CITY OF MILPITAS

455 East Calaveras Boulevard, Milpitas, California 95035-5479 www.ci.milpitas.ca.gov (408) 586-3000

September 2009

Honorable Mayor, Members of the City Council and Board of the Redevelopment Agency:

INTRODUCTION

Transmitted herewith is the Final 2009-2014 Five-Year Capital Improvement Program (CIP).

The CIP is a comprehensive five-year plan of capital improvement projects for the City of Milpitas. Capital improvement projects are usually purchases or construction of capital assets including streets, park developments or upgrades, the acquisition of land, major construction of public facilities, and major repair/rehabilitation of City infrastructure and facilities. The CIP reflects Council's priorities and policies to ensure that the needs of the community are met.

This document arranges the projects in the following six fund groups: Community Improvements, Parks, Streets, Water, Sewer, and Storm Drain and includes:

- A Table of Contents with numerical and alphabetical listings of all projects.
- Summaries of the 2009-2014 CIP showing fund group expenses and finance sources and projects.
- Detailed CIP project descriptions by fund groups.
- Appendices that provide the estimate level descriptions, abbreviations, prioritization description, and previously funded projects that will be closed by June 30, September 30, October 30 and December 2009.
- List of projects eligible for Art Policy Funding.

ACCOMPLISHMENTS IN 2008-2009

Following is a partial list of Capital Improvement projects that have been successfully completed in the last year:

- Sewer Deficiency and Structural Correction Program, CP 6073
- Venus Pump Station Improvement, CP 6101
- Main Sewage Pump Station, CP 6103
- Water System Air Relief Valve Modifications, CP 7086
- Sports Center Large Gym Improvements, CP 8160
- Milpitas Public Library, CP 8162
- North Main Street Streetscape Phase I, CP 8165
- Corporation Yard Canopies, CP 8183
- Singley Area Street Rehabilitation, Phase 5, CP 8193
- Street Resurfacing Project 2009, CP 8194

2009-2010 CAPITAL BUDGET

Funding for projects in Fiscal Year 2009-2010 of the five-year program is recommended for approval at this time. Funding for the projects in subsequent years of the CIP is shown for planning purposes and funding does not become available until it is appropriated in future CIP documents. The 2009-2010 Capital Budget, totaling approximately \$20 million is summarized below:

PROJECT CATEGORY	FY 09-10	% OF TOTAL
Community Improvement Projects	(1,477,400)	-7.5%
Park Projects	1,802,949	9.2%
Street Projects	12,614,000	64.1%
Water Projects	5,300,000	27.0%
Sewer Projects	1,150,000	5.8%
Storm Drain Projects	275,000	1.4%
TOTAL	\$19,664,549	100.0%

Projects recommended for funding during 2009-2010 are shown in the CIP summaries at the beginning of each section. The Planning Commission reviewed this document on April 8, 2009 and found it in conformance with the General Plan.

FINAL 2009-2014 FIVE-YEAR CAPITAL IMPROVEMENT PROGRAM

The Final five-year Capital Improvement Program totals approximately \$90.0 million. The Final 2009-2014 CIP program is compared with last year's program below.

FUND GROUP	2008-2013 PROGRAM		2009-2014 PROGRAM	
	Cost	% of Total	Cost	% of Total
Community Improvement Projects	15,280,000	16.1%	507,600	0.6%
Parks Projects	15,435,000	16.3%	15,907,949	17.7%
Streets Projects	15,660,000	16.5%	18,339,000	20.4%
Water Projects	34,350,000	36.3%	37,235,000	41.4%
Sewer Projects	8,725,000	9.2%	10,335,000	11.5%
Storm Drain Projects	5,190,000	5.5%	7,705,000	8.6%
TOTAL	\$94,640,000	100.0%	\$90,029,549	100.0%

FUND GROUP FINANCING

COMMUNITY IMPROVEMENTS

This fund group includes projects such as the Public Cable Access Facility, New Senior Center, City Building Improvements, Finance System Upgrades, Fire Apparatus Recycle Water Wash Systems, MSC Master Plan Update and MSC Pool Resurfacing. Community Improvements projects are funded by Redevelopment Agency Funds, Grants, Developer Fees and other sources.

PARKS

Park Dedication Fees are the primary source of revenue for this fund group. Additional revenue sources include Redevelopment Agency, County, State and Federal Grants. Staff continues to pursue outside funding sources in order to fund additional projects.

STREETS

The Street Fund revenues are obtained from State gas taxes, Proposition 1B, Federal Economic Stimulus funding and other grants.

WATER

Revenues for this fund group are derived from the water user rate structure (Water Fund) as well as developer hookup fees (Water Line Extension).

SEWER

Revenues for this fund group are derived from the sewer user rate structure (Sewer Fund) and developer hookup fees (Sewer Treatment Plant) fees. In addition, Sewer Bonds were approved by Council, in order to fund the replacement of the Main Sewer Pump Station.

STORM DRAIN

Storm Drain projects are funded from a combination of the RDA, Storm Drain Fund, and Street Fund, based on eligibility for these respective funding sources. A Storm Master Plan update is underway, and it will identify several more projects for the Capital Improvement Program. Staff will seek additional funding sources at the local, state and federal levels and may propose a storm drain fee.

FIVE-YEAR PROGRAM REVISIONS

Twenty four new projects have been added to the Final 2009-2014 Capital Improvement Program. The projects were added on a need and affordability basis. New projects recommended for funding are listed in ***bold italics*** in the summaries at the beginning of each section. The summaries identify the projects within each fund group, project costs, funding sources, and the year funding is Final.

ESTIMATES

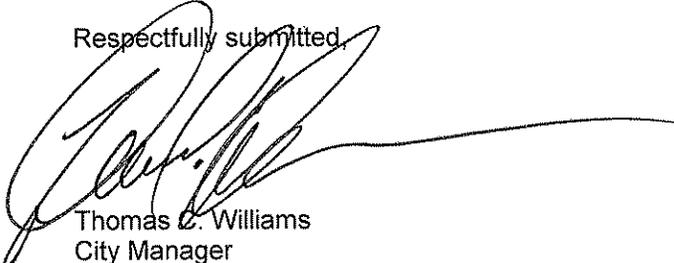

The accuracy of estimated project costs throughout this document varies depending on the degree of detail given to project proposals. Estimates range from very preliminary estimates to detailed design estimates for projects ready to go out to bid. Staff used three categories of "estimate levels" in determining project cost estimates for the projects in the annually revised CIP. The estimate level for each project is identified in the upper right hand corner of the individual projects pages and further described in Appendix A.

CONCLUSION

I want to thank the members of the City Council and Agency for their integrity in directing the financial affairs of the City in a responsible and progressive manner. I also want to thank the Department Heads, Division Managers and all staff involved in the project selection/prioritization process for the many long hours of work that have made the production of this document possible.

This Capital Improvement Program was developed in order to protect and enhance the City's capital assets and infrastructure, so as to preserve and better the quality of life for Milpitas residents. The City of Milpitas is in an enviable position compared to many other cities when looking at the future.

Respectfully submitted,

Thomas C. Williams
City Manager

Category	Project	Estimate Level
Community Improvement	3397 Public Cable Access Facility	1

CONTACT: Bill Marion [2701]

PRIORITY: Improve the Quality of Life

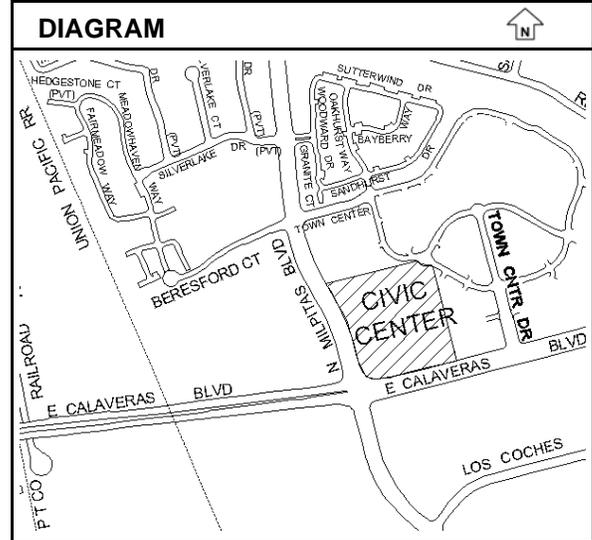

ANNUAL MAINTENANCE COST: \$5,000

DESCRIPTION

This project provides for the design, development and installation of a Public, Educational and Government (PEG) cable access facility within the Milpitas City Hall. The facility and associated equipment will support the production and broadcast of Public, Educational and Government programming for the resident's of Milpitas. The studio will be located on the first floor of the City Hall.

COMMENTS:

Design and construction work has been completed. The additional franchise funding provides for operating and additional equipment purchases.

Uncommitted Balance as of 6/30/2009: \$29,791

2009-14 CAPITAL IMPROVEMENT PROGRAM**

Category	Project	Estimate Level
Community Improvement	8176 Senior Center	1

CONTACT: Greg Armendariz [3317] / Bonnie Greiner [3227]

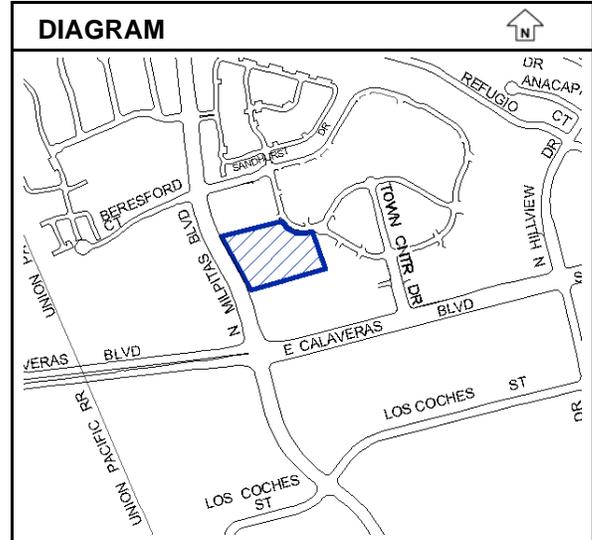

PRIORITY: Mandatory or Committed Projects

ANNUAL MAINTENANCE COST: \$75,000

DESCRIPTION

This project provides for the design and construction of a new Senior Center at the Civic Center by remodeling and enlarging the existing library building. Building improvements will include new roofing, HVAC equipment, sitework, interior modifications and restroom facilities, building code upgrades, kitchen facilities, and other improvements to support current and future senior facility programming.

FINANCE NOTES

Mid-Year appropriation of \$2,300,000 from RDA Bonds, 9/20/05.
RDA Fund of \$2,400,000 is from the City Hall settlement.
FY09-10 Defund \$1,627,400 from RDA Fund, due to construction bid under budget.

**City of Milpitas
2009-14 CAPITAL IMPROVEMENT PROGRAM**

Category	Project	Estimate Level
Community Improvement	8182 City Building Improvements	1

CONTACT: Eddie Loredo [2662]

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

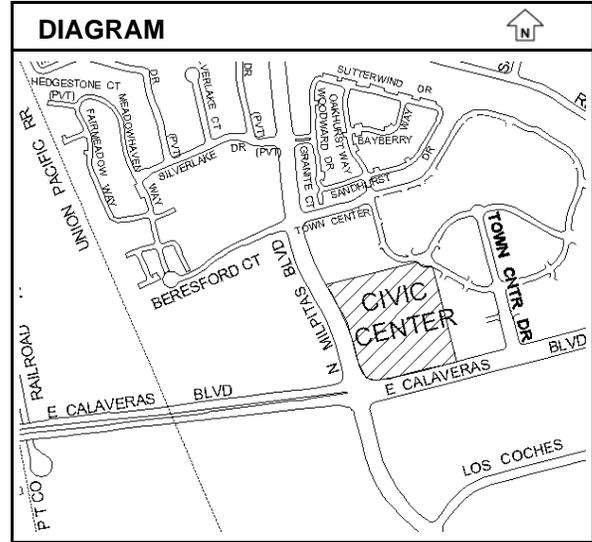

ANNUAL MAINTENANCE COST: \$25,000

DESCRIPTION

This project involves renovation and rehabilitation work to all City buildings including Public Works/Police, Community Center, City Hall, Sports Center, and all Fire Stations. The work involves replacement of electrical and mechanical systems at the Community Center, water heater/co-generator and pool equipment renovations at the Sports Center, electrical upgrades, including an emergency generator at the Sports Center. PW/PD and City Hall retrofit work, interior and exterior painting, carpeting and other related improvements. Work will also include energy savings improvements, such as replacement of lighting fixtures with energy saving fixtures, and installation of a more efficient climate controls systems.

COMMENTS:

Staff inventoried and prioritized a master list of major maintenance and renovation improvements for all of the City buildings. Projects will be implemented based on this prioritized list to assure a high level of service to the community and to maximize the life of the City Facilities.

Uncommitted Balance as of 6/30/2009: \$608,637

Community Improvement	New 2012 Finance System Upgrade	1

CONTACT: Jane Corpus [3125]

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

ANNUAL MAINTENANCE COST: \$0

DESCRIPTION

This project provides upgrades to keep our Financial system up to date. It is essential that the system be current in order to utilize technology efficiently and effectively. This major system includes General Ledger, Accounts Payable, Cash Collection, Payroll/Human Resources, Job Costing and Purchase Order. In addition, the Finance system also manages Budget Preparation, Business License, Investment Software and Fixed Asset systems.

COMMENTS:

The proposed funding is for the system required upgrades, equipment and staff training.

Category	Project	Estimate Level
Community Improvement	New Fire Apparatus Recycle Water Wash System	1

CONTACT: Patricia Joki [3370]

PRIORITY: Mandatory or Committed Projects

ANNUAL MAINTENANCE COST: \$5,000

DESCRIPTION

This project provides for the design and installation of an apparatus wash system (water recycle) at each fire station. This would allow washing fire vehicles with detergent at each station. Current urban runoff permit requirements do not allow water with detergents to enter the storm drain system.

COMMENTS:

Other fire departments in the Bay Area subject to the same regulations are installing water recycle systems. The Regional Water Quality Control Board may require this level of protection be provided prior to the suggested project delivery date. Fire apparatus are currently washed with water only at the station; if detergents are needed, the vehicles are washed at the City's corporation yard. This improvement allows the apparatus to be in service from their primary assigned response district, for the best response time. Stations 1 & 4 are scheduled to be constructed in 2012 and station 2 & 3 will be scheduled for construction in 2013.

Community Improvement	New MSC Master Plan Update	1

CONTACT: Steve Erickson [3414]

PRIORITY: Improve the Quality of Life

ANNUAL MAINTENANCE COST:

DESCRIPTION

The Milpitas Sports Center (MSC) Master Plan Update will focus in revising several elements of the existing Master Plan, due to physical changes implemented since the completion of the Master Plan. For example, the recent solar panel installations dramatically change the vehicular and pedestrian circulation and parking element. The current Parks Master Plan recommendation will also need to be coordinated into the MSC Master Plan Update.

Community Improvement	New MSC Pool Resurfacing	1

CONTACT: Aaron Bueno (3226)

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

ANNUAL MAINTENANCE COST: \$5,000

DESCRIPTION

This project provides for the plaster resurfacing of the three Milpitas Sports Center swimming pools. The work includes replacement of tile work, lane lines, and other pool elements.

