Previously Funded Projects to be closed as of June 30, 2016

Community Improvement Projects

3410 Public Works/Police Building Improvements
3413 2015 Finance System Upgrade

Parks Projects

5100 Sports Center Skate Park & Fields Feasibility Study
5096 Pinewood Park Picnic Renovation
5099 Park Renovation Project 2015

Street Projects

4256 Abel Street Sidewalk Improvement
4275 Street Resurfacing Project 2015
4277 Main Street Pavement Reconstruction
4278 Milpitas Boulevard Plan Line Study

Water Projects

7102 Ayer Reservoir & Pump Station Improvements
7109 Water System Replacement 08-09
7111 Minor Water Projects 2011
7114 Water Meter Replacement
7116 Minor Water Project 2013
7122 Daniel Court Water Service Replacement
7124 Water System Air Relief Modifications 2015
7070 Pressure Reducing Valve Replacement

Sewer Projects

6079 Main SPS Site Improvements
6109 Sewer Seismic Study
6110 Sewer System Hydraulic Modeling
6114 Minor Sewer Projects 2011
6120 Minor Sewer Projects 2015

Storm Drain Projects

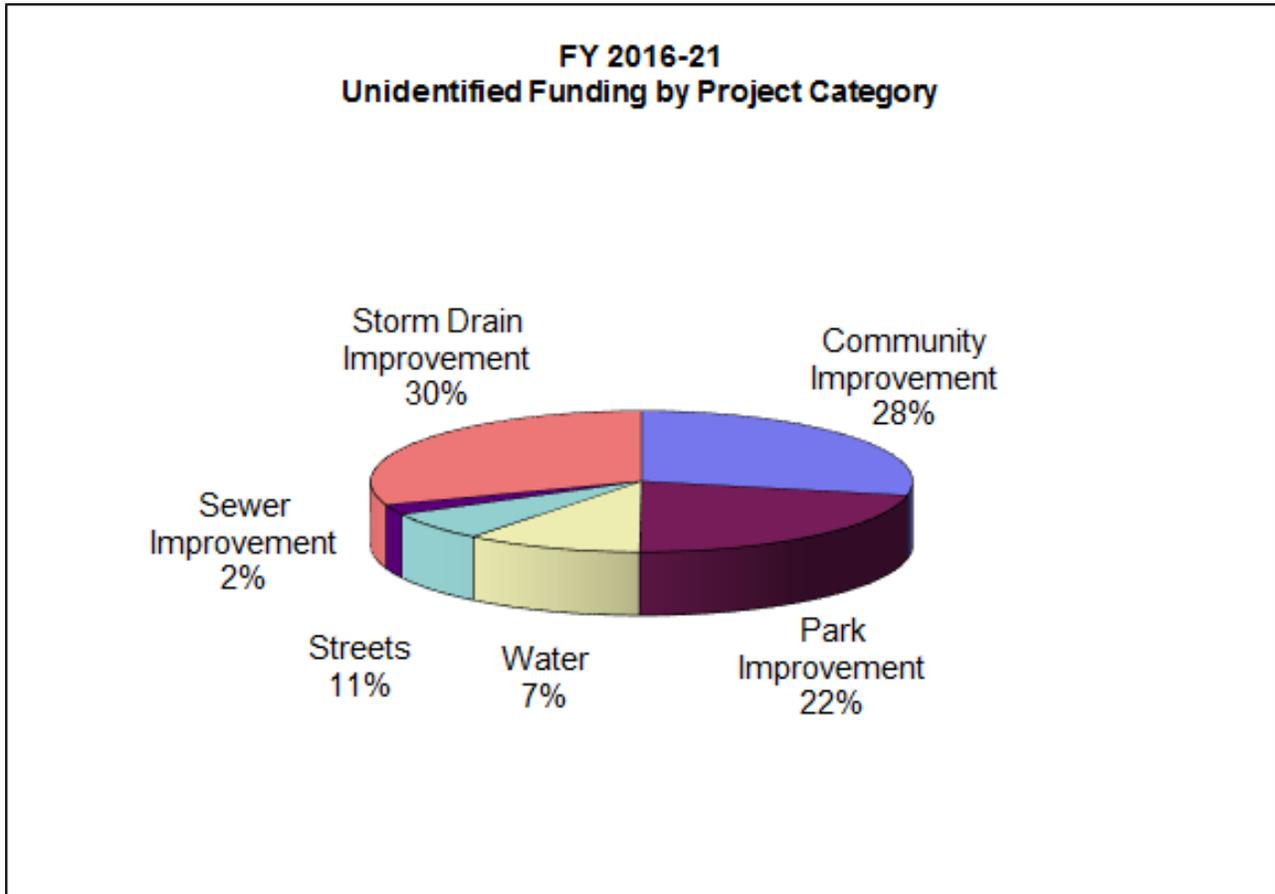

3701 Storm Drain Masterplan Update
3704 Fuel Tank Improvements
3706 Minor Storm Drain Projects 2011-12
3707 Storm Pump Station Improvements 2012

Category	Project	Estimate Level
Community Improvement	3403 Fire Station Improvements	1

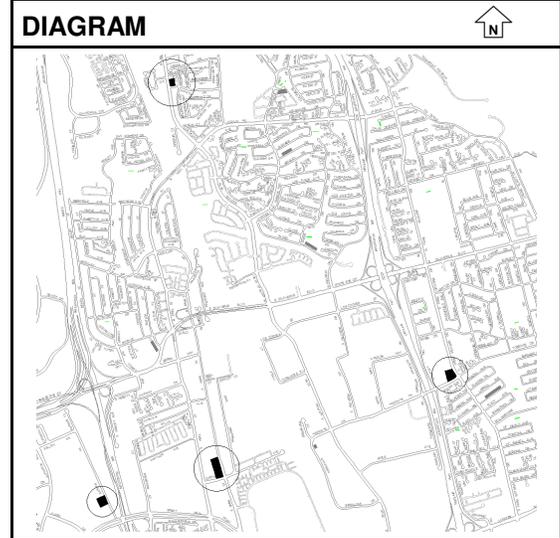

CONTACT: Nina Hawk [2603]

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

DESCRIPTION

This project provides various improvements at all four fire stations including renovation or replacement of electrical and mechanical systems, plumbing, parking lots, emergency power generator systems, interior and exterior paintings, replacement of floor coverings, restroom and shower facilities, kitchen improvements, re-roofing and other building and site related improvements. All work will be performed on a priority and funding availability basis.

NOTES:

Uncommitted Balance as of 2/29/2016: \$1,032,865

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

DESCRIPTION

This project provides for repair, renovation, replacement, and improvements at City buildings including Public Works/Police, Senior Center, Community Center, City Hall, and the Sports Center. Work may include electrical and mechanical systems, pool equipment, motors/pumps, fountain repairs, leak repairs, emergency power, HVAC systems, painting, carpeting, code upgrades, replacement of City Hall desk tops, and other related improvements. Work may also include energy savings improvements, such as replacement of lighting fixtures with energy saving fixtures, and installation of a more efficient climate controls systems. Work will be completed on a priority and funding availability basis. Includes approximately \$150K for purchase of LED Christmas lights on 60-80ft trees along Calaveras Blvd. at City Hall.

NOTES:

This project provided for the replacement of the Community Center Auditorium AV systems that was completed December 2015. This project will also fund the installation of an Automatic Transfer Switch and Emergency Generator at the Sports Center which is deemed as the City's Emergency Shelter.

Category	Project		Estimate Level
Community Improvement	3414	City Buildings, Exterior Painting & Repairs	1

CONTACT: Nina Hawk [2603]

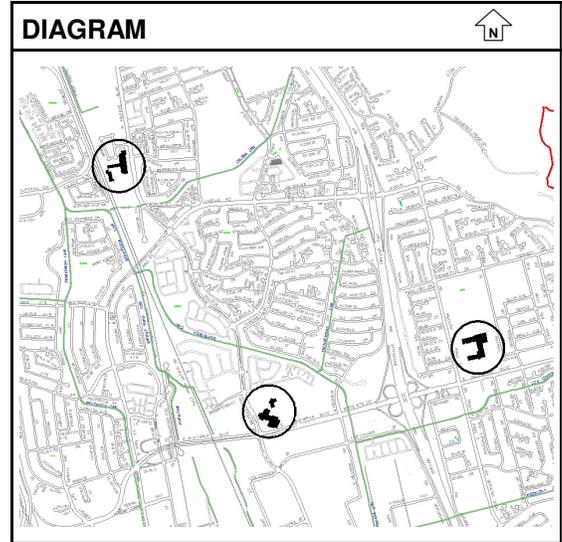

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

DESCRIPTION

This project provides for exterior repairs, patching and painting of City buildings. The exterior of the buildings should be painted and sealed approximately every ten years to maintain the buildings appearance and to prevent damage caused by moisture infiltration. Updated costs to include escalation purposes and unknowns associated with age of building for exterior paint/repairs.

NOTES:

Exterior painting and replacement of rotted wood at the PD/PW Buildings and the Sports Center is a priority due to observed damage.

PRIORITY: Health and Safety Projects

DESCRIPTION

In 2001, the Santa Clara County / Cities Managers Association agreed to jointly fund a countywide radio interoperability and public safety radio and data communications network to improve public safety and emergency services. The countywide infrastructure construction has not yet been completed. The City of Milpitas' financial contribution will support the construction completion.

NOTES:

The countywide construction is expected to be completed during FY 17/18. The FY17/18 estimate includes the member assessment fee, countywide infrastructure commitment, and funds to transition the City of Milpitas to the new system. Our transitional costs include construction / installation, all radio replacements, console replacements, and infrastructure replacement. These costs include equipment for Police, Fire, and Public Works radios.

Community Improvement	3416 City General Plan Update	1

CONTACT: Sarah Fleming [3278] / Bill Ekern [3273]

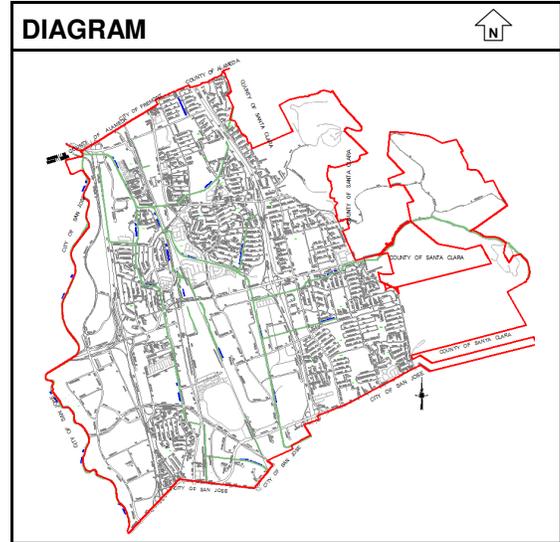

PRIORITY: Studies and Analyses

DESCRIPTION

This is a comprehensive update of the City's General Plan, including community outreach and CEQA Analysis.

NOTES:

California state law requires that each city adopt and regularly update their General Plan. While it has been amended multiple times, the City's General Plan has not been comprehensively updated since it was adopted in 1994 (Housing Element update approved in 2015). The City is undergoing considerable change at an increasing pace, thus necessitating the update to assure future growth is consistent with the vision of the Community.

FINANCE NOTES

Project Created on 10/6/15 by City Council Budget Appropriation of Developer Fees.

Developer Fees contribution for FY15/16 are provided through Trumark/Lennar Conditions of Approval #8 and #63 for the Waterstone Reside Development. Fees were paid on 4/08/15 to the following funds: \$500K to 312-3718 (satisfying condition #8), and \$500K to 317-3718 (satisfy condition #63).

**City of Milpitas
2016-21 CAPITAL IMPROVEMENT PROGRAM**

Category	Project	Estimate Level
Community Improvement	New City Gateway Tree Planting	1

CONTACT: Bill Ekern [3273]

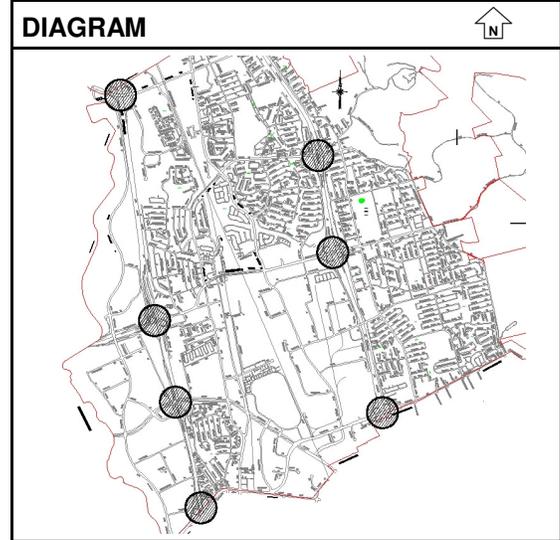

PRIORITY: Improve the Quality of Life

DESCRIPTION

This project will provide for the installation of irrigation and trees planting, including Jacaranda trees, at seven gateway locations around the City. The project is anticipated to be completed in phases with locations within City right-of-way to be completed first. Locations within the rights-of-way of other jurisdictions including the County or Caltrans would be installed following approvals from these agencies.

NOTES:

The project is currently in the conceptual phase and Staff will present the conceptual designs for each location to the City Council for review and recommendation in FY16-17. Funding is added in FY17-18 to design and implement the planting schedule. Funding will be provided through developer's contribution to the Community Benefit Fund. Developers may also be conditioned to install the gateway planting when applicable.

Category	Project	Estimate Level
Community Improvement	New City Std. Details, Guidelines, & Specs.	1

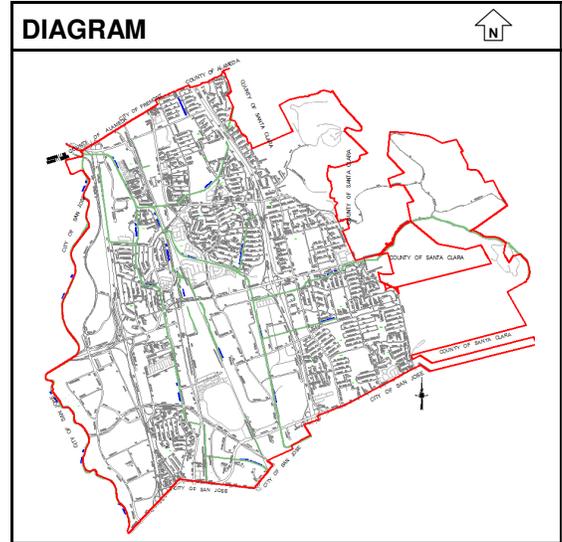

CONTACT: Judy Chu [3325] / Steven Machida [3355]

PRIORITY: Studies and Analyses

DESCRIPTION

This project provides for the update of the City's Engineering Standard Details, Guidelines, and Specifications document. This document provides the minimum requirements for new public infrastructure constructed within the city. The Engineering Guidelines describe requirements and improvements for new developments constructed within the city. Many of the existing standard details, materials specifications, and guideline requirements are over a decade old and refer to products that are no longer available and the documents require update.

2016-21 CAPITAL IMPROVEMENT PROGRAM**

Category	Project		Estimate Level
Community Improvement	New	Feasibility & Location for Performing Arts Theater	1

CONTACT: Renee Lorentzen [3409]

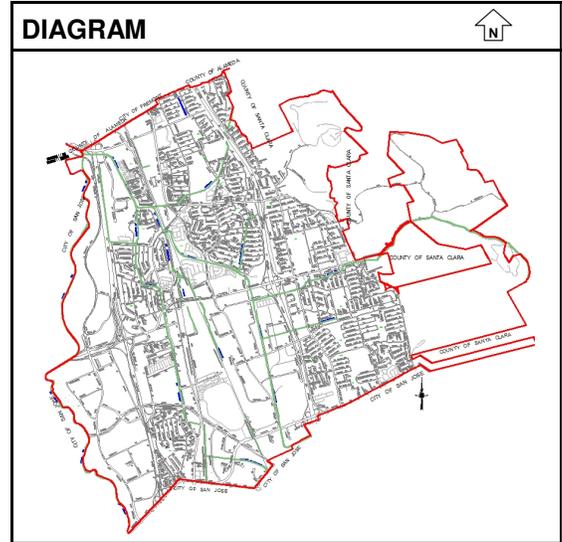

PRIORITY: Studies and Analyses

DESCRIPTION

A Cultural Arts Center Feasibility Study was completed in 1998 to determine the feasibility of developing a new Cultural Arts Center in the City. This initial study defined user needs, assessed the market potential for a cultural arts facility, and it identified the parameters of a financially feasible operation. The findings of the study included there was a need for a cultural arts facility within the City, the cost to build a new 500-seat facility was estimated at approximately \$17M excluding land costs and building soft costs.

NOTES:

The original feasibility study is now ten years old. Staff will update the study and evaluate the reuse and renovation of existing building structures to house the facility and would update anticipated construction and operating costs.

Community Improvement	New Fire Station #2 Replacement	1

CONTACT: Steve Erickson [3301]

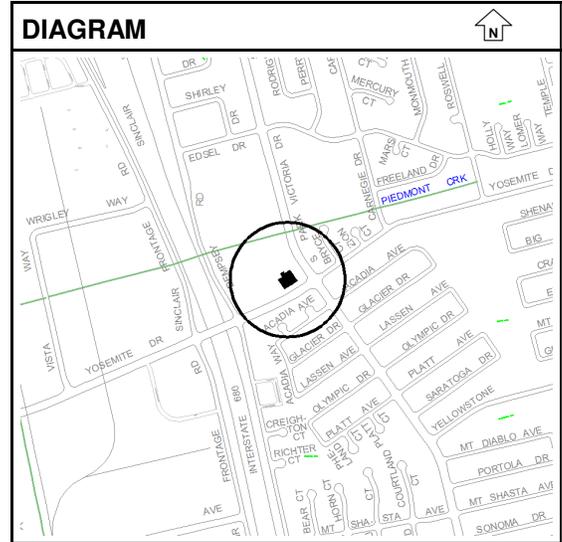

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

DESCRIPTION

This project provides for the design and construction of a new replacement Fire Station #2. Fire Station #2 is located on Yosemite Drive, and was constructed in the late 1960's.

NOTES:

An assessment report was completed in December 2014 to determine if the station could be remodeled and modernized or if it should be replaced. The conceptual estimate to remodel Station #2 is \$6M and the new replacement is \$10M. The costs shown are conceptual and the actual construction cost will be determined during the design phase.

Community Improvement	New Midtown Specific Plan Update	1

CONTACT: Bill Ekern [3273]

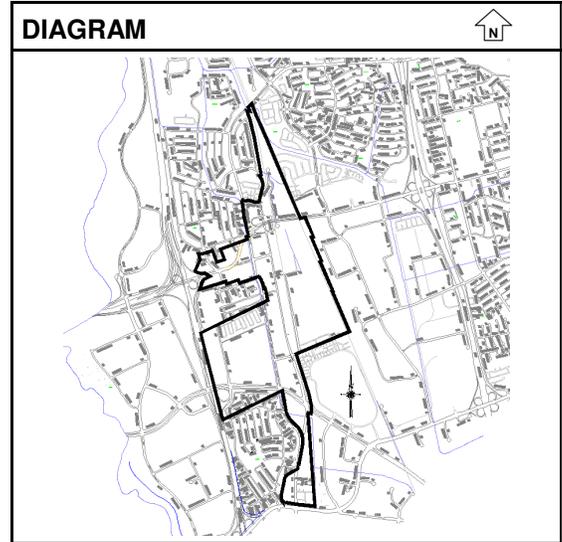

PRIORITY: Enhance Economic Development

DESCRIPTION

The Midtown Specific Plan was developed with the assumption that the Redevelopment Agency would be a major contributor to the area's development. Without this funding and development source, the plan is reliant on purely private investment and consequently must be updated to reflect this situation.

NOTES:

Updating this Specific Plan will (1) re-engage the public in the discussion as to the goals and values of the area to the overall development of the City; (2) provide clearer and more modern planning rules to assist in the development of private property; and (3) provide a tool for economic development in the City.

Community Improvement	New	Public Safety Communications Equipment *	1

CONTACT: Mike Luu [2706]

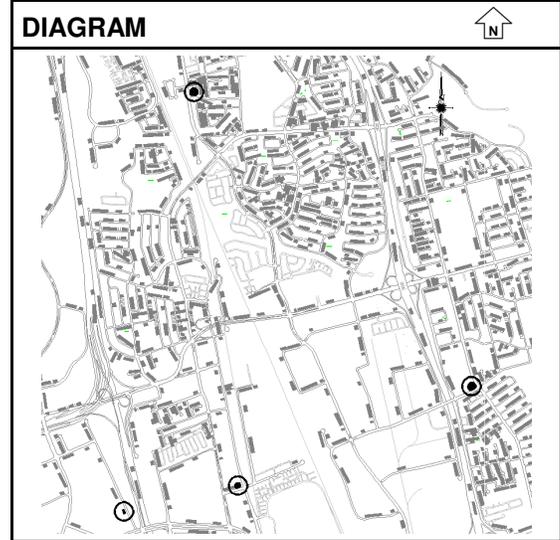

PRIORITY: Health and Safety Projects

DESCRIPTION

This project will fund the replacement of mobile and portable radios in fire vehicles, and for the deployment of radio systems in a requested command vehicle. The VHF radios are used for emergency operations with mutual aid partners in major incidents, and are a key piece of integration for significant incidents, hillside fire response, and medical helicopter response and landing.

