Dear mayor and city council,  
Please do not pass this draft ordinance as is. It has been watered down to only include projects receiving “financial assistance” which makes it not very impactful.  
You as a city have the authority to condition receiving a business permit on the disclosure and compliance with outstanding final judgements. Several cities have done so.  
Please meet with community members to refine this ordinance to ensure it protects vulnerable workers.  
Thank you,