COMMENTS:

These pools are heavily used year round and require resurfacing every 5 years. California Health and Safety Code, Section 3106B.3 states that the finished pool shell shall be lined with a smooth waterproof interior finish that will withstand repeated brushing, scrubbing and cleaning procedures.

Category	Project	Estimate Level
Park Improvement	5055 Alviso Adobe Renovation	1

CONTACT: Greg Armendariz [3317]

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

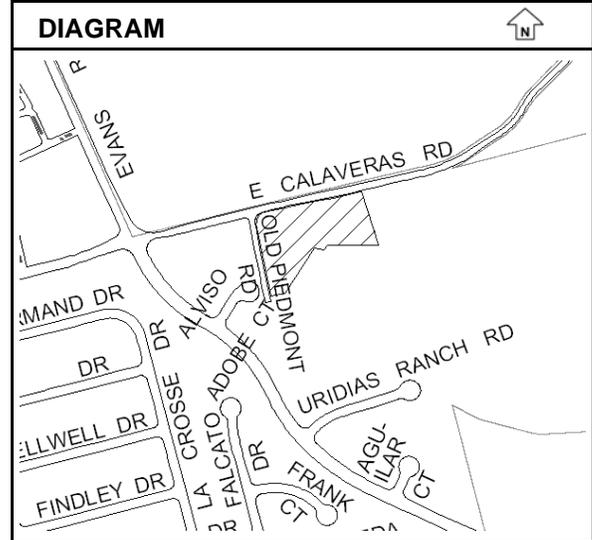

ANNUAL MAINTENANCE COST: \$75,000

DESCRIPTION

This project provides new park improvements and restoration of the historic Alviso Adobe building. The first phase provides structural stabilization, seismic strengthening and exterior renovation of the Alviso adobe building. The second phase would provide park improvements including picnic areas, lighting, walkways, a parking lot, apricot orchard, herb garden, landscaping and access improvements. The final phase would provide interior restoration of the 1st floor of the Alviso Adobe. Once completed, visitors will experience the progressive history of Milpitas' from its origins as a Spanish land grant in the 1830's through the 1920's rural Santa Clara County farming era.

COMMENTS:

The Alviso Adobe was placed on the National Registry on October 7, 1997. The total cost estimate is \$5,400,000 plus \$3,000,000 for alternative access from Calaveras Road. Staff is pursuing additional grants for both the renovation of the historic buildings and the new park.

Uncommitted Balance as of 6/30/2009: \$1,291,980

Category	Project	Estimate Level
Park Improvement	5081 Berryessa Creek Trail, Reach 4	1

CONTACT: Greg Armendariz [3317]

PRIORITY: Improve the Quality of Life

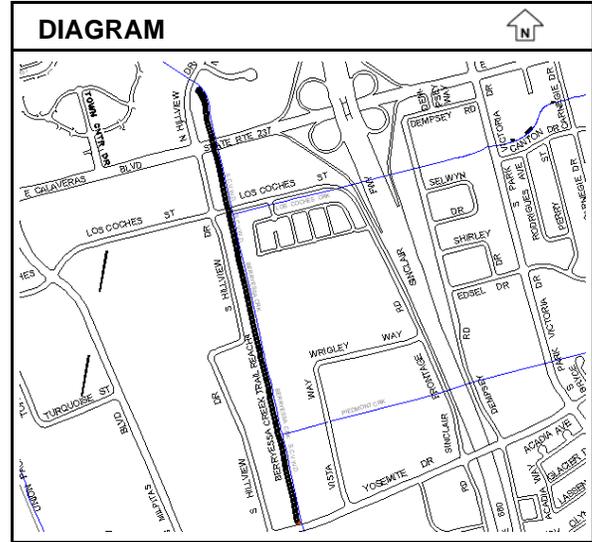

ANNUAL MAINTENANCE COST: \$10,000

DESCRIPTION

This project provides for the development of Berryessa Creek Trail Reach 4, a one mile segment from Town Center to Yosemite Drive. The project may include intersection modifications at Calaveras Blvd., Hillview Drive, Los Coches/S. Hillview Drive and Yosemite Drive/S. Hillview Drive. The scope of work includes plantings and trail amenities. The project will be coordinated with the proposed US Army Corp of Engineers and Santa Clara Valley Water District (SCVWD) creek flood improvement projects.

COMMENTS:

This project is identified and described in the "Berryessa Creek Trail and Coyote Creek Trail Feasibility Report." This project will also provide a trail connection between the Town Center and the future Transit Area Plan.

Uncommitted Balance as of 6/30/2009: \$22,159

Totals	25,000	0	0	0	0	2,975,000	3,000,000

FINANCE NOTES

An additional \$2,469,000 is needed to construct the project. Possible funding sources may include future grants from the Army Corp of Engineers and or SCVWD, developer fees.

\$531,000 of Park Funds have been designated specifically for Berryessa Creek Trail Reach 4, from developer contributions.

**City of Milpitas
2009-14 CAPITAL IMPROVEMENT PROGRAM**

Category	Project	Estimate Level
Park Improvement	5084 Berryessa Creek Trail, Reach 6A	1

CONTACT: Greg Armendariz [3317]

PRIORITY: Improve the Quality of Life

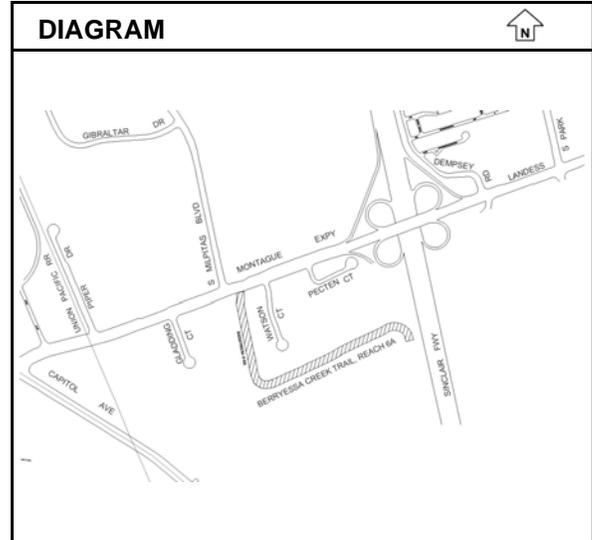

ANNUAL MAINTENANCE COST: \$3,000

DESCRIPTION

This project provides for the design and construction of reach 6A of the Berryessa Creek Trail from Montague Expressway to the Capitol Mall apartments. The project consists of an engineered pedestrian/bicycle bridge, trail paving, plantings and trail amenities. The project also will be coordinated with the proposed US Army Corp of Engineers and SCVWD creek flood improvement project.

COMMENTS:

This project is identified in the "Berryessa Creek Trail and Coyote Creek Trail Feasibility Report" which includes features described above exclusive of a ramp which is outside of the project area. The project includes a pedestrian/bike bridge to be funded by developer fees of approximately \$200,000.

Uncommitted Balance as of 6/30/2009: \$7,316

Category	Project	Estimate Level
Park Improvement	5087 Calle Oriente Park	1

CONTACT: Michael Boitnott [3415]

PRIORITY: Improve the Quality of Life

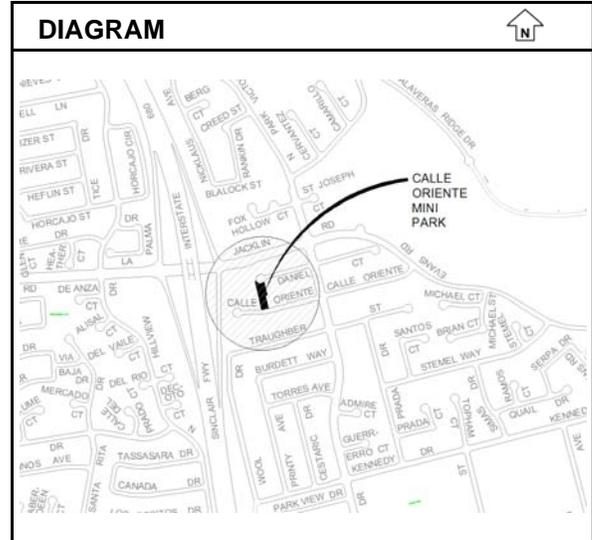

ANNUAL MAINTENANCE COST: \$15,000

DESCRIPTION

This project provides for design and construction of a complete renovation of the park. The scope includes ADA compliant improvements, new playground equipment, basketball court, lighting, drinking fountain, shade structure, benches, barbeques, landscaping, park sign, and other related improvements.

COMMENTS:

The design work was funded by a CDBG grant and has been completed. Construction is planned for summer/fall 2009.

Uncommitted Balance as of 6/30/2009: \$0

Category	Project	Estimate Level
Streets	2001 Light Rail Median Landscaping	1

CONTACT: Liz Racca-Johnson [3306]

PRIORITY: Mandatory or Committed Projects

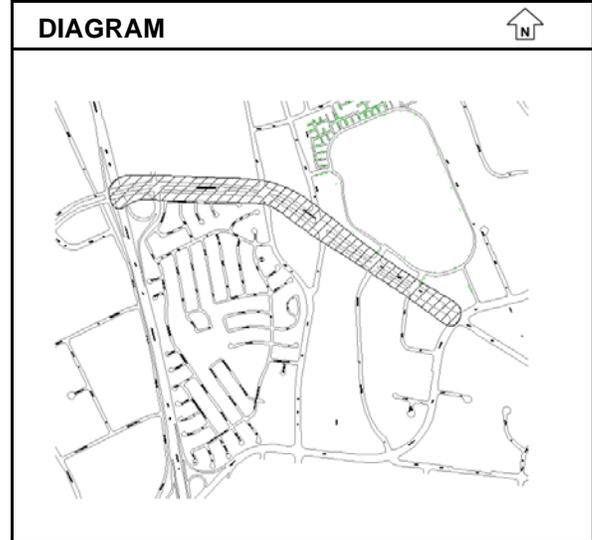

ANNUAL MAINTENANCE COST: \$90,000

DESCRIPTION

This project involves the design and construction of median landscape improvements on Great Mall Parkway from I-880 to the southern City limits at Capitol Expressway. There are eight separate median islands under the LRT viaduct structure which will be landscaped. The scope also includes construction of a recycled water main line for this project and future Transit Area Specific Plan development project.

COMMENTS:

All landscaping will be irrigated with recycled water. This work is included in the cooperative agreement with the Santa Clara Valley Transportation Authority.

Uncommitted Balance as of 6/30/2009: \$0

ESTIMATED COST	Prior Year	2009-10	2010-11	2011-12	2012-13	2013-14	Total

FINANCE NOTES

Grant is from VTA (\$1,809,000) local funding. Previously this was STIP grant funding earmarked for 237/I-880 interchange landscaping.

**City of Milpitas
2009-14 CAPITAL IMPROVEMENT PROGRAM**

Category	Project	Estimate Level
Streets	4039 Tasman / I-880 Interchange	1

CONTACT: Fernando Bravo (3328)

PRIORITY: Mandatory or Committed Projects

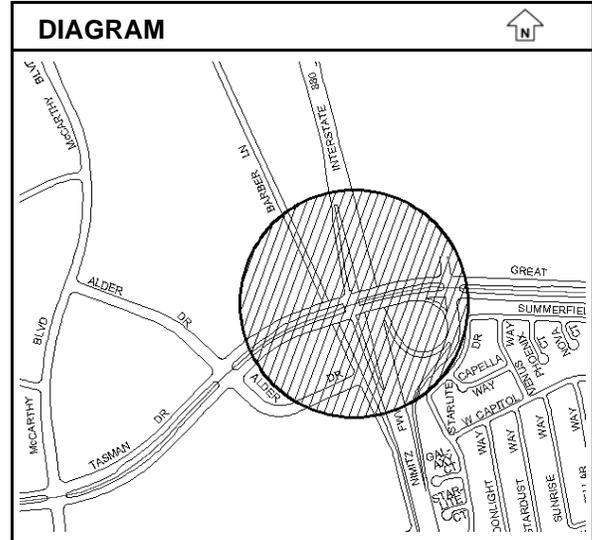

ANNUAL MAINTENANCE COST:

DESCRIPTION

This project involved the design and construction of an interchange at Tasman Drive-Great Mall Parkway and Interstate 880. Construction has been completed and Right-of Way transfer is currently in progress with Caltrans.

COMMENTS:

Caltrans and the City agreed to leave an abandoned Shell oil pipeline (now owned by Air Products) in the widened Caltrans right-of-way. If I-880 is widened to an 8 lane freeway in the future, there may be a need to relocate in outside of the Caltrans right-of-way, at an estimated cost of \$40,000 to \$500,000.

Uncommitted Balance as of 6/30/2009: \$12,969

Totals	21,286,100	75,000	0	0	0	0	21,361,100

FINANCE NOTES

Grants: SB 300: \$405,902 + Santa Clara County Transit Agency (SCCTA): \$2,526,032 = \$2,931,934

Should a future project require the nitrogen line to be relocated, Caltrans and Milpitas will enter into a 50/50 cost share. An agreement is currently being prepared. The 2004 estimated cost is \$500,000, with Milpitas share of \$250,000. Costs will be adjusted for inflation rise. \$50,000 under ROW Administration is for the additional staff time that will be needed to complete the ROW transfer to Caltrans.

**City of Milpitas
2009-14 CAPITAL IMPROVEMENT PROGRAM**

Category	Project	Estimate Level
Streets	4170 Hwy 237/I-880 Interchange	1

CONTACT: Greg Armendariz [3317]

PRIORITY: Mandatory or Committed Projects

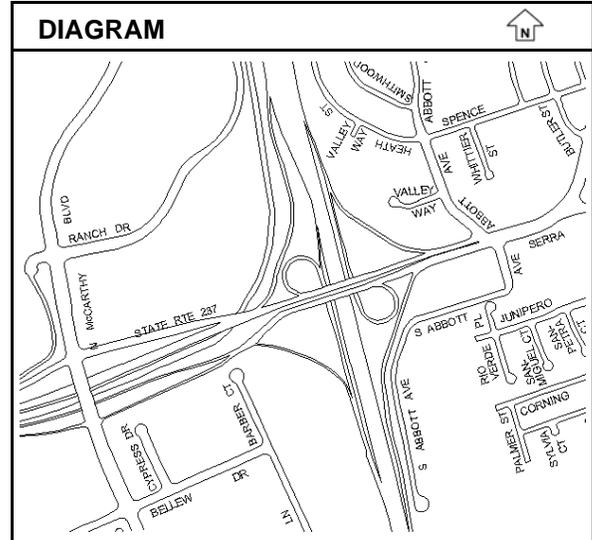

ANNUAL MAINTENANCE COST: \$90,000

DESCRIPTION

This project designed and constructed the 237/880 Interchange through a cooperative agreement between Milpitas and Santa Clara County Traffic Authority (TA). When the TA ceased to exist in March 31, 1997, the City assumed the administration of the TA's remaining consultant design work. TA transferred \$1.6 million to the City for this effort. Construction began late 1997 and was completed in 2004. The remaining work includes transfer of Right of Way to Caltrans, landscaping and recycled water irrigation improvements.

COMMENTS:

Two separate cost-sharing agreements between the City/Caltrans and City/VTA (\$2 million and \$1.5 million respectively) will provide the funding for the landscape improvements and maintenance.

Uncommitted Balance as of 6/30/2009: \$281,080

FINANCE NOTES

Grants: SCVWD \$929,256 + SCC Traffic Authority: \$2,286,424 = \$3,215,680.