NOTES:

The current VHF radio mobile and portable radios are 16 years old and are failing. The total estimated cost for the replacement equipment is \$270,000.

DESCRIPTION

This project will fund replacement Mobile Computer Terminals (MCT's) in police vehicles. Police Officers use the MCT's to receive critical information from the PD Communications Center. The MCT's use mapping features to reduce response time and to coordinate resources during critical incidents, to retrieve investigatory data from several databases, and to access the report writing database to complete place reports.

NOTES:

The current MCT's are up to seven years old and are in need of replacement. The Police Department will use State Citizen Option for Public Safety (COPS) grants to support the funding of this project.

Community Improvement	New	Recycled Water On-site Conversions	1

CONTACT: Jeffery Leung [3326] / Marilyn Nickel [3347]

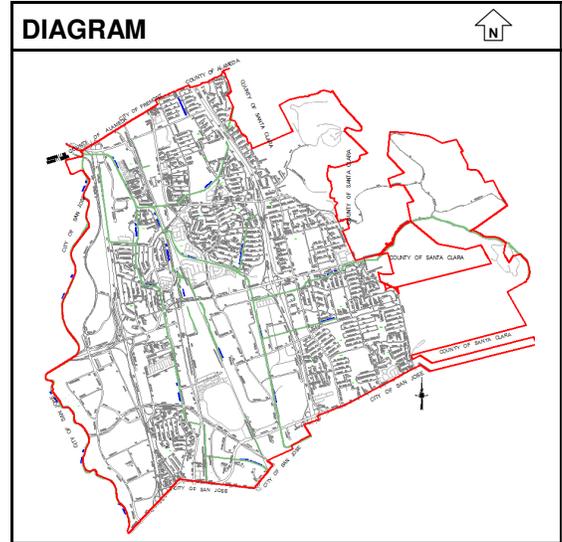

PRIORITY: Improve the Quality of Life

DESCRIPTION

This project provides for the conversion of existing city building, park, and street landscape facilities that are served by potable water to recycled water to reduce potable water consumption due to the drought emergency.

NOTES:

Candidates for recycled water conversions include Escuela Parkway Medians, Hetch-Hetchy rights-of-way, Augustine Park, Community Gardens, and the civic center grounds including City Hall, Community Center, and the Senior Center.

Category	Project		Estimate Level
Community Improvement	New	Replacement Fire Station Alert System *	1

CONTACT: Rick Frawley

PRIORITY: Health and Safety Projects

DESCRIPTION

The current Fire Department emergency dispatch alert system is 17 years old with an expected life span of 20 years. The manufacturer of the Departments current system (Zetron) will no longer support the system. This project provides for installation of new dispatch systems at all four fire stations including coordination and interface with the city's 911 dispatch center.

NOTES:

The current communications equipment vendor (TEA) has an estimated cost of \$50,000 per fire station with an additional \$20,000 for dispatch interface. Total cost of \$220,000.

Community Improvement	New Shuttle Study	1

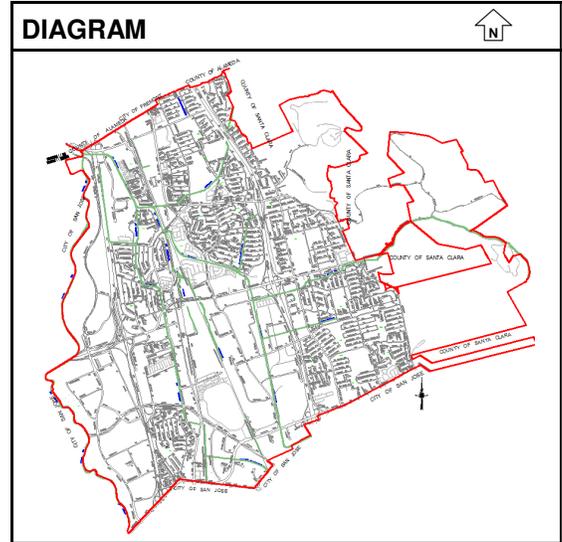

CONTACT: Edesa Bitbadal

PRIORITY: Studies and Analyses

DESCRIPTION

This project funds a study to provide a citywide shuttle system. The study will explore the most effective routes, locations, times, types of partnerships, system costs, implementation schedule, budget, and funding opportunities. Staff will prioritize this project and commence with the study work July 2016.

Category	Project	Estimate Level
Community Improvement	New Transit Area Specific Plan Update	1

CONTACT: Bill Ekern [3273]

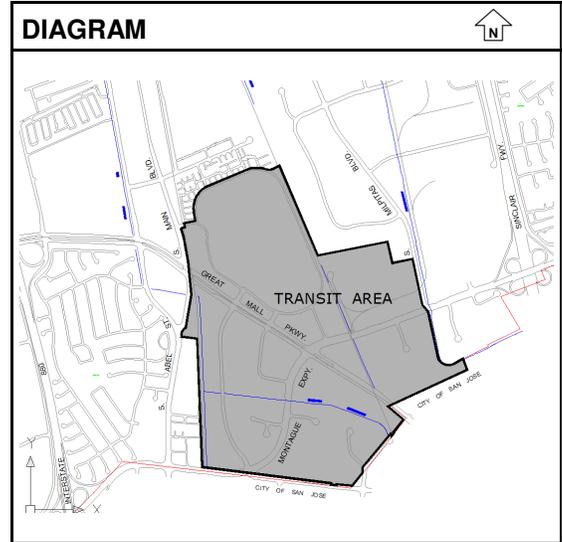

PRIORITY: Studies and Analyses

DESCRIPTION

The Transit Area Specific Plan was approved in 2008. There have been a number of minor amendments to the Plan focused on individual properties, but no comprehensive evaluation of the plan and the effectiveness of its implementation. Approximately 50% of the housing planned for the area has been permitted or constructed. Approximately 25% of the retail and none of the office has been developed. A review of processes and rules for development, as well as remaining land uses should be undertaken.

NOTES:

Staff has identified a number of administrative and conflicting development regulations that create confusion in the processing of the plans. Resolving these issues will improve the City's review process. Importantly, the plan anticipates office and commercial development at a scale that has not been forthcoming, therefore staff recommends a re-evaluation of the land use designations to better achieve these expectations, or to develop new goals and expectations.

Community Improvement	Plan 2018-19 Finance System Upgrade	1

CONTACT: Jane Corpus [3125]

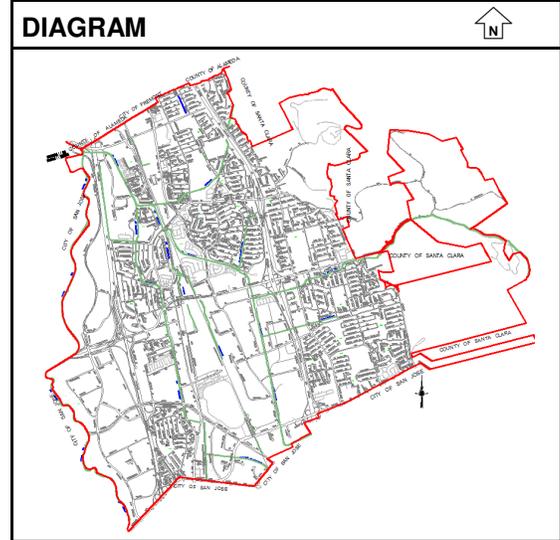

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

DESCRIPTION

This project provides upgrades to keep our Financial system up to date. It is essential that the system be current in order to utilize technology efficiently and effectively. This major system includes General Ledger, Accounts Payable, Cash Collection, Payroll/Human Resources, Job Costing and Purchase Order. In addition, the Finance system also manages Budget Preparation, Business License, Investment Software and Fixed Asset systems.

NOTES:

The proposed funding is for the system required upgrades, equipment and staff training.

**City of Milpitas
2016-21 CAPITAL IMPROVEMENT PROGRAM**

Category	Project	Estimate Level
Community Improvement	Plan City Hall Pond & Water Feature Rehabilitation	1

CONTACT: Nina Hawk [2603]

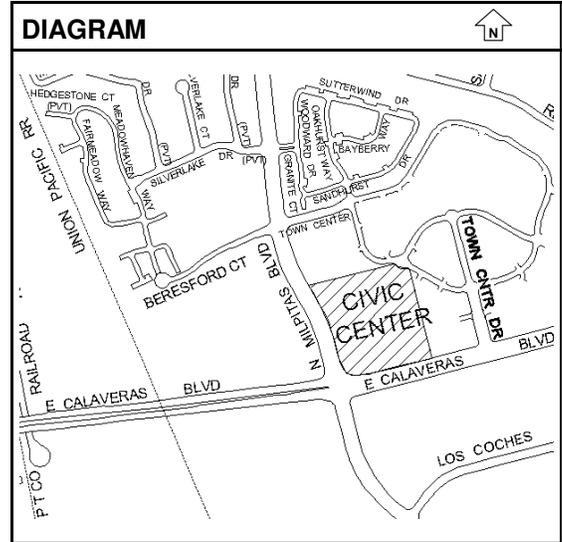

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

DESCRIPTION

The project provides for the replacement of the pump system for the pond and water feature in front of City Hall, and provides for the replacement and upgrade of the chlorination and water quality systems. The project also provides for the re-coating of the pond at the rear of City Hall with a system that is less prone to annual maintenance.

NOTES:

The City Hall pond and water features require a significant amount of maintenance to maintain operational. The chlorination and water quality systems are in need of rehabilitation due to corrosion and age. The rear pond has recently required annual patching and coating to fill cracks that leak water.

2016-21 CAPITAL IMPROVEMENT PROGRAM**

Category	Project	Estimate Level
Park Improvement	2005 Lower Penitencia Creek Pedestrian Bridge	1

CONTACT: Steven Machida [3355]

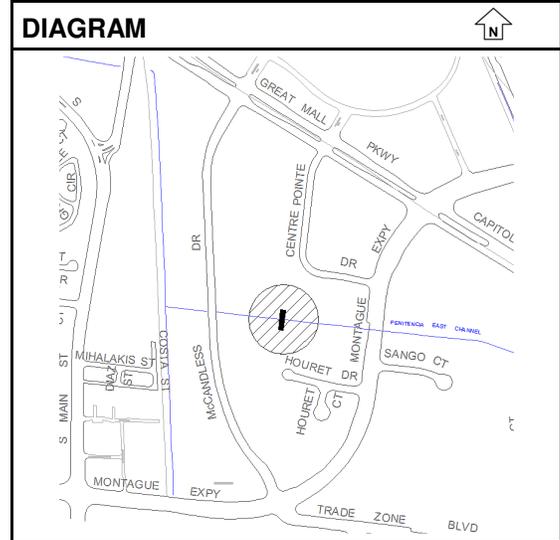

PRIORITY: Improve the Quality of Life

DESCRIPTION

This project provides for the design and construction of a new pedestrian bridge over Lower Penitencia Creek adjacent to the Centre Pointe "C" Development and the new Park/School site. The new bridge will connect the two levee trails on either side of Lower Penitencia Creek.

NOTES:

The project is required to be coordinated with the Santa Clara Valley Water District as the bridge would be installed within the Districts right-of-way. Budget increased due to estimated construction cost for the new bridge.

Park Improvement	5055 Alviso Adobe Renovation	1

CONTACT: Steve Erickson [3301]

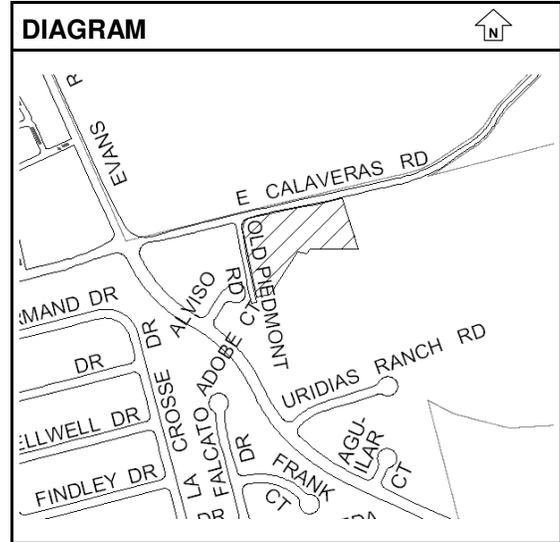

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

DESCRIPTION

This project will be completed in phases and provides new park improvements and exterior restoration of the historic Alviso Adobe building. Phases 1 thru 4 completed park improvements, ADA access improvements, and seismic and exterior renovation of the historic adobe building. The final phase 5 provides for the interior restoration of the 1st floor of the Adobe Building to museum quality level.

NOTES:

The project Architect will be retained to complete the final assessment, design, and construction drawings. The estimated construction cost, funding sources, and the construction schedule will be developed in the design phase. The construction phase is anticipated to require 18 months following completion of design.

2016-21 CAPITAL IMPROVEMENT PROGRAM**

Category	Project		Estimate Level
Park Improvement	5097	Higuera Adobe Park Renovation	1

CONTACT: Steve Erickson [3301]

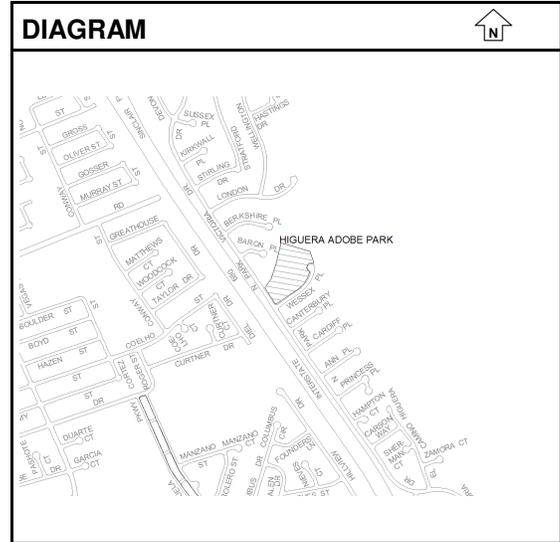

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

DESCRIPTION

This project provides for the design and construction of renovation improvements of various park elements at the Higuera Adobe Park. This includes the large picnic area behind the adobe building, playground including shade structures, and surrounding area. The project will evaluate ADA compliance assessment and improvements, drainage, landscaping, walkways and related improvements.

NOTES:

Higuera Adobe Park is a Historical Site that is heavily used by large groups due to the rental opportunities of the Adobe building. Project design for the renovation is underway. An increase in budget is requested in FY 16-17 to provide for additional pathway improvements to picnic areas and the playground and to relocate the existing propane tank.

Park Improvement	New Citywide Park Playground Rehabilitation *	1

CONTACT: Nina Hawk [2603]

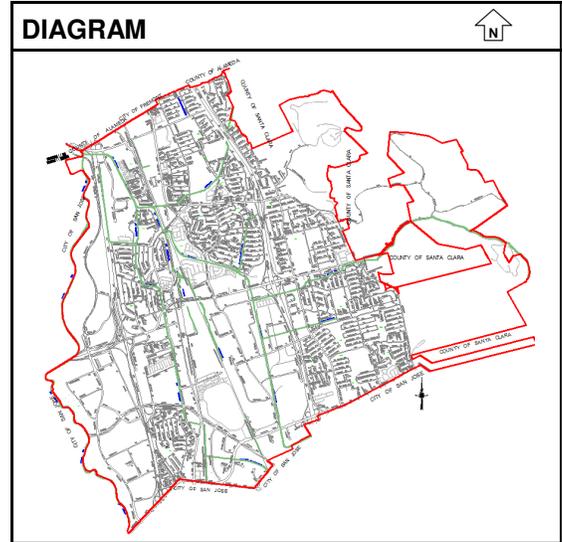

PRIORITY: Health and Safety Projects

DESCRIPTION

This project provides for the rehabilitation of citywide park playgrounds needing minor improvements such as additional fill material to meet fall attenuation, surface improvement, equipment modification, and signage improvement.

NOTES:

Park playgrounds have been identified by the ABAG risk manager as needing minor rehabilitation to bring them into compliance with new ASTM and CPSI standards. Repairs are anticipated at Sandalwood, Sinnott, Strickroth, and Starlite Parks to address immediate repair needs.

2016-21 CAPITAL IMPROVEMENT PROGRAM**

Category	Project	Estimate Level
Park Improvement	New Higuera Adobe Park Caretaker Cottage Renovation	1

CONTACT: Steve Erickson [3301]

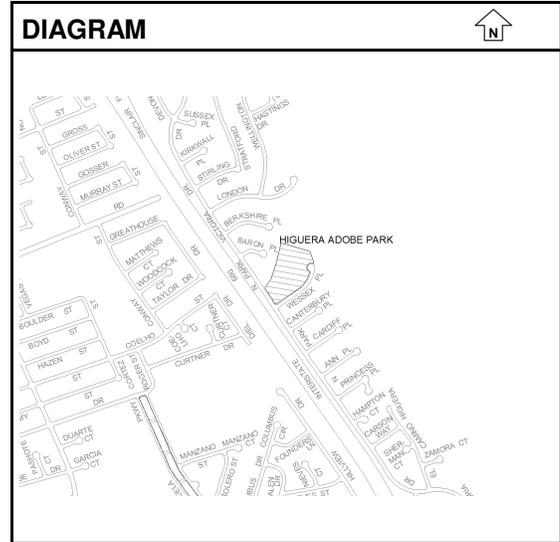

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

DESCRIPTION

This project will be completed in phases and provides for the interior and exterior restoration of the Higuera Adobe Park caretaker cottage. Project phases would develop a plan for the desired future use of the renovated structure; assist staff in determining the extent of required improvements and restoration; determine state and federal requirements for renovation of historic structures; and determine required permitting and code compliance. Design and construction cost estimates and schedule will also be developed in future project phases.

NOTES:

The initial FY17-18 funding will provide for an assessment of the level of required building repairs and a determination of the historic and code related improvement required based upon the desired use of the structure. This assessment will develop the costs estimates and schedule for the design and construction the improvements. Funding will be through the Santa Clara County Open Space Authority.

Park Improvement	Plan Berryessa Creek Trail, Reach 4, 5, 6A	1

CONTACT: Steven Machida [3355]

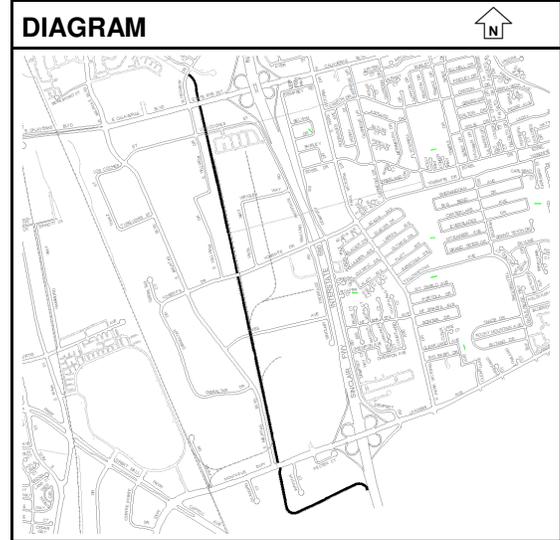

PRIORITY: Improve the Quality of Life

DESCRIPTION

This project provides for the design and construction of Reach 4, 5 and 6A of the Berryessa Creek Trail from Calaveras Blvd to San Jose City limits South of Montague Expressway. This project is identified and described further in the "Berryessa Creek Trail and Coyote Creek Trail Feasibility Report". The scope of work includes trail and accessibility improvements, intersection modifications and trail amenities. The project will be coordinated with the US Army Corp of Engineers/SCVWD creek flood improvements project. It is also identified in the VTP 2040 Plan, as it provides a direct pedestrian/bicycle connection from the Town Center to the future BART station.

NOTES:

The SCVWD and the Army Corp are moving forward with construction of the Upper Berryessa Creek levee improvement project. Trail improvements will be coordinated with the construction of the creek and levee improvements. The City will provide reimbursement to the SCVWD for trail/walking path amenities.

Park Improvement	Plan Park Access Improvement and Resurfacing *	1

CONTACT: Steve Chan [3324] / Steve Erickson [3301]

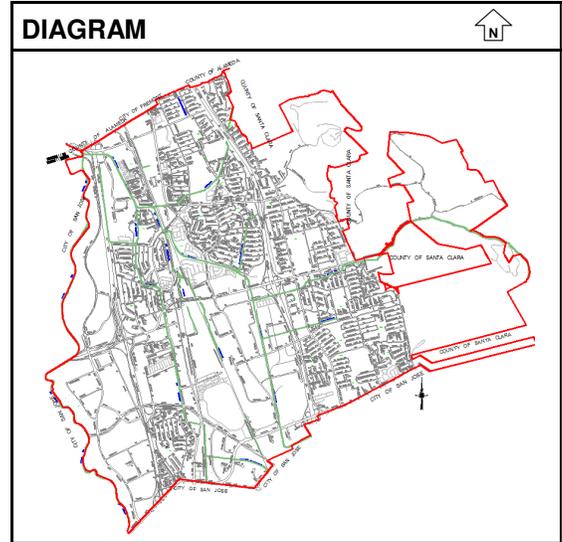

PRIORITY: Health and Safety Projects

DESCRIPTION

This project provides for the improvement and rehabilitation of vehicle, bike, and pedestrian access for City parks. Work would include the repair, seal coat, or asphalt overlay of park parking lots, trails, and walking pathways, including repairs and recoating of pedestrian bridges.

