category	Project	Estimate Level
Storm Drain Improvement	3700 Storm Drain System Deficiency Program	1

CONTACT: Steve Erickson [3301]

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

DESCRIPTION

This project involves the design and construction of storm drain pipeline at various locations, primarily due to insufficient capacity and aging infrastructure. The areas include but are not limited to: Wrigley and Vista Way, Rocky Mountain Avenue, Watson Court, South Park Victoria Drive, Jacklin Road, Traugher Street, Park Hill Drive, Prada Drive, Abbott Avenue, Coyote Street, UPRR near Jurgens, and Sycamore Drive. In some locations, the existing storm drain pipe will be removed and replaced with larger pipe. In other locations, a second parallel pipe will be installed depending conditions of the existing pipe and space constraints with other utilities. Work scope also includes pump station rehabilitation work to electrical and mechanical systems.

COMMENTS:

Additional projects and work scope will be programmed based on the new Storm Drain Master Plan.

Storm Drain Improvement	New BART Project Storm Improvements	

CONTACT: Kathleen Phalen [3345]

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

DESCRIPTION

The BART project will cause the relocation of existing storm drain utilities along the BART corridor at its own expense. The City has identified additional storm drain improvements which should be completed as part of the BART utility relocation effort, at the City's cost. These include rerouting storm drain lies on Capitol Avenue, to eliminate localized annual flooding and other enhancements.

Storm Drain Improvement	New	Oak Creek Pump Station Upgrade	1

CONTACT: Kathleen Phalen [3345]

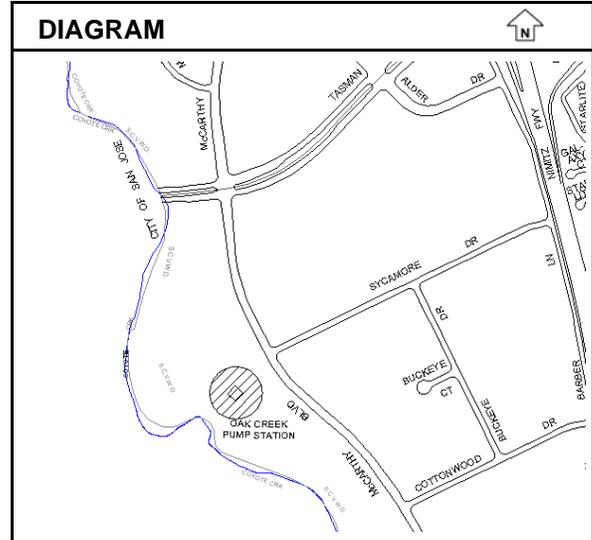

PRIORITY: Major Service Equipment Replacement

DESCRIPTION

This project provides for the replacement of the diesel engines with electric motors. The work also includes wet well modifications and new control panels, as well as other minor items. The pump is located near Sycamore Drive and McCarthy Boulevard and provides drainage for the Oak Creek Industrial Park Area.

COMMENTS:

This project is described on page 6-37 of the 2001 Storm Drain Master Plan. The first phase of work includes design. Additional funding will be required in subsequent years for construction.

Uncommitted Balance as of 2/28/2013: \$0

FINANCE NOTES

**City of Milpitas
2013-18 CAPITAL IMPROVEMENT PROGRAM**

Category	Project	Estimate Level
Storm Drain Improvement	New Penitencia Pump Station Improvements	1

CONTACT: Steve Erickson [3301]

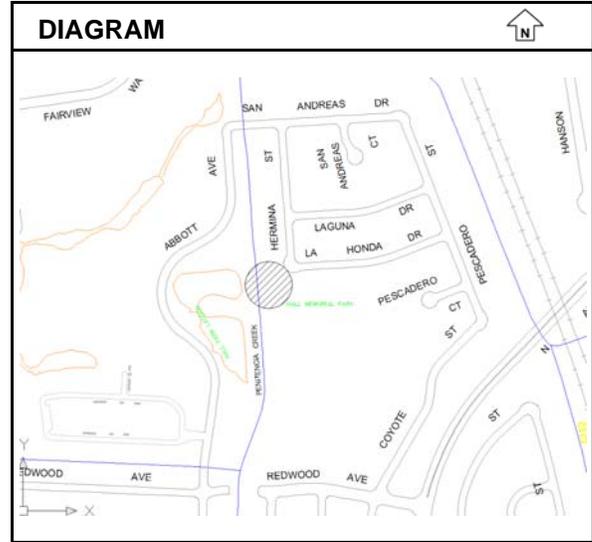

PRIORITY: Major Service Equipment Replacement

DESCRIPTION

This project provides a complete reconstruction of the pump station and wet well, work scope includes: replacement of three diesel engines and pump assemblies, electric jockey pump, station controls and electrical system upgrades. The station is located at Hall Park and provides drainage for approximately 215 acres of residential area (Manor neighborhood.)

COMMENTS:

This is the City's oldest storm pump station built in 1955. The Bay Area Air Quality Management District BAAQMD will no longer permit the diesel engines to be replaced in-kind; they will have to be replaced with electric motors and a backup generator. This pump station is approximately 40 years old and the engines and pumps have not been rebuilt or rehabilitated. The Fiat diesel engines and pumps have exceeded their design life and parts are no longer available to even make repairs.

Storm Drain Improvement	New Spence Pump Station Improvements	1

CONTACT: Steve Erickson [3301]

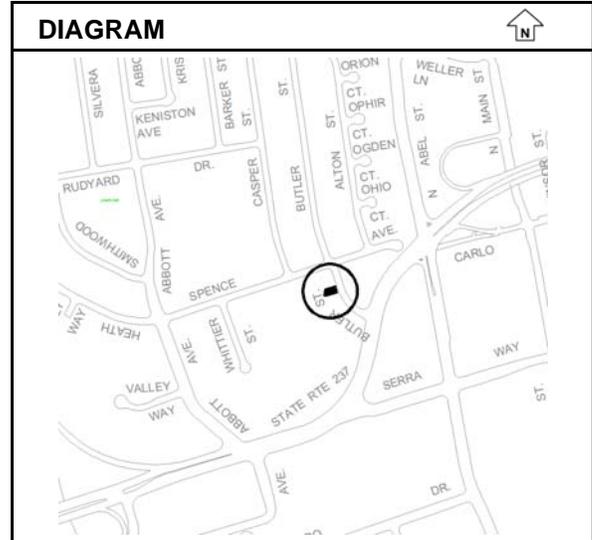

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

DESCRIPTION

This project replaces pump controls and water level indicating system at the pump station that have reached the end of their useful life.

COMMENTS:

Additional funding in 2018-19 will be required to complete the project.