FY04-05: Mid-year appropriation of \$62,500 from VTA was made for repairs at Hwy 237 and Abbott.

FY 2008-09: Defunded \$174,000 from the RDA Bond Tax Allocation Bonds.

FY 2009-10 - Grants of \$2 million from CALTRANS (Maintenance Fund) .

FY 2009-10 - Street Fund: \$1,284,000 currently placed in the Street Fund (VTA cost share for the median landscape project). \$300,000 of the \$1,584,000 was used to fund the street trees and mulch project.

Category	Project	Estimate Level
Streets	4245 Minor Traffic Improvements 2009	1

CONTACT: Greg Armendariz [3317]

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

ANNUAL MAINTENANCE COST: \$0

DESCRIPTION

This project provides for improvements identified through the Clean & Safe Streets Program and unanticipated traffic-related needs. It also provides for review and analysis of neighborhood traffic concerns requested by the community and the Council. Typically, traffic calming measures are evaluated and developed in cooperation with the residents and presented to the City Council for approval and funding. This project also provides for minor traffic signal improvements such as pedestrian countdown signals and battery back up systems, as well as minor traffic studies and plan lines studies.

Category	Project	Estimate Level
Streets	4246 Sidewalk Replacement 2009	1

CONTACT: David Gordillo [2634]

PRIORITY: Health and Safety Projects

ANNUAL MAINTENANCE COST: \$0

DESCRIPTION

This project involves citywide replacement of existing curb, gutter and sidewalk. The project also involves street tree root cutting to prevent further damage to sidewalk. The work scope also includes installation of ADA ramps. An annual visual inspection is conducted to determine and establish a priority list of areas for replacement. Sections of sidewalk with vertical separation of 3/4" or more are completely removed and replaced. At locations where a vertical separation less than 3/4" exists, a grinding method is used in lieu of concrete replacement.

Streets	4247 Suggested Routes to School	1

CONTACT: Janice Spulle (3291)

PRIORITY: Improve the Quality of Life

ANNUAL MAINTENANCE COST:

DESCRIPTION

This is a 3-year school safety program targeting the City's 9 elementary and 2 middle schools to encourage walking and bicycling to school. Program elements include the preparation of Suggested Routes to School maps, walking-biking-carpooling education & programs, and event promoting.

COMMENTS:

This program is fully-funded from a California - Department of Transportation (Caltrans) Safe Routes to School Grant. The grant is for non-infrastructure projects only.

Uncommitted Balance as of 6/30/2009: \$143,841

Caltrans- Safe Route to School Grant. Local cost share of \$120,000 for this grant is based on staff in-kind services in the operating budget.

**City of Milpitas
2009-14 CAPITAL IMPROVEMENT PROGRAM**

Category	Project	Estimate Level
Streets	4249 Traffic Signal Modifications 2009	1

CONTACT: Greg Armendariz [3317]

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

ANNUAL MAINTENANCE COST: \$10,000

DESCRIPTION

This project provides for minor traffic signal improvement projects resulting from the need for operations improvements or emergency repairs and safety enhancements such as pedestrian countdown signals and battery back-up systems. The scope includes repainting of street light poles and traffic signal poles and related work. This project also provides for studies to determine larger capital improvement projects.

COMMENTS:

Recent improvements include deployment of Pedestrian Countdown Signals and flashing beacon systems for enhanced pedestrian crossings.

Uncommitted Balance as of 6/30/2009: \$45,487

Category	Project	Estimate Level
Streets	4250 Street Resurfacing Project 2010	

CONTACT: Jimmy Nguyen [3318]

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

ANNUAL MAINTENANCE COST:

DESCRIPTION

This project provides for the street resurfacing in 2010. The program includes a variety of pavement treatments from slurry seal to major rehabilitation and reconstruction. Streets are selected for improvements based on the City's Pavement Management System. This project also includes \$200,000 to Public Works maintenance for pothole patching.

COMMENTS:

There are over 122 miles of streets that are owned and maintained by the City of Milpitas. For major roadways, these improvements include an increase of the pavement structural section, in order to strengthen the pavement sections due to increases in current and projected traffic.

Uncommitted Balance as of 6/30/2009: \$0

**City of Milpitas
2009-14 CAPITAL IMPROVEMENT PROGRAM**

Category	Project	Estimate Level
Streets	8192 City-Wide Traffic Deficiency Plan	1

CONTACT: James Lindsay [3273]

PRIORITY: Improve the Quality of Life

ANNUAL MAINTENANCE COST:

DESCRIPTION

This project provides a study to perform a City-wide traffic analysis of intersections, establish existing levels of service, and determines current and future deficiencies. This study will look at cumulative impacts and identify mitigation strategies, for development projects through the City. This study is required due to regional growth and ongoing development within Milpitas and will be done in accordance with Santa Clara Valley Transportation Authority (VTA) guidelines.

COMMENTS:

This study will be utilized as an important tool to prioritize limited City resources and provide developers with practical mitigation strategies based on how their projects impact traffic on City streets.

Category	Project	Estimate Level
Streets	8196 Soundwall Renovation	1

CONTACT: Steve Erickson [3414]

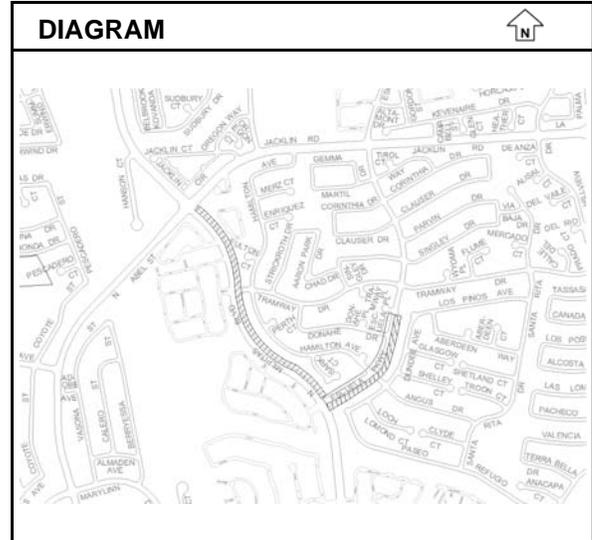

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

ANNUAL MAINTENANCE COST: \$1,000

DESCRIPTION

This project renovates the City sound walls along N. Milpitas Boulevard, Escuela Parkway, Jacklin Road at Horcajo, La Palma, Hillview Drive at Tularcitos Creek, Nicklaus at N. Park Victoria and other locations. Portions of the walls have deteriorated and will need to be structurally repaired or completely replaced. In some locations, the ground elevation on the residence side is much higher than on the public street side. The soundwalls were not designed as retaining walls, so they require structural retrofit work or replacement.

Streets	New Milpitas Boulevard Plan Line Study	1

CONTACT: Steve Erickson [3414]

PRIORITY: Studies and Analyses

ANNUAL MAINTENANCE COST:

DESCRIPTION

This project provides for the preparation of a Plan Line Study to evaluate the feasibility of installing landscaped median islands on N. Milpitas Blvd between Jacklin and Sunnyhills Ct. Raised medians can provide improvements to traffic safety and provide an opportunity for street beautification.

This study will also evaluate the feasibility of installing other street amenities such as street lighting, access control, pedestrian and bicycle improvements.

COMMENTS:

Plan Line Study will include an extensive community outreach plan, and will recommend a funding plan for the improvements.

Streets	New Sidewalk Replacement 2011	1

CONTACT: David Gordillo [2634]

PRIORITY: Health and Safety Projects

ANNUAL MAINTENANCE COST:

DESCRIPTION

This project involves citywide replacement of existing curb, gutter and sidewalk. The project also involves street tree root cutting to prevent further damage to sidewalk. The workscope also includes installation of ADA ramps. An annual visual inspection is conducted to determine and establish a priority list of candidate sites for replacement. Sections of sidewalk with vertical separation of 3/4" or more are completely removed and replaced. At locations where a vertical separation less than 3/4" exists, a concrete grinding method is used in lieu of concrete replacement.

Category	Project		Estimate Level
Streets	New	Traffic Management Enhancements 2013	1

CONTACT: Greg Armendariz [3317]

PRIORITY: Improve the Quality of Life

ANNUAL MAINTENANCE COST: \$5,000

DESCRIPTION

This project provides for the upgrade and deployment of traffic management equipment used to monitor and control the City's roadway network. Typical improvements include the deployment of traffic signal control equipment and upgrades to the traffic operations center's video monitoring equipment.

COMMENTS:

This project also provides resources to pursue grant funding sources to augment the traffic management projects.

Uncommitted Balance as of 6/30/2009: \$0

Streets	New Traffic Signal Installation	1

CONTACT: Greg Armendariz [3317]

PRIORITY: Improve the Quality of Life

ANNUAL MAINTENANCE COST: \$25,000

DESCRIPTION

This project will fund the installation of future traffic signals. Three intersections are currently being monitored for installation as traffic signal warrants are close to, but not currently satisfied, Milpitas Blvd & Tramway Dr, S Park Victoria Dr & Mt Shasta Av, and McCarthy Blvd & SanDisk Dr.

COMMENTS:

The funding in 2013-14 will provide design and construction of one of the above listed intersections. The State's traffic signal warrant criteria is used to determine the warrants for signaling an intersection.

Category	Project		Estimate Level
Streets	New	Traffic Signal Modifications 2012	1

CONTACT: Greg Armendariz [3317]

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

ANNUAL MAINTENANCE COST: \$5,000

DESCRIPTION

This project provides for minor traffic signal improvement projects resulting from the need for operations improvements or emergency repairs and safety enhancements such as pedestrian countdown signals and battery back-up systems. The scope includes repainting of street light poles and traffic signal poles and related work. This project also provides for studies to determine larger capital improvement projects.

COMMENTS:

Recent improvements include deployment of Pedestrian Countdown Signals and flashing beacon systems for enhanced pedestrian crossings.

CONTACT: Greg Armendariz [3317]

PRIORITY: Improve the Quality of Life

ANNUAL MAINTENANCE COST:

DESCRIPTION

This project provides preliminary engineering and City administration for the undergrounding of existing overhead electric telephone and CATV facilities at various locations City-wide. Construction is funded by the PG&E Rule 20A Program and other utilities (Approximately \$2.0 million is available as of 2009.)

Category	Project	Estimate Level
Water	7070 Pressure Reducing Valve Replacement	2

CONTACT: Steve Smith [2640]

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

ANNUAL MAINTENANCE COST: \$5,000

DESCRIPTION

This project involves the phased replacement of the existing pressure reducing valves (PRV) within the City's water system. These valves reduce the very high Hetch-Hetchy transmission line pressures to the City's operating water pressure.

COMMENTS:

All of the valves are over 20 years old and now require an extraordinary amount of maintenance. Proper operation of valves is crucial to assure proper delivery pressures for drinking and fire suppression purposes.

Category	Project		Estimate Level
Water	7086	Water System Air Relief Valve Modifications	1

CONTACT: Joe Ezeokeke [3316]

PRIORITY: Health and Safety Projects

ANNUAL MAINTENANCE COST: \$5,000

DESCRIPTION

This project retrofits existing air relief valves which are currently located below ground level to vaults above ground level. This work is mandated by the California Department of Public Health, under State Code, Title 22, Chapter 16. The purpose of placing valves above ground is to eliminate the possibility of water system contamination by backflow into valves during flooding.

COMMENTS:

Approximately 500 sites throughout the City have been identified for retrofitting. 40 of the highest priority sites have been completed. Funding in 2008-09 and 2010- 2011 is for remaining valves in the flood plain areas only.

Uncommitted Balance as of 6/30/2009: \$97,358

Water	7098 South Milpitas Water Line Replacement	1

CONTACT: Liz Racca-Johnson [3306]

PRIORITY: Health and Safety Projects

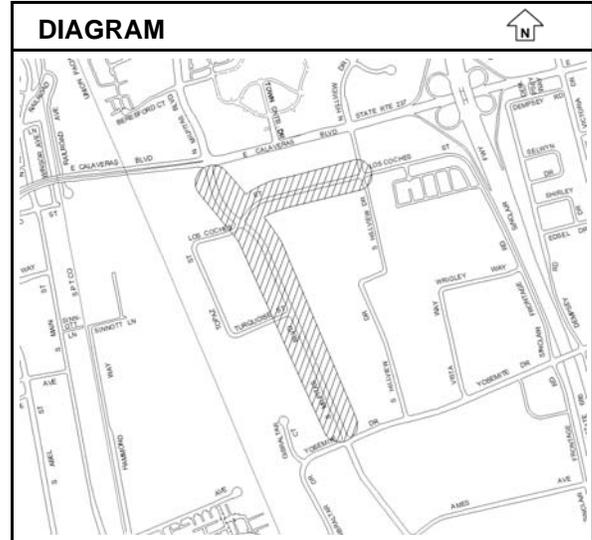

ANNUAL MAINTENANCE COST: \$25,000

DESCRIPTION

This project replaces approximately 3,900 linear feet of 16" diameter steel cylinder pipe along South Milpitas Blvd. between Calaveras Blvd. and Yosemite Drive. This pipe is in a very corrosive soil environment and has reached its useful life of 35 years. In addition, the new pipe will be designed to meet seismic strength criteria, and corrosion protection. The scope includes water value replacements on Los Coches St.

COMMENTS:

The pipeline has experienced excessive corrosion which is causing line breaks. Replacement must occur to minimize impacting critical water customers.

Uncommitted Balance as of 6/30/2009: \$28,320

Category	Project	Estimate Level
Water	7100 Water System Seismic Improvements	1

CONTACT: Greg Armendariz [3317]

PRIORITY: Health and Safety Projects

ANNUAL MAINTENANCE COST: \$25,000

DESCRIPTION

This project develops a comprehensive Water System Seismic Improvements Program which includes seismic upgrades to the City's "back-bone" water system as defined in the Water System Seismic Improvement Strategic Plan.

The scope also includes purchase of water system materials and equipment for emergency response to a major disaster.

A complete list of improvements is identified in the priority list (Appendix F of DSWA report) with additional work scope identified in follow up engineering studies.

COMMENTS:

Total program preliminary cost estimate is a minimum of \$15 million to \$20 million, over next 8 years.

Uncommitted Balance as of 6/30/2009: \$1,623,075

Category	Project		Estimate Level
Water	7102	Ayer Reservoir & Pump Station Improvements	1

CONTACT: Marilyn Nickel [3347]

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

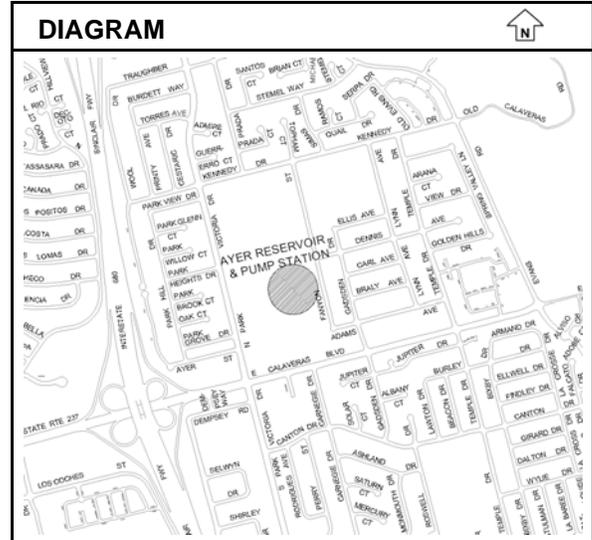

ANNUAL MAINTENANCE COST: \$5,000

DESCRIPTION

This project provides several improvements to the Ayer Reservoir and Pump Station located behind the Milpitas Sports Center. The overflow structure has settled needs to be replumbed to the sanitary sewer system. Scope also includes sealing concrete floors (in pipe gallery, pump room, and control room), replacing manual hoist with electric, and various electrical and mechanical repairs and/or improvements. Scope also includes replacement of the electric pumps and various seismic upgrades

COMMENTS:

The pump station is a critical water supply facility that has been in service for over 15 years. These improvements are required, in order to assure continued reliability.