NOTES:

Provides for repairs at Dixon Landing, Gill Memorial, Hall Memorial, Hidden Lakes, and Murphy Parks.

Uncommitted Balance as of 2/29/2016: \$0

Park Improvement	Plan Sandalwood Park Renovation	1

CONTACT: Steve Erickson [3301]

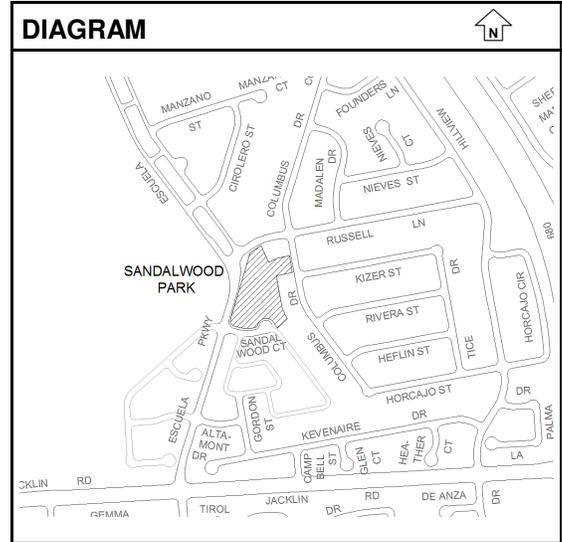

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

DESCRIPTION

This project provides for the design and construction of improvements at Sandalwood Park. Improvements include picnic and playground area renovation, ADA access and path improvement, and renovation of irrigation, and landscaping.

NOTES:

Sandalwood Park is approximately 3.9 acres, and it is heavily used. The park was originally constructed in 1978, and was expanded in 1988. Play structures were replaced pre 1992.

Park Improvement	Plan Sinnott Park Renovation	1

CONTACT: Steve Erickson [3301]

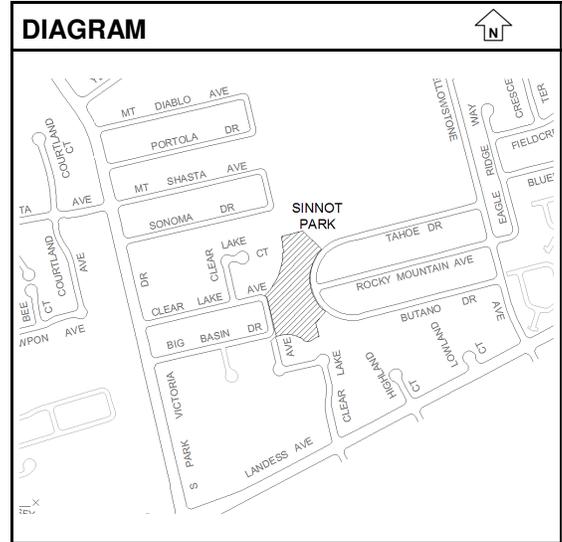

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

DESCRIPTION

This project provides for the design and construction of improvements at Sinnott Park. Improvements include picnic and playground area renovation, ADA access and path improvement, and renovation of lighting, irrigation, and landscaping.

NOTES:

Sinnott Park is approximately 4.7 acres, and it is heavily used. The park was originally constructed in 1970, and the play structures were replaced in 1991. Project will be coordinated with future Recycled Water Pipeline Segment projects. The design and construction budgets were combined to allow both to occur within the same FY. Design and Construction phases were combined in FY2019-20 to stream line project delivery.

Park Improvement	Plan Sports Center Skate Park	1

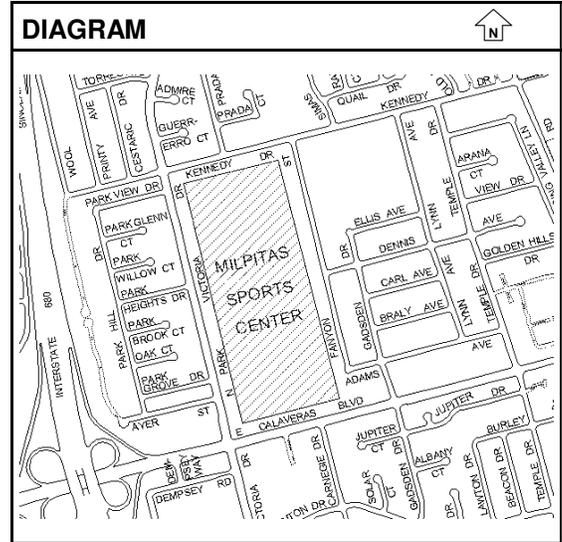

CONTACT: Julie Waldron [3314]

PRIORITY: Improve the Quality of Life

DESCRIPTION

This project provides for the design and construction of a new skate park to be located at the Milpitas Sports Complex between the parking lot and the newly renovated fields. The 20,000 sq.ft skate park will include hardscape skate structures, lighting, irrigation, landscaping, drainage, and amenities.

Street Improvement	3412 Street Resurfacing Project 2014	1

CONTACT: Jimmy Nguyen [3318] / Steve Erickson [3301]

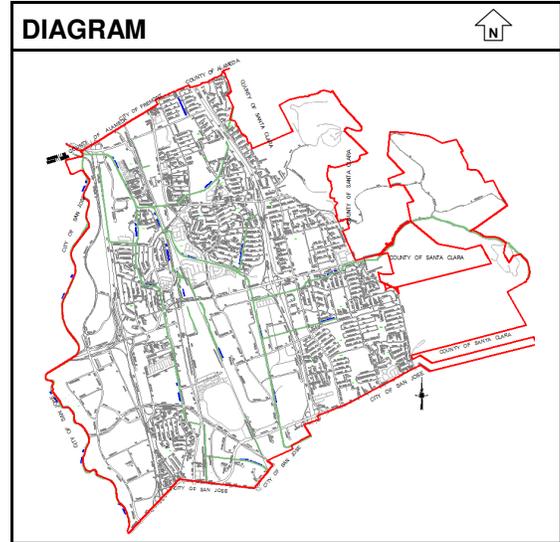

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

DESCRIPTION

This project provides for a variety of pavement resurfacing treatments, from slurry seal to major rehabilitation and reconstruction. Streets are selected for improvements based on the City's Pavement Management System.

NOTES:

There are over 123 centerline miles of streets that are owned and maintained by the City of Milpitas. An annual funding of \$4.5 million is required to maintain the city wide pavement condition index. The project also includes installation of ADA ramps along roads that are reconstructed or receive an AC overlay.

Uncommitted Balance as of 2/29/2016: \$245,002

Category	Project	Estimate Level
Street Improvement	4266 Street Light Improvements	1

CONTACT: Steve Chan [3324]

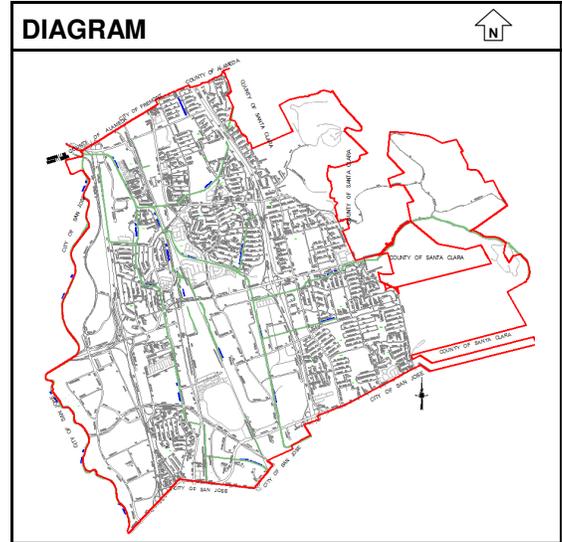

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

DESCRIPTION

This project will provide for various improvements to renovate and replace some of the aging infrastructure, including replacement of street ballasts/lamps, steel light poles, replacement of electrical wiring systems, modification of foundations, and other related improvements. Work will be performed based on a prioritized database inventory. Scope will also include a pilot program to convert a number of existing street lights to energy efficient Light Emitting Diode (LED) lamps and control systems.

NOTES:

This project could be eligible for a \$1million PG&E matching program.

Category	Project	Estimate Level
Street Improvement	4267 Soundwall Renovation	1

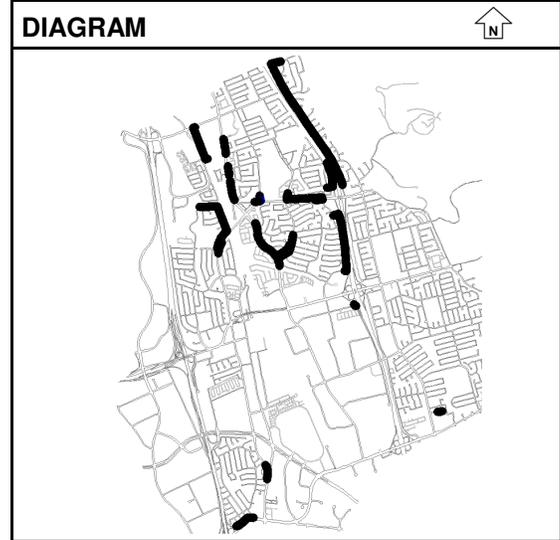

CONTACT: Steve Erickson [3301] / Julie Waldron [3314]

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

DESCRIPTION

This project renovates the City owned sound walls along N. Milpitas Boulevard, Escuela Parkway, Jacklin Road at Horcajo, La Palma, Hillview Drive at Tularcitos Creek, Nicklaus at N. Park Victoria and other locations. Portions of the walls have deteriorated and will need to be structurally repaired or completely replaced. In some locations, the ground elevation on the residence side is much higher than on the public street side. The soundwalls were not designed as retaining walls, so they require structural retrofit work or replacement.

NOTES:

2016-21 CAPITAL IMPROVEMENT PROGRAM**

Category	Project	Estimate Level
Street Improvement	4271 Bridge Improvements	3

CONTACT: Steve Erickson [3301]

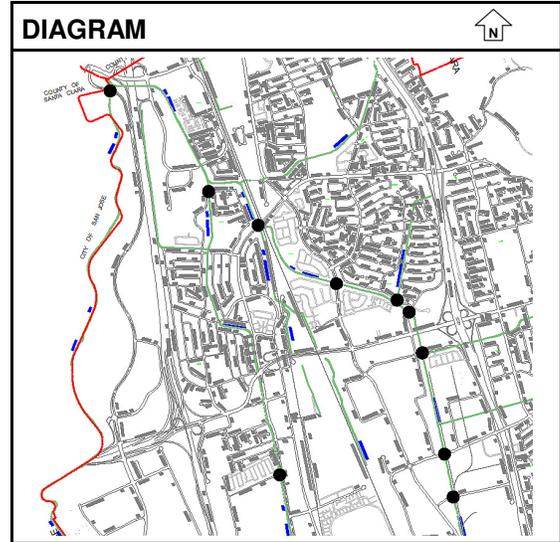

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

DESCRIPTION

The project provides for maintenance and repairs to City owned bridges. The city owns and maintains eighteen roadway bridges and five pedestrian/bicycle bridges. They require ongoing preventative maintenance and repairs including deck resurfacing, crack sealing, and work identified in the bi-annual bridge inspection reports performed by the California Department of Transportation.

NOTES:

The project is currently in design and additional budget for FY16-17 construction is required. Bridges anticipated for repair include Los Coches @ Berryessa Creek, N. Hilview @ Berryessa Creek, Yosemite @ Berryessa Creek, Ames @ Berryessa Creek, Machado @ Penitencia Creek, N. McCarthy @ Coyote Creek, N. Abbott @ Penitencia Creek, N. Milpitas @ Berryessa Creek, N. Abel @ Berryessa Creek, Paseo Refugio @ Tularcitos Creek.

Category	Project		Estimate Level
Street Improvement	4276	Electrical Vehicle Charging Stations	1

CONTACT: Steve Chan [3324]

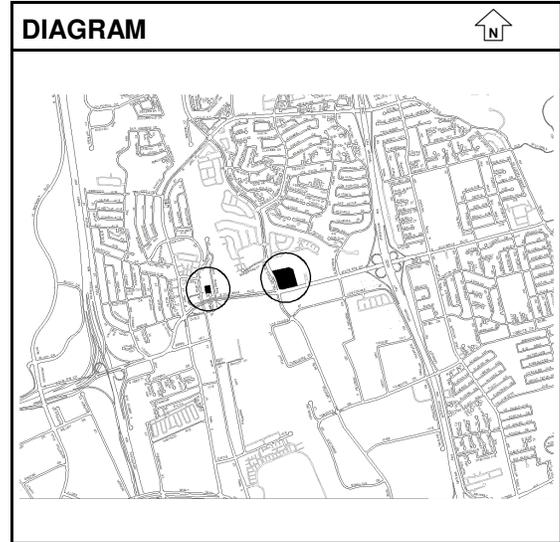

PRIORITY: Improve the Quality of Life

DESCRIPTION

The project provides for the installation of two Electric Vehicle EV charging stations located along South Milpitas Boulevard in front of City Hall, and two EV charging stations located at the Midtown parking garage located next to the Library.

NOTES:

The City applied for a \$40,000 grant for the installation of four EV charging stations, however in April 2015 the Bay Area Air Quality Management District (BAAQMD) only authorized \$20,200 for this program. Project design, City administration, and inspection costs are not grant reimbursable. Additional money was added in FY16-17 for construction.

Uncommitted Balance as of 2/29/2016: \$40,200

Category	Project	Estimate Level
Street Improvement	4281 TASP Underground Utility District	1

CONTACT: Steve Erickson [3301]

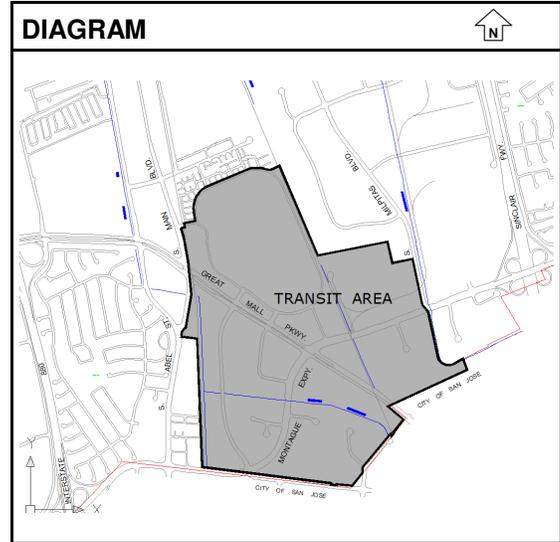

PRIORITY: Improve the Quality of Life

DESCRIPTION

This project provides for the creation of a new utility underground district that covers the City's Transit Area Specific Plan redevelopment area. The purpose of the district is to allow for the undergrounding of existing overhead electric, PG&E, Cable TV, and Phone lines. The new district would be administered by the City, with engineering design and construction to be completed by PG&E using the City's Rule 20A funds.

NOTES:

The initial project proposed within the district would underground approximately 1,130 lineal feet of overhead PG&E electric line along South Milpitas Blvd. from the existing UPRR rail crossing to Montague Expressway and along Montague Expressway from South Milpitas Blvd. to Gladding Ct. The Valley Transportation Authority (VTA) will install the new undergrounding substructure as part of the BART project at their cost. The County Roads and Airports will provide their available Rule 20A funds for PG&E to install the underground cables, the cost of which is estimated at \$1.13M. The City would be responsible to administer the project with PG&E. (Approximately \$3.6 million in PG&E credits are available as of January 2013.)

Uncommitted Balance as of 2/29/2016: \$15,000

2016-21 CAPITAL IMPROVEMENT PROGRAM**

Category	Project		Estimate Level
Street Improvement	New	ADA Curb Ramp Transition Program 2016	1

CONTACT: Steve Chan [3324]

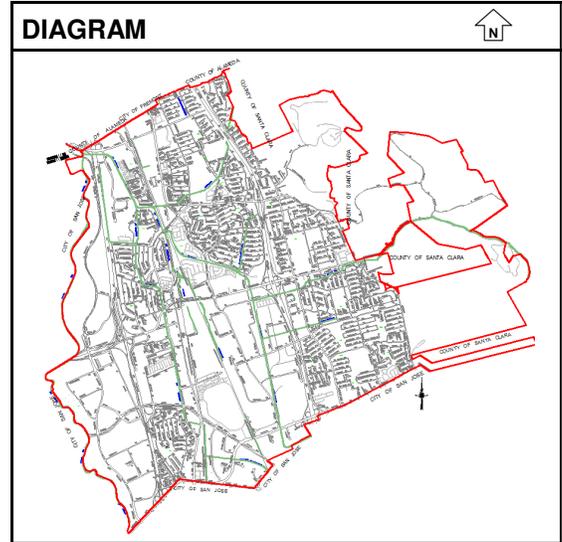

PRIORITY: Mandatory or Committed Projects

DESCRIPTION

This mandatory program involves citywide replacement or upgrade of existing curb ramps to current standard Americans with Disabilities Act (ADA) compliant ramps. The project will also include the construction of minor segments of new sidewalk to close gaps between sidewalks on public streets in order to meet the requirements of the Title II of the ADA, and to allow the City to be eligible for future Federal transportation aid funds. An annual assessment will be conducted to determine and establish a priority list of candidate sites for replacement or upgrade based on pedestrian activity, public request, and field inspection. The target program completion date for citywide ADA public street curb ramp compliance is 2040.

NOTES:

Federal regulation mandates state and local governments to comply with the American Disable Act (ADA) by making reasonable accommodation to the disabled. The ADA curb ramp transition plan is a program to comply with the Federal ADA regulation on public streets, and the program allows the city to be eligible to future transportation Federal aid funds.

2016-21 CAPITAL IMPROVEMENT PROGRAM**

Category	Project		Estimate Level
Street Improvement	New	Annual Sidewalk, Curb & Gutter Repair *	1

CONTACT: Nina Hawk [2603]

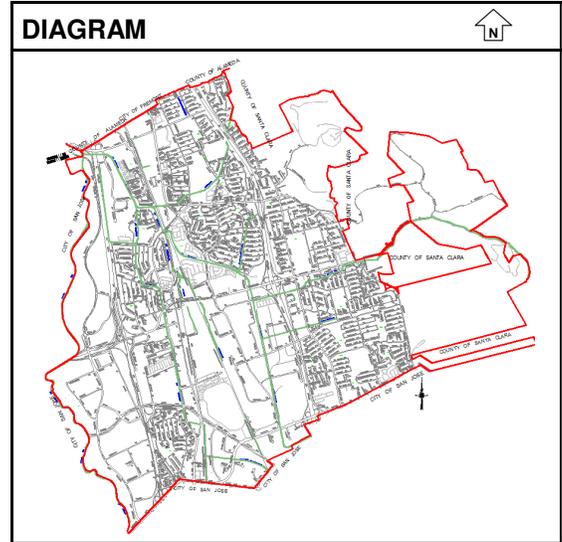

PRIORITY: Health and Safety Projects

DESCRIPTION

This project provides annual funding for the replacement of damaged or raised sidewalks, curbs, gutters, and minor asphalt patching throughout the City. The scope of work includes administration, verification of locations to be repaired or replaced, completing necessary repairs, ongoing inspection of City sidewalk, curbs and gutters.

NOTES:

Demand for replacement work under this project has continued to grow. This is largely due to tree roots damaging sidewalks, curbs, and gutters.

Street Improvement	New Midtown Street Light Project	1

CONTACT: Steve Erickson [3301]

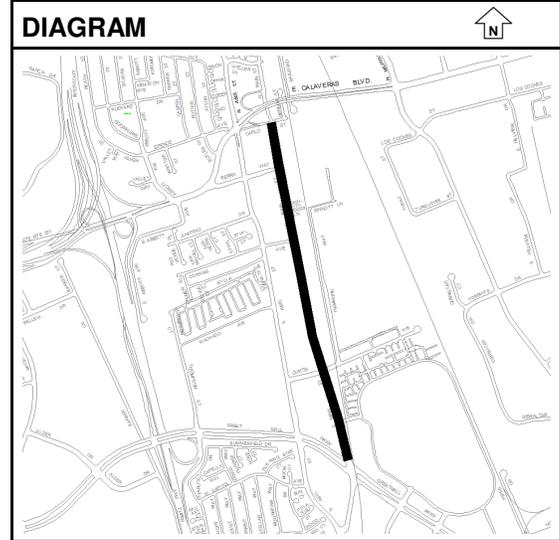

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

DESCRIPTION

This project provides for the installation of Midtown decorative street lighting along South Main Street from Carlo Street to Great Mall Parkway as a replacement to the existing cobra head lights. The project will be completed in phases. Conceptual cost estimates for the different project phases include: Carlo to Corning is \$3M; Curtis to Great Mall Parkway is \$1.5M; Corning to Curtis is \$1.5M. The Corning to Curtis phase would be completed after PG&E Rule 20A undergrounding of private overhead utilities. Estimates are conceptual and actual construction cost will be developed during the design process.