Uncommitted Balance as of 2/28/2013: \$0

**City of Milpitas
2013-18 CAPITAL IMPROVEMENT PROGRAM**

Category	Project	Estimate Level
Storm Drain Improvement	New Storm Drain System Improvements 2018	1

CONTACT: Steve Erickson [3301]

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

DESCRIPTION

This project will provide for the procurement of two trailer mounted emergency generators for use at the storm pump stations (with electric capacity of 750kw and 1000kw.)

The work will also include installation of transfer switches at the pump stations to allow switching PG&E power to generator power.

COMMENTS:

Typically, the same storms that drops heavy rainfall into the storm drain system also cause electrical service interruptions. The pump stations are inoperable at a time when they are needed the most. Secondly, a major earthquake during winter storms may also take out PG&E power.

Category	Project	Estimate Level
Storm Drain Improvement	New Trash Removal Devices	1

CONTACT: Steve Erickson [3301]

PRIORITY: Mandatory or Committed Projects

DESCRIPTION

This project evaluates locations for trash removal devices within the City's stormwater collection system. Proposed work includes design and installation of two devices.

COMMENTS:

The State Regional Water Quality Control Board included trash removal requirements from stormwater collection systems in the Municipal Regional Permit (MRP) issued to Bay Area cities, including Milpitas. This is one of the ways that implementation requirements with the MRP can be obtained.

Category	Project		Estimate Level
Streets	2001	Light Rail Median Landscaping	1

CONTACT: Julie Waldron [3314]

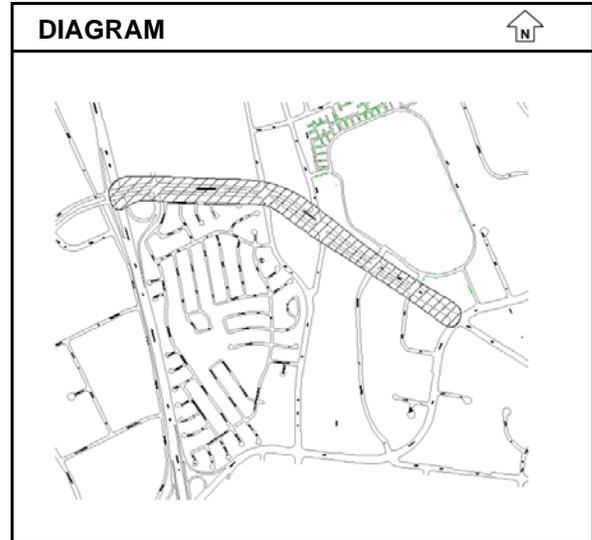

PRIORITY: Mandatory or Committed Projects

DESCRIPTION

This project involves the design and construction of median landscape improvements on Great Mall Parkway from I-880 to the southern City limits at Capitol Expressway. There are eight separate median islands under the LRT viaduct structure which will be landscaped. The scope also includes construction of a recycled water main line for this project and future Transit Area Specific Plan development project.

COMMENTS:

All landscaping will be irrigated with recycled water. This work is included in the cooperative agreement with the Santa Clara Valley Transportation Authority.

Community Improvement	3400 2009 Finance System Upgrade	1

CONTACT: Jane Corpus [3125]

PRIORITY: Improve the Quality of Life

DESCRIPTION

This upgrade will keep our Financial system up to date. The current release, Version 7.4, will no longer have support after May 2008. It is essential that the system be current in order to utilize technology efficiently and effectively. This major system includes General Ledger, Accounts Payable, Cash Collection, Payroll/Human Resources, Job Costing and Purchase Order. In addition, the Finance system also manages Budget Preparation, Business License, Investment Software and Fixed Asset systems.

COMMENTS:

The proposed funding is for the system required upgrades, equipment and staff training.

Community Improvement	3401 Solid Waste Master Plan	1

CONTACT: Kathleen Phalen [3345]

PRIORITY: Studies and Analyses

DESCRIPTION

This Master Plan will review the impacts of the City's short and long term planned growth and associated solid waste disposal needs. Since the current solid waste contracts expire in 2017, the plan will also review and develop strategies for economical solid waste disposal beyond 2017. Particularly, since Newby Island Landfill off Dixon Landing Road, is scheduled for closure by 2023.

COMMENTS:

The City has two existing contracts regarding solid waste disposal. One is for collection and hauling to the Newby Island Landfill and Recyclery for disposal. The second is to reserve capacity at the Newby Island Landfill and Recyclery for Milpitas-generated waste.

**City of Milpitas
2013-18 CAPITAL IMPROVEMENT PROGRAM**

Category	Project	Estimate Level
Community Improvement	3407 Midtown Parking Garage	1

CONTACT: Steve Erickson [3301]

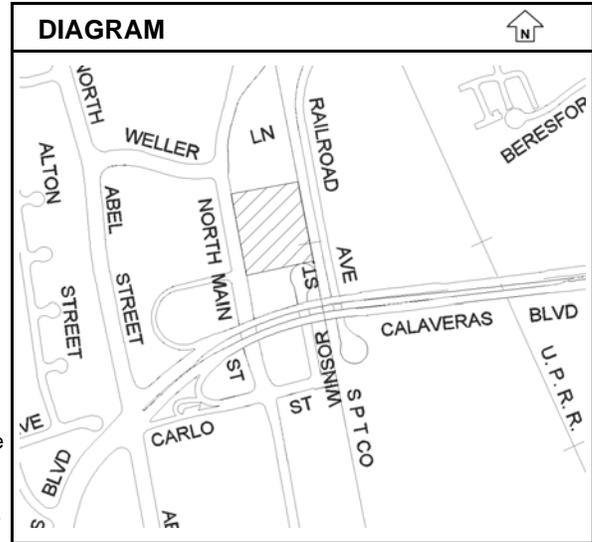

PRIORITY: Mandatory or Committed Projects

DESCRIPTION

The new Midtown East Parking Garage will consist of a four story structure that will serve the new Library and other Midtown uses. It will be located on Main Street, South and East of the new library. The East Parking Garage will have sufficient space for approximately 280 parking spaces. Special features of the parking garage include: a public display area for the City's restored antique fire truck; attractive vehicle entries/exits; pedestrian entries, including direct entry into the new library; elevators and stairs. The library garage grand opening was successfully held on January 10, 2009.

COMMENTS:

Work remaining is the conversion of the existing manual hand crank roll-up doors within the new library and parking garage to a motorized unit, and for the relocation of the fusible link to a location near the new motorized controls for easier access and safer operation, when being reset. Currently, if the fire alarms are actuated during annual testing or other reasons the fire doors close creating a "firewall". The manual hand cranks are located above the ceiling at two locations requiring ladder access.