Category	Project	Estimate Level
Water	7105 Recycled Water Site Improvements	1

CONTACT: Marilyn Nickel [3347]

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

ANNUAL MAINTENANCE COST: \$10,000

DESCRIPTION

This project converts selected City landscape facilities located near the recycled water line mains to recycled water. It includes modifications and improvements, installation of recycled water line extensions, new valves, providing signs and equipment tags, and other minor system improvements, to meet State requirements of using recycled water. Projects will include street landscaping and park facilities.

COMMENTS:

The City is dedicated to recycled water use since it expands the water supply and is necessary to reduce WPCP sanitary flows below flow cap limits.

Uncommitted Balance as of 6/30/2009: \$288,830

Water	7108	Water System Hydraulic Modeling	1

CONTACT: Kathleen Phalen [3345]

PRIORITY: Studies and Analyses

ANNUAL MAINTENANCE COST:

DESCRIPTION

This project provides for miscellaneous hydraulic modeling of the water system, including impacts from new developments. This project also creates the City's first hydraulic model for the recycled water system. This computer model can be used in order to handle and direct field water system operations during an emergency.

COMMENTS:

Modeling is also necessary to verify pipe capacity, system pressure analysis and assists in analyzing fire flow pressure with planned water line shut offs. Some costs may be reimbursable by developers.

Water	New	Second SCVWD Water Reservoir and Pump Station	1

CONTACT: Kathleen Phalen [3345]

PRIORITY: Mandatory or Committed Projects

ANNUAL MAINTENANCE COST: \$100,000

DESCRIPTION

This project will construct a second water reservoir (5.3 million gallons) and pump station to serve the SCVWD water service area, as recommended in the Milpitas 2009 Water Master Plan Update. This facility is necessary to serve the Midtown Transit Area Specific Plan and other future development. The scope includes land purchase, installation of a second SCVWD water supply turnout.

COMMENTS:

The new water facility will require acquisition of approximately 3 acres in the Transit Area. Construction will be programmed in 2014-15 at a cost estimate of \$15 Million.

Uncommitted Balance as of 6/30/2009: \$0

Water	New Supervisory Control and Data Acquisition (SCADA)	1

CONTACT: Steve Smith [2640]

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

ANNUAL MAINTENANCE COST: \$50,000

DESCRIPTION

A Supervisory Control and Data Acquisition System provides real-time data, such as water tank level, pump operational status, system pressure, and flow rates to water system operators. Operators can use this data to identify operational problems, such as high velocities and low pressures, pressure spikes, both indicators of pipe breaks. SCADA also allows for remote monitoring and operation of pumps and valves to implement corrective actions and maintain water supply.

COMMENTS:

Currently operators rely on unsophisticated alarms at limited locations and customer complaints to become aware of water system problems. Operators must drive to sites to evaluate the problem and implement corrective action, such as starting a back-up pump, when the main pumps fail.

Water	New Turnout Improvements	1

CONTACT: Steve Smith [2640]

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

ANNUAL MAINTENANCE COST: \$1,000

DESCRIPTION

This project involves sandblasting and recoating all water system turnout apparatus. It also involves testing and replacement of antiquated valves. There are four turnouts on San Francisco PUC water system and one on the Santa Clara Valley Water District water system. The valves vary in size from 12" to 16".

Water	New	Water O&M Database Management	1

CONTACT: Steve Smith [2640]

PRIORITY: Projects Which Avoid Future Additional Costs

ANNUAL MAINTENANCE COST:

DESCRIPTION

This project would integrate and expand the GIS database to include water system facility data, such as age of pipe, year of installation, type of pipe, age of valves, maintenance history, and frequency and type of breaks.

COMMENTS:

Some of the City's water system infrastructure is now 50 years old and reaching the end of it's useful life. This database would enable staff to maintain repair records, identify and record the status of infrastructure and provide timing recommendations for replacement.

Water	New Well Blending Study	1

CONTACT: Howard Salamanca [3348]

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

ANNUAL MAINTENANCE COST:

DESCRIPTION

This project provides an engineering study to analyze the feasibility and cost benefits of connecting the Curtis Avenue ground water well to Gibraltar Reservoir and pump station for the purpose of blending well water with SC WD and Hetch-Hetchy water.

COMMENTS:

Harder water due to higher mineral content, and by mixing with SCVWD and/or Hetch-Hetchy water at 1% less, the water quality would not be noticeably different.

Category	Project	Estimate Level
Sewer Improvement	6073 Sewer Deficiency Program	1

CONTACT: Steve Erickson [3414] / Steve Smith [2640]

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

ANNUAL MAINTENANCE COST: \$10,000

DESCRIPTION

This project involves the design and construction of sewer line replacement due to structural deficiencies, differential settlement, and damaged sewer lines. These sewer lines have been identified through unusually high maintenance and confirmed with the City's video inspection program. The following are the highest priority locations from a list of over 40 problem sites: Cortez St., Moonlight Circle, Capitol Ave., Calaveras Blvd @ Hillview, Calaveras Blvd between Milpitas Blvd and Railroad Avenue.

COMMENTS:

Sewer line settlement, due to such factors as ground water variations and poor soil conditions, can result in sewer line clogging which requires excessively high maintenance. Work at the following sites has been completed: Terra Bella Dr., Sponce St., Norwich at Barker, Saturn Court, Carnegie at Edsel, Corinthia Drive, Edsel @ Monmouth, Roswell @ Edsel, Dixon Landing @ Conway, Chestnut @ Larch, Heath @ Chestnut, Erie @ Tramway, Larch @ Maple, and Calaveras Blvd. between Milpitas Blvd. and Railroad Ave. (21 inch sewer). Work will continue on the highest priority locations.

Uncommitted Balance as of 6/30/2009: \$206,447

Category	Project	Estimate Level
Sewer Improvement	6110 Sewer System Hydraulic Modeling	1

CONTACT: Kathleen Phalen [3345]

PRIORITY: Studies and Analyses

ANNUAL MAINTENANCE COST:

DESCRIPTION

This project provides for ongoing hydraulic modeling of the sanitary sewer system as needed for Public works operations and capacity impacts from new developments.

COMMENTS:

Modeling allows verification of existing and future pipe capacity, and capacity reduction due to pipe settlement. Modeling analysis is reimbursed by developers, when analysis is performed to determine project impacts to sewer collection system.

Category	Project	Estimate Level
Sewer Improvement	New Cypress Sewer Main Replacement	1

CONTACT: Steve Erickson [3414]

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

ANNUAL MAINTENANCE COST: \$5,000

DESCRIPTION

This project would replace the existing 36" diameter main sewer pipe line crossing SR 237 and parallel to the Cypress Court. The main sewer line has reached its design life and the pipeline has settled unevenly. It carries approximately 1/3 of the City's sewer flows to the Main Sewage Pump Station.

Storm Drain Improvement	3700 Storm Drain System Deficiency Program	1

CONTACT: Fernando Bravo (3328)

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

ANNUAL MAINTENANCE COST: \$10,000

DESCRIPTION

This project involves the design and construction of storm drain pipeline at various locations, primarily due to insufficient capacity. The areas may include but are not limited to: Wrigley and Vista Way, Rocky Mountain Avenue, Watson Court, South Park Victoria Drive, Jacklin Road, Traughber Street, Park Hill Drive, Prada Drive, Abbott Avenue, Coyote Street, UPRR near Jurgens, and Sycamore Drive. In some locations, the existing storm drain main will be removed and replaced with larger pipe. In other locations, a second parallel pipe will be installed depending of the existing pipe and space constraints with other utilities. Work scope also includes pump station rehabilitation work to electrical and mechanical systems.

COMMENTS:

The 2001 Storm Drain Master Plan is in the process of being updated. Additional projects will be programmed based on the new Storm Drain Master Plan.

Storm Drain Improvement	3702 Minor Storm Drain Projects 2009	1

CONTACT: Jorge Bermudez [3404]

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

ANNUAL MAINTENANCE COST: \$1,000

DESCRIPTION

This project involves the ongoing analysis and implementation of various minor modifications and improvements to the existing storm drain system. A new storm inlet is proposed at the northwest corner of Kennedy Drive and Dimas Drive. In addition this project includes installation of permanent metallic medallions imprinted with "No Dumping – Flows to the Bay" at approximately 3,400 storm drain catch basins, as mandated by the State. The scope also includes storm drain studies, minor related improvements and regional storm drain fees.

Category	Project	Estimate Level
Storm Drain Improvement	3703 Emergency Pump Station Generators	1

CONTACT: Steve Smith [2640]

PRIORITY: Major Service Equipment Replacement

ANNUAL MAINTENANCE COST: \$5,000

DESCRIPTION

This project provides for the procurement of two trailer mounted emergency generators for use at the storm pump stations (with electric capacity of 750kw and 1000kw.)

The work will also include installation of transfer switches at the pump stations to allow switching PG&E power to generator power.

COMMENTS:

Typically, the same storms that drops heavy rainfall into the storm drain system also cause electrical service interruptions. The pump stations are inoperable at a time when they are needed the most. Secondly, a major earthquake during winter storms may also take out PG&E power.

Category	Project	Estimate Level
Community Improvement	3398 On-line Development System	1

CONTACT: Bill Marion [2701]

PRIORITY: Improve the Quality of Life

ANNUAL MAINTENANCE COST: \$0

DESCRIPTION

This project provides for the design, development and installation of an On-line Development System that will support planning requirements, engineering requirements, fire requirements, plan checking, permit application, inspections, permit finalization, GIS capabilities, internet issuance of simple permits and plan check status, the usage of handheld inspection devices, interactive voice response for scheduling inspection appointments and integrated with document imaging capabilities.

COMMENTS:

This project will be funded through the collection of an automation fee that will be collected at the time a permit is issued.

Uncommitted Balance as of 6/30/2009: \$1,525

Community Improvement	3400 2009 Finance System Upgrade	1

CONTACT: Jane Corpus [3125]

PRIORITY: Improve the Quality of Life

ANNUAL MAINTENANCE COST: \$0

DESCRIPTION

This upgrade will keep our Financial system up to date. The current release, Version 7.4, will no longer have support after May 2008. It is essential that the system be current in order to utilize technology efficiently and effectively. This major system includes General Ledger, Accounts Payable, Cash Collection, Payroll/Human Resources, Job Costing and Purchase Order. In addition, the Finance system also manages Budget Preparation, Business License, Investment Software and Fixed Asset systems.

COMMENTS:

The proposed funding is for the system required upgrades, equipment and staff training.

Uncommitted Balance as of 6/30/2009: \$125,000

Category	Project	Estimate Level
Community Improvement	3401 Solid Waste Master Plan	1

CONTACT: Kathleen Phalen [3345]

PRIORITY: Studies and Analyses

ANNUAL MAINTENANCE COST: \$0

DESCRIPTION

This Master Plan will review the impacts of the City's short and long term planned growth and associated solid waste disposal needs. Since the current solid waste contracts expire in 2017, the plan will also review and develop strategies for economical solid waste disposal beyond 2017. Particularly, since Newby Island Landfill off Dixon Landing Road, is scheduled for closure by 2023.

COMMENTS:

The City has two existing contracts regarding solid waste disposal. One is for collection and hauling to the Newby Island Landfill and Recyclery for disposal. The second is to reserve capacity at the Newby Island Landfill and Recyclery for Milpitas-generated waste.

Uncommitted Balance as of 6/30/2009: \$200,000

Storm Drain Improvement	3701 Storm Drain Master Plan Update	

CONTACT: Robert Wang [3327]

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

ANNUAL MAINTENANCE COST: \$0

DESCRIPTION

This project provides an update to the City Storm Drain Master Plan. This update is needed due to land use modifications proposed by Midtown Specific Plan and proposed Transit Area Specific Plan. It is also important to revise and update the Master Plan in order to account for land use changes and capital projects that have taken place in the City since the original Master Plan was published in 2001, and to provide proper environmental documentation. In addition, FEMA is requiring creek levee recertification as a result of the New Orleans levee failures. SCVWD and the City are working to complete these studies by August 2009. The Storm Master Plan will model and analyze citywide existing and proposed storm drain infrastructure, identify system deficiencies and recommend improvements.

COMMENTS:

A Master Grading and Storm Drainage Plan is required by the Transit Area EIR

Uncommitted Balance as of 6/30/2009: \$67,972

**City of Milpitas
2009-14 CAPITAL IMPROVEMENT PROGRAM**

Category	Project	Estimate Level
Streets	4029 Calaveras Road Slope Protection	1

CONTACT: Joe Ezeokeke [3316]

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

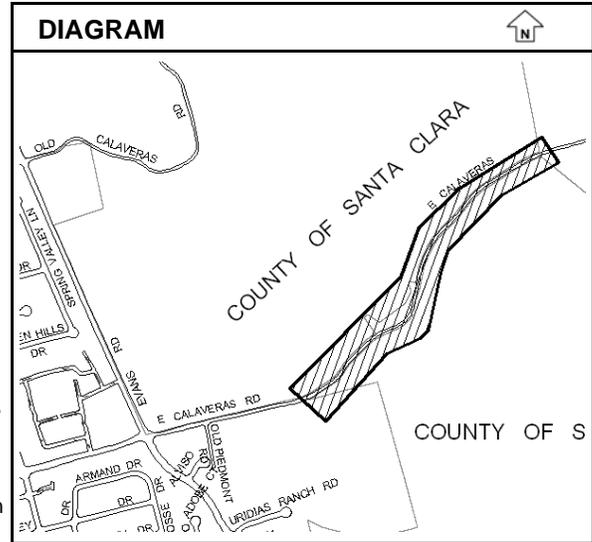

ANNUAL MAINTENANCE COST: \$1,500

DESCRIPTION

This project involves ongoing maintenance and repair work on the Calaveras Rd. slide area slope between Piedmont Rd. and Downing Rd. The project also involves the ongoing monitoring of the slide area by geologists. Improvements included the installation of a slope drainage system, slope stabilization systems, removal of hillside material, as well as restoration of storm damage to Calaveras Road slope.

COMMENTS:

Part of the solution to the slide area is the need to remove the hill area along key locations on the north side of Calaveras Rd. To date, 650,000 cubic yards of material have been removed. Approximately 450,000 cubic yards remain to be removed. In addition, a project to provide stabilization of the worst stretches of road using a Caltrans developed soil nailing technology, concrete piers and hydroseeding has been completed. A Mitigation and Monitoring plan as required by permitting Agencies started in March 2003 for a period of five years. The cost to implement the 5-year monitoring plan is estimated to be \$60,000.