NOTES:

The estimated cost for PG&E Rule 20A undergrounding of overhead utilities between Corning and Curtis is \$3.3M and will be provided under the Utility Undergrounding 2020 CIP. FY16-17 funding will allow staff to begin the conceptual design phase to develop design scope and layout within the sidewalk, estimated design and construction costs, project phasing and schedule. Staff is pursuing the feasibility and formation of a Business Improvement District (BID) funded by Developer contributions to fund the street frontage improvements along the Main Street corridor.

Street Improvement	New	Montague Ped. Overcrossing at Penitencia Crk	1

CONTACT: Steve Chan [3324]

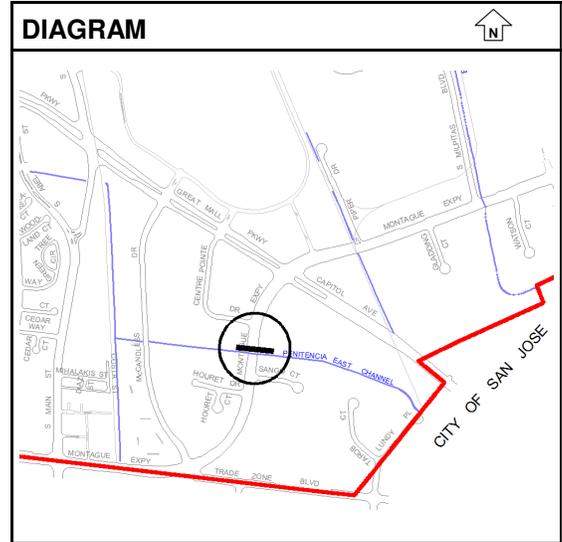

PRIORITY: Improve the Quality of Life

DESCRIPTION

This project provides for CEQA environmental clearance and construction of a pedestrian overcrossing (POC) over Montague Expressway at the east levee of Penitencia Creek. The pedestrian overcrossing is part of the Transit Area Specific Plan (TASP) circulation infrastructure improvement to provide safe and convenient pedestrian circulation between TASP residential developments, schools, and park sites.

NOTES:

The design will be completed by a TASP developer (Lennar) in mid 2016. Construction is anticipated to be funded by the Metropolitan Transportation Commission (MTC) One Bay Area grant. The City will provide a local funding match estimated at \$1,312,000 funded by TASP development fees. The preliminary estimated total project cost is \$9M as shown in the City's TASP document.

Category	Project	Estimate Level
Street Improvement	New Street Resurfacing Project 2021	1

CONTACT: Steve Chan [3324] / Nina Hawk [2603]

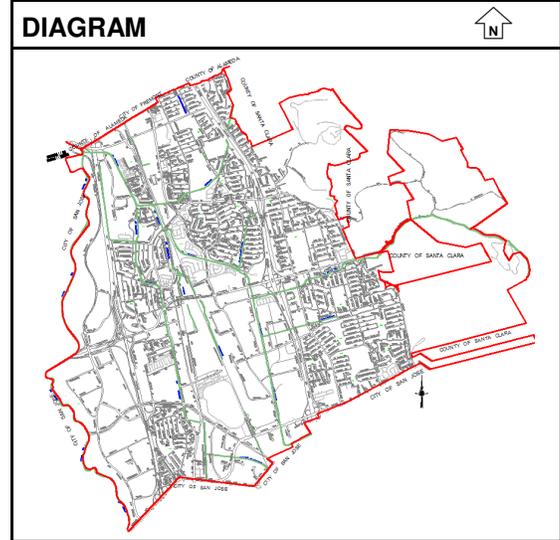

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

DESCRIPTION

This project provides for street pavement resurfacing including major street reconstruction. Streets are selected for improvement using the City's Pavement Management System to optimize the pavement condition based upon available budget. There are over 123 centerline miles of street pavement maintained by the City. Pavement repair work includes replacement of damaged curb, gutter, and sidewalk, installation or replacement of ADA curb ramps, and installation of Class II bike lanes, and Class III bike route facilities as described in the updated 2009 City of Milpitas Bikeway Master Plan.

NOTES:

Annual visual inspections of City sidewalks are conducted to determine and establish a priority list of locations for repair. Annual funding of \$4.6 million is required to maintain a city wide Pavement Condition Index (PCI) of 70. A PCI of 70 is defined by the Bay Area's Metropolitan Transportation Commission (MTC) as a street in "good condition".

Category	Project		Estimate Level
Street Improvement	Plan	Street Landscape Irrigation Repair 2019	1

CONTACT: Nina Hawk [2603]

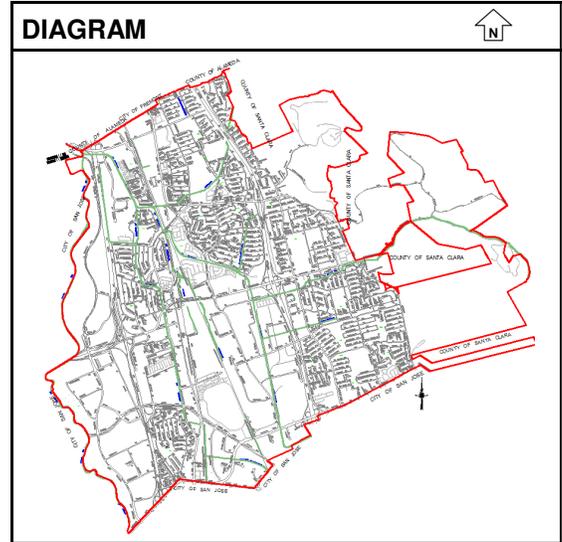

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

DESCRIPTION

This project provides for the repair and replacement of streetscape and median irrigation systems and related equipment on City streets.

NOTES:

The City has many miles of landscaped street medians and curb planter areas in the City. The older irrigation systems are not well documented, leak, are inefficient, and do not provide suitable irrigation to support healthy landscape. The project would also provide for restoration of existing landscaping within the medians and curb planters. Due to the drought conditions, new landscape planting would be limited to those areas irrigated with recycled water - Alder Drive, Escuela Drive, Tasman Drive, and Thompson Street.

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

DESCRIPTION

This project provides for street pavement resurfacing including major street reconstruction. Streets are selected for improvement using the City's Pavement Management System to optimize the pavement condition based upon available budget. There are over 123 centerline miles of street pavement maintained by the City. Pavement repair work includes replacement of damaged curb, gutter, and sidewalk, installation or replacement of ADA curb ramps, and installation of Class II bike lanes, and Class III bike route facilities as described in the updated 2009 City of Milpitas Bikeway Master Plan.

NOTES:

Annual visual inspections of City sidewalks are conducted to determine and establish a priority list of locations for repair. Annual funding of \$4.6 million is required to maintain a city wide Pavement Condition Index (PCI) of 70. A PCI of 70 is defined by the Bay Area's Metropolitan Transportation Commission (MTC) as a street in "good condition".

CONTACT: Steve Chan [3324]

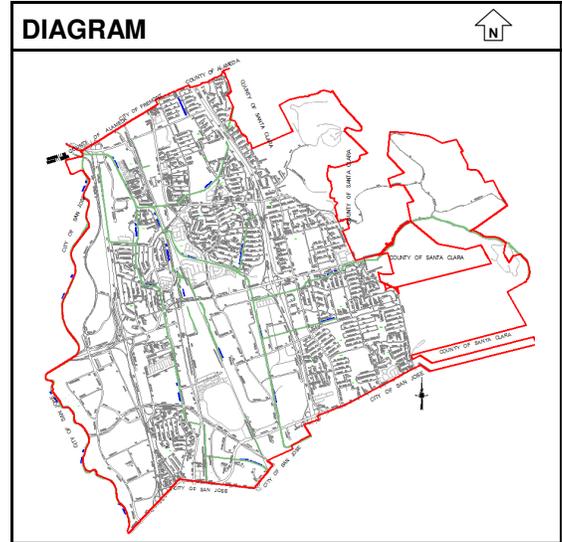

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

DESCRIPTION

This project provides for the upgrade and deployment of traffic management equipment used to monitor and control the City's roadway network. Typical improvements include the deployment of traffic signal control equipment and upgrades to the traffic operations center's video monitoring equipment.

NOTES:

This project also provides resources to pursue grant funding sources to augment the traffic management projects.

PRIORITY: Improve the Quality of Life

DESCRIPTION

This project provides for the design and construction of a traffic signal system. The following three intersections are being monitored for traffic signal warrants: Milpitas Blvd & Tramway Dr., S. Park Victoria Dr. & Mt. Shasta Ave., and McCarthy Blvd. & SanDisk Dr.

NOTES:

The State traffic signal warrant criteria is used to determine the warrants for signaling an intersection.

Category	Project	Estimate Level
Street Improvement	Plan Utility Undergrounding 2017	1

CONTACT: Steve Erickson [3301]

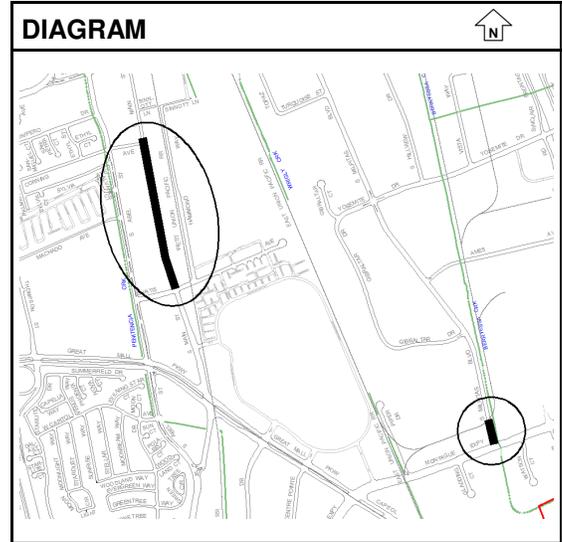

PRIORITY: Improve the Quality of Life

DESCRIPTION

This project provides preliminary engineering and City administration for the undergrounding of existing overhead electric telephone and CATV facilities at various locations Citywide. Construction is funded by the PG&E Rule 20A Program and other utilities (Approximately \$3.6 million in PG&E credits are available as of January 2013.) Once the utility underground district is created, the PG&E construction schedule is 5 to 7 years later.

NOTES:

Two projects are anticipated to draw Rule 20A funding the City has banked. The South Main Street Utility Underground District from Corning to Curtis Avenue is estimated at \$3.3M, and is programmed for FY16-17. Any remaining funding would be used to underground overhead utility wires along South Milpitas at Montague Expressway which is estimated at \$250K. PG&E estimated costs to underground conductor is \$1,000/ft not including surface restoration cost.

**City of Milpitas
2016-21 CAPITAL IMPROVEMENT PROGRAM**

Category	Project		Estimate Level
Water Improvement	2002	2nd SCVWD Water Reservoir & Pump Sta.	1

CONTACT: Marilyn Nickel [3347]

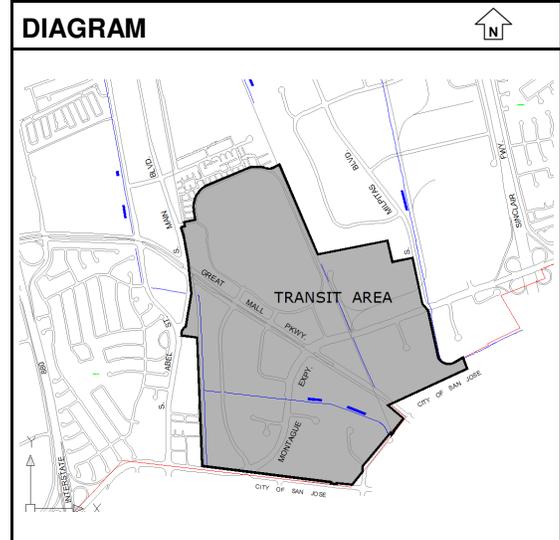

PRIORITY: Mandatory or Committed Projects

DESCRIPTION

This project will provide potable water reservoir (6.6 million gallons) and pump station to serve the SCVWD water service area, as recommended in the Milpitas 2009 Water Master Plan Update. This facility is necessary to serve the Midtown and Transit Area Specific Plan and other future development. The scope includes land purchase, design and construction of a reservoir, pump station, and related improvements. The new water facility will require acquisition of approximately 3 acres in the Transit Area at an estimated cost of \$6.7 million. Design and Construction will be programmed in the future at a cost estimate of \$15 Million. Total cost estimate is \$21.7 Million.

NOTES:

The new water facility will require acquisition of approximately 3 acres in the Transit Area at an estimated cost of \$6.7 million. Design and Construction will be programmed in the future at a cost estimate of \$15 Million. Total cost estimate is \$21.7 Million. Identified projects in the Water Supply Augmentation Study have priority and this anticipated land purchase has been moved from FY 16-17 to FY 17-18.

Uncommitted Balance as of 2/29/2016: \$200,000

Category	Project	Estimate Level
Water Improvement	7100 Water System Seismic Improvements *	1

CONTACT: Nina Hawk [2603] / Marilyn Nickel [3347]

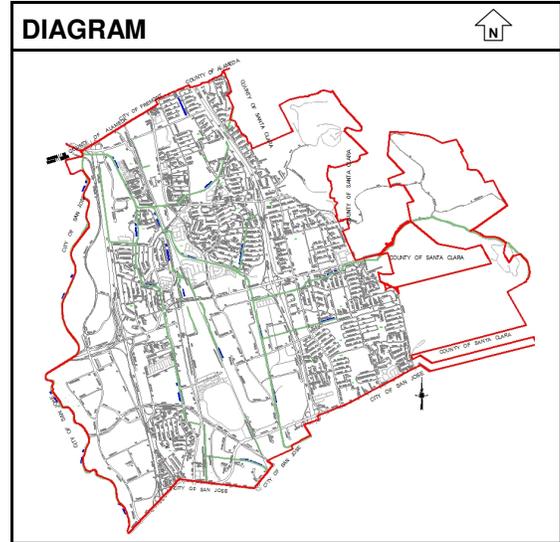

PRIORITY: Health and Safety Projects

DESCRIPTION

This project develops a comprehensive Water System Seismic Improvements Program. Components include seismic rehabilitation to the City's "back-bone" water system as defined in the Water System Seismic Improvement Strategic Plan and purchase of water system materials and equipment for emergency response to a major disaster.

NOTES:

Estimated costs for this project have been updated this year to include significant project funding for the additional seismic features for the Dempsey Road Water Line Replacement Project 7118. These seismic features provide additional reliability and redundancy as prescribed in the Seismic Improvement Strategic Plan. Overall, seismic improvements are expected to span over a decade and cost over \$25 million.

2016-21 CAPITAL IMPROVEMENT PROGRAM**

Category	Project	Estimate Level
Water Improvement	7110 Hydrant Replacement	1

CONTACT: Nina Hawk [2603]

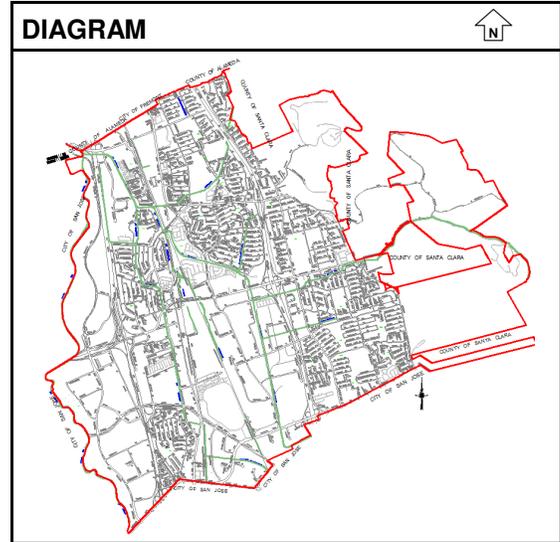

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

DESCRIPTION

This project involves replacement of hydrants in the Manor, Sunnyhills, and Milford neighborhoods. Other locations may include Calaveras Blvd, Park Victoria and Jacklin Road. Additional work may include replacement of the water valve for the hydrant.

NOTES:

Identified projects in the Water Supply Augmentation Study have priority and this work has been moved from FY 16-17 to FY 17-18.

Uncommitted Balance as of 2/29/2016: \$169,379

2016-21 CAPITAL IMPROVEMENT PROGRAM**

Category	Project	Estimate Level
Water Improvement	7115 Cathodic Protection Improvements	1

CONTACT: Steve Erickson [3301]

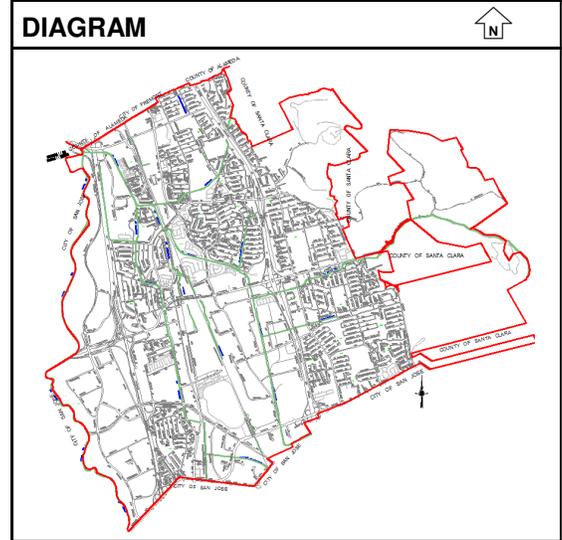

PRIORITY: Projects Which Avoid Future Additional Costs

DESCRIPTION

This project provides for the evaluation, study, and installation of corrosion monitoring stations and equipment to protect buried City metallic pipelines, and to provide recommendations for retrofit or anode replacement. The project will provide for upgrade and improvement of system deficiencies defined in the evaluation study.

NOTES:

Soils within the City have been found to be highly corrosive and are detrimental to metallic pipelines. Cathodic protection systems use sacrificial anodes and other means to protect the metal pipeline. The additional funding provides for additional repair work at the City's main sewage pump station.

Uncommitted Balance as of 2/29/2016: \$99,699

Category	Project	Estimate Level
Water Improvement	7121 Automated Water Meter Replacement	1

CONTACT: Steven Machida [3355] / Marilyn Nickel [3347]

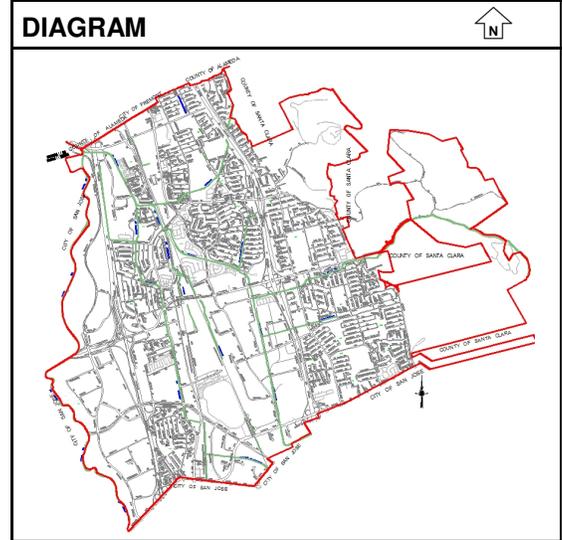

PRIORITY: Projects Which Avoid Future Additional Costs

DESCRIPTION

A City-Wide replacement of existing water meters will be implemented to improve overall service to the City's customers and improve the reliability of the meter reading data. As meters age, the meter readings will read lower over time. Other cities have experienced a reduction ranging of 10-13% lower readings before they completed their meter change out.

NOTES:

The project will replace all of the City meters over a five year period. The new meters will provide electronic results for the 17,000 water accounts and thereby eliminating manual reads. The system will continuously monitor customer water usage and provide alerts for extraordinary usage patterns or possible leaks.

Uncommitted Balance as of 2/29/2016: \$67,240

FINANCE NOTES

Staff plans to seek external financing sources to offset costs.

2/16/16: Reallocated Water Fund monies of \$750K to be funded by Water Bonds FY16-17.

**City of Milpitas
2016-21 CAPITAL IMPROVEMENT PROGRAM**

Category	Project	Estimate Level
Water Improvement	7125 BART Project - Water Improvements	1

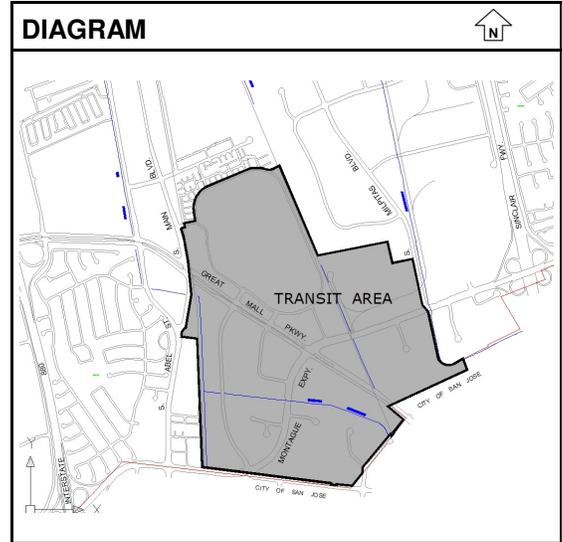

CONTACT: Steven Machida [3355]

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

DESCRIPTION

The BART project will cause the relocation of existing utilities along the BART corridor at its own expense. In addition, there are other related water system improvements which have been identified by the City, to be completed as part of the BART utility relocation effort. The City is required to cost share for these enhancements. Water projects include: the upsize of existing water crossing at Montague and Capitol, installation of 2 new water crossings south of Montague, and possible upsizing of pipelines in the area of Piper Drive. This work also includes water system upgrades and new recycled water pipelines to be completed as part of the adjacent Montague Widening Project.