Storm Drain Improvement	3701 Storm Drain Master Plan Update	

CONTACT: Jeffery Leung [3326]

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

DESCRIPTION

This project provides an update to the City Storm Drain Master Plan. This update is needed due to land use modifications proposed by Midtown Specific Plan and proposed Transit Area Specific Plan. It is also important to revise and update the Master Plan in order to account for land use changes and capital projects that have taken place in the City since the original Master Plan was published in 2001, and to provide proper environmental documentation. In addition, FEMA is requiring creek levee recertification as a result of the New Orleans levee failures. SCVWD and the City are working to complete these studies by August 2009. The Storm Master Plan will model and analyze citywide existing and proposed storm drain infrastructure, identify system deficiencies and recommend improvements.

COMMENTS:

A Master Grading and Storm Drainage Plan is required by the Transit Area EIR

2013-18 CAPITAL IMPROVEMENT PROGRAM**

Category	Project	Estimate Level
Streets	4039 Tasman / I-880 Interchange	1

CONTACT: Steve Chan [3324]

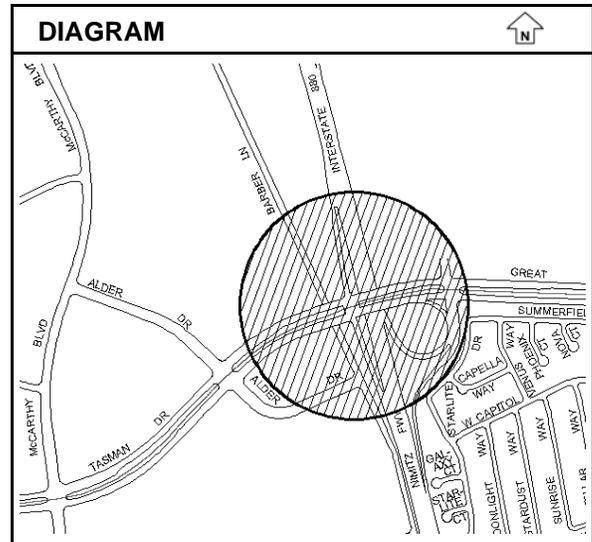

PRIORITY: Mandatory or Committed Projects

DESCRIPTION

This project involved the design and construction of an interchange at Tasman Drive-Great Mall Parkway and Interstate 880. Construction has been completed and Right-of Way transfer is currently in progress with Caltrans.

COMMENTS:

Caltrans and the City agreed to leave an abandoned Shell oil pipeline (now owned by Air Products) in the widened Caltrans right-of-way. If I-880 is widened to an 8 lane freeway in the future, there may be a need to relocate in outside of the Caltrans right-of-way, at an estimated cost of \$40,000 to \$500,000.

Uncommitted Balance as of 2/28/2013: \$45,393

Totals	21,361,100	0	0	0	0	0	21,361,100

FINANCE NOTES

Grants: SB 300: \$405,902 + Santa Clara County Transit Agency (SCCTA): \$2,526,032 = \$2,931,934

Should a future project require the nitrogen line to be relocated, Caltrans and Milpitas will enter into a 50/50 cost share. An agreement is currently being prepared. The 2004 estimated cost is \$500,000, with Milpitas share of \$250,000. Costs will be adjusted for inflation rise. \$50,000 under ROW Administration is for the additional staff time that will be needed to complete the ROW transfer to Caltrans.

2013-18 CAPITAL IMPROVEMENT PROGRAM**

Category	Project		Estimate Level
Streets	4047	Dixon Landing Road / I-880 Interchange	1

CONTACT: Steve Chan [3324]

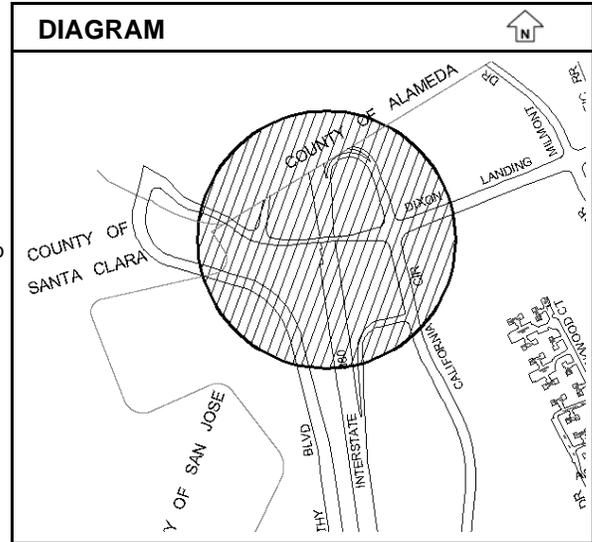

PRIORITY: Enhance Economic Development

DESCRIPTION

This project involved the construction of a full interchange at Dixon Landing Rd. and I-880. It provided access to the industrial parks to the west of I-880 and improved the access from the east. Design is based upon 6 lanes for Dixon and 8 lanes for I-880 including commuter lanes. All the construction work has been completed. The remaining work includes right of way transfer to Caltrans.

COMMENTS:

The interchange was completed and opened for traffic in March 2004. PG&E contract resolution and Right of Way transfer to Caltrans is currently in progress.

Uncommitted Balance as of 2/28/2013: \$88,481

**City of Milpitas
2013-18 CAPITAL IMPROVEMENT PROGRAM**

Category	Project	Estimate Level
Streets	4170 Hwy 237/I-880 Interchange	1

CONTACT: Julie Waldron [3314]

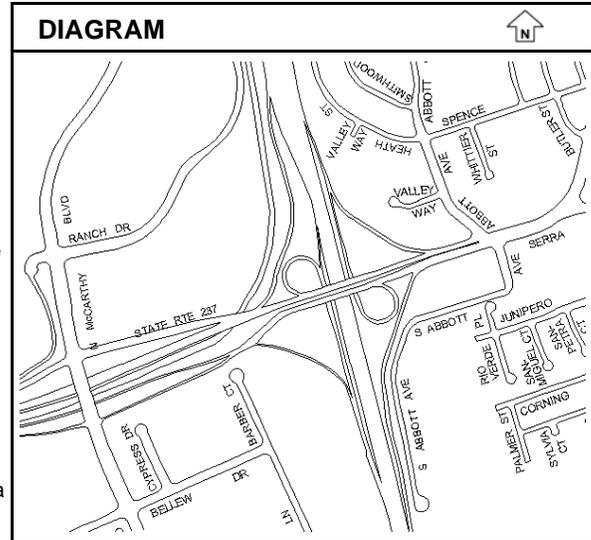

PRIORITY: Mandatory or Committed Projects

DESCRIPTION

This project designed and constructed the 237/880 Interchange through a cooperative agreement between Milpitas and Santa Clara Valley Traffic Authority (VTA). When the VTA ceased to exist in March 31, 1997, the City assumed the administration of the VTA's remaining consultant design work. VTA transferred \$1.6 million to the City for this effort. Construction began late 1997 and was completed in 2004. The remaining work includes transfer of Right of Way to Caltrans, landscaping and recycled water irrigation improvements.