Uncommitted Balance as of 6/30/2009: \$62,534

Category	Project		Estimate Level
Streets	4047	Dixon Landing Road / I-880 Interchange	1

CONTACT: Liz Racca-Johnson [3306]

PRIORITY: Enhance Economic Development

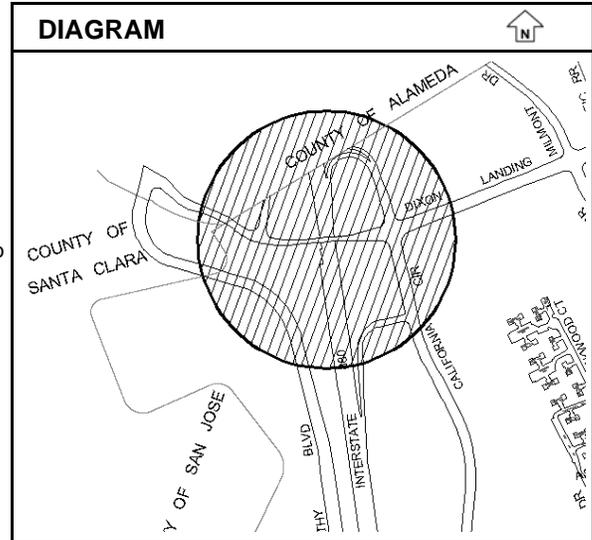

ANNUAL MAINTENANCE COST: \$6,000

DESCRIPTION

This project involved the construction of a full interchange at Dixon Landing Rd. and I-880. It provided access to the industrial parks to the west of I-880 and improved the access from the east. Design is based upon 6 lanes for Dixon and 8 lanes for I-880 including commuter lanes. All the construction work has been completed. The remaining work includes right of way transfer to Caltrans.

COMMENTS:

The interchange was completed and opened for traffic in March 2004. PG&E contract resolution and Right of Way transfer to Caltrans is currently in progress.

Uncommitted Balance as of 6/30/2009: \$50,354

Streets	4133	Tasman Extension - Great Mall Parkway to I-880	1

CONTACT: Liz Racca-Johnson [3306]

PRIORITY: Improve the Quality of Life

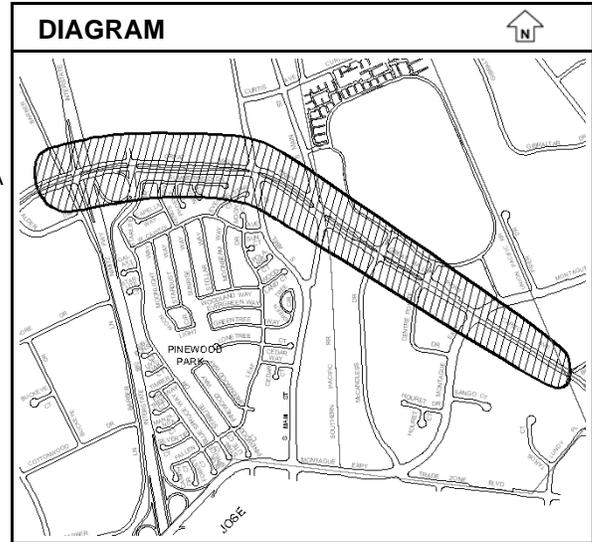

ANNUAL MAINTENANCE COST: \$25,000

DESCRIPTION

This project involves the extension of Tasman along Great Mall Parkway from the I-880 Interchange to southerly of the Montague Expressway and other VTA LRT related improvements. Scope includes the design and construction of median landscape improvements. The project also provides for the resurfacing of Capitol Ave. and Great Mall Parkway.

COMMENTS:

All of the roadway work has been completed under a cooperative agreement with Santa Clara Valley Transportation Authority (VTA). The Medians have been treated with bark as an interim landscape solution until the full landscape/irrigation design is complete and funds are available. Sidewalk trees have also been installed.

Uncommitted Balance as of 6/30/2009: \$15,771

2009-14 CAPITAL IMPROVEMENT PROGRAM**

Category	Project	Estimate Level
Streets	4179 Montague Expwy Widening at Great Mall Pkwy	1

CONTACT: Julie Waldron [3314]

PRIORITY: Mandatory or Committed Projects

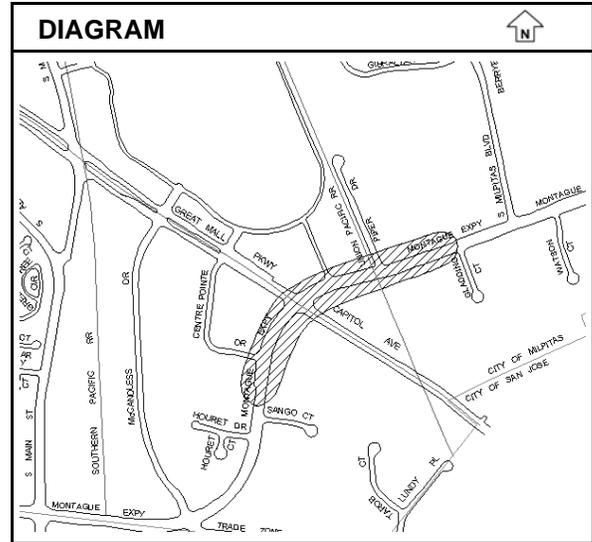

ANNUAL MAINTENANCE COST: \$40,000

DESCRIPTION

This project provides a fourth through lane in each direction on Montague Expressway at Great Mall Parkway. It also includes adding one westbound lane on Montague Expressway from Hwy 680 to UPRR rails, however, these limits may be revised due to right of way availability.

COMMENTS:

A portion of this project, Phase I, is required as a result of the Cisco Systems development. Phase I is the improvement of the Great Mall Parkway/Capitol intersection from Center Point Drive to the UPRR rails, and is funded 50% by Cisco Systems. Phase I was constructed by VTA in conjunction with their LRT project. The remaining portion of the project, phase II, will "close the gaps" that exist between Phase I and Project 4180 which widened the south side of the expressway from west of Gladding CT. to I-680.

Streets	4202 Calaveras Blvd. R/R Overcrossing Sidewalk Improvements	1

CONTACT: Greg Armendariz [3317]

PRIORITY: Improve the Quality of Life

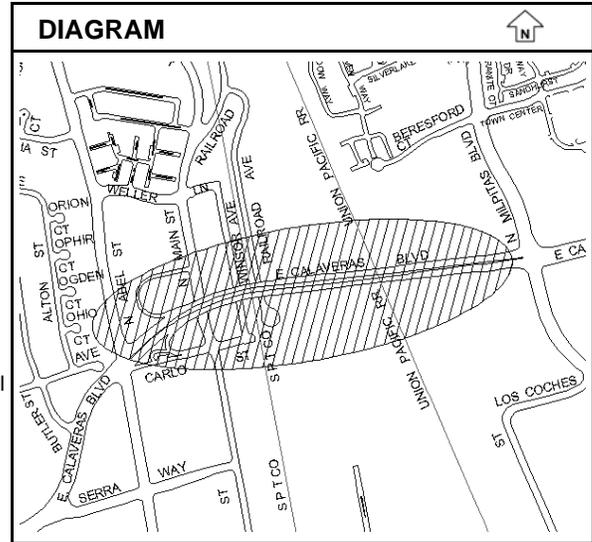

ANNUAL MAINTENANCE COST: \$50,000

DESCRIPTION

This project provides for sidewalk safety improvements, on the Calaveras Boulevard railroad overcrossing bridge. These improvements consist of widening of the existing sidewalk. This existing sidewalk is only five feet wide and is heavily use by both pedestrians and bicyclists.

COMMENTS:

This overcrossing is owned and currently maintained by Caltrans. Caltrans will need to provide approval and permits for these improvements. These sidewalk improvements will become a priority once the new Library and other Midtown improvements are completed.

ANNUAL MAINTENANCE COST: \$0

DESCRIPTION

This project constructs a new 36-inch storm drain pipeline from Redwood Avenue to Curtner Lagoon to improve flood protection in the Manor area. This will eliminate localized street flooding by increasing the storm system capacity.

COMMENTS:

Additional flood protection improvements for the Manor area are identified in the Storm Master Plan. This project is under design and construction is planned in 2009-10.

Uncommitted Balance as of 6/30/2009: \$278,936

Category	Project	Estimate Level
Streets	4227 Gateway Signs Project	1

CONTACT: Diana Whitecar (3059) / Julie Waldron [3314]

PRIORITY: Enhance Economic Development

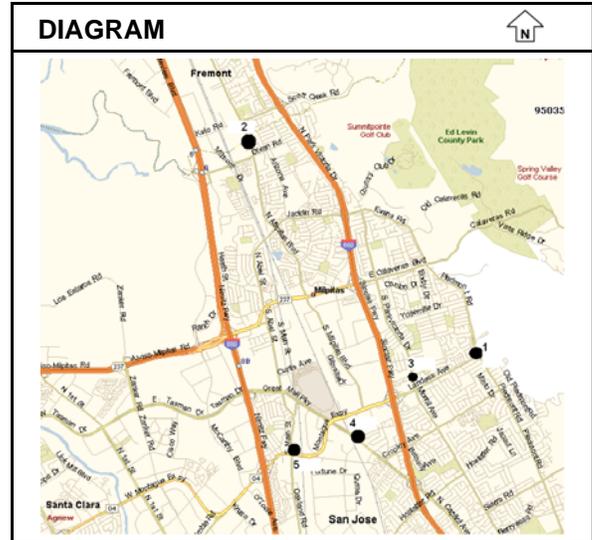

ANNUAL MAINTENANCE COST: \$1,000

DESCRIPTION

In 2006, the City Council approved the location of minor gateway signs at the following locations: 1) Park Victoria Drive at Landess Avenue; 2) South Main Street at Montague Expressway; 3) North Milpitas Boulevard at Dixon Landing Road; and 4) McCarthy Drive at Montague. These locations reflect heavily traveled intersections that will provide more visible promotion for the City.

COMMENTS:

The Economic Development Commission requested that funding for a third minor gateway sign be included in the 2006/07 mid year budget. Staff is working to bring the design of the minor gateways into conformance with the design of the Calaveras Blvd and Route 237 gateway feature that has been submitted for Caltrans approval. The new designs will be presented for City Council approval prior to fabrication and installation.

Category	Project	Estimate Level
Streets	4235 Sidewalk Replacement 2007	1

CONTACT: David Gordillo [2634]

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

ANNUAL MAINTENANCE COST: \$0

DESCRIPTION

This bi-annual project involves citywide replacement of existing curb, gutter and sidewalk. The project also involves street tree root cutting to prevent further damage to sidewalk. An annual visual inspection is conducted to determine and establish a priority list of areas for replacement. Sections of sidewalk with vertical separation of 3/4" or more are completely removed and replaced. At locations where a vertical separation less than 3/4" exists, the concrete may be ground down instead of being replaced.

COMMENTS:

Category	Project	Estimate Level
Streets	4236 Street Resurfacing Project 2007	1

CONTACT: Jimmy Nguyen [3318]

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

ANNUAL MAINTENANCE COST: \$0

DESCRIPTION

This project provides for the street resurfacing in 2007. The program includes a variety of pavement treatments from slurry seal to major rehabilitation /reconstruction. Streets to be selected for improvements are determined from the City's Pavement Management System. This project also includes \$200,000 to Public Works maintenance for pothole patching.

COMMENTS:

There are over 122 miles of streets that are owned and maintained by the City of Milpitas. Approximately 30 miles of streets (almost 30% of the City total) were built 30 years ago, and have not been resurfaced in the last ten years. These improvements include an increase of the pavement structural section, in order to strengthen the pavement sections due to increases in current and projected traffic.

Category	Project	Estimate Level
Park Improvement	5083 Park Master Plan	1

CONTACT: Julie Waldron [3314] / Craig Wisneski [2661]

PRIORITY: Improve the Quality of Life

ANNUAL MAINTENANCE COST:

DESCRIPTION

This project will provide an in-depth study of the City's existing parks and future Parks needs. This study will result in the development of a Park Master Plan. The Park Master Plan will also become the guide for placing conditions on proposed development projects for new park space within the City. In addition it will also identify and prioritize the level of improvements needed for each park, including cost estimates and recommended timelines. This information will be utilized in programming Park Capital Improvement Projects.

Park Improvement	5085 Electrical Cabinet Upgrade	1

CONTACT: Craig Wisneski [2661]

PRIORITY: Health and Safety Projects

ANNUAL MAINTENANCE COST: \$0

DESCRIPTION

This project upgrades or replaces the sports field lighting, electrical cabinets and equipment. Some of these cabinets are over forty years old. Replacement of the cabinets will bring the cabinets into conformance with current building code requirements. The three locations are: Cardoza Park, Hall Park and Rancho.

Category	Project	Estimate Level
Park Improvement	5086 Park Irrigation System Rehabilitation	1

CONTACT: Craig Wisneski [2661]

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

ANNUAL MAINTENANCE COST: \$0

DESCRIPTION

This project provides new central computer irrigation system and updates the irrigation systems at all City parks. This system will also alert staff of broken sprinklers and irrigation lines, by sensing loss of water pressure during operation. Repair response is much quicker, eliminating loss of water and water damage to the park landscaping.

COMMENTS:

This project will increase staff efficiency and also provide more efficient watering, resulting in reduced operational costs.

Uncommitted Balance as of 6/30/2009: \$50,313

2009-14 CAPITAL IMPROVEMENT PROGRAM**

Category	Project	Estimate Level
Sewer Improvement	6079 Main Sewer Pump Station Site Improvements	1

CONTACT: Greg Armendariz [3317] / Steve Smith [2640]

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

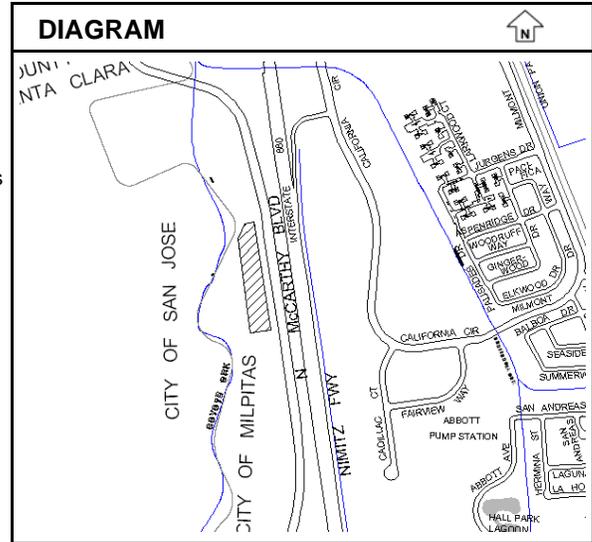

ANNUAL MAINTENANCE COST: \$15,000

DESCRIPTION

This project provides design and construction of drainage, pavement, lighting security and other improvements at the Main Sewer Pump Station (SPS). This project also involves the removal of the existing abandoned facilities, tanks, miscellaneous piping and control panels that were once part of the sewage treatment facility. In addition, this project acquires a 70' wide strip of right-of-way between McCarthy Blvd and the Main Sewer Pump Station, through a no-cost land exchange with adjacent property owner.

COMMENTS:

This site will be improved to accommodate the relocated Public Works Corp Yard at Main St., allowing the construction of the new Library project. This site contained several abandoned treatment plant structures. Phase I, completed in 2005, included demolition and removal of abandoned facilities and hazardous materials. The remaining work includes lighting, security improvements and photo voltaic equipment.