NOTES:

Uncommitted Balance as of 2/29/2016: \$180,080

2016-21 CAPITAL IMPROVEMENT PROGRAM**

Category	Project		Estimate Level
Water Improvement	7126	Water Conservation Program *	1

CONTACT: Nina Hawk [2603]

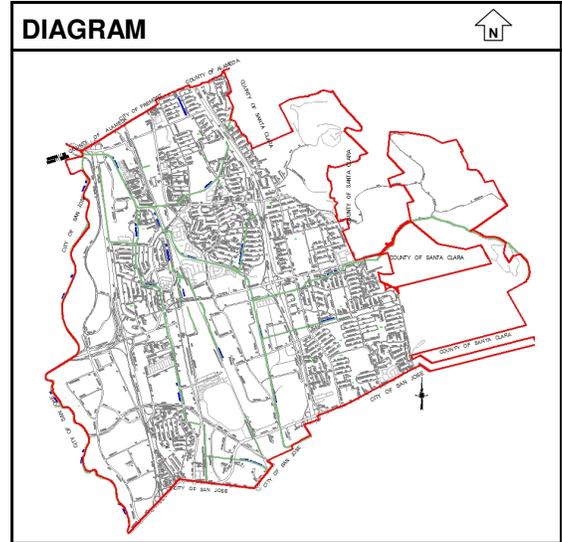

PRIORITY: Health and Safety Projects

DESCRIPTION

This project provides for a Water Conservation Program including development, implementation, and management of a new City wide water rationing and conservation plan including community outreach and education. The program includes staff response to water waste complaints and the implementation of new State mandated water conservation programs. This project will begin the conversion of City and private owned irrigation facilities from potable to recycled water where they are adjacent to recycled water pipelines.

NOTES:

The State Water Resources Control Board has extended water retailer conservation enforcement and reporting due to the ongoing drought. Additional funding was added to comply with State requirements.

Uncommitted Balance as of 2/29/2016: \$639,425

**City of Milpitas
2016-21 CAPITAL IMPROVEMENT PROGRAM**

Category	Project		Estimate Level
Water Improvement	7127	Supervisory Control and Data Acquisition	1

CONTACT: Nina Hawk [2603] / Marilyn Nickel [3347]

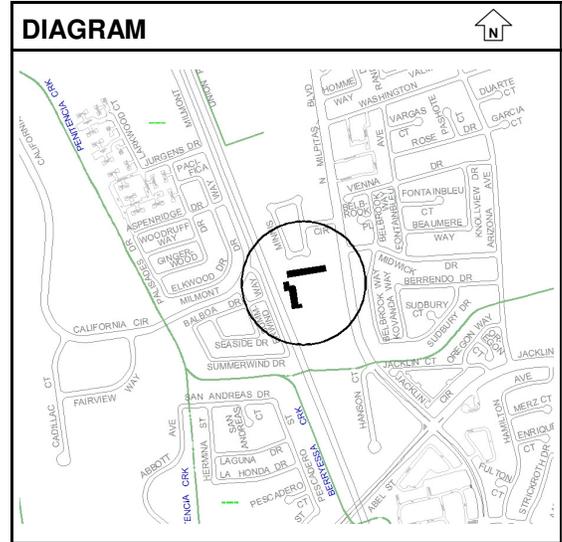

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

DESCRIPTION

A Supervisory Control and Data Acquisition System (SCADA) provides real-time data, such as water tank level, pump operational status, system pressure, and flow rates to water system operators. Operators can use this data to identify operational problems, such as high velocities and low pressures, pressure spikes, which are indicators of pipe breaks. SCADA also allows for remote monitoring and operation of pumps and valves to implement corrective actions and maintain water supply.

NOTES:

Currently operators rely on unsophisticated alarms at limited locations and customer complaints to become aware of water system problems. Operators must drive to sites to evaluate the problem and implement corrective action, such as starting a back-up pump, when the main pumps fail. The sewer system SCADA will be installed first.

Category	Project	Estimate Level
Water Improvement	New Lower Berryessa Creek Water Line	1

CONTACT: Marilyn Nickel [3347]

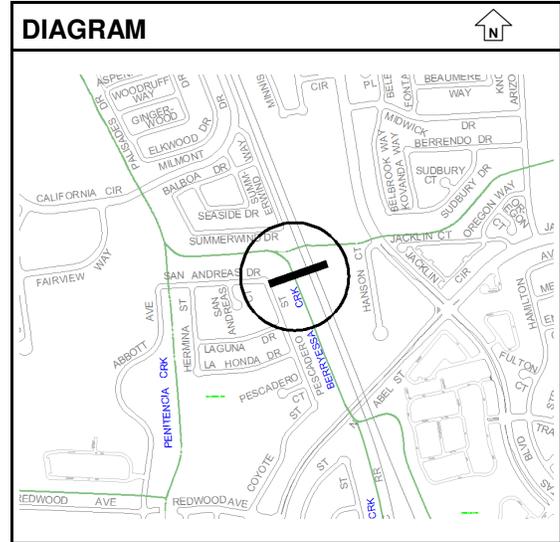

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

DESCRIPTION

This project provides for the relocation and replacement of an existing 14-inch diameter water line beneath Lower Berryessa Creek to accommodate future improvements within the existing creek corridor.

NOTES:

This pipeline was damaged by the Santa Clara Valley District during construction of the Berryessa Creek Levee Improvement work in 2015, and it should be replaced.

Uncommitted Balance as of 2/29/2016: \$0

Water Improvement	New Recycled Water Pipeline Segment 1	1

CONTACT: Julie Waldron [3314] / Marilyn Nickel [3347]

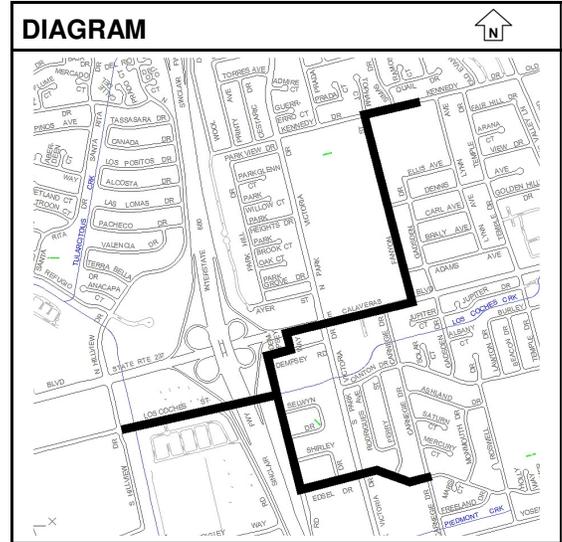

PRIORITY: Improve the Quality of Life

DESCRIPTION

This project provides for the extension of recycled water lines as part of the City's efforts to diversify the water supply system and respond to the ongoing drought emergency by offsetting the use of potable water. The project is divided into five segments. Segment 1 provides for the extension of the pipeline in Los Coches Street under Berryessa Creek, and I-680 to Dempsey Road. The new lines will extend to Cardoza Park to the north and to Randall Elementary School on the south.

NOTES:

The design for the Segment 1 pipeline extension is included in the Dempsey Road Utility Improvement Project CIP 7118 & 7100. This 10,000 LF recycled pipeline extension is estimated to cost \$9.8M.

Uncommitted Balance as of 2/29/2016: \$0

2016-21 CAPITAL IMPROVEMENT PROGRAM**

Category	Project	Estimate Level
Water Improvement	Plan Los Coches Backbone	1

CONTACT: Jeffery Leung [3326] / Marilyn Nickel [3347]

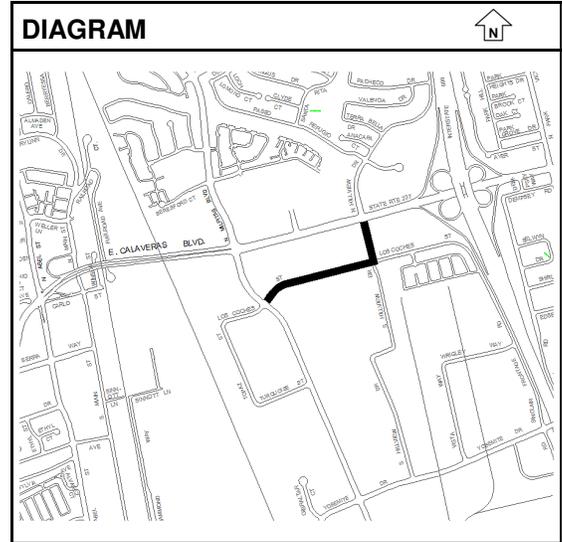

PRIORITY: Major Service Equipment Replacement

DESCRIPTION

The Los Coches Transmission Main will be constructed between S. Milpitas Boulevard and Dempsey Road. The main will tie the existing dead end main Zone 2 San Francisco PUC at S. Milpitas and Los Coches to tie into the Dempsey Road water main to the east. The project also involves the construction of a new water turnout on Los Coches Street adjacent to E. Calaveras Boulevard near Hillview Drive. The new turnout will improve the overall City water system reliability and convert a few parcels of Zone 2 Santa Clara Valley Water District service area to Zone 2 San Francisco PUC.

NOTES:

The intent of this project is to eliminate the dead end main in S. Milpitas Boulevard and avoid traffic and utility disruption in E. Calaveras during the project construction. The turnout work has to be designed and constructed by San Francisco PUC, which normally takes approximately 2-3 years. Identified projects in the Water Supply Augmentation Study have priority and the start of this work has been moved from FY 16-17 to FY 17-18.

Water Improvement	Plan Water O&M Database Management	1

CONTACT: Nina Hawk [2603] / Marilyn Nickel [3347]

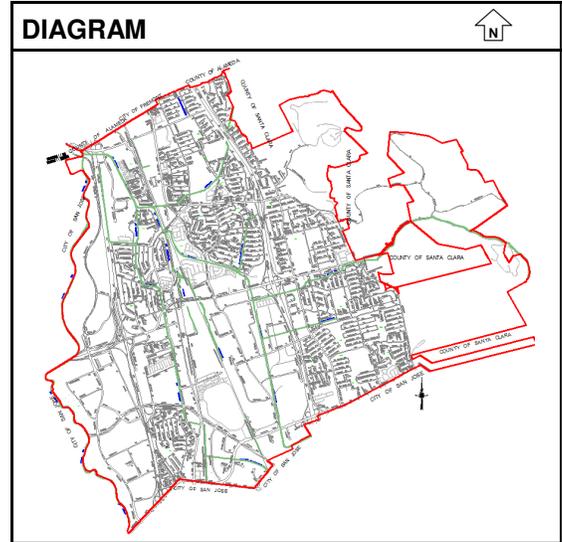

PRIORITY: Projects Which Avoid Future Additional Costs

DESCRIPTION

This project would integrate and expand the CMMS (Computerized Maintenance Management System) GIS database(s) to include water system facility data, such as age of pipe, year of installation, type of pipe, age of valves, maintenance history, and frequency and type of breaks.

NOTES:

Some of the City's water system infrastructure is now 50 years old and reaching the end of its useful life. This database would enable staff to maintain repair records, identify and record the status of infrastructure, and provide timing recommendations for replacement. This work has been deferred from 16-17 to 17-18 to allow the department to better evaluate its needs.

**City of Milpitas
2016-21 CAPITAL IMPROVEMENT PROGRAM**

Category	Project	Estimate Level
Water Improvement	Plan Water Valve Replacement	1

CONTACT: Nina Hawk [2603]

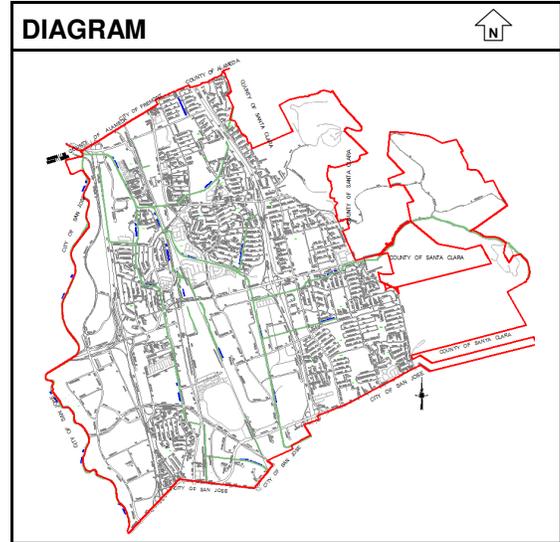

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

DESCRIPTION

This project provides for the replacement of water valves on the water system. These valves are an important element of the aging infrastructure, allowing the system to be isolated during emergency or planned work on the water system.

NOTES:

Additional funding was added to the project for FY16-17 to begin valve replacement work.

Uncommitted Balance as of 2/29/2016: \$0

2016-21 CAPITAL IMPROVEMENT PROGRAM**

Category	Project	Estimate Level
Sewer Improvement	6118 SJ/SC Regional Waste Water Facility	1

CONTACT: Marilyn Nickel [3347]

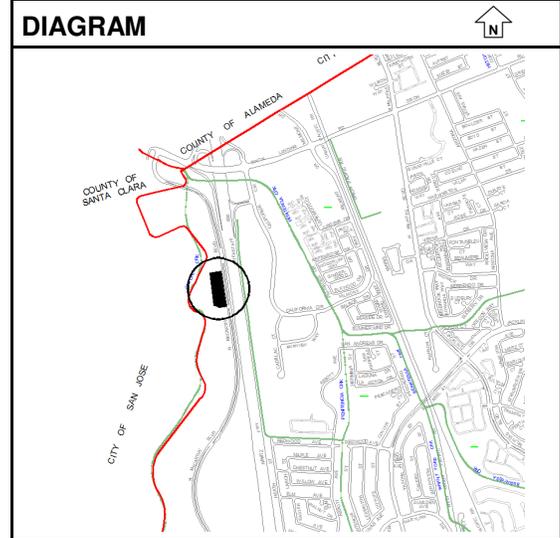

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

DESCRIPTION

The City of Milpitas pumps our sewage to the San Jose/Santa Clara Regional Waste Water Facility for waste water treatment before it can be discharged into the San Francisco Bay. This project will fund Milpitas's share of the facilities rehabilitation costs. The facility was originally constructed in 1956 and is reaching the end of its useful life and is in need of a complete overhaul. The City of San Jose which operates the facility is undergoing a large rehabilitation project to completely overhaul the facility over the next 30 years. The City of Milpitas uses approximately 7% of the facility and will be responsible for 7% of the estimated \$2 billion or \$140 million in improvements that will be made over the next 30 years.

NOTES:

The project costs were increased from anticipated debt service payments to "pay-as-go" total costs; however we are pursuing, with other tributary agencies, long term financing.

Uncommitted Balance as of 2/29/2016: \$8,014,286

**City of Milpitas
2016-21 CAPITAL IMPROVEMENT PROGRAM**

Category	Project		Estimate Level
Sewer Improvement	6119	Sanitary Sewer Condition Assessment Prgm	1

CONTACT: Nina Hawk [2603] / Glen Campi [2643]

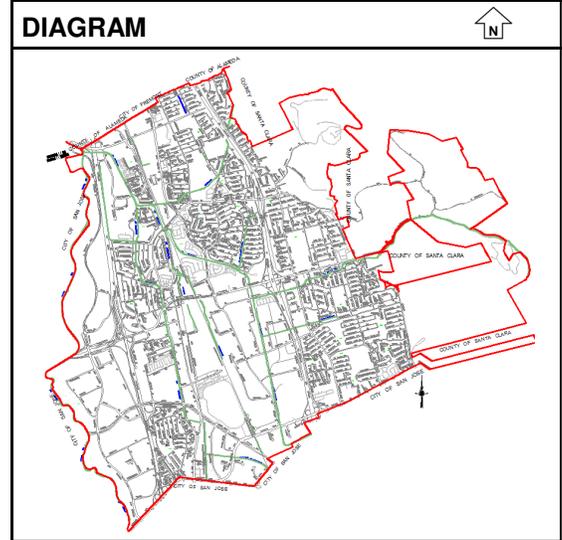

PRIORITY: Studies and Analyses

DESCRIPTION

A citywide condition assessment program is needed to determine the condition of the City's sanitary sewer system.

NOTES:

A CCTV program is used to measure the structural integrity and flow conditions of the underground pipes. During the initial construction, the pipes are constructed to grade and are structurally sound. However over time, pipes may develop "sags" and cracks that may cause pipe failures. CCTV programs will identify conditions in the pipe before pipe failure and reduce the amount of pipe replacement that the City will need to perform. A later phase may include review of pipe materials.

Uncommitted Balance as of 2/29/2016: \$330,000

2016-21 CAPITAL IMPROVEMENT PROGRAM**

Category	Project	Estimate Level
Sewer Improvement	New Sewer Master Plan 2021	1

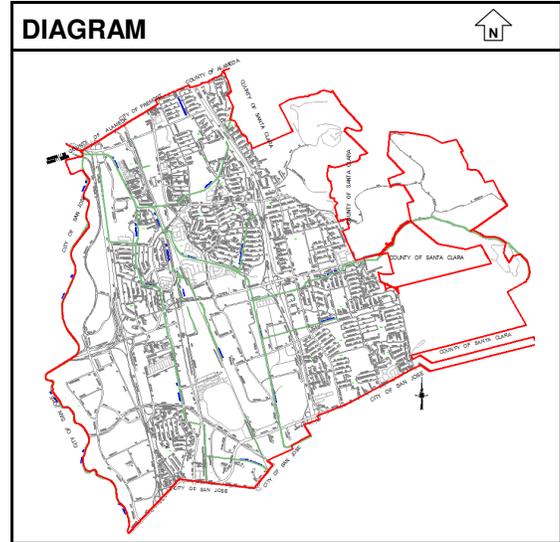

CONTACT: Marilyn Nickel [3347]

PRIORITY: Studies and Analyses

DESCRIPTION

This project provides for the update of the City's Sewer Master Plan document to incorporate miscellaneous general plan amendments, Transit Area Specific Plan (TASP) needs, and to provide CEQA environmental clearance. The update will identify deficiencies in the collection system and recommend corrective actions.

NOTES:

Uncommitted Balance as of 2/29/2016: \$0

2016-21 CAPITAL IMPROVEMENT PROGRAM**

Category	Project		Estimate Level
Sewer Improvement	New	Sewer Seismic Study 19-20	1

CONTACT: Marilyn Nickel [3347]

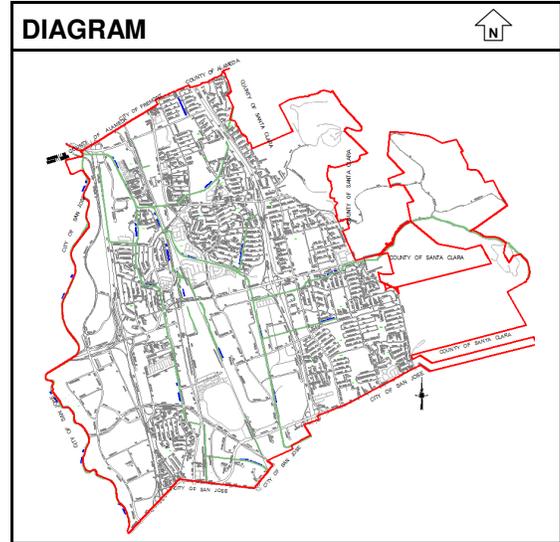

PRIORITY: Studies and Analyses

DESCRIPTION

This project provides for the study and evaluation of soil conditions within the City, and the existing sanitary sewer collection system. Study recommendations may include new pipeline joint construction methods and retrofits at critical locations. The study will also recommend emergency response strategies for Public Works during and after a major earthquake.

NOTES:

A substantial portion of the valley floor is subject to soil liquefaction during earthquakes. Movement of pipelines will cause pipe joints to fail which can lead to blockages, sinkholes, and sewer overflows which are health concerns. Improvement recommendations will be programmed under separate capital improvement projects.

Sewer Improvement	New	Sewer System Hydraulic Modeling 17-19	1

CONTACT: Marilyn Nickel [3347]

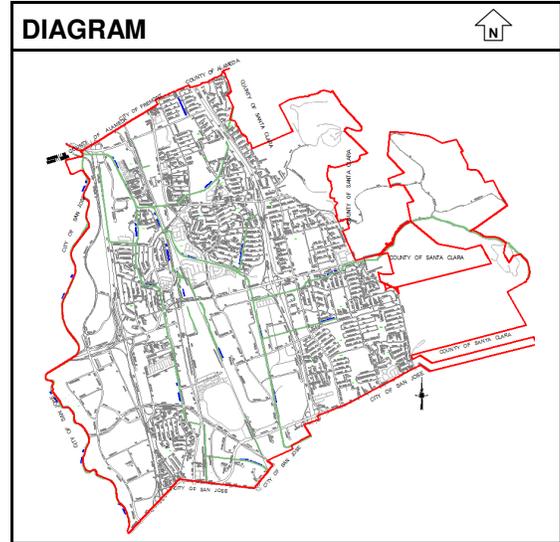

PRIORITY: Studies and Analyses

DESCRIPTION

This project provides for ongoing hydraulic modeling of the sanitary sewer system as needed for Public Works operations and capacity impacts from new development.

