DATE: August 12, 2014
TO: PROSPECTIVE STRUCTURAL DESIGN CONSULTANTS
SUBJECT: REQUEST FOR PROPOSALS (RFP) FOR ON-CALL LICENSED
STRUCTURAL ENGINEER SERVICES & SOUND WALL DESIGN

Dear Prospective Consultant:

We are seeking the professional services of qualified licensed Structural Engineers for on-call inspection and analysis, design services, preparation of construction plans and specifications, construction support services, and other services related to the completion of the City of Milpitas Capital Improvement Program.

Services could include, depending upon available funding, the related inspection and analysis of City owned structures or construction projects; minor on-call design services for miscellaneous building improvement and repair projects; and the design and preparation of construction drawings and specifications for the removal and replacement of precast concrete sound walls.

The City intends to select the most qualified consultant(s) for one or more projects listed in attachment "A" and possibly other projects as identified in the approved 2014-2019 Capital Improvement Program. The selected consultants would create conceptual designs, preliminary cost estimates and construction schedules, and final design, cost estimates, and construction schedules including the required engineered drawings and specifications for the public bid of the project(s). Consultant(s) will be considered to be "on-call" for a period of up to 36 months, or as otherwise established by the City for use in the completion of projects as may be determined by the City. The City may use a ranked list of consulting firms based on their performance in the RFP proposal and interview process.

The time period and potential future contracting opportunities for selected consulting firms are contingent upon acceptable ongoing performance by the consultant. Each project assignment will be performed on a "Task Order" basis. Each Task Order will be negotiated and have a budget and specific scope of work (sample work scope is shown in Attachment B).

PROPOSAL SUBMISSION REQUIREMENTS:

To be considered as responsive to this RFP, Consultant's proposals shall specifically address the information described, shall include the requested information, and shall meet the minimum requirements specified.

The proposal shall be bound with tabs identifying each section. Five complete copies of the proposal must be furnished. Failure to comply with these requirements may be cause for a firm's proposal to be considered non-responsive and rejected.

The body of the proposal (sections 1 through 4) shall not exceed 16 pages. References from other public agencies for similar work and resumes for the proposed project team and any sub-consultants shall be provided in the appendix (Section 5).

The City's standard consulting services agreement is provided (Attachment "E") for review by prospective consulting firms. Consultants shall submit any requested minor changes to this standard agreement in section 5 of their proposal. However, the City is not interested, and will not entertain extensive or material changes to the agreement document. The City is only interested in consulting firms that can execute the standard agreement without changes or reductions to the legal requirements of the agreement.

The standard professional liability insurance requirement required by consulting firms is \$2,000,000. However, depending on the project, the City may require consultants provide an additional \$2,000,000 in coverage for a total of \$4,000,000. Consultants shall include in section 5 of their proposal the cost to provide the additional \$2,000,000 in professional liability coverage.

Consultants shall acknowledge in the proposal the project manager to be used for each project. As a condition of a potential contracting opportunity, the City will require that project managers specified in the proposal are actually used, and no changes to the project team may be made without approval by the City.

SECTION 1: Project Team - Provide names and qualifications of key personnel to be used for the specified projects, and their capacity or role, including applicable descriptions and dates of similar work these persons have been directly involved with. Include specifics about the duties performed. Provide names and qualifications of any sub-consultants, including the capacity and where they will be utilized. Provide an organization chart for your project team.

SECTION 2: Project Understanding and Approach - Describe your understanding of projects listed on Attachment "A". Describe your proposed approach to complete each of these projects. Based on your experience, discuss your understanding of any potential problems that may be encountered with regard to the successful completion of any of the listed projects and how your firm would assist in solving these potential problems.

SECTION 3: Preliminary Cost & Schedule - Provide a basic construction cost *assumption* and an estimate of the time required for the design and construction to complete **Project No. 4267 Sound Wall Renovation** as described on Attachment "A". Base your assumption information contained in this RFP. Outside research is not necessary. The cost and schedule *assumptions* provided will be used for RFP evaluation purposes only.

SECTION 4: Project Management - Describe your firm's project management, cost control, and quality control system, which you propose to use for your project team and sub-consultants

SECTION 5: Appendix - Provide resumes of the proposed project team members and any sub-consultants; references from other agencies for similar work performed; any requested minor changes to the City's standard consulting services agreement; the cost for an additional \$2,000,000 in professional liability insurance coverage; and of underground utilities improvement plans and specifications. Please limit the examples of past work to no more than 4 reduced plan sheets and 10 pages of technical specifications.