Category	Project	Estimate Level
Sewer Improvement	6082 Recycled In Kind Services	1

CONTACT: Marilyn Nickel [3347]

PRIORITY: Mandatory or Committed Projects

ANNUAL MAINTENANCE COST: \$0

DESCRIPTION

This project tracks expenditures in accordance with the first amendment to the In-Kind Service Agreement with the City of San Jose on the South Bay Water Recycling Program approved by City Council on June 24, 1997. The project effort consists primarily of private development recycled water irrigation system retrofits. The project costs are reimbursed to the City from the South bay Water Recycling Program.

COMMENTS:

Work may also include evaluation of City Parks for possible conversion to recycle water irrigation. This project is being completed in phases.

Category	Project	Estimate Level
Sewer Improvement	6103 Main Sewage Pump Station Improvements	1

CONTACT: Greg Armendariz [3317]

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

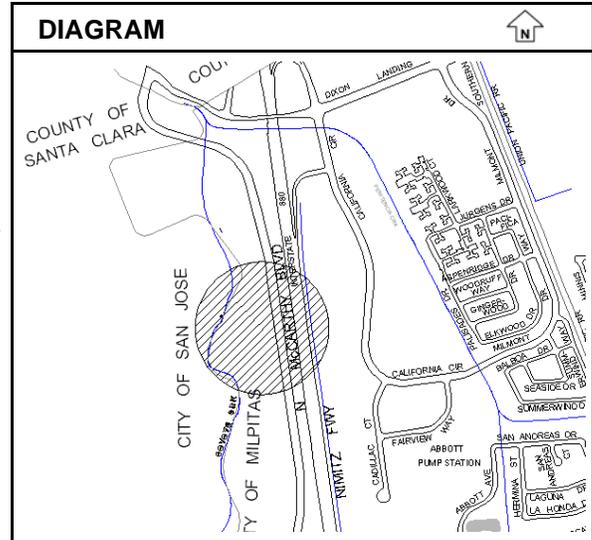

ANNUAL MAINTENANCE COST: \$20,000

DESCRIPTION

This project provides for the replacement of the Main Sewage Pump Station (SPS). The existing pump station is over 40 years old and has reached the end of its useful life. It does not have the capacity to handle the increase in sewer flows from the Midtown and Transit Area planned development, and it is also susceptible to significant damage from a major seismic event.

COMMENTS:

Construction started in February 2007 and will continue through November 2008.

Uncommitted Balance as of 6/30/2009: \$1,419,852

Category	Project	Estimate Level
Sewer Improvement	6106 Sewer Replacement Study	1

CONTACT: Marilyn Nickel [3347]

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

ANNUAL MAINTENANCE COST: \$0

DESCRIPTION

This project involves field determination of the remaining useful life of the following sewer pipes: 360 linear feet of 42 inch RCP crossing I-880 at the Main Lift Station, 490 linear feet of 42 inch RCP at Cadillac Court and I-880, 310 linear feet of 42 inch RCP at Milmont near Penitencia Creek, 5,400 linear feet of 33-42 inch RCP along Milpitas Blvd between Hidden Lakes and Midwick, 90 linear feet of 24 inch RCP at Folsom and Hetch-Hetchy crossing, 1,500 linear feet of 30 inch RCP between Folsom and Escuela, and 170 linear feet of 12 inch RCP at Dempsey.

COMMENTS:

The Schaaf and Wheeler 2002 Depreciation Study has estimated the remaining life of the existing sewer infrastructure. This work is to field determine the condition of sewers and verify need to replace those sewers identified as having an estimated useful life ending by 2008. The study will refine the scope of work and costs, and prioritize these projects.

Category	Project	Estimate Level
Sewer Improvement	6109 Sewer Seismic Study	1

CONTACT: Marilyn Nickel [3347]

PRIORITY: Studies and Analyses

ANNUAL MAINTENANCE COST: \$0

DESCRIPTION

This study includes evaluation of the various soil conditions in Milpitas, and existing sanitary sewer collection system. Recommendations may include new joint construction methods and retrofits at critical sites. The study will also recommend emergency response strategies for Public Works, during and after a major earthquake.

COMMENTS:

A substantial portion of the Valley Floor is subject to soil liquefaction during earthquakes. Movement of these pipes will cause pipe joints to pull apart. Large pipe joint displacements may lead to blockages, sinkholes, and sewer overflows, leading to health concerns. Improvement recommendations will be programmed under separate capital improvement projects.

Sewer Improvement	6112	South Bay Water Recycling Program, Phase II	2

CONTACT: Marilyn Nickel [3347]

PRIORITY: Mandatory or Committed Projects

ANNUAL MAINTENANCE COST: \$0

DESCRIPTION

This project provides the City's share of Phase II South Bay Water Recycling Program Improvements (SBWRP) to develop extensions to the water recycling system as required by the California Regional Water Quality Control Board (RWQCB) as a mitigation in lieu of a Water Pollution Control Plant flow cap.

COMMENTS:

Based upon the June 1997 Revised Action Plan submitted to the RWQCB and the 1997 SBWRP Financing Plan, the Milpitas share of the program is \$9.543 million about \$1.248 million is being financed directly to SBWRP through grants and other sources and are not included in the total below. Under project 6080, the City paid \$5,225,653 to SBWRP for Phase II prior to June 2002. Project 6080 was closed. The next payment will be due approximately Fiscal Year 2008-2009.

Uncommitted Balance as of 6/30/2009: \$700,000

Category	Project	Estimate Level
Water	7084 Los Coches Water Valve Replacement	1

CONTACT: Steve Smith [2640]

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

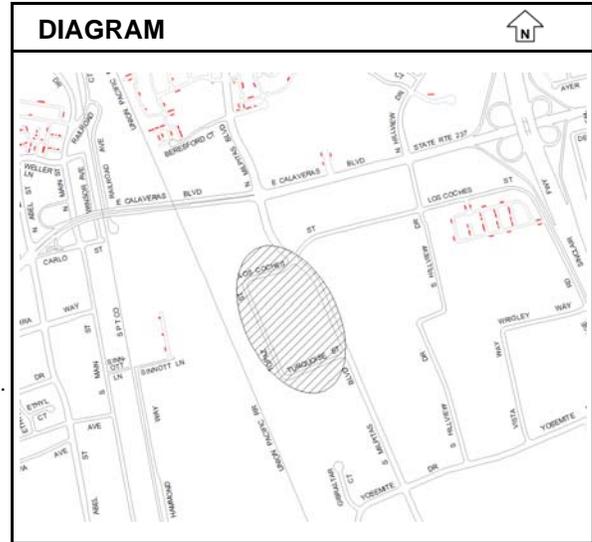

ANNUAL MAINTENANCE COST: \$0

DESCRIPTION

This project involves the design and construction of four water main valve replacements on Los Coches St. The water valves are frozen open and can no longer be shut off. Isolation of the water system in this area can not be achieved quickly in case of an emergency.

COMMENTS:

May be done in conjunction with South Milpitas Blvd. water main Replacement.

Uncommitted Balance as of 6/30/2009: \$13,752

Category	Project	Estimate Level
Water	7101 Gibraltar Reservoir & Pump Station	1

CONTACT: Kathleen Phalen [3345]

PRIORITY: Mandatory or Committed Projects

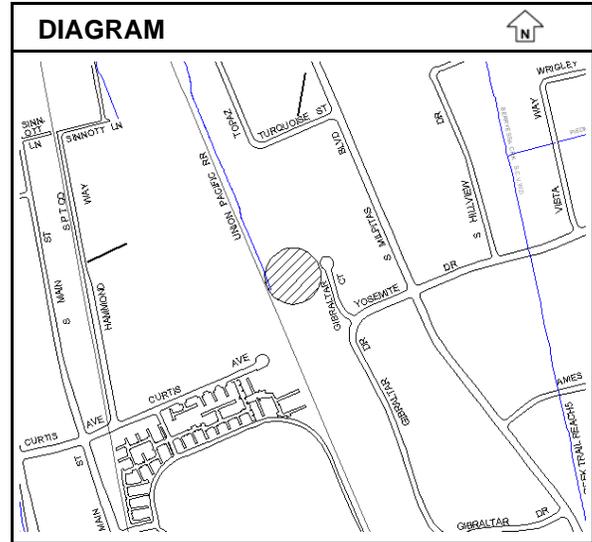

ANNUAL MAINTENANCE COST: \$0

DESCRIPTION

This project provides for a complete rehabilitation of the pump station and water storage facilities, in order to comply with Bay Area Air Quality Management District (BAAQMD) and California Department of Public Health regulations. Improvements will include the replacement of pump drives with new electric motors with diesel backup generators, overhaul the pumps and operational controls to allow the station to operate more efficiently. The scope also includes seismic upgrades of building and concrete reservoir. Additional improvements include the installation of a pressure relief valve, concrete sealing of all the floors, soundproofing the control room, stair improvements, seal cracks, paint pump station and reservoir exteriors; pavement repair; exhaust system retrofit, emergency diesel generator system and diesel engines, and various other equipment, expansion of the control room and energy conservation improvements.

COMMENTS:

This reservoir and pump station has reached its design life and is vital to the City's water system day to day operations and the reservoir provides emergency water during service interruptions. The total cost estimate will be determined after completion of the final design, which is currently underway.

Water	7104 Water Main Replacement Study	1

CONTACT: Marilyn Nickel [3347]

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

ANNUAL MAINTENANCE COST: \$0

DESCRIPTION

This project involves field evaluation of the remaining useful life of the city's waterlines including but not limited to: Lonetree, Evans between Stemel and Calle Oriente, near Dempsey and Yosemite, and along Piedmont between Yosemite and Glenview.

COMMENTS:

The 2002 Depreciation Study has estimated the remaining life of the existing water system infrastructure. This work is to field verify the projects identified with useful life ending by 2008, confirm need and scope of work, and prioritize these projects.

Uncommitted Balance as of 6/30/2009: \$241,853

2009-14 CAPITAL IMPROVEMENT PROGRAM**

Category	Project	Estimate Level
Community Improvement	8093 Telecommunications Infrastructure	1

CONTACT: Bill Marion [2701]

PRIORITY: Enhance Economic Development

ANNUAL MAINTENANCE COST: \$0

DESCRIPTION

This project provides for the design and installation of a City wide telecommunications network. The backbone of this wide area network is the installation of fiber optic cable that carries larger volumes of data than conventional copper wire telephone systems. This fiber optic installation will connect all major City facilities in a "fiber ring" configuration to provide critical redundancy in the system. The system includes hardware upgrades, network management software, video conferencing hardware and software. This project will also include the upgrade of the City's radio system infrastructure.

COMMENTS:

Work has been completed on fiber connections between Fire Station 1, Fire Station 2, Fire Station 3, Fire Station 4, the Public Works Building, Police Department Building, the Great Mall Police Substation, the new City Hall, the Public Works Facilities building, the Temporary Senior Center and the Fleet Garage. Wireless connections have also been completed for the Sports Center, Crowne Plaza Hotel, the new Public Works Corporation Yard and the Main Sewer Lift Station. In addition, the City has installed a Wireless Network for approximately 8 square miles within the City to support the Public Safety systems.

The next major milestones include the running of fiber optic cable down Abel Street that will ultimately support the City's telecommunications and traffic communications between the Public Works Corporation Yard down Abel Street to the new Library and ultimately ending at Fire Station 1.

Uncommitted Balance as of 6/30/2009: \$0

Community Improvement	8125 Mobile Radio Replacement Plan	1

CONTACT: Bill Marion [2701]

PRIORITY: Mandatory or Committed Projects

ANNUAL MAINTENANCE COST: \$0

DESCRIPTION

This project addresses the replacement of portable, mobile radios and supporting equipment for Police, Fire and Public Works.

COMMENTS:

Progress continues on the replacement of all Police, Fire and Public Works radios. There is the possibility that the F.C.C. may reorganize the emergency and non emergency radio frequencies to narrower bands. This may result in "compromised" Public Safety frequencies due to "bleed over." Complete radio equipment replacement with new technologies would be required, including additional funding (not shown).

Uncommitted Balance as of 6/30/2009: \$57,732

City of Milpitas
2009-14 CAPITAL IMPROVEMENT PROGRAM

Category	Project	Estimate Level
Community Improvement	8131 Information Management	1

CONTACT: Bill Marion [2701]

PRIORITY: Mandatory or Committed Projects

ANNUAL MAINTENANCE COST: \$0

DESCRIPTION

This project will implement a document management and imaging system within the City. The implemented document management system will allow City staff to comprehensively store, locate and manage all City related information through the use of imaging, optical character recognition (OCR), database, and workflow technologies. Benefits of this technology includes significant reductions in file space, mis-filing, and document location/retrieval times. This portion of the project was formerly called Document Imaging. The project also includes web based interfaces, web development, video streaming and data warehousing.

COMMENTS:

The first phase of this project included the scanning and indexing of Police Department, Fire Department and Building Department records. Subsequent phases included the scanning and indexing of documents for the City Clerk, Engineering, Finance, HR and Planning Departments. To date over 3.5 million documents have been converted to an electronic format. Work continues on the scanning and indexing of various Departmental records.

This project also supported the development of numerous on-line WEB applications such as the City Officials Event Calendar, the Public Access Information System, the on-line Commissioner's Application and various on-line surveys to solicit input from the residents of Milpitas.

Category	Project	Estimate Level
Community Improvement	8135 Buildings Improvements	1

CONTACT: Eddie Loreda [2662]

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

ANNUAL MAINTENANCE COST: \$0

DESCRIPTION

This project provides for various improvements to existing City buildings. These improvements are considered beyond the scope of routine building maintenance, and defined under the Public Contract Code as improvements which must be competitively bid and constructed. These projects are for all city buildings including the Senior Center, Sports Center, Police Department, Public Works, and Fire Stations.

COMMENTS:

Various improvements and upgrades to miscellaneous city facilities and comply with newer building and fire code requirements. This project will also include soundproofing for the Police Community Room, storage loft for the sign shop including stairs and railing, maintenance access for the Tasman Gateway feature, painting of the corporation yard building and carpet in Information Systems and Police. It will also replace a dry rot portion of the front wall to fire station 3, replace apparatus driveways at station 2&3, replace dilapidated fencing at station 2, and make building repair to the modular building at station 1.

Uncommitted Balance as of 6/30/2009: \$59,114

FINANCE NOTES

Budget Transfer Detail: #8147 (\$24,358) FY 05-06 Funding for Tasman Gateway Feature maintenance access. RDA received \$100,000 settlement with WATCO to resolve complaint by city on CP 8089. Settlement will correct deficiencies by WATCO during the execution of their contract.

Grants: \$30,000 in CDBG funding appropriated July 5, 2005 and transferred to Interim Senior Center Re-roofing on October 4, 2005.

\$25,000 in RDA Tax Increment Funding was appropriated September 20, 2005 and transferred to the Interim Senior Center Re-roofing project October 4, 2005.

Mid-Year appropriation of \$14,000 from RDA Tax Increment 9/20/05. Mid-Year appropriation of \$60,000 from RDA Tax Increment 2/7/06.