NOTES:

Modeling allows verification of existing and future pipe capacity and capacity reduction due to pipe settlements. Modeling analysis is reimbursed by developers when analysis is performed to determine new project impacts to sewer collection system.

Sewer Improvement	Plan Sanitary Sewer Overflow Improvements	1

CONTACT: Nina Hawk [2603] / Marilyn Nickel [3347]

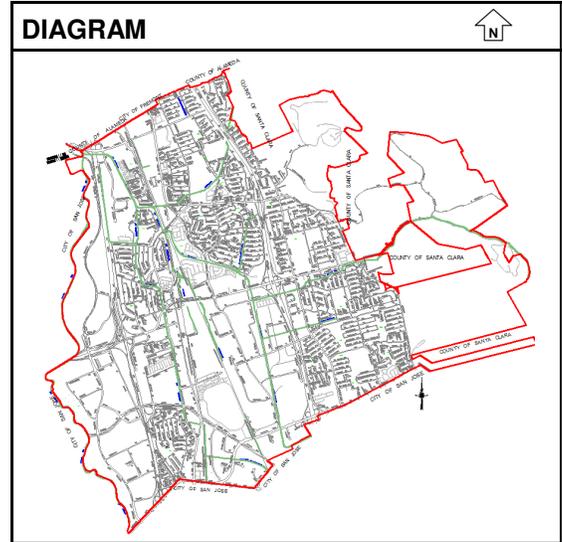

PRIORITY: Mandatory or Committed Projects

DESCRIPTION

This project includes multiple measures to reduce sewer system overflows. A pilot program for "smart" manhole covers would be implemented. These manhole covers contain a sewer manhole flow level sensor that would transmit alarms prior to overflows. In addition, sewer backflow devices would be installed at selected sites.

NOTES:

State regulations require sewer system agencies to reduce sewer system overflows. Funding has been advanced to the first year for pilot program for smart manhole covers.

2016-21 CAPITAL IMPROVEMENT PROGRAM**

Category	Project	Estimate Level
Sewer Improvement	Plan Supervisory Control & Data Acquisition	1

CONTACT: Nina Hawk [2603]

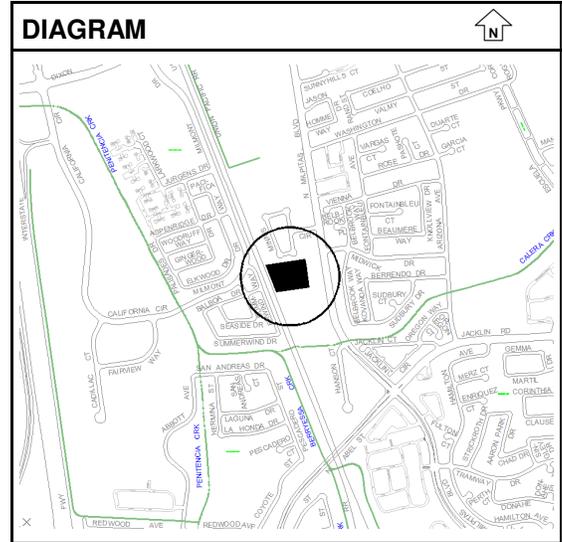

PRIORITY: Projects Which Avoid Future Additional Costs

DESCRIPTION

A Supervisory Control and Data Acquisition (SCADA) system provides real-time data, such as wet well level, and pump operational status to sewer system operators. Operators can use this data to identify operational problems. SCADA allows for remote monitoring and operation of pumps to implement corrective actions and maintain wastewater discharge to the regional wastewater treatment plant.

NOTES:

Currently operators rely on unsophisticated alarms and must drive to sites to evaluate the problem and implement corrective action. Additional funding has been included for construction.

Category	Project	Estimate Level
Storm Drain Improvement	3700 Storm Drain System Rehabilitation	1

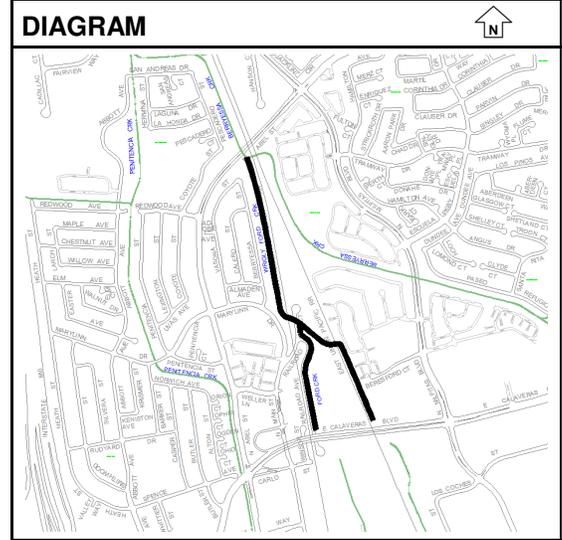

CONTACT: Julie Waldron [3314]

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

DESCRIPTION

Prior work included storm drain system repairs at various locations and wetland riparian mitigation and maintenance work at Wrigley-Ford and Ford Creeks. The remaining work is required by Regional Water Quality Control Board and Army Corps of Engineer permits to inspect, repair, maintain, and submit reports on the Creek sites until February 2023.

Category	Project	Estimate Level
Storm Drain Improvement	3709 Dempsey Road Storm Drain Replacement	1

CONTACT: Steve Erickson [3301] / Julie Waldron [3314]

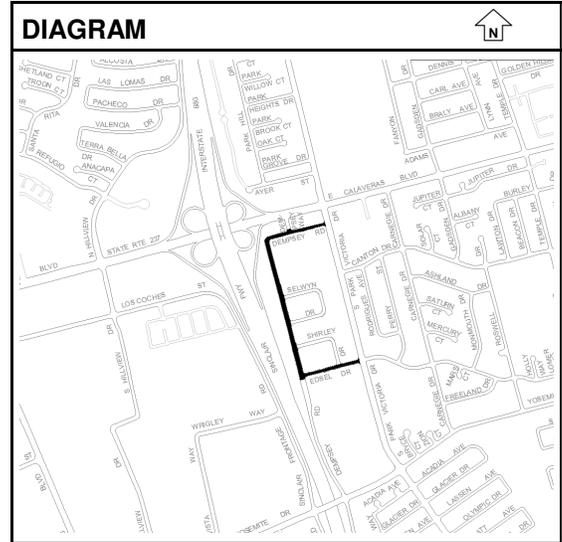

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

DESCRIPTION

The work includes replacement of three segments of storm drainage piping around the Dempsey Road area and installation of two outfalls into Los Coches at Dempsey. Segment one is a 36 inch diameter pipe located on Dempsey Road between South Park Victoria and Los Coches Creek, approximately 1,100 linear feet. Segment two is a 48 inch diameter pipe located on Dempsey Road between Edsel Drive and Los Coches Creek, approximately 1,400 linear feet. Segment three is a 36 inch diameter pipe located on Edsel Drive between South Park Victoria and Dempsey Road, approximately 730 linear feet.

NOTES:

This work is identified as high priority projects #6 and #7 on Table 8-1 in the 2013 Storm Drain Master Plan. Segments one and two need to be constructed simultaneously with the Dempsey water line replacement project. This work may require an environmental study. Cost estimates are at the conceptual stage and additional funding will be required for construction.

Category	Project		Estimate Level
Storm Drain Improvement	3710	Penitencia Pump Station Improvements	1

CONTACT: Steven Machida [3355] / Steve Erickson [3301]

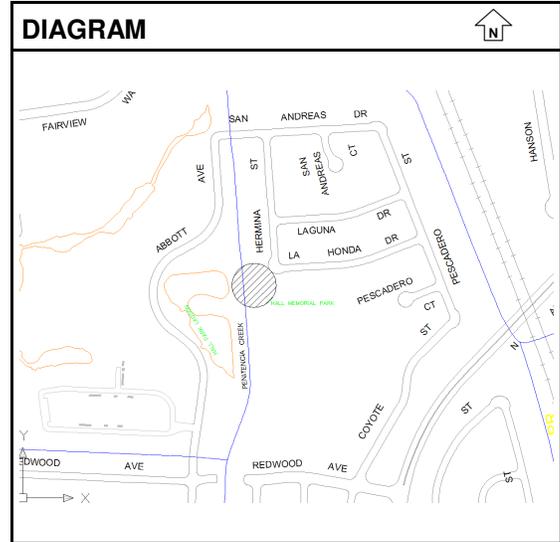

PRIORITY: Major Service Equipment Replacement

DESCRIPTION

This project rebuilt the three 40-year old Fiat engines, drives, and pumps, including the smaller jockey pump, thereby extending the life of Penitencia Storm Pump Station (located at Hall Park). Work was completed in January 2016 and the work is within the warranty period.

NOTES:

This is the City's oldest storm pump station built in 1955. A future project will reconstruct the entire pump station and wet well and will replace the three diesel engines with electric engines to comply with Bay Area Air Quality Management District BAAQMD requirements.

Uncommitted Balance as of 2/29/2016: \$219,338

Category	Project	Estimate Level
Storm Drain Improvement	New Penitencia Pump Station Replacement	1

CONTACT: Steven Machida [3355]

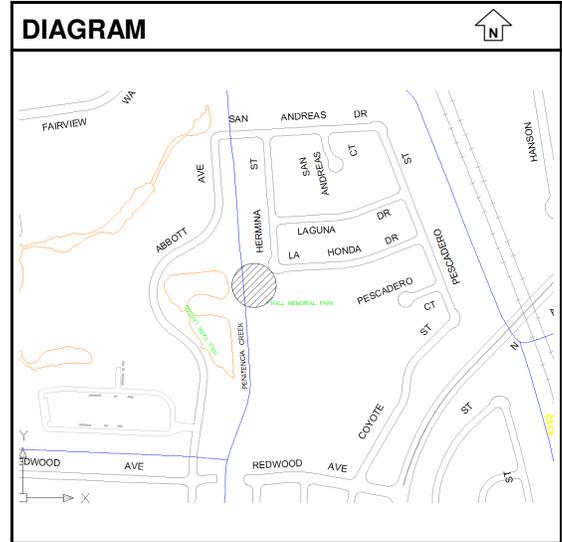

PRIORITY: Major Service Equipment Replacement

DESCRIPTION

This project provides for the reconstruction of the entire pump station and wet well, and will replace the three diesel engines with electric engines to comply with Bay Area Air Quality Management District BAAQMD requirements.

NOTES:

This is the City's oldest storm pump station built in 1955 and is located in Hall Park. The Bay Area Air Quality Management District BAAQMD will no longer permit the diesel engines to be replaced in-kind; they will have to be replaced with electric motors and a backup generator. Conceptual estimated replacement cost is \$5M. The 40-year Fiat diesel engines, pumps, impellers, and drives were replaced in January 2016.

Storm Drain Improvement	Plan Oak Creek Pump Station Upgrade	1

CONTACT: Steven Machida [3355]

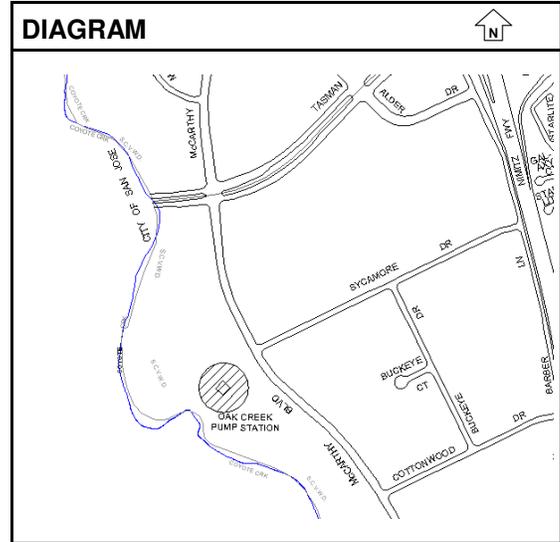

PRIORITY: Major Service Equipment Replacement

DESCRIPTION

This project provides for the replacement of the diesel engines with electric motors. The work also includes wet well modifications and new control panels, as well as other minor items. The pump is located near Sycamore Drive and McCarthy Boulevard and provides drainage for the Oak Creek Industrial Park Area.

NOTES:

This project is described in the 2013 Storm Drain Master Plan.

Category	Project		Estimate Level
Storm Drain Improvement	Plan	Storm Drain Supervisory Control and Data Acquisition	1

CONTACT: Nina Hawk [2603] / Marilyn Nickel [3347]

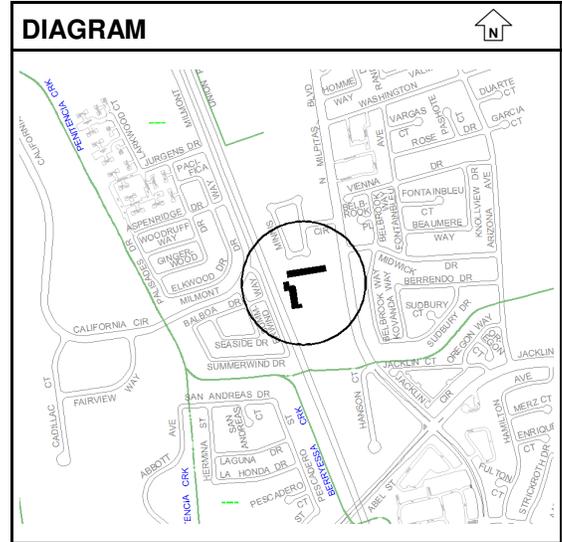

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

DESCRIPTION

A Supervisory Control and Data Acquisition System (SCADA) provides real-time data, such as wet well level and pump operational status to utility systems operators. Currently operators rely on unsophisticated alarms and must drive to sites to evaluate the problem and implement corrective action, such as starting a back-up pump or generator, when the main pumps fail.

NOTES:

The design funding was advanced to coordinate with the overall utility SCADA implementation with the water and sewer programs. The additional funding is necessary for design and construction.

Storm Drain Improvement	Plan Trash Removal Devices	1

CONTACT: Steven Machida [3355] / Marilyn Nickel [3347]

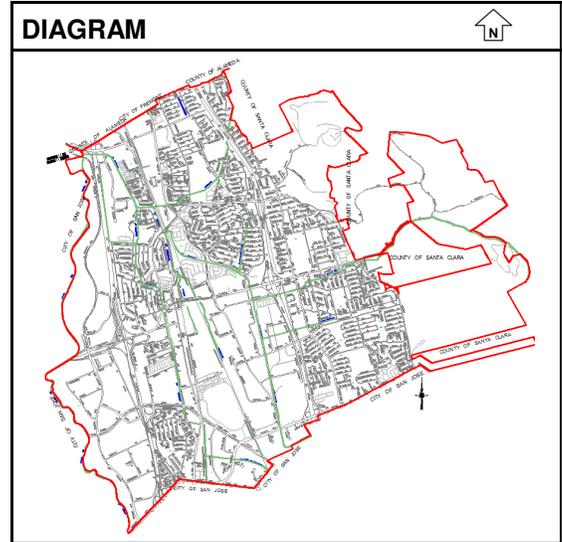

PRIORITY: Mandatory or Committed Projects

DESCRIPTION

This project evaluates locations for trash removal devices within the City's storm water collection system. Proposed work includes design and installation of two devices.

NOTES:

The State Regional Water Quality Control Board included trash removal requirements from storm water collection systems in the Municipal Regional Permit (MRP) issued to Bay Area cities, including Milpitas. This is one of the ways that implementation requirements with the MRP can be obtained. This is State permit mandated.

2016-21 CAPITAL IMPROVEMENT PROGRAM**

Category	Project		Estimate Level
Street Improvement	2001	Light Rail Median Landscaping	1

CONTACT: Julie Waldron [3314]

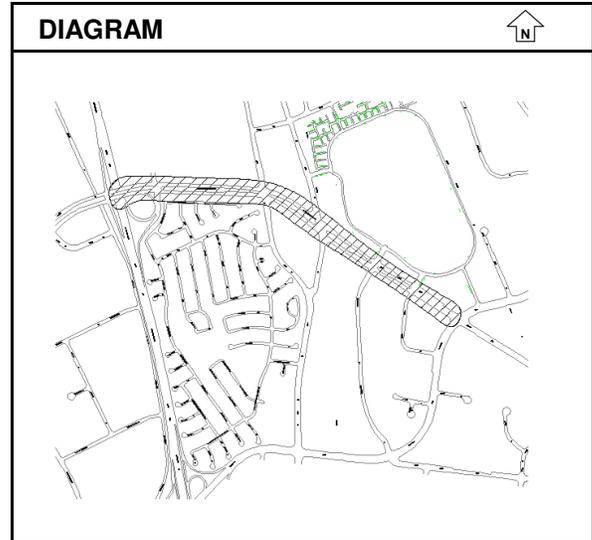

PRIORITY: Mandatory or Committed Projects

DESCRIPTION

This project involves the design and construction of median landscape improvements on Great Mall Parkway from I-880 to the southern City limits at Capitol Expressway. There are eight separate median islands under the LRT viaduct structure which will be landscaped. The scope also includes construction of a recycled water main line for this project and future Transit Area Specific Plan development project.

COMMENTS:

All landscaping will be irrigated with recycled water. This work is included in the cooperative agreement with the Santa Clara Valley Transportation Authority.

2016-21 CAPITAL IMPROVEMENT PROGRAM**

Category	Project		Estimate Level
Street Improvement	2004	S. Milpitas Boulevard Extension	1

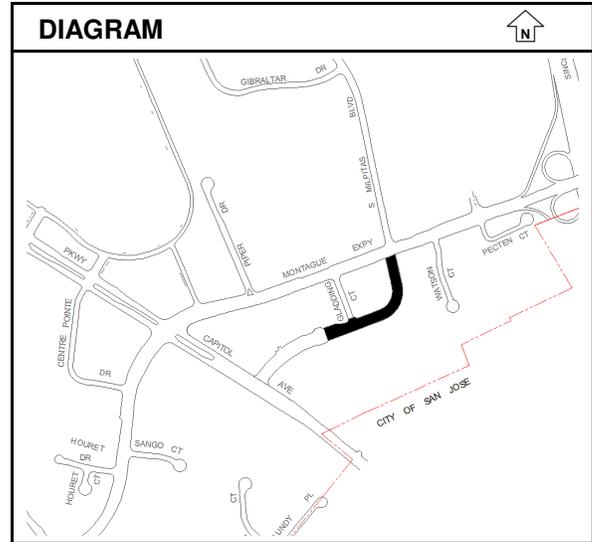

CONTACT: Steven Machida [3355]

PRIORITY: Enhance Economic Development

DESCRIPTION

This project provides for the acquisition of land, design, construction, and administration for extension of S. Milpitas Boulevard including utilities from Montague Expressway to the edge of BART Station frontage. The City entered in to an agreement on August 3, 2010 with the Valley Transportation Agency (VTA) to construct the project for the City in conjunction with the BART project. The BART project will also be responsible for the construction of the remaining portion of the road from the BART Station to Capital Avenue.

COMMENTS:

**City of Milpitas
2016-21 CAPITAL IMPROVEMENT PROGRAM**

Category	Project	Estimate Level
Community Improvement	3401 Solid Waste Master Plan	1

CONTACT: Marilyn Nickel [3347]

PRIORITY: Studies and Analyses

DESCRIPTION

This Master Plan will review the impacts of the City's short and long term planned growth and associated solid waste disposal needs. Since the current solid waste contracts expire in 2017, the plan will also review and develop strategies for economical solid waste disposal beyond 2017. Particularly, since Newby Island Landfill off Dixon Landing Road, is scheduled for closure by 2023.

COMMENTS:

The City has two existing contracts regarding solid waste disposal. One is for collection and hauling to the Newby Island Landfill and Recyclery for disposal. The second is to reserve capacity at the Newby Island Landfill and Recyclery for Milpitas-generated waste.

Category	Project	Estimate Level
Community Improvement	3408 MSC Facility Improvements	1

CONTACT: Renee Lorentzen / Julie Waldron [3314]

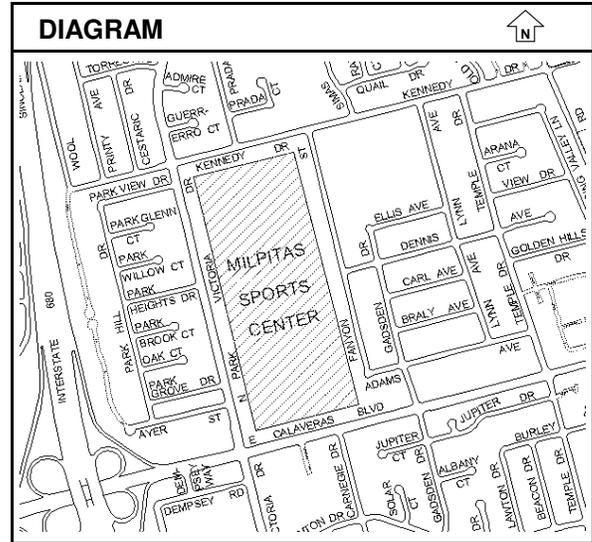

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

DESCRIPTION

This project provides for various ongoing improvements to the Milpitas Sports Center facility. The work includes resurfacing the plaster at the three swimming pools and replacement of tile work, lane lines, and other pool elements and equipment.

