## **RECITALS AND FINDINGS:**

**WHEREAS**, electronic smoking devices, commonly known as “e-cigarettes,” “e-cigars,” “e-pipes,” “e-hookahs,” and other similar product name or descriptor are electronic and/or battery operated devices designed to look like and be used in the same or similar manner as conventional tobacco products; and

**WHEREAS**, electronic smoking devices often mimic conventional tobacco products in shape, size and color, with the user exhaling a smoke-like vapor similar in appearance to the exhaled smoke from cigarettes and other conventional tobacco products; and

**WHEREAS**, the increasing popularity and use in public buildings of electronic smoking devices has led the United States Food and Drug Administration (“FDA”) to propose regulating electronic smoking devices as tobacco products, a move supported by forty (40) state attorneys general, including the California Attorney General; and

**WHEREAS**, the FDA and the American Journal of Public Health conducted laboratory analysis of electronic cigarette cartridge samples and found they contained carcinogens and toxic chemicals to which users and bystanders could potentially be exposed; and

**WHEREAS**, the FDA and healthcare providers question the safety of electronic smoking devices to both users and those in close proximity to users, despite the claims of harmlessness by manufacturers; and

**WHEREAS**, the FDA has raised concerns that electronic smoking devices, which are often marketed in appealing flavors, can increase nicotine addiction among young people, and may lead youth to try conventional tobacco products; and

**WHEREAS**, the use of electronic smoking devices, with or without nicotine as an ingredient, models smoking behavior to our youth in a way that suggests smoking any substance is acceptable, regardless of potential or unknown health threats to the user and others; and

**WHEREAS**, the State of California enacted California Health and Safety Code Section 119405, making it unlawful for a person to sell or otherwise furnish an electronic cigarette, as defined under State law, to a person under eighteen (18) years of age and authorizing cities and counties to regulate the distribution of electronic cigarettes in a manner that is more restrictive than State law; and

**WHEREAS**, three (3) states have laws restricting electronic smoking device use in one hundred percent (100%) smoke-free venues, nine (9) states have laws restricting electronic smoking device use in other venues, and one hundred and eight (108) local laws across the country restrict electronic smoking device use in one hundred percent (100%) smoke-free venues, including fourteen (14) California cities; and

**WHEREAS**, the use of electronic smoking devices, with or without nicotine as an ingredient, creates a public nuisance as described in detail above and by releasing smoke-like vapor into the air and exposing others to said smoke-like vapor; and

**WHEREAS**, the use of electronic smoking devices in smoke-free locations threaten to undermine compliance with smoking regulations and reverse the progress that has been made in establishing a social norm that smoking is not permitted in public places and places of employment; and

**WHEREAS**, accordingly, the City Council finds and declares that the purposes of amending the City of Milpitas Zoning Ordinance is to protect the public health and welfare by adopting new definitions for Electronic Smoking Device and Head/Smoke/Tobacco Shop and other related amendments.

**NOW, THEREFORE**, the City Council of the City of Milpitas does ordain as follows:

### **SECTION 1. RECORD AND BASIS FOR ACTION**

The City Council has duly considered the full record before it, which may include but is not limited to such things as the City staff report, testimony by staff and the public, and other materials and evidence submitted or provided to the City Council. Furthermore, the recitals set forth above are found to be true and correct and are incorporated herein by reference.

**SECTION 2. AMENDMENT OF MILPITAS MUNICIPAL CODE CHAPTER 10 OF TITLE XI**

Section XI-10-2.03 entitled “Definitions” of the Milpitas Municipal Code is amended to add the additional definitions as follows:

“Electronic Smoking Device” means an electronic and/or battery-operated device, the use of which may resemble smoking that can be used to deliver an inhaled dose of nicotine or other substances. “Electronic Smoking Device” includes any such device, whether manufactured, distributed, marketed, or sold as an electronic cigarette, an electronic cigar, an electronic cigarillo, an electronic pipe, an electronic hookah, vaporizer or any other product name or descriptor.

“Head/Smoke/Tobacco Shop” means a retail establishment primarily engaged in the selling of smoking and tobacco products and accessories, and other products, devices and components reasonably assumed to be used for smoking and/or the inhalation or ingestion of any substances. Tobacco products may include but are not limited to cigarettes, cigars, loose leaf tobacco, tobacco pipes, Electronic Smoking Devices and accessories, vaporizers and accessories and any other product, device or component used in the inhalation of tobacco, nicotine or other substance. For the purposes of this definition only, “primarily engaged” means when thirty percent (30%) or more of products sold at the retail establishment are smoking and tobacco products and accessories, and other products, devices and components reasonably assumed to be used for smoking and/or the inhalation or ingestion of any substance.