COMMENTS:

Two separate cost-sharing agreements between the City/Caltrans and City/VTA (\$2 million and \$1.5 million respectively) were to provide the funding for the landscape improvements and maintenance. However, also underway is the I-880 Commuter Lane Project. It will include a significant portion of the landscape work.

Uncommitted Balance as of 2/28/2013: \$109,269

2013-18 CAPITAL IMPROVEMENT PROGRAM**

Category	Project		Estimate Level
Streets	4179	Montague Expwy Widening at Great Mall Pkwy	1

CONTACT: Steve Chan [3324] / Julie Waldron [3314]

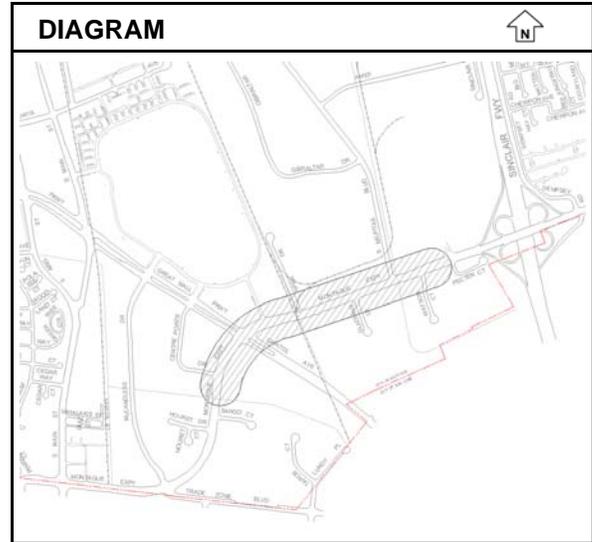

PRIORITY: Mandatory or Committed Projects

DESCRIPTION

This project provides a fourth through lane in each direction on Montague Expressway at Great Mall Parkway. It also includes adding one westbound lane on Montague Expressway from Hwy 680 to UPRR rails, however, these limits may be revised due to right of way availability.

COMMENTS:

A portion of this project, Phase I, is required as a result of the Cisco Systems development. Phase I is the improvement of the Great Mall Parkway/Capitol intersection from Center Point Drive to the UPRR rails, and is funded 50% by Cisco Systems. Phase I was constructed by VTA in conjunction with their LRT project. The remaining portion of the project, phase II, will "close the gaps" that exist between Phase I and Project 4180 which widened the south side of the expressway from west of Gladding CT. to I-680.

 City Council - Midyear appropriation \$105,271 from Traffic Impact Fees
 3/11: Defund \$150,000 since Caltrans Community Base Transportation Planning (CBTP) was not received
 City did not receive \$150K grant in 2010-11.
 City Council 2/7/12 - Midyear Budget Appropriation of \$115,192 from Traffic Impact Fee interest.

City of Milpitas
2013-18 CAPITAL IMPROVEMENT PROGRAM

Category	Project	Estimate Level
Streets	4255 Street Resurfacing Project 2011	1

CONTACT: Jimmy Nguyen [3318]

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

DESCRIPTION

This project provides for the street resurfacing in 2011. The program includes a variety of pavement treatments from slurry seal to major rehabilitation and reconstruction. Streets are selected for improvements based on the City's Pavement Management System. This project also includes \$200,000 to Public Works maintenance for pothole repairs.

COMMENTS:

There are over 122 miles of streets that are owned and maintained by the City of Milpitas. For major roadways these improvements include an increase of the pavement structural section, in order to strengthen the pavement sections due to increases in current and projected traffic.

FINANCE NOTES

City Council 2/1/11 - Midyear Budget Appropriation \$93,500 from TIF

**City of Milpitas
2013-18 CAPITAL IMPROVEMENT PROGRAM**

Category	Project	Estimate Level
Streets	4258 Calaveras Blvd Widening Project	1

CONTACT: Steve Erickson [3301]

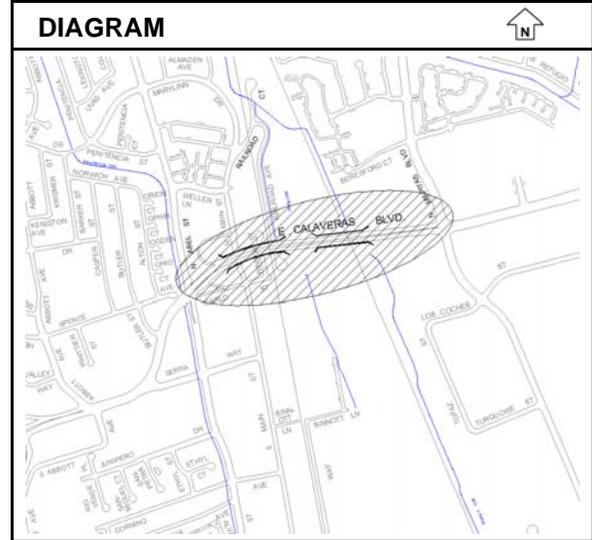

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

DESCRIPTION

This project will replace the existing roadway bridges between Milpitas Boulevard and Abel Street. These bridge structures were constructed over 40 years ago are reaching their design life. In addition these structures do not have adequate bicycle and pedestrian facilities. The replacement bridge structures will be wider to include 3-lanes, 10 foot sidewalks and 6 foot bike lanes in each direction.

COMMENTS:

Calaveras Boulevard is a State Route and the City would be the local sponsor of this project. The City would provide a local funding match generated through Traffic Impact Fees. The total cost estimate is \$75 Million.