COMMENTS:

The pools are heavily used year round and require resurfacing every 5-10 years. California Health and Safety Code, Section 3106B.3 states the finished pool shall be lined with a smooth waterproof interior finish that will withstand repeated brushing, scrubbing and cleaning procedures. This project also funded the Locker Room Improvements completed in 2015. See Project No. 5103 for related MSC Pool rehabilitation work.

**City of Milpitas
2016-21 CAPITAL IMPROVEMENT PROGRAM**

Category	Project		Estimate Level
Community Improvement	3410	Public Works/Police Building Improvements	1

CONTACT: Steve Erickson [3301]

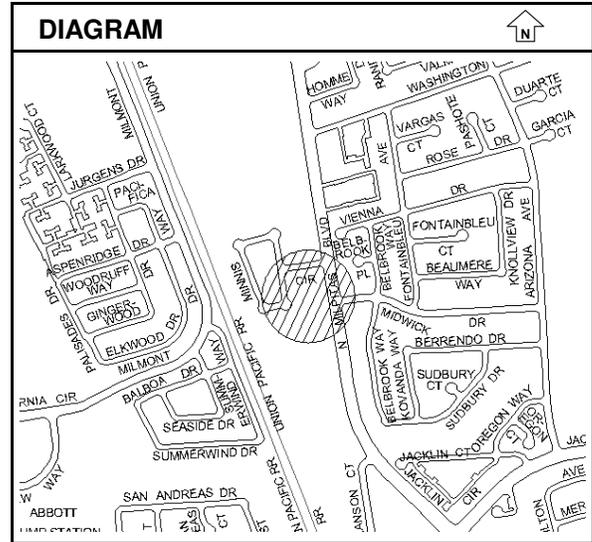

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

DESCRIPTION

This project provides for the repair of the roof systems and parapet walls, repair and replacement of window systems, removal of the wooden sun shade structure, and exterior patching and painting.

COMMENTS:

The Public Works/Police building was constructed in the 1990's, and it is now time for significant repairs. Recently, the exterior parapet walls and roofing systems have developed water leaks that are deteriorating the buildings structure. Several of the aluminum window systems are deteriorated and are in need of repair. Within the last few years, Public Works staff removed the rotted exterior wood shade structures that surround the buildings exterior. The shades remaining along the buildings east face are rotted to the point that they need to be removed.

City of Milpitas
2016-21 CAPITAL IMPROVEMENT PROGRAM

Category	Project	Estimate Level
Storm Drain Improvement	3701 Storm Drain Master Plan Update	

CONTACT: Marilyn Nickel [3347] / Jeffery Leung [3326]

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

DESCRIPTION

This project provides an update to the City Storm Drain Master Plan. This update is needed due to land use modifications proposed by Midtown Specific Plan and proposed Transit Area Specific Plan. It is also important to revise and update the Master Plan in order to account for land use changes and capital projects that have taken place in the City since the original Master Plan was published in 2001, and to provide proper environmental documentation. In addition, FEMA is requiring creek levee recertification as a result of the New Orleans levee failures. The Storm Master Plan will model and analyze citywide existing and proposed storm drain infrastructure, identify system deficiencies and recommend improvements.

COMMENTS:

The project will also include updating the storm drain portion of the Financial Utility Master Plan. A Master Grading and Storm Drainage Plan is required by the Transit Area EIR.

Uncommitted Balance as of 2/29/2016: \$35,396

2016-21 CAPITAL IMPROVEMENT PROGRAM**

Category	Project	Estimate Level
Storm Drain Improvement	3704 Fuel Tank Improvements	1

CONTACT: Nina Hawk [2603]

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

DESCRIPTION

This project involves the removal and replacement of fuel tanks at various storm pump stations including Wrigley-Ford, Penitencia, Berryessa, and Jurgens. These are State mandated improvements intended to protect ground water from potential contamination.

COMMENTS:

Estimates are conceptual.

Uncommitted Balance as of 2/29/2016: \$188,000

Category	Project		Estimate Level
Storm Drain Improvement	3706	Minor Storm Drain Projects 2011-12	1

CONTACT: Nina Hawk [2603]

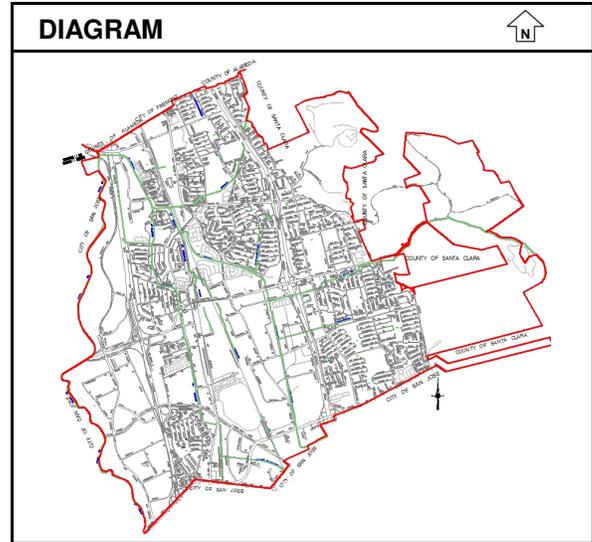

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

DESCRIPTION

This project involves the ongoing analysis and implementation of various minor modifications and improvements to the existing storm drain system. The scope also includes storm drain studies, minor related improvements and regional storm drain fees.

COMMENTS:

The Storm Drain Master Plan identifies storm drain improvements that need to secure funding to design and construct improvements that will eliminate nuisance flooding in the City. The current funding source for these improvements is the storm water connection fees. Additional funding is required to design and construct the balance of the projects in the Master Plan. This project will also fund long term maintenance and the plant establishment phase resulting from dredging Wrigley Ford Creek.

Category	Project	Estimate Level
Storm Drain Improvement	3711 BART Project - Storm Improvements	

CONTACT: Steven Machida [3355]

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

DESCRIPTION

The BART project will cause the relocation of existing storm drain utilities along the BART corridor at its own expense. The City has identified additional storm drain improvements which should be completed as part of the BART utility relocation effort, at the City's cost. These include rerouting storm drain lines on Capitol Avenue, to eliminate localized annual flooding and other enhancements.

**City of Milpitas
2016-21 CAPITAL IMPROVEMENT PROGRAM**

Category	Project		Estimate Level
Street Improvement	4179	Montague Expwy Widening at Great Mall Pkwy	1

CONTACT: Steve Erickson [3301]

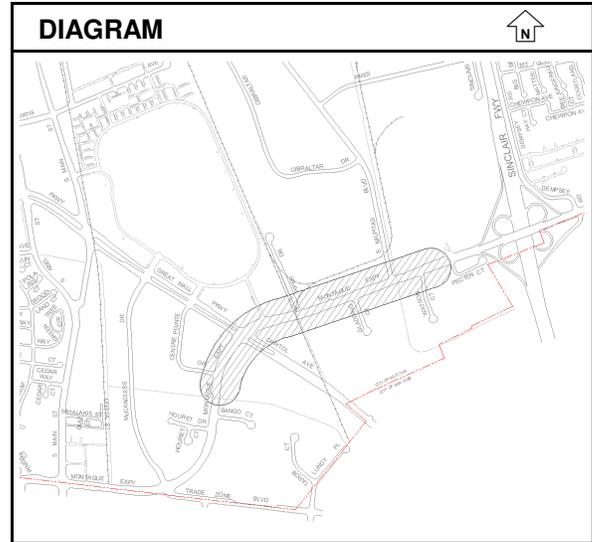

PRIORITY: Mandatory or Committed Projects

DESCRIPTION

This project provides a fourth through lane in each direction on Montague Expressway at Great Mall Parkway. It also includes adding one westbound lane on Montague Expressway from Hwy 680 to UPRR rails, however, these limits may be revised due to right of way availability.

COMMENTS:

A portion of this project, Phase I, is required as a result of the Cisco Systems development. Phase I is the improvement of the Great Mall Parkway/Capitol intersection from Center Point Drive to the UPRR rails, and is funded 50% by Cisco Systems. Phase I was constructed by VTA in conjunction with their LRT project. The remaining portion of the project, phase II, will "close the gaps" that exist between Phase I and Project 4180 which widened the south side of the expressway from west of Gladding Ct. to I-680.

2016-21 CAPITAL IMPROVEMENT PROGRAM**

Category	Project	Estimate Level
Street Improvement	4253 Dixon Landing Road Plan Line	1

CONTACT: Steve Chan [3324]

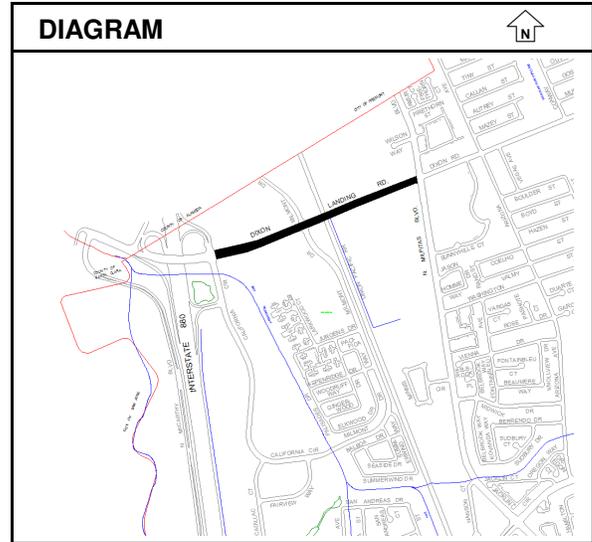

PRIORITY: Studies and Analyses

DESCRIPTION

This project provides for the preparation of a Plan Line Study to evaluate the widening of Dixon Landing Road from N. Milpitas Boulevard to I-880 from 2 lanes to 3 lanes in each direction. The study will evaluate the right of way and feasibility of relocating sidewalks, street lighting, adding bicycle lanes and streetscape in medians and planter strips. This project will also include 35% level design in order to develop an Engineer's Estimate for design and construction of improvements.

COMMENTS:

The Plan Line Study will also be coordinated with the BART roadway/bridge improvements, where BART crosses Dixon Landing Road.

2016-21 CAPITAL IMPROVEMENT PROGRAM**

Category	Project	Estimate Level
Street Improvement	4270 2014 Road Rehabilitation	1

CONTACT: Steve Chan [3324] / Jimmy Nguyen [3318]

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

DESCRIPTION

Pavement rehabilitation overlay of local streets at various locations on Abel Street, Dixon Road, and Arizona Avenue. The project also includes the installation of curb ramps and repairing sidewalks to increase accessibility in the neighborhood.

COMMENTS:

The City has applied for a \$1.65 Million grant from and it is anticipated it will be funded in spring 2014. The grant requires that the City provide an 11.47% local match of participating grant funds. Project design, City administration, and inspection costs are not grant applicable.

Category	Project		Estimate Level
Street Improvement	4273	Street Landscape Irrigation Repair 2014	1

CONTACT: Nina Hawk [2603]

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

DESCRIPTION

This project provides for the repair and replacement of streetscape, median irrigation systems, and related equipment on City streets.

COMMENTS:

The City has many miles of landscaped street medians and curb planter areas in the City. The older irrigation systems are not well documented, leak, are inefficient, and do not provide suitable irrigation to support healthy landscape. The project would also provide for restoration of existing landscaping within the medians and curb planters.

Category	Project		Estimate Level
Street Improvement	4274	I 880 Interchange R/W Closeout	1

CONTACT: Steve Chan [3324] / Julie Waldron [3314]

PRIORITY: Mandatory or Committed Projects

DESCRIPTION

This project will provide final closeout documentation and Right of Way transfer for the three interchanges constructed along I-880 and Dixon Landing Road, State Route 237, and Tasman Drive.

COMMENTS:

The interchanges were constructed under three separate CIP projects. The City is working with Caltrans and VTA through a cooperative cost share agreement to closeout these projects and ultimately transfer R/W and ownership to Caltrans.

Uncommitted Balance as of 2/29/2016: \$226,977

City of Milpitas
2016-21 CAPITAL IMPROVEMENT PROGRAM

Category	Project		Estimate Level
Street Improvement	4275	Street Resurfacing Project 2015	1

CONTACT: Jimmy Nguyen [3318]

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

DESCRIPTION

This project provides for a variety of pavement resurfacing treatments, from slurry seal to major rehabilitation and reconstruction. Streets are selected for improvements based on the City's Pavement Management System to optimize the pavement condition based on available funds in the budget. There are currently over 123 centerline miles of streets that are owned and maintained by the City of Milpitas. The project will also include citywide replacement of existing curb, gutter and sidewalk, installation of ADA ramps and implementation of Class II bike lanes and Class III bike route facilities as described in the 2009 updated City of Milpitas Bikeway Master Plan.

COMMENTS:

The project also includes installation of ADA ramps along roads that are reconstructed or receive an AC overlay. Annually a visual inspection of city sidewalks is conducted to determine and establish a priority list of candidate sites for replacement. An annual funding of \$4.5 million is required to maintain the city wide pavement condition index of 70. A PCI of 70 is defined as "good condition" by Metropolitan Transportation Commission (MTC).

Street Improvement	4278 Milpitas Boulevard Plan Line Study	1

CONTACT: Steve Chan [3324]

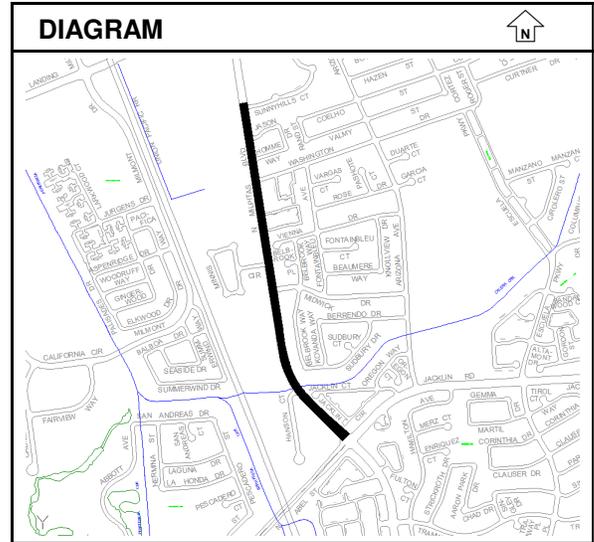

PRIORITY: Studies and Analyses

DESCRIPTION

This project provides for the preparation of a Plan Line Study to evaluate the feasibility of installing landscaped median islands on N. Milpitas Blvd between Jacklin and Sunnyhills Ct. Raised medians can provide improvements to traffic safety and provide an opportunity for street beautification. This study will also evaluate the feasibility of installing other street amenities such as street lighting, access control, pedestrian and bicycle improvements.

COMMENTS:

Plan Line Study will include an extensive community outreach plan, and will recommend a funding plan for the improvement.

2016-21 CAPITAL IMPROVEMENT PROGRAM**

Category	Project	Estimate Level
Park Improvement	5102 McCandless Park	1

CONTACT: Steven Machida [3355]

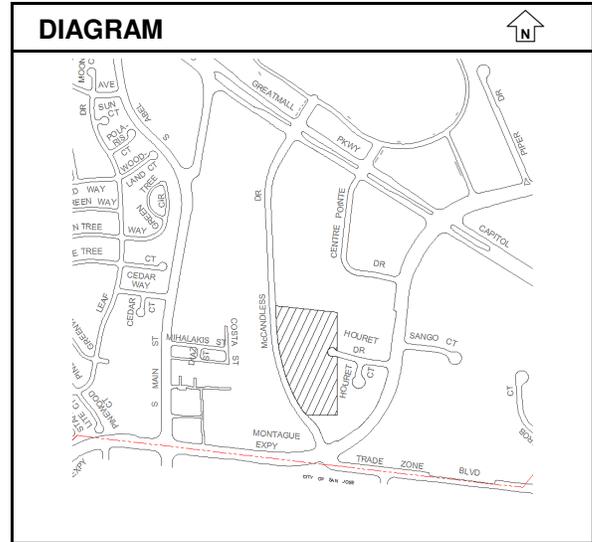

PRIORITY: Improve the Quality of Life

DESCRIPTION

This project provides for a new public park adjacent a new MUSD elementary school located on McCandless drive in the Transit Area. The park will provide approximately 4 acres of City public park space, which will include play fields, athletic courts, parking, picnic area, play structure, and restrooms.

COMMENTS:

The first phase of this project is to coordinate the layout and schematic design of the new park with the adjoining MUSD elementary school to maximize both sites. The cost for construction, design and construction support services will be added once the schematic design phase is completed. Park needs to be completed at time the new school is anticipated to open, which is August 2018. Construction cost to be determined in the design phase.

Uncommitted Balance as of 2/29/2016: \$52,000

ESTIMATED COST	Prior Year	2016-17	2017-18	2018-19	2019-20	2020-21	Total

**City of Milpitas
2016-21 CAPITAL IMPROVEMENT PROGRAM**

Category	Project	Estimate Level
Park Improvement	5103 MSC Pool Rehabilitation *	1

CONTACT: Julie Waldron [3314] / Steve Erickson [3301]

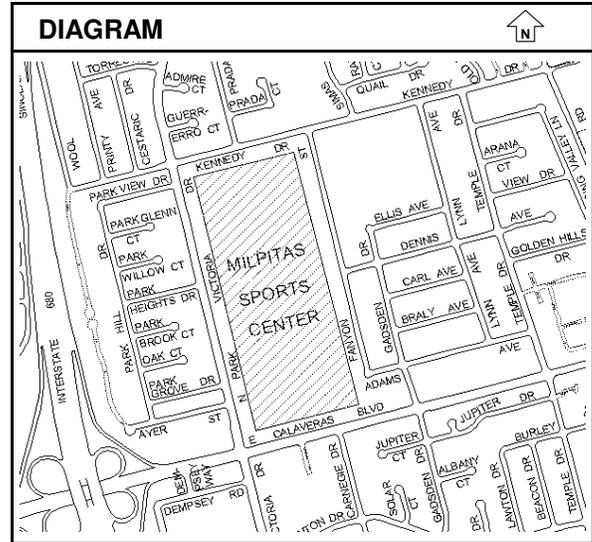

PRIORITY: Health and Safety Projects

DESCRIPTION

This project provides improvements to the Milpitas Sports Center Pool facility. The work includes resurfacing the plaster at the three swimming pools, ADA upgrades to the pools, replacement of pool decking and drainage, under deck pool piping, pool electrical, tile work, lane lines, and other pool elements. The project will also include removing the wading pool and installing outside showers.

COMMENTS:

These pools are heavily used year round and require resurfacing every 5 years. California Health and Safety Code, Section 3106B.3 states that the finished pool shell shall be lined with a smooth waterproof interior finish that will withstand repeated brushing, scrubbing and cleaning procedures. Construction is anticipated to be completed in March 2016.

Uncommitted Balance as of 2/29/2016: \$93,147

Category	Project	Estimate Level
Park Improvement	5104 Sports Center Sports Fields	1

CONTACT: Steve Erickson [3301]

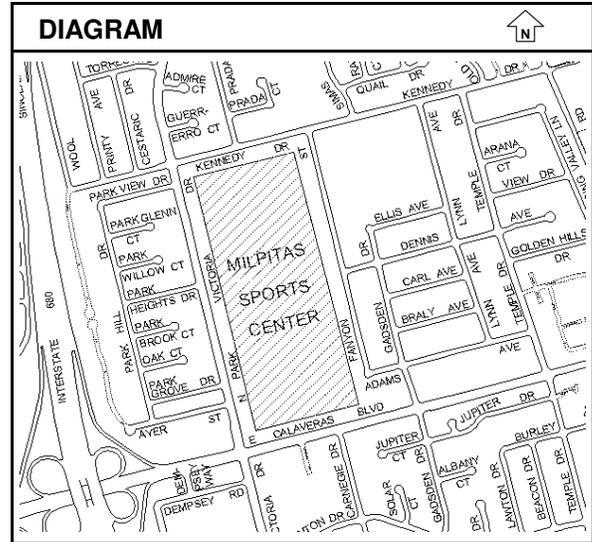

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

DESCRIPTION

This project provides for the design and construction of a synthetic turf U-11 soccer field and a multi-purpose field that can be used as one football field, two U-9/10 soccer fields or as one U-13 soccer field. The improvements will include replacement of stadium lighting, replacement "visitor bleachers", and ADA improvements to the "home" bleachers, installation of emergency lighting, PA system, and other code related improvements.

COMMENTS:

Construction started December 2015 and is anticipated to be completed in June 2016.