2009-14 CAPITAL IMPROVEMENT PROGRAM**

Category	Project	Estimate Level
Storm Drain Improvement	8138 Berryessa Pump Station Improvements	1

CONTACT: Michael Boitnott [3415]

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

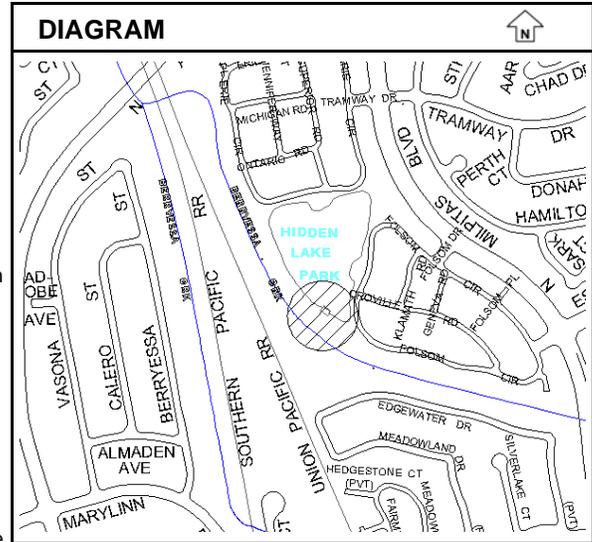

ANNUAL MAINTENANCE COST: \$0

DESCRIPTION

This project provides replacement of three diesel engines and engine and station controls and electrical systems at the Berryessa Storm Pump Station. The project will evaluate if the diesel engines should be replaced in kind or be replaced with more efficient and quieter submersible electric pumps and a backup generator. This project includes replacement of the existing 7.5 HP with a 50 HP jockey pump to efficiently pump low flows during dry weather with an electric variable speed jockey pump rather than the large pumps that are more costly to operate. Work also includes replacing the existing roof, painting the station, installation of flap-gates on creek discharge pipes and retrofitting of vent pipes per the Storm Drain Master Plan. The Berryessa Storm Pump Station is located at Hidden Lake Park and provides drainage for portions of the City bounded by Calaveras Blvd. (on the south), Wrigley Creek (on the west), Jacklin Rd. (on the north), and Hwy. 680 (on the east).

COMMENTS:

This pump station is 24 years old and has not been rebuilt or rehabilitated. The 3 engines have exceeded their design (or useful) life. Construction has been substantially completed with minor related work remaining.

Uncommitted Balance as of 6/30/2009: \$538,304

Category	Project	Estimate Level
Storm Drain Improvement	8140 Oakcreek Pump Station Improvement	1

CONTACT: Jeffery Leung [3326]

PRIORITY: Major Service Equipment Replacement

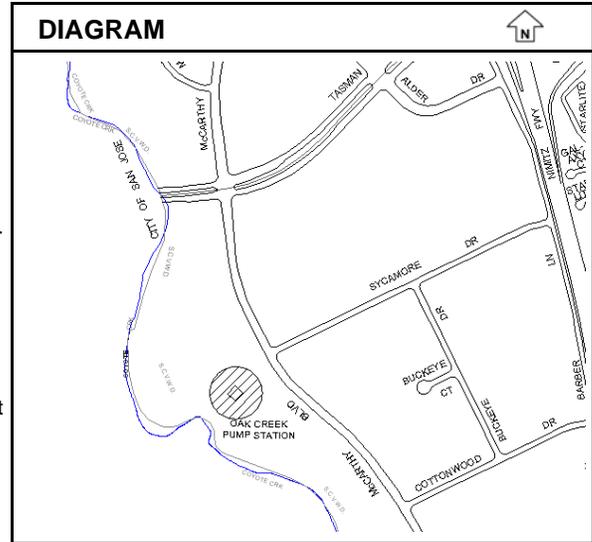

ANNUAL MAINTENANCE COST: \$0

DESCRIPTION

This project provides for the replacement of engine control panels and replacement of the existing diesel engines, at Oakcreek Pump Station per the Storm Drain Master Plan. The roof is also in need of replacement as well as other building structural items. The pump station is located near Sycamore Dr. and McCarthy Blvd. and provides drainage for the Oakcreek Industrial Park area.

COMMENTS:

This storm pump station pumps large volumes of storm water into Coyote Creek requiring three 400 horsepower diesel engines. Modifications to the wet well are needed to reduce the drag and wear on the pumps and engines.

Category	Project	Estimate Level
Streets	8155 Calaveras/Abel Dual Left Turn Lanes	1

CONTACT: Julie Waldron [3314]

PRIORITY: Projects Which Avoid Future Additional Costs

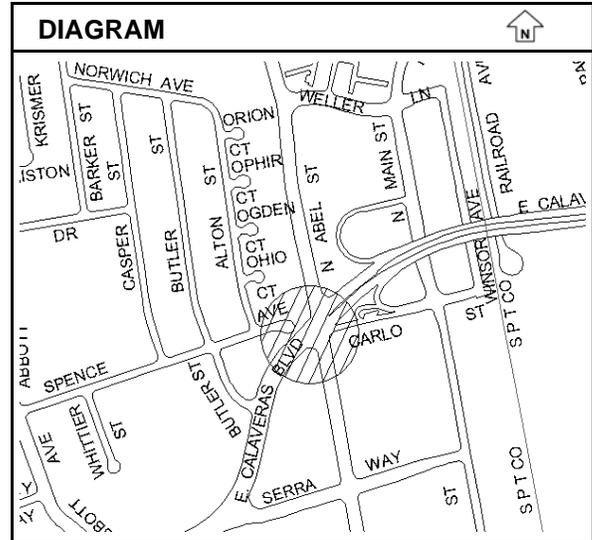

ANNUAL MAINTENANCE COST: \$2,000

DESCRIPTION

This project involves the addition of a second left turn lane from eastbound Calaveras Blvd. to northbound Abel for capacity improvements. A Midtown EIR amendment will reevaluate the traffic pattern changes, due to Carlo street off ramp proposal. This study may modify this project' workscope.

COMMENTS:

The cost estimates are very preliminary and might change. Project costs assumes no right-of-way acquisitions and minimal culvert and roadway improvements. If extensive right-of-way and improvements are necessary additional funding would be needed.

Uncommitted Balance as of 6/30/2009: \$244,439

Other sources of funding are 3-COM development fees collected by the City of San Jose and transferred to the City of Milpitas for intersection improvements within the City of Milpitas. The agreement with the City of San Jose approved by Council on 12/2/03 requires that the improvements be completed by 2008.

Developer Contributions: 3-Com via City of San Jose 173,500.

**City of Milpitas
2009-14 CAPITAL IMPROVEMENT PROGRAM**

Category	Project	Estimate Level
Streets	8157 Abel Street Midtown Improvements	1

CONTACT: Robert Wang [3327]

PRIORITY: Mandatory or Committed Projects

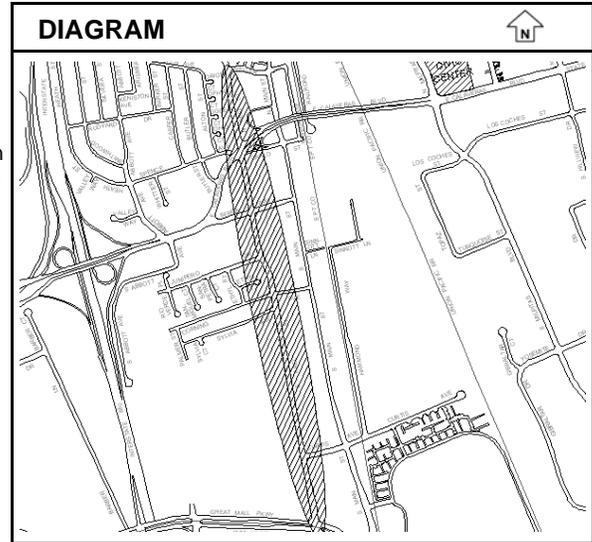

ANNUAL MAINTENANCE COST:

DESCRIPTION

This project provides for design of the street reconstruction and streetscape on Abel Street, in accordance with the Midtown Plan. The limits of the project are from Weller (at the North) to Great Mall Parkway (at the South). These improvements transform Abel Street into a boulevard setting, with landscaped median islands, and street furniture amenities. The work includes utility upgrades as required for the implementation of the Midtown Plan. KB will construct the improvements from Great Mall to Corning and the City will construct the improvements from Corning to Weller Lane.

COMMENTS:

KB Homes will develop the vacant parcels surrounding the Elmwood facility and adjoining Abel Street, with approximately 823 new residential units and 2 new parks. The developer is conditioned to provide their cost share of Abel Street improvements in accordance with the DDA and build that portion between Great Mall and Corning Avenue. An addition appropriation will be needed to fund the construction of the improvements, from Corning to Weller Avenue.

Uncommitted Balance as of 6/30/2009: \$130,177

**City of Milpitas
2009-14 CAPITAL IMPROVEMENT PROGRAM**

Category	Project	Estimate Level
Community Improvement	8160 Sports Center Large Gym Improvements	1

CONTACT: Jeffery Leung [3326] / Bonnie Greiner [3227]

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

ANNUAL MAINTENANCE COST:

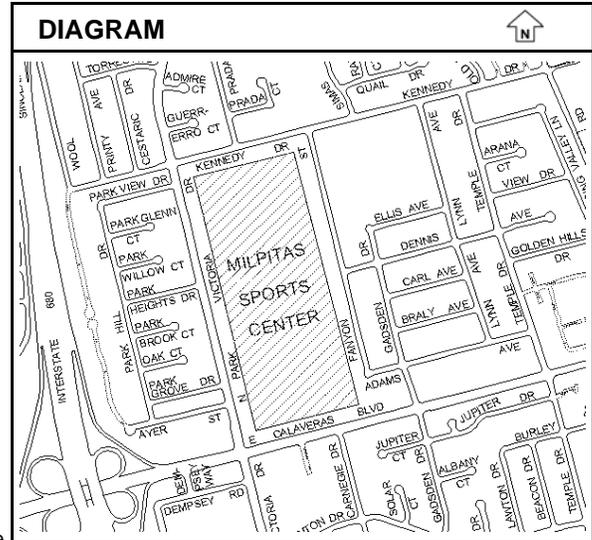

DESCRIPTION

This project provides improvements to the gym necessary for the health, safety, maintenance, and expansion of the Sports Center programming. This project includes replacing the gym floor and support structure, installation of new bleachers, replacement of basketball backboards, new lighting, painting, installation of air conditioning and related insulation, roof repairs, repair of sewer lateral, and safety padding on gym walls. Additionally this project will install an informational sign along Calaveras Blvd and alterations to the parking lot lighting.

COMMENTS:

This popular gym operates as the only City indoor gymnasium. Air conditioning and related improvements are needed for the comfort and safe use of the facility.

This project previously was pursuing a FEMA grant to seismically strengthen the building to meet FEMA's care and shelter facility requirements. Due to the recent natural disasters such as Katrina, FEMA is redirecting all funds toward their recovery and reconstruction efforts. Staff will pursue this grant in 2008.

Community Improvement	8162 Library Project	1

CONTACT: Steve Erickson [3414]

PRIORITY: Mandatory or Committed Projects

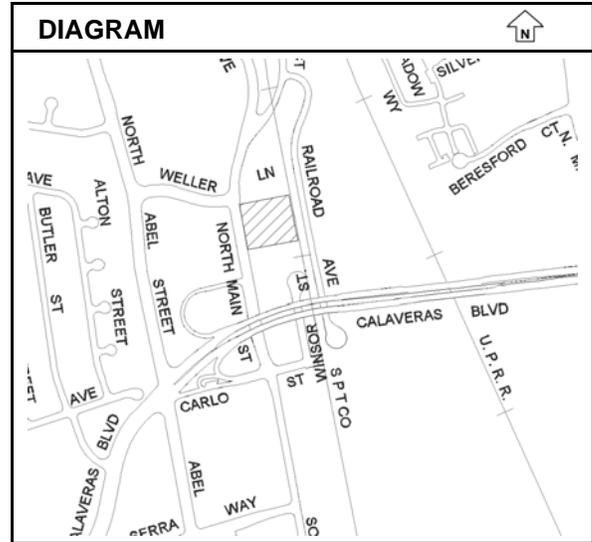

ANNUAL MAINTENANCE COST:

DESCRIPTION

This project provides the design and construction of the new library, in response to the Library Needs Assessment, previously approved by the City Council and following the Library Building Program approved by the City Council. The New Milpitas Public Library will be located at the historic Milpitas Grammar School at 160 North Main Street. The new library will be approximately 60,000 square feet and will incorporate and renovate the existing historic grammar school. The library will be a two-story facility, and will be designed with multi-functional spaces, and flexibility to adapt to technological and use changes.

COMMENTS:

The library project grand opening was successfully held on January 10, 2009. Work remaining includes: window shades, donor board, off-site storm drain improvements, other miscellaneous minor building improvements.

Uncommitted Balance as of 6/30/2009: \$2,159,053

Category	Project		Estimate Level
Streets	8164	Bart Extension Coordination and Planning	1

CONTACT: Julie Waldron [3314]

PRIORITY: Mandatory or Committed Projects

ANNUAL MAINTENANCE COST:

DESCRIPTION

The Bart extension from Fremont to San Jose will pass through Milpitas and include a BART station in Milpitas. This project includes the coordination and engineering analysis of utilities, Right of Way and other BART design impacts on the City's infrastructure.

COMMENTS:

Coordination with the VTA for the design of the future Bart Extension will require substantial resources from the City. Most of the work involves the review of proposals, plans, identifying infrastructure improvements and engineering analysis and development of alternatives to BART proposed improvements.

**City of Milpitas
2009-14 CAPITAL IMPROVEMENT PROGRAM**

Category	Project	Estimate Level
Streets	8165 N. Main St. Midtown Streetscape Improvements	1

CONTACT: Michael Boitnott [3415]

PRIORITY: Mandatory or Committed Projects

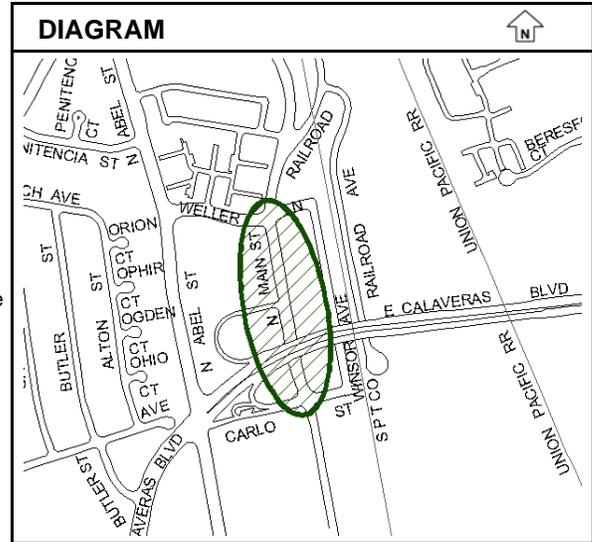

ANNUAL MAINTENANCE COST: \$75,000

DESCRIPTION

This project provides for street reconstruction and streetscape on Main Street from Weller Lane to Carlo St., in accordance with the Midtown Plan. This project transforms Main Street into a pedestrian friendly setting; with decorative lighting, street trees and other landscaping, use of traffic calming elements such as median landscape islands, narrowing the intersections, decorative crosswalks, sidewalk improvements, and street furniture. The first phase of construction improvements is from Weller Lane to 237 off ramp. The second phase is from the off ramp to Carlo Street and portions of Winsor near the new Milpitas Public Library/garage, in order to coordinate with the library improvements.

COMMENTS:

A construction budget will be developed after the design is complete. The scope of the construction will be adjusted to meet available funding. The Construction of phase 1 is underway and will be completed to meet the completion of the Senior Housing project. Phase 2 will be completed to meet the grand opening of the Library Project in 2008.