Uncommitted Balance as of 2/28/2013: \$173,319

Category	Project	Estimate Level
Streets	4259 Escuela Parkway Pedestrian & Bicycle Enhancement Project	1

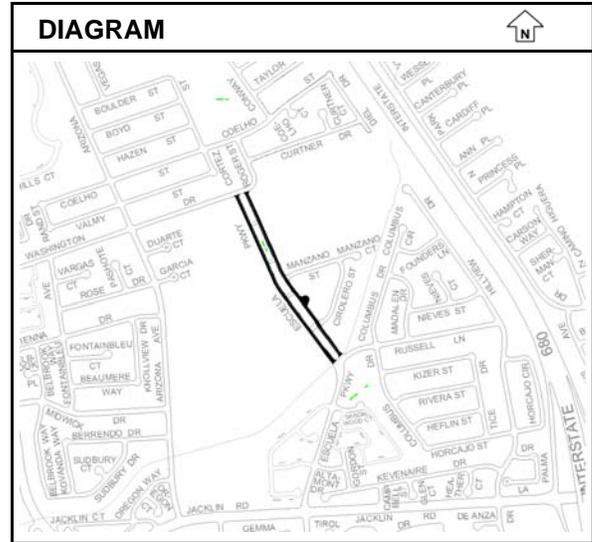

CONTACT: Steve Chan [3324] / Julie Waldron [3314]

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

DESCRIPTION

This project is located on Escuela Parkway between Washington Drive and Russell Lane. Improvements include widening the existing eastside 4' sidewalk to 10' sidewalk, install eastside tree wells and irrigation, and install a bus pullout on westside of parkway in front of Milpitas High School.

COMMENTS:

Uncommitted Balance as of 2/28/2013: \$157,313

Totals	2,572,000	0	0	0	0	0	2,572,000

FINANCE NOTES

Street Fund funding source is the Gas Tax Fund

Originally this project was to be funded with \$500,000 of Transient Occupancy Tax (TOT); on 6/7/2011 the TOT was appropriated to CP 4255.

\$1mil Public Art Fund received from 8204 RDA Area Pavement Reconstruction project due to the dissolution of the RDA.

City Council 9/20/11 - Budget appropriation of \$30,000 from Transient Occupancy Tax (TOT)

City Council 2/7/12 - Midyear Budget Appropriation of \$7,000 from Developer Contribution "Wal-Mart".

City Council 2/7/12 - Midyear Budget Appropriation of \$35,000 from fees collected "VTA".

Close project at the end of the fiscal year, June 30, 2013.

City of Milpitas
2013-18 CAPITAL IMPROVEMENT PROGRAM

Category	Project	Estimate Level
Streets	4262 Traffic Signal Modifications 2012	1

CONTACT: Steve Chan [3324]

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

DESCRIPTION

This project provides for minor traffic signal improvement projects resulting from the need for operations improvements or emergency repairs and safety enhancements such as pedestrian countdown signals and battery back-up systems. The scope includes repainting of street light poles and traffic signal poles and related work. This project also provides for studies to determine larger capital improvement projects.

COMMENTS:

Recent improvements include deployment of Pedestrian Countdown Signals and flashing beacon systems for enhanced pedestrian crossings.

Uncommitted Balance as of 2/28/2013: \$15,000

City of Milpitas
2013-18 CAPITAL IMPROVEMENT PROGRAM

Category	Project	Estimate Level
Streets	4265 BART Extension Coordination & Planning	1

CONTACT: Steve Erickson [3301]

PRIORITY: Mandatory or Committed Projects

DESCRIPTION

The Bart extension from Fremont to San Jose will pass through Milpitas and include a BART station in Milpitas. This project includes the coordination and engineering analysis of utilities, Right of Way and other BART design impacts on the City's infrastructure.

COMMENTS:

Coordination with the VTA for the design of the future Bart Extension will require substantial resources from the City. Most of the work involves the review of proposals, plans, identifying infrastructure improvements and engineering analysis and development of alternatives to BART proposed improvements.

Uncommitted Balance as of 2/28/2013: \$315,007

Park Improvement	5055 Alviso Adobe Renovation	1

CONTACT: Michael Boitnott [3315]

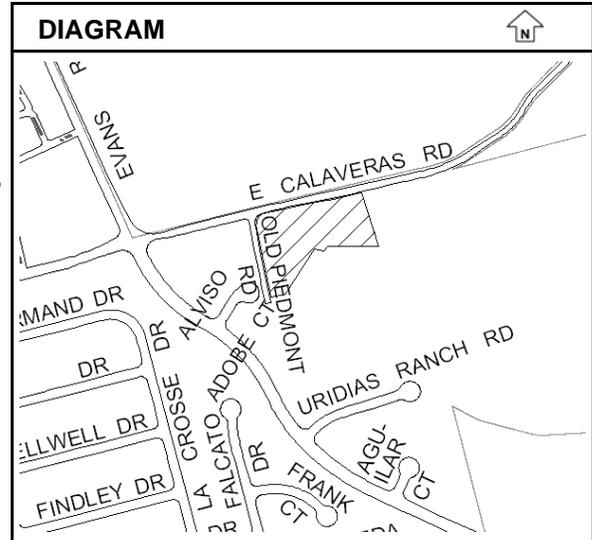

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

DESCRIPTION

This project provides new park improvements and exterior restoration of the historic Alviso Adobe building. The first phase provides structural stabilization, seismic strengthening and exterior renovation of the Alviso adobe building. The second phase provides park improvements including picnic areas, lighting, walkways, a parking lot, apricot orchard, herb garden, landscaping and access improvements. Once completed, park visitors will experience the progressive history of Milpitas' from its origins as a Spanish land grant in the 1830's through the 1920's rural Santa Clara County farming era.

COMMENTS:

The final phase (V) provides the interior restoration of the 1st floor of the Adobe Building to museum quality level. This phase is unfunded and estimated at over \$1.0 million. Staff is pursuing additional grants for this work.

2013-18 CAPITAL IMPROVEMENT PROGRAM

Category	Project	Estimate Level
Park Improvement	5086 Park Irrigation System Rehabilitation	1

CONTACT: Michael Boitnott [3315]

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

DESCRIPTION

This project provides new central computer irrigation system and updates the irrigation systems at all City parks. This system will also alert staff of broken sprinklers and irrigation lines, by sensing loss of water pressure during operation. Repair response is much quicker, eliminating loss of water and water damage to the park landscaping.

COMMENTS:

This project will increase staff efficiency and also provide more efficient watering, resulting in reduced operational costs.

Park Improvement	5094 Sports Center DOE Grant Program	1

CONTACT: Marilyn Nickel [3347] / Julie Waldron [3314]

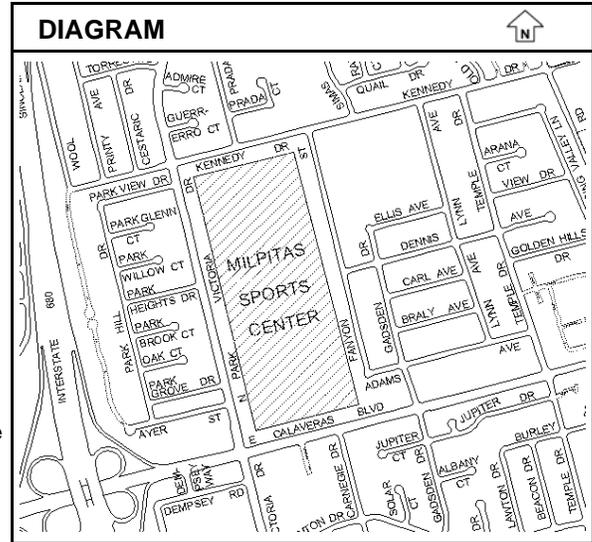

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

DESCRIPTION

This grant funded project provides for converting the Sports Center parking lot lighting to energy efficient LED fixtures.