Uncommitted Balance as of 2/29/2016: \$609,724

**City of Milpitas
2016-21 CAPITAL IMPROVEMENT PROGRAM**

Category	Project		Estimate Level
Sewer Improvement	6079	Main Sewer Pump Station Site Improvements	1

CONTACT: Nina Hawk [2603]

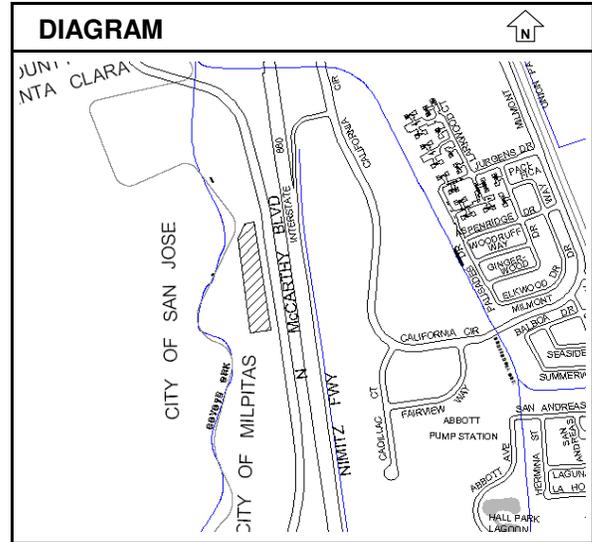

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

DESCRIPTION

This project provides design and construction of drainage, pavement, lighting security and other improvements at the Main Sewer Pump Station (SPS). The project also involves the removal of the existing abandoned facilities, tanks, miscellaneous piping and control panels that were once part of the sewage treatment facility. In addition, this project acquires a 70' wide strip of right-of-way between McCarthy Blvd and the Main Sewer Pump Station, through a no-cost land exchange with adjacent property owner. This project also allows for equipment upgrades at the Main Sewage Pump Station.

COMMENTS:

This site will be improved to accommodate the relocated Public Works Corp Yard at Main St., allowing the construction of the new Library project. This site contained several abandoned treatment plant structures. Phase I, completed in 2005, included demolition and removal of abandoned facilities and hazardous materials. The remaining work includes lighting, security improvements canopies for vehicle storage and photo voltaic equipment.

2016-21 CAPITAL IMPROVEMENT PROGRAM**

Category	Project	Estimate Level
Sewer Improvement	6106 Sewer Replacement Study	1

CONTACT: Marilyn Nickel [3347]

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

DESCRIPTION

This project involves field determination of the remaining useful life of the following sewer pipes: 360 linear feet of 42 inch RCP crossing I-880 at the Main Lift Station, 490 linear feet of 42 inch RCP at Cadillac Court and I-880, 310 linear feet of 42 inch RCP at Milmont near Penitencia Creek, 5,400 linear feet of 33-42 inch RCP along Milpitas Blvd between Hidden Lakes and Midwick, 90 linear feet of 24 inch RCP at Folsom and Hetch-Hetchy crossing, 1,500 linear feet of 30 inch RCP between Folsom and Escuela, and 170 linear feet of 12 inch RCP at Dempsey. The first priority includes review of the steel forcemain, Balboa Crossing, and the UPRR crossing south of Calaveras.

COMMENTS:

The Schaaf and Wheeler 2002 Depreciation Study has estimated the remaining life of the existing sewer infrastructure. This work is to field determine the condition of sewers and verify need to replace those sewers identified as having an estimated useful life ending by 2008. The study will refine the scope of work and costs, and prioritize these projects. The project will also include updating the sanitary sewer portion of the Financial Utility Master Plan.

**City of Milpitas
2016-21 CAPITAL IMPROVEMENT PROGRAM**

Category	Project	Estimate Level
Sewer Improvement	6109 Sewer Seismic Study	1

CONTACT: Marilyn Nickel [3347]

PRIORITY: Studies and Analyses

DESCRIPTION

This study includes evaluation of the various soil conditions in Milpitas, and existing sanitary sewer collection system. Recommendations may include new joint construction methods and retrofits at critical sites. The study will also recommend emergency response strategies for Public Works, during and after a major earthquake.

COMMENTS:

A substantial portion of the Valley Floor is subject to soil liquefaction during earthquakes. Movement of these pipes will cause pipe joints to pull apart. Large pipe joint displacements may lead to blockages, sinkholes, and sewer overflows, leading to health concerns. Improvement recommendations will be programmed under separate capital improvement projects.

Uncommitted Balance as of 2/29/2016: \$50,743

2016-21 CAPITAL IMPROVEMENT PROGRAM

Category	Project	Estimate Level
Sewer Improvement	6110 Sewer System Hydraulic Modeling	1

CONTACT: Marilyn Nickel [3347]

PRIORITY: Studies and Analyses

DESCRIPTION

This project provides for ongoing hydraulic modeling of the sanitary sewer system as needed for Public works operations and capacity impacts from new developments.

COMMENTS:

Modeling allows verification of existing and future pipe capacity, and capacity reduction due to pipe settlement. Modeling analysis is reimbursed by developers, when analysis is performed to determine project impacts to sewer collection system.

Category	Project		Estimate Level
Sewer Improvement	6115	Sewer System Replacement 11-12	1

CONTACT: Steve Erickson [3301]

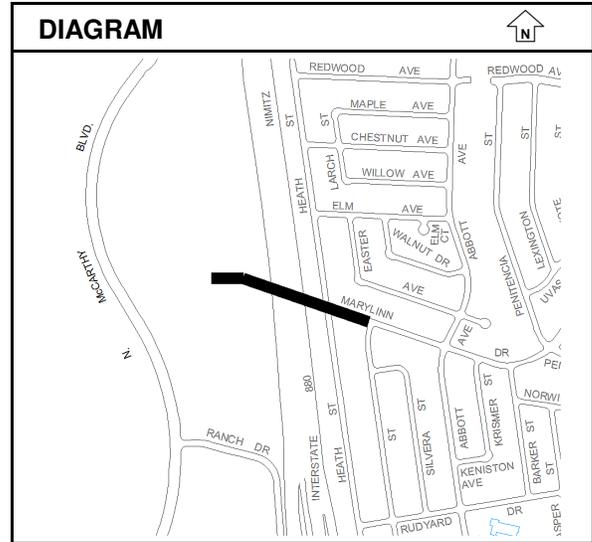

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

DESCRIPTION

This project provides for the replacement of the highest priority facilities, including upgrades to the Sewer Pump Stations, forecmain, and seismic retrofit work. The replacement prioritization is based on factors including age, type of pipe material, soil conditions and the physical evaluation based on video camera observations.

COMMENTS:

This project is in combination with project 6116 will repair/replace the existing 27" sewer main that extends along Marylinn Drive and under I-880. The line is required to be realigned to allow the sewer to continue flow during construction of the new line since a temporary bypass could not be achieved. Additionally at the crossing of I-880, Caltrans requires new crossings to be installed perpendicular to the freeway.

Sewer Improvement	6121 BART Project - Sewer Improvements	

CONTACT: Steven Machida [3355]

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

DESCRIPTION

The BART project will cause the relocation of existing sewer pipelines and utilities along the BART corridor at its own expense. The City has identified sewer pipeline improvements which should be completed as part of the BART utility relocation effort. These include rerouting and upsizing based on the City's Sewer Master Plan. These additional sewer system improvements are outside of the BART project scope and are to be paid for by the City.

Category	Project	Estimate Level
Water Improvement	7070 Pressure Reducing Valve Replacement	2

CONTACT: Nina Hawk [2603] / Marilyn Nickel [3347]

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

DESCRIPTION

This project involves the phased replacement of the existing pressure reducing valves (PRV) within the City's water system. These valves reduce water pressure as water moves from zone 2 to zone 1 in the City's distribution system.

COMMENTS:

All of the valves are over 20 years old and now require an extraordinary amount of maintenance. Proper operation of valves is crucial to assure proper delivery pressures for drinking and fire suppression purposes. The VTA is constructing a new PRV along Capitol Avenue near the San Jose border as part of the BART project. The City will provide reimbursement to VTA upon completion of construction.

**City of Milpitas
2016-21 CAPITAL IMPROVEMENT PROGRAM**

Category	Project		Estimate Level
Water Improvement	7102	Ayer Reservoir & Pump Station Improvements	1

CONTACT: Nina Hawk [2603]

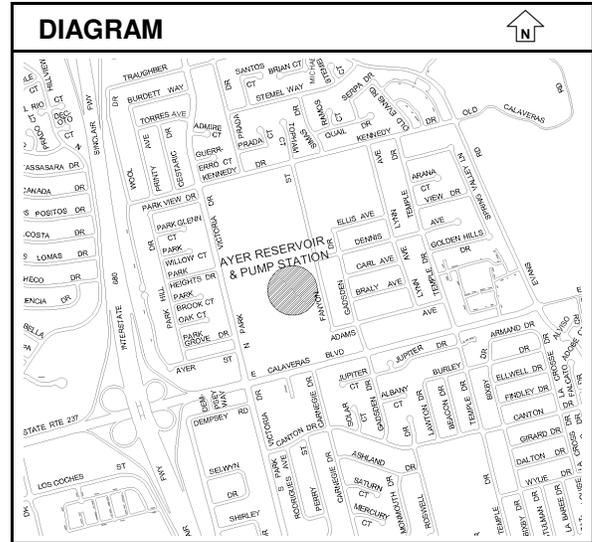

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

DESCRIPTION

This project provides several improvements to the Ayer Reservoir and Pump Station located behind the Milpitas Sports Center. The overflow structure has settled and needs to be re-plumbed to the sanitary sewer system. Scope also includes sealing concrete floors (in pipe gallery, pump room, and control room), replacing manual hoist with electric, and various electrical and mechanical repairs and/or improvements. The project will also replace or upgrade the electric pumps, control systems, and various seismic improvements.

COMMENTS:

The pump station is a critical water supply facility that has been in service for over 15 years. These improvements are required, in order to assure continued reliability. The first phase is replacing the variable frequency drives and rehabilitate/replace pumps and motors.

Uncommitted Balance as of 2/29/2016: \$76,198

2016-21 CAPITAL IMPROVEMENT PROGRAM**

Category	Project		Estimate Level
Water Improvement	7108	Water System Hydraulic Modeling	1

CONTACT: Marilyn Nickel [3347]

PRIORITY: Studies and Analyses

DESCRIPTION

This project provides for miscellaneous hydraulic modeling of the water system, including impacts from new developments. The project also creates the City's first hydraulic model for the recycled water system. This computer model can be used in order to handle and direct field water system operations during an emergency.

COMMENTS:

Modeling is also necessary to verify pipe capacity, system pressure analysis and assists in analyzing fire flow pressure with planned water line shut offs. Some costs may be reimbursable by developers.

**City of Milpitas
2016-21 CAPITAL IMPROVEMENT PROGRAM**

Category	Project		Estimate Level
Water Improvement	7111	Minor Water Projects 2011	1

CONTACT: Nina Hawk [2603]

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

DESCRIPTION

This ongoing project involves the analysis and implementation of various water projects which arise during the year. This project also provides for ongoing modifications and improvements to existing water system including enhancing security at various water facilities.

COMMENTS:

This project involves the installation of two new gate valves on the water main, near Brian Court and Santos Court. These valves allow better isolation of the water system during waterline shut-offs. Water shut-offs may occur during routine and emergency repairs of the main water line, fire hydrants, or air and pressure relief valves. The project will also include updating the water portion of the Financial Utility Master Plan.

Uncommitted Balance as of 2/29/2016: \$3,600

2016-21 CAPITAL IMPROVEMENT PROGRAM**

Category	Project	Estimate Level
Water Improvement	7118 Dempsey Road Water Line Replacement	1

CONTACT: Steve Erickson [3301] / Julie Waldron [3314]

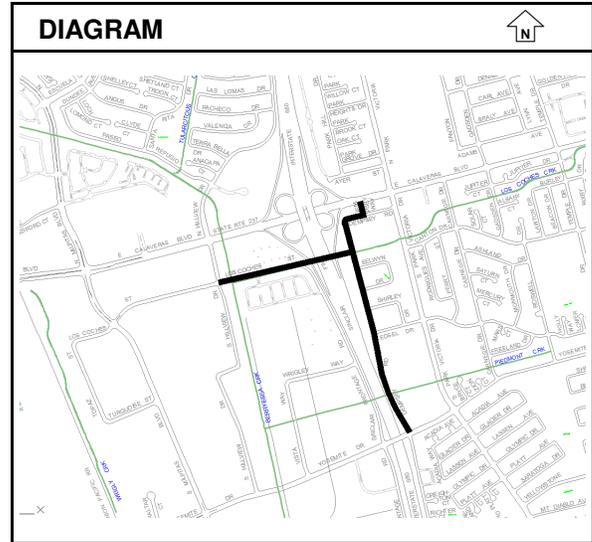

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

DESCRIPTION

This project replaces approximately 3,400 linear feet of 12" diameter cast iron pipe along Dempsey Rd. between Calaveras Blvd. and Yosemite Dr. The pipe line was installed in the 1950's and has reached the end of its useful life. The project will also include the design of a 10,000 linear feet recycled waterline main from Los Coches St. and Hillview Dr. to Kennedy Dr. and Simas Dr. to the north and Edsel Dr. and Perry St. to the south. Construction of this recycled waterline will be funded completed by the Recycled Water by the Recycled Water Pipeline Segment 1 CIP project.

COMMENTS:

The pipeline has experienced excessive corrosion which is causing line breaks. Replacement must occur to minimize impacting water customers. This segment of water line is going to be constructed to the seismic back bone standard and the Water System Seismic Improvement Project is going to pay for the incremental cost of the upgrade. The City is applying for grants for the construction of the recycled waterline.

Category	Project	Estimate Level
Water Improvement	7120 Water Supply Blending Study	1

CONTACT: Marilyn Nickel [3347]

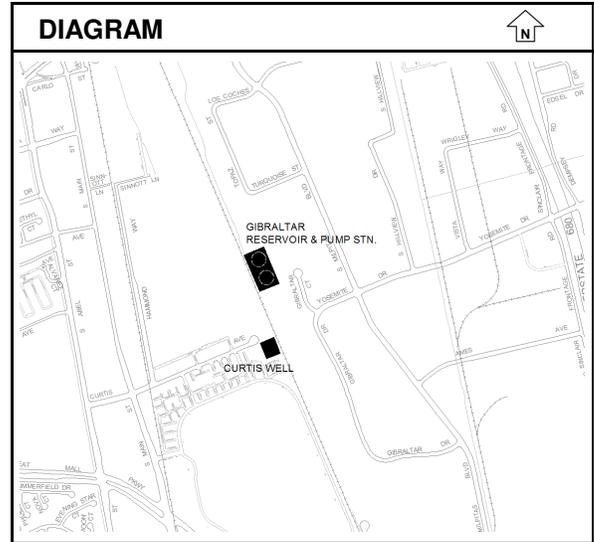

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

DESCRIPTION

This project provides an engineering study to analyze the feasibility and cost benefits of connecting the Curtis Avenue ground water well to Gibraltar Reservoir and pump station for the purpose of blending well water with SC VWD and Hetch-Hetchy water, and blending of the two wholesale water supplies.

COMMENTS:

Ground water has a higher mineral content, and by mixing with SCVWD and/or Hetch-Hetchy, the water quality can be improved.

Uncommitted Balance as of 2/29/2016: \$83,593

Category	Project		Estimate Level
Water Improvement	7122	Daniel Court Water Service Replacement	1

CONTACT: Steven Machida [3355]

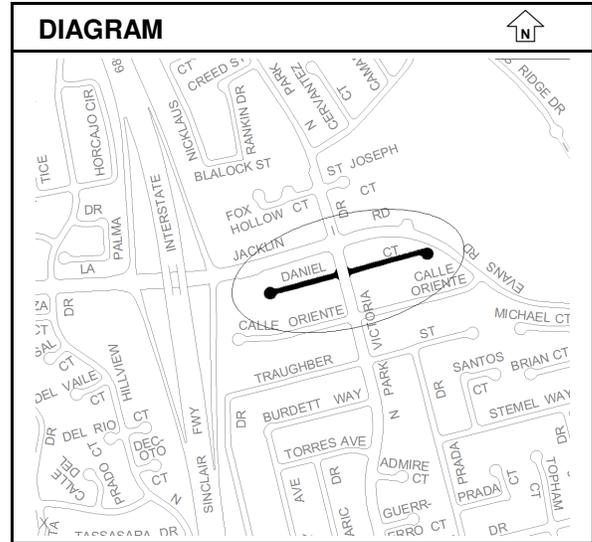

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

DESCRIPTION

This project will replace approximately 1,300 feet of 4-inch cast iron water services with 4-inch PVC services on Daniel Court (east and west of N. Park Victoria).

COMMENTS:

The 4-inch water service laterals serving the apartments on Daniel Court have been experiencing numerous breaks over the last few years. To minimize the inconvenience to the residents and reduce the potential liability and water loss, all of the services are scheduled to be replaced with 4-inch PVC pipe.

Uncommitted Balance as of 2/29/2016: \$525,000

Category	Project	Estimate Level
Water Improvement	7124 Water System Air Relief Modifications 2015 *	1

CONTACT: Steve Erickson [3301]

PRIORITY: Health and Safety Projects

DESCRIPTION

This project retrofits existing air relief valves which are currently located below ground level to vaults above ground level. This work is mandated by the California Department of Public Health, under State Code, Title 22, Chapter 16. The purpose of placing valves above ground is to eliminate the possibility of water system contamination by backflow into valves during flooding.

COMMENTS:

Approximately 250 sites throughout the City have been identified for retrofitting. 150 of the highest priority sites have been completed.

Uncommitted Balance as of 2/29/2016: \$0

Close project at the end of the fiscal year, June 30, 2016.

APPENDIX A

ESTIMATE LEVEL DESCRIPTIONS

The following are detailed descriptions for each of the three estimate levels used in this document:

Estimate Level 1 – Conceptual Estimate

This level of estimating is the least accurate and is used when the conceptual idea or plan has been prepared without precise details. Examples of such would be freeway interchanges prior to completion of any plans (and estimates based thereon), projects where final location is unknown and right-of-way or land costs are involved.

Estimate Level 2 – Detailed Estimate

This level of estimating is based on an approved design plan or conceptual plan which has some level of assurance that the items contained within are complete and acceptable to the approving agency. Examples of this category are most street projects where City staff has prepared estimates based on typical street structural and geometric details, using experienced bid prices. Other examples are water or sewer lines that have been proposed and identified with estimates in consultant reports.

Estimate Level 3 – Design Estimate

This is the highest level of estimating and is based on a completed set of design drawings and specifications that are ready for bidding. This level is what could also be called the bid or engineer's estimate.

OSA	Office of the State Architect
OCR	Optical Character Recognition
PF	Park Fund
PM	Project Manager
PMS	Pavement Management System
PRV	Pressure reducing valve
R/W	Right-of-Way
RDA	Redevelopment Agency
RFQ	Request for Qualifications
RMS	Records Management System
RWQCB	Regional Water Quality Control Board
SCADA	Supervisory Control and Data Acquisition
SCC	Santa Clara County
SCVTA	Santa Clara Valley Transportation Agency
SCVWD	Santa Clara Valley Water District
SF	Street Fund
SP	Sponsor
SPS	Sewer Pump Station
TA	Traffic Authority
TDA	Transportation Development Act
WF	Water Fund
WLF	Water Line Extension Fund
VTA	Santa Clara Valley Transportation Authority
COP's	Certificates of Participation
TPF	Treatment Plant Fee
UPS	Uninterrupted Power Supply
Y2K	Year 2000 Compliant

APPENDIX C

PRIORITIZATION DESCRIPTIONS

In order to assist in the review of the various projects, all CIP projects are prioritized using the following categories (listed in priority order):

1. **Mandatory or Committed Projects**

Mandatory projects are those which the City is legally required to undertake. These include Federal or State mandated activities such as access modifications to public facilities to meet Americans with Disabilities Act requirements, Clean Water Act, etc. Committed projects are those that the City has contracted or partially completed. This can also include projects that have received grants with time restrictions. A funded project that has not yet started, does not necessarily mean that the project is “committed”, since the project is still subject to review. If this project is no longer necessary, it can be delayed or deleted and defunded.

2. **Health and Safety Projects**

Health and Safety projects are those infrastructure improvements needed for health and/or safety reasons. Examples include such projects as sidewalk repair work, installation of traffic signals and signs, modification of park playground equipment to eliminate a hazardous situation and additional lighting in public areas, etc.

3. **Rehabilitation of Existing Capital Assets or Systems**

These are projects that are required to maintain the City’s investment in infrastructure and capital equipment. This includes projects ranging from street resurfacing/reconstruction, to bridge maintenance, water, sewer improvements, facilities rehabilitation, etc.

4. **Major Service Equipment Replacement**

These are projects involving the replacement of equipment required in the operations of the City services. This would include pumps at storm drainage pump stations, MSC swimming pool pumps and motor replacements.

5. **Projects which Avoid Future Additional Costs**

This includes those projects which assists the City in reducing and/or eliminating future operating or capital costs. This would include acquisition of image processing equipment for document control, computer networking, replacing existing high maintenance landscaping with drought resistant and low maintenance plantings, automation of maintenance or data gathering activities, etc.

6. **Studies and Analyses**

This category is for projects that allow the City to examine new approaches for improvements to service delivery, cost savings, capital improvement projects and/or ways to enhance the financial stability of the City. Examples include the Calaveras Plan Line Study and San Jose Parallel Forcemain Study.

7. **Enhance Economic Development**

This category is for those projects that will attract new businesses or retain existing. Examples include the installation of utilities for future development and fiber optics installation for telecommunications.

8. **Improve the Quality of Life**

These are projects that allow the City to enhance the City’s quality of life, such as landscaping projects, new Sports Center improvements, etc