Uncommitted Balance as of 6/30/2009: \$787,110

Category	Project	Estimate Level
Community Improvement	8173 Public Works Security	1

CONTACT: Bill Marion [2701] / Eddie Loredo [2662]

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

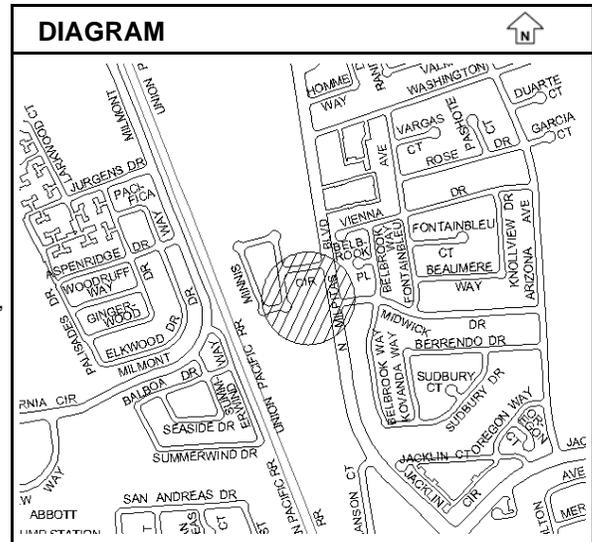

ANNUAL MAINTENANCE COST:

DESCRIPTION

This project replaces the Access Control system that is currently installed in the Police Department Building and the Public Works and Police Department's parking areas. The current system was installed when the Police/Public Works Building was built and is over 13 years old. The system has been upgraded one time to ensure that it would be Y2K compliant but still consists of the original security hardware. The computer controllers that manage the system are discontinued and no longer available. If one of these controller fail, the system will essentially no longer operate and could impact accessibility to both the Police Department interior doors and entry to the parking lots. This project will also add Access Control to the Public Works exterior doors and the City's Data Center. The upgraded system will be compatible with the Access Control system installed at City Hall thereby eliminating the need for two separate Card Keys for entry into the different buildings.

COMMENTS:

Work continues on the development of the specifications for a Request for Proposal (RFP) to perform the design work required for this project. Upon completion the design document, an additional RFP will be issued to perform the actual installation of equipment and programming of the Access Control System and Video Surveillance system.

Category	Project	Estimate Level
Community Improvement	8177 Transit Area Specific Plan	1

CONTACT: Felix Reliford [3071]

PRIORITY: Studies and Analyses

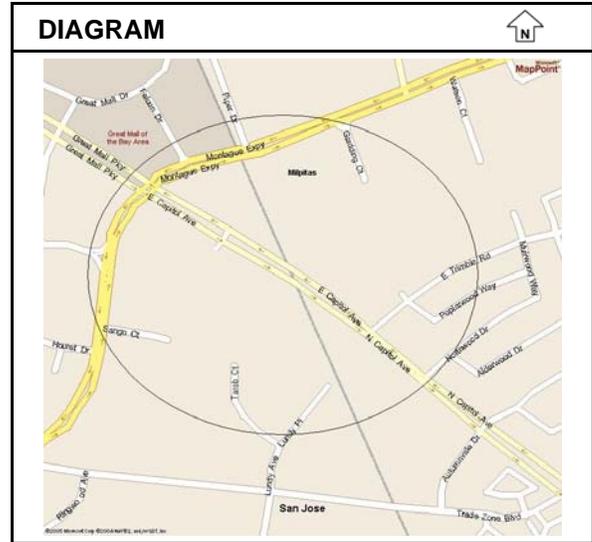

ANNUAL MAINTENANCE COST: \$0

DESCRIPTION

This project involves the preparation of a Transit-Oriented Development Study for the ±400-acre area around the existing light rail and future BART station at the Montague/Capitol intersection. The product will be the Transit Area Specific Plan that will regulate land use for the subject area.

COMMENTS:

Concept plans authorized by the City Council to be used as starting points in the planning process envision between 5,000 and 10,600 dwelling units, non-residential development ranging between 1.7 million square feet to 5.6 million square feet, mixed-use development, purchase of sufficient sewage treatment capacity, and infrastructure improvements to support the developments. After the Specific Plan is adopted, developers will pay their fair share of the costs of the preparation of the Specific Plan at the time they apply for any of the following permits: Amendment of the Specific Plan, a land use permit, Conditional Use Permit, construction, building, or similar permit, a variance, a tentative subdivision or parcel map, Site and Architectural Review, a Development Agreement, Rezoning, Building Permit or any other ministerial permit and any other approval granted by the Planning and Neighborhood Services Director, Planning Commission or City Council.

City of Milpitas
2009-14 CAPITAL IMPROVEMENT PROGRAM

Category	Project	Estimate Level
Community Improvement	8186 Public Art Renovations	1

CONTACT: Diana Whitecar (3059)

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

ANNUAL MAINTENANCE COST:

DESCRIPTION

Two existing public art installations, the Flute Player in the City Hall Plaza fountain and Legends of Milpitas in Murphy Park, have structural deficiencies that need to be corrected to ensure their structural integrity. The Flute Prayer will need to be raised so that the left foot is hanging above the water line, not cover by the water. The Legends of Milpitas totems were not treated with the correct adhesive allowing the underlying metal to rust and distort the visual image.

COMMENTS:

The construction efforts for both public art installations will be coordinated with the individual Artists, the Public Arts Committee and Arts Commission. These one time modifications will reduce annual maintenance required for the installations and will ensure a longer life for each art piece.

Uncommitted Balance as of 6/30/2009: \$8,652

Category	Project	Estimate Level
Streets	8193 Singley Area Phase 5	1

CONTACT: Joe Ezeokeke [3316]

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

ANNUAL MAINTENANCE COST:

DESCRIPTION

This project involves the replacement of existing curb and gutters, driveways, ramps, sidewalks, and asphalt pavement sections with the new facilities, installation of asphalt concrete overlay and deep lift, storm drain pipes, drainage inlets, and subsurface drainage system in various streets in the Singley Area.

A soils study of this area concluded that the highly expansive clay soils can develop upwards of 7,000 pounds of uplifting pressure, resulting in damage to sidewalks, curbs and pavement, and creating uneven roadway surfaces.

COMMENTS:

Phases 1 to 4 of this project have been completed. Phase 5 includes all the areas that were not part of the original Singley Area Study, but were identified during the construction of previous phases.

Uncommitted Balance as of 6/30/2009: \$692

City of Milpitas
2009-14 CAPITAL IMPROVEMENT PROGRAM

Category	Project	Estimate Level
Streets	8194 Street Resurfacing Project 2009	1

CONTACT: Jimmy Nguyen [3318]

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

ANNUAL MAINTENANCE COST: \$0

DESCRIPTION

This project provides for the street pavement resurfacing in 2009. The program includes a variety of pavement treatments from slurry seal to major rehabilitation /reconstruction. Streets to be selected for improvements are determined from the City's Pavement Management System. This project also includes \$200,000 to Public Works maintenance for emergency road repairs.

COMMENTS:

There are over 122 miles of streets that are owned and maintained by the City of Milpitas. Approximately 29 miles of streets (almost 30% of the City total) were built 30 years ago, and have not been resurfaced in the last ten years. These improvements include an increase of the pavement structural section, in order to strengthen the pavement sections due to increases in current and projected traffic.

Uncommitted Balance as of 6/30/2009: \$1,661,702

FINANCE NOTES

Prop 1B Grant totals \$2M. City received \$1,070,700.96 which has been allocated into CIP 4242, 2nd grant payment of \$989,623 is expected in 2008/09, and will be programmed in Street Resurfacing Project 2010. (Appropriation of \$1.0 million - Dec 16, 2008 Street Fund CCO for Singley). Council 6/16/09 - Budget appropriation - Economic Stimulus Program \$1,136,000.

**City of Milpitas
2009-14 CAPITAL IMPROVEMENT PROGRAM**

Category	Project	Estimate Level
Streets	8195 Carlo Street Ramp Project	1

CONTACT: Jaime Rodriguez [3335]

PRIORITY: Improve the Quality of Life

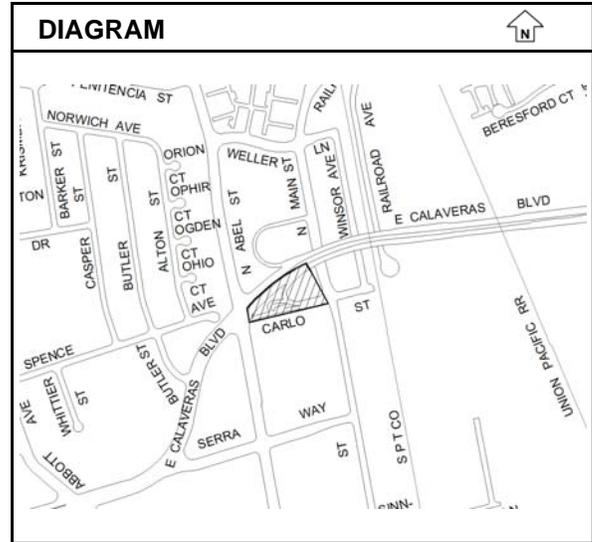

ANNUAL MAINTENANCE COST:

DESCRIPTION

This project provides for the conversion of the existing Carlo Street On-ramp to Eastbound Calaveras Boulevard (SR237) off-ramp at Carlo Street. The project is located immediately east of the Abel Street & Calaveras Boulevard intersection. The new off-ramp will provide direct access to the Midtown District from Calaveras Boulevard.

COMMENTS:

This project was environmentally cleared through the Midtown Supplemental Environmental Impact Report certified by Council on October 7, 2008. The design phase for the project was completed as part of the Calaveras Boulevard Project Study Report (PSR), a separate project jointly funded between the City of Milpitas and the Valley Transportation Authority (VTA)..

Uncommitted Balance as of 6/30/2009: \$1,494,220

ESTIMATED COST	Prior Year	2009-10	2010-11	2011-12	2012-13	2013-14	Total

FINANCE NOTES

This project will be funded through the Redevelopment Agency Program using funds saved from the N Main St Streetscape.

New Project Approved by Council on 11/4/08.

APPENDIX A

ESTIMATE LEVEL DESCRIPTIONS

The following are detailed descriptions for each of the three estimate levels used in this document:

Estimate Level 1 – Conceptual Estimate

This level of estimating is the least accurate and is used when the conceptual idea or plan has been prepared without precise details. Examples of such would be freeway interchanges prior to completion of any plans (and estimates based thereon), projects where final location is unknown and right-of-way or land costs are involved.

Estimate Level 2 – Detailed Estimate

This level of estimating is based on an approved design plan or conceptual plan which has some level of assurance that the items contained within are complete and acceptable to the approving agency. Examples of this category are most street projects where City staff has prepared estimates based on typical street structural and geometric details, using experienced bid prices. Other examples are water or sewer lines that have been proposed and identified with estimates in consultant reports.

Estimate Level 3 – Design Estimate

This is the highest level of estimating and is based on a completed set of design drawings and specifications that are ready for bidding. This level is what could also be called the bid or engineer's estimate.

COP's	Certificates of Participation
TPF	Treatment Plant Fee
UPS	Uninterrupted Power Supply
Y2K	Year 2000 Compliant

APPENDIX C

PRIORITIZATION DESCRIPTIONS

In order to assist in the review of the various projects, all CIP projects are prioritized using the following categories (listed in priority order):

1. **Mandatory or Committed Projects**

Mandatory projects are those which the City is legally required to undertake. These include Federal or State mandated activities such as access modifications to public facilities to meet Americans with Disabilities Act requirements, Clean Water Act, etc. Committed projects are those that the City has contracted or partially completed. This can also include projects that have received grants with time restrictions. A funded project that has not yet started, does not necessarily mean that the project is “committed”, since the project is still subject to review. If this project is no longer necessary, it can be delayed or deleted and defunded.

2. **Health and Safety Projects**

Health and Safety projects are those infrastructure improvements needed for health and/or safety reasons. Examples include such projects as sidewalk repair work, installation of traffic signals and signs, modification of park playground equipment to eliminate a hazardous situation and additional lighting in public areas, etc.

3. **Rehabilitation of Existing Capital Assets or Systems**

These are projects that are required to maintain the City’s investment in infrastructure and capital equipment. This includes projects ranging from street resurfacing/reconstruction, to bridge maintenance, water, sewer improvements, facilities rehabilitation, etc.

4. **Major Service Equipment Replacement**

These are projects involving the replacement of equipment required in the operations of the City services. This would include pumps at storm drainage pump stations, MSC swimming pool pumps and motor replacements.

5. **Projects which Avoid Future Additional Costs**

This includes those projects which assists the City in reducing and/or eliminating future operating or capital costs. This would include acquisition of image processing equipment for document control, computer networking, replacing existing high maintenance landscaping with drought resistant and low maintenance plantings, automation of maintenance or data gathering activities, etc.

6. **Studies and Analyses**

This category is for projects that allow the City to examine new approaches for improvements to service delivery, cost savings, capital improvement projects and/or ways to enhance the financial stability of the City. Examples include the Calaveras Plan Line Study and San Jose Parallel Forcemain Study.

7. **Enhance Economic Development**

This category is for those projects that will attract new businesses or retain existing. Examples include the installation of utilities for future development and fiber optics installation for telecommunications.

8. **Improve the Quality of Life**

These are projects that allow the City to enhance the City’s quality of life, such as landscaping projects, new Sports Center improvements, etc.

APPENDIX D
Previously Funded Projects to be closed as of June 30, 2009

Community Improvement Projects

3398	On-line Development System
8083	Public Works Yard Parking Lot Expansion
8093	Telecommunications Infrastructure
8131	Information Management
8153	N. Main Street Utility Improvements
8160	Sports Center Large Gym Improvements
8173	Public Works Security
8177	Transit Area Specific Plan
8183	Corporation Yard Canopies
8185	Midtown EIR Amendment
8186	Public Art Renovations
8189	Library Art

Parks Projects

5064	Ball Park Fence Field Extension
5074	Berryessa Creek Trail, Reach 3
5082	Park Renovation Project 2007

Streets Projects

4109	Street Light and Signal Pole Painting
4158	Utility Undergrounding
4235	Sidewalk Replacement 2007
4236	Street Resurfacing Project 2008
4237	Traffic Management Enhancement 2007
4238	Traffic Signal Modifications 2007
4240	Clean & Safe Streets
4242	Street Resurfacing Project 2008
4244	Bicycle Master Plan Update
8157	Abel street Midtown Improvements
8168	Curtis Ave Improvements
8187	Carlo St. & Calaveras Blvd Ramp Conversion Study
8193	Singley Area Phase 5

Water Projects

7084	Los Coches Water Valve Replacement
7106	SCVWD Water Supply Turnout

Sewer Projects

6105	Minor Sewer Projects 2007
------	---------------------------

Storm Drain Projects

3371	Minor Storm Drain Projects
4224	Abbot Avenue Storm Drain Improvements
8106	Storm Water Pump Station Improvement
8138	Berryessa Pump Station
8140	Oakcreek Pump Station Improvement

Previously Funded Projects to be closed as of September 30, 2009

Sewer Projects

6101	Venus Pump Station
------	--------------------

Previously Funded Projects to be closed as of October 30, 2009

6103	Main Sewage Pump Station Improvements
------	---------------------------------------

Previously Funded Projects to be closed as of December 31, 2009

Streets Projects

4133	Tasman Extension – Great Mall Parkway to I-880
------	--