COMMENTS:

The DOE has earmarked a total \$662,400 for the City of Milpitas through its Energy Efficiency and Conservation Block Grant program. City's total local funding match is \$507,350 for both this project and project 8198. Some of the parking lot lighting work may not be eligible for reimbursement and a cost-share is necessary. Staff anticipates that the replacement chillers will be eligible for a PG&E rebate of \$26,000.

Uncommitted Balance as of 2/28/2013: \$20,037

Category	Project		Estimate Level
Sewer Improvement	6079	Main Sewer Pump Station Site Improvements	1

CONTACT: Kathleen Phalen [3345]

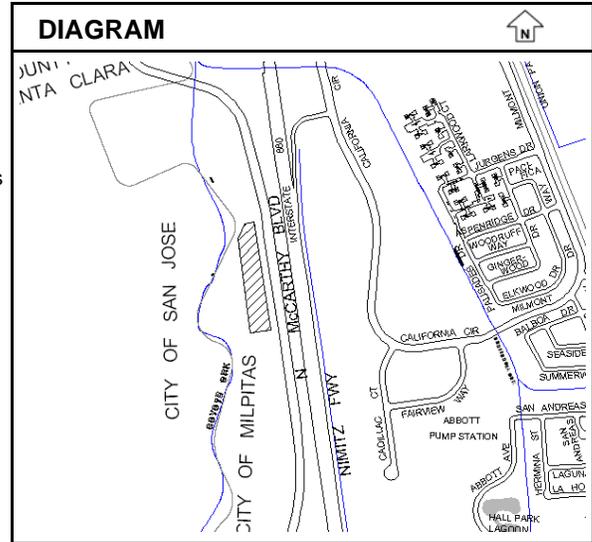

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

DESCRIPTION

This project provides design and construction of drainage, pavement, lighting security and other improvements at the Main Sewer Pump Station (SPS). This project also involves the removal of the existing abandoned facilities, tanks, miscellaneous piping and control panels that were once part of the sewage treatment facility. In addition, this project acquires a 70' wide strip of right-of-way between McCarthy Blvd and the Main Sewer Pump Station, through a no-cost land exchange with adjacent property owner.

COMMENTS:

This site will be improved to accommodate the relocated Public Works Corp Yard at Main St., allowing the construction of the new Library project. This site contained several abandoned treatment plant structures. Phase I, completed in 2005, included demolition and removal of abandoned facilities and hazardous materials. The remaining work includes lighting, security improvements canopies for vehicle storage and photo voltaic equipment.

Category	Project	Estimate Level
Sewer Improvement	6106 Sewer Replacement Study	1

CONTACT: Marilyn Nickel [3347]

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

DESCRIPTION

This project involves field determination of the remaining useful life of the following sewer pipes: 360 linear feet of 42 inch RCP crossing I-880 at the Main Lift Station, 490 linear feet of 42 inch RCP at Cadillac Court and I-880, 310 linear feet of 42 inch RCP at Milmont near Penitencia Creek, 5,400 linear feet of 33-42 inch RCP along Milpitas Blvd between Hidden Lakes and Midwick, 90 linear feet of 24 inch RCP at Folsom and Hetch-Hetchy crossing, 1,500 linear feet of 30 inch RCP between Folsom and Escuela, and 170 linear feet of 12 inch RCP at Dempsey. The first priority includes review of the steel forcemain, Balboa Crossing, and the UPRR crossing south of Calaveras.

COMMENTS:

The Schaaf and Wheeler 2002 Depreciation Study has estimated the remaining life of the existing sewer infrastructure. This work is to field determine the condition of sewers and verify need to replace those sewers identified as having an estimated useful life ending by 2008. The study will refine the scope of work and costs, and prioritize these projects.

Uncommitted Balance as of 2/28/2013: \$76,281

**City of Milpitas
2013-18 CAPITAL IMPROVEMENT PROGRAM**

Category	Project	Estimate Level
Sewer Improvement	6109 Sewer Seismic Study	1

CONTACT: Marilyn Nickel [3347]

PRIORITY: Studies and Analyses

DESCRIPTION

This study includes evaluation of the various soil conditions in Milpitas, and existing sanitary sewer collection system. Recommendations may include new joint construction methods and retrofits at critical sites. The study will also recommend emergency response strategies for Public Works, during and after a major earthquake.

COMMENTS:

A substantial portion of the Valley Floor is subject to soil liquefaction during earthquakes. Movement of these pipes will cause pipe joints to pull apart. Large pipe joint displacements may lead to blockages, sinkholes, and sewer overflows, leading to health concerns. Improvement recommendations will be programmed under separate capital improvement projects.

Sewer Improvement	6117 TASP Sewer Line Replacement	1

CONTACT: Steve Erickson [3301]

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

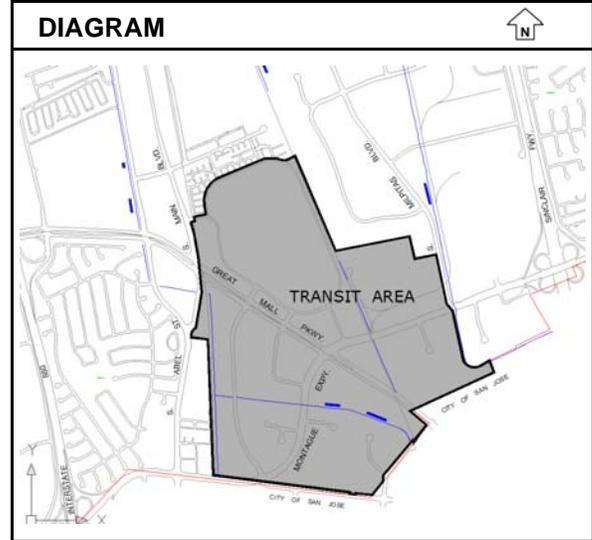

DESCRIPTION

This project constructs sewer pipeline upgrade projects 11A-D as described in the 2009 Sewer Master Plan:

- Project 11A: South Main, North of Great Mall Parkway
- Project 11B: Great Mall Parkway between South Main and Montague Expressway
- Project 11C: Montague Expressway
- Project 11D South Main Street, South of Great Mall Parkway

COMMENTS:

The City's sewer collection system is at full capacity within the Transit Area Specific Plan area. Construction of these sewer pipeline upgrades provide sufficient capacity for planned development.

Water	7070 Pressure Reducing Valve Replacement	2

CONTACT: Steve Erickson [3301]

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

DESCRIPTION

This project involves the phased replacement of the existing pressure reducing valves (PRV) within the City's water system. These valves reduce water pressure as water moves from zone 2 to zone 1 in the City's distribution system.

COMMENTS:

All of the valves are over 20 years old and now require an extraordinary amount of maintenance. Proper operation of valves is crucial to assure proper delivery pressures for drinking and fire suppression purposes.

Water	7098	South Milpitas Water Line Replacement	1

CONTACT: Steve Erickson [3301]

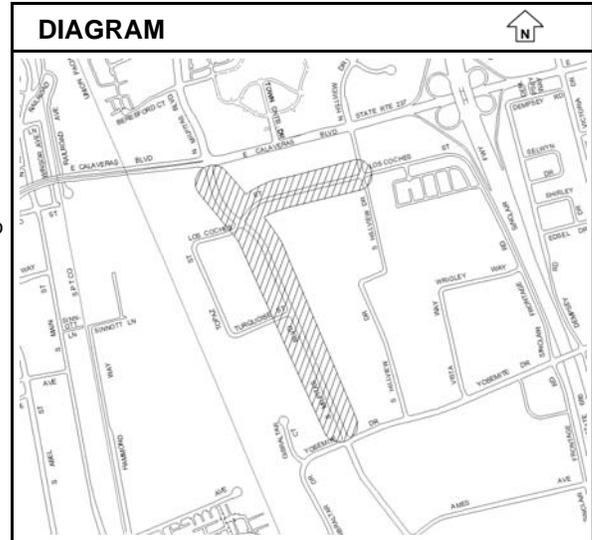

PRIORITY: Health and Safety Projects

DESCRIPTION

This project replaces approximately 3,900 linear feet of 16" diameter steel cylinder pipe along South Milpitas Blvd. between Calaveras Blvd. and Yosemite Drive. This pipe is in a very corrosive soil environment and has reached its useful life of 35 years. In addition, the new pipe will be designed to meet seismic strength criteria, and corrosion protection. The scope includes water valve replacements on Los Coches St.

COMMENTS:

The pipeline has experienced excessive corrosion which is causing line breaks. Replacement must occur to minimize impacting critical water customers.

Uncommitted Balance as of 2/28/2013: \$8,707

City Council 2/7/06 - Budget appropriation of \$40,000 from Water Fund
 City Council 8/7/12 - Budget appropriation of \$125,000 from Water Fund
 Close project at the end of the fiscal year, June 30, 2013.

**City of Milpitas
2013-18 CAPITAL IMPROVEMENT PROGRAM**

Category	Project	Estimate Level
Water	7101 Gibraltar Reservoir & Pump Station	1

CONTACT: Kathleen Phalen [3345]

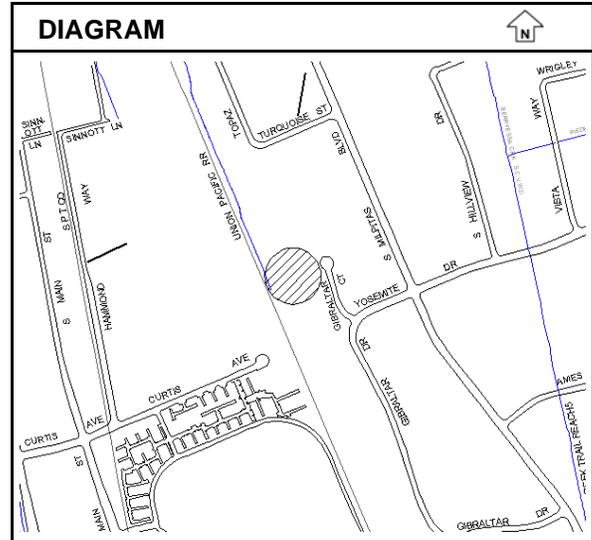

PRIORITY: Mandatory or Committed Projects

DESCRIPTION

This project provides for a complete rehabilitation of the pump station and water storage facilities, in order to comply with Bay Area Air Quality Management District (BAAQMD) and California Department of Public Health regulations. Improvements will include the replacement of pump drives with new electric motors with diesel backup generators, overhaul the pumps and operational controls to allow the station to operate more efficiently. The scope also includes seismic upgrades of building and concrete reservoir. Additional improvements include the installation of a pressure relief valve, concrete sealing of all the floors, soundproofing the control room, stair improvements, seal cracks, paint pump station and reservoir exteriors; pavement repair; exhaust system retrofit, emergency diesel generator system and diesel engines, and various other equipment, expansion of the control room and energy conservation improvements.

COMMENTS:

This reservoir and pump station has reached its design life and is vital to the City's water system day to day operations and the reservoir provides emergency water during service interruptions. The total cost estimate will be determined after completion of the final design, which is currently underway.

Uncommitted Balance as of 2/28/2013: \$292,913

2013-18 CAPITAL IMPROVEMENT PROGRAM**

Category	Project		Estimate Level
Water	7102	Ayer Reservoir & Pump Station Improvements	1

CONTACT: Steve Erickson [3301] / Michael Boitnott [3315]

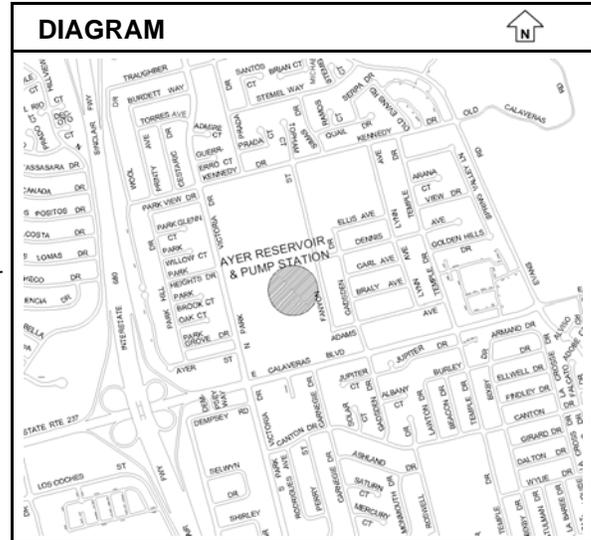

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

DESCRIPTION

This project provides several improvements to the Ayer Reservoir and Pump Station located behind the Milpitas Sports Center. The overflow structure has settled needs to be replumbed to the sanitary sewer system. Scope also includes sealing concrete floors (in pipe gallery, pump room, and control room), replacing manual hoist with electric, and various electrical and mechanical repairs and/or improvements. Scope also includes replacement or upgrades to the electric pumps, control systems, and various seismic upgrades.

COMMENTS:

The pump station is a critical water supply facility that has been in service for over 15 years. These improvements are required, in order to assure continued reliability. The first phase is replacing the variable frequency drives and rehabilitate/replace pumps and motors.

Category	Project		Estimate Level
Water	7108	Water System Hydraulic Modeling	1

CONTACT: Kathleen Phalen [3345]

PRIORITY: Studies and Analyses

DESCRIPTION

This project provides for miscellaneous hydraulic modeling of the water system, including impacts from new developments. This project also creates the City's first hydraulic model for the recycled water system. This computer model can be used in order to handle and direct field water system operations during an emergency.

COMMENTS:

Modeling is also necessary to verify pipe capacity, system pressure analysis and assists in analyzing fire flow pressure with planned water line shut offs. Some costs may be reimbursable by developers.

Uncommitted Balance as of 2/28/2013: \$120,528

2013-18 CAPITAL IMPROVEMENT PROGRAM

Category	Project		Estimate Level
Water	7116	Minor Water Projects 2013	1

CONTACT: Steve Erickson [3301]

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

DESCRIPTION

This on-going project involves the analysis and implementation of various water projects which arise during the year. This project also provides for on-going modifications and improvements to existing water system including enhancing security at various water facilities.

This project involves the installation of two new gate valves on the water main, near Brian Court and Santos Court. These valves allow better isolation of the water system during waterline shut-offs. Water shut-offs may occur during routine and emergency repairs of the main water line, fire hydrants, or air and pressure relief valves.

Category	Project	Estimate Level
Community Improvement	9001 City Hall AV Equipment Replacement & Upgrades	1

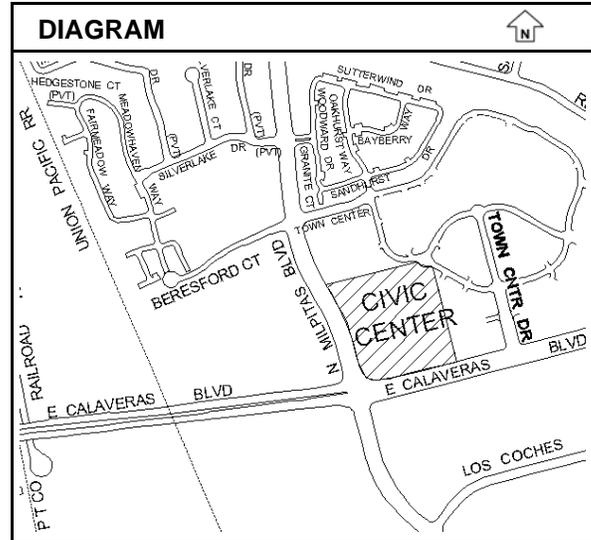

CONTACT: Michael Boitnott [3315] / Mike Luu (2706)

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

DESCRIPTION

This project provides for the replacement and or upgrades to the audio and visual systems that were installed within nine conference rooms, council chambers public meeting area, audio video control room, committee meeting room, and the council chambers at City Hall. This equipment was originally installed when the building was constructed in 2002. The improvements will also provide a dedicated network and address the overall power consumption concerns, allow for future upgrades and expansion, maintenance, and scalability of the system.

APPENDIX A

ESTIMATE LEVEL DESCRIPTIONS

The following are detailed descriptions for each of the three estimate levels used in this document:

Estimate Level 1 – Conceptual Estimate

This level of estimating is the least accurate and is used when the conceptual idea or plan has been prepared without precise details. Examples of such would be freeway interchanges prior to completion of any plans (and estimates based thereon), projects where final location is unknown and right-of-way or land costs are involved.

Estimate Level 2 – Detailed Estimate

This level of estimating is based on an approved design plan or conceptual plan which has some level of assurance that the items contained within are complete and acceptable to the approving agency. Examples of this category are most street projects where City staff has prepared estimates based on typical street structural and geometric details, using experienced bid prices. Other examples are water or sewer lines that have been proposed and identified with estimates in consultant reports.

Estimate Level 3 – Design Estimate

This is the highest level of estimating and is based on a completed set of design drawings and specifications that are ready for bidding. This level is what could also be called the bid or engineer's estimate.

APPENDIX C

PRIORITIZATION DESCRIPTIONS

In order to assist in the review of the various projects, all CIP projects are prioritized using the following categories (listed in priority order):

1. **Mandatory or Committed Projects**

Mandatory projects are those which the City is legally required to undertake. These include Federal or State mandated activities such as access modifications to public facilities to meet Americans with Disabilities Act requirements, Clean Water Act, etc. Committed projects are those that the City has contracted or partially completed. This can also include projects that have received grants with time restrictions. A funded project that has not yet started, does not necessarily mean that the project is “committed”, since the project is still subject to review. If this project is no longer necessary, it can be delayed or deleted and defunded.

2. **Health and Safety Projects**

Health and Safety projects are those infrastructure improvements needed for health and/or safety reasons. Examples include such projects as sidewalk repair work, installation of traffic signals and signs, modification of park playground equipment to eliminate a hazardous situation and additional lighting in public areas, etc.

3. **Rehabilitation of Existing Capital Assets or Systems**

These are projects that are required to maintain the City’s investment in infrastructure and capital equipment. This includes projects ranging from street resurfacing/reconstruction, to bridge maintenance, water, sewer improvements, facilities rehabilitation, etc.

4. **Major Service Equipment Replacement**

These are projects involving the replacement of equipment required in the operations of the City services. This would include pumps at storm drainage pump stations, MSC swimming pool pumps and motor replacements.

5. **Projects which Avoid Future Additional Costs**

This includes those projects which assists the City in reducing and/or eliminating future operating or capital costs. This would include acquisition of image processing equipment for document control, computer networking, replacing existing high maintenance landscaping with drought resistant and low maintenance plantings, automation of maintenance or data gathering activities, etc.

6. **Studies and Analyses**

This category is for projects that allow the City to examine new approaches for improvements to service delivery, cost savings, capital improvement projects and/or ways to enhance the financial stability of the City. Examples include the Calaveras Plan Line Study and San Jose Parallel Forcemain Study.

7. **Enhance Economic Development**

This category is for those projects that will attract new businesses or retain existing. Examples include the installation of utilities for future development and fiber optics installation for telecommunications.

8. **Improve the Quality of Life**

These are projects that allow the City to enhance the City’s quality of life, such as landscaping projects, new Sports Center improvements, etc.

APPENDIX D