ELIGIBILITY REQUIREMENTS:

- Once contacted for a contracting opportunity, each consultant must formally comply with the following eligibility requirements:
- The Project Manager's or a designee's work location must be within an hour's travel time of the City Engineer's office; and
- The consultants' key personnel identified in the proposal, must be available for the project; and
- Consultant shall be capable of producing construction drawings in AutoCAD version 2013 or higher format and preparing or converting specifications to Windows Microsoft Word version 2003; and
- Consultant must perform a minimum of 51% of the dollar value of the design contract.
- Licensed Structural Engineer within the State of California.

SELECTION PROCESS:

The City will review and rank the proposals, using the evaluation form in Attachment "C". A Consultant Review Board will invite the firms determined to be the most qualified for meeting the City's project needs for an interview.

It is the City's intention to convene the Review Board for interviews in **September, 2014**. The interview will consist of five to ten questions relating to specific elements (or technical areas) of any project listed in Attachment "A".

No formal presentations of the firms' history or personal experience of proposed project members will be allowed, since the Board has already considered this in the submitted written proposals.

A consultant's final placement on the ranking list will be based on favorable evaluation of submitted proposals, the interview process, and satisfactory reference checks. It is anticipated that negotiation of the agreement for consulting services with the highest qualified consultant(s) will follow.

A list of City support to the Consultant is shown on Attachment "D". A sample copy of a standard City agreement is included in Attachment "E".

In order to be considered, all information requested must be submitted by **5:00 pm** on **August 29, 2014** at the Public Service Counter, Milpitas City Hall.

If you have any questions or desire additional information, please contact Steve Erickson at (408) 586-3301. Thank you for your interest.

Sincerely

Steve Erickson, PE

PROJECT	TOTAL BUDGET AVAILABLE(a)
1 Project 3407 Midtown Parking Garage (Fire shutter conversion)	\$80,000
2 Project 4267 Sound wall Renovation	\$375,000
3 On-call Structural Engineering support (TBD)	TBD

Notes:

(a)- Total Budget includes design, construction, management, and construction including in-house staff costs.

Project Descriptions:

- 1) Project 3407 Midtown Parking Garage (Fire shutter conversion):
The City library/parking garage was completed in 2009. The structure has five fire shutter doors that use a manual crank to operate. It is desired that these systems be redesigned for motorized operation. It is anticipated that two of the doors will require minor modification to the library building and or post tensioned parking garage structure to complete the door conversions.

- 2) Project 4267 Sound wall Renovation:
The City owns various concrete sound walls adjacent to subdivisions around the City that were originally installed by subdivision developers. These walls are over 40 years old, and are starting to exhibit bowing, crumbling and cracking of the concrete, and exposed reinforcement. The City would like to remove and replace those panels and columns that are beyond saving with patching and paint. It is estimated that approximately 20 panels that are approximately 8-feet high and the corresponding columns will need to be replaced. The project would remove and replace the walls to match the existing. Since these walls are the side and rear yard fences for homes, temporary fencing and security will need to be provided during the installation.

Community Improvement	3407 Midtown Parking Garage	1

CONTACT: Steve Erickson [3301]

PRIORITY: Mandatory or Committed Projects

DESCRIPTION

The new Midtown East Parking Garage will consist of a four story structure that will serve the new Library and other Midtown uses. It will be located on Main Street, South and East of the new library. The East Parking Garage will have sufficient space for approximately 280 parking spaces. Special features of the parking garage include: a public display area for the City's restored antique fire truck; attractive vehicle entries/exits; pedestrian entries, including direct entry into the new library; elevators and stairs. The library garage grand opening was successfully held on January 10, 2009.

COMMENTS:

Work remaining is the conversion of the existing manual hand crank roll-up doors within the new library and parking garage to a motorized unit, and for the relocation of the fusible link to a location near the new motorized controls for easier access and safer operation, when being reset. Currently, if the fire alarms are actuated during annual testing or other reasons the fire doors close creating a "firewall". The manual hand cranks are located above the ceiling at two locations requiring ladder access.

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

DESCRIPTION

This project renovates the City owned sound walls along N. Milpitas Boulevard, Escuela Parkway, Jacklin Road at Horcajo, La Palma, Hillview Drive at Tularcitos Creek, Nicklaus at N. Park Victoria and other locations. Portions of the walls have deteriorated and will need to be structurally repaired or completely replaced. During the period covered by this Agreement, only upon the prior express written authorization of the City, Consultant may increase such deductibles or self-insured retentions with respect to City, its officers, employees, agents, contractors, consultants, and volunteers. The City may condition approval of an increase in deductible or self-insured retention levels with a requirement that Consultant procure a bond, guaranteeing payment of losses and related investigations, claim administration, and defense expenses that is satisfactory in all respects to the City.

- 4.4.5 **Notice of Reduction in Coverage.** In the event that any coverage required by this section is reduced, limited, or materially affected in any other manner, Consultant shall provide written notice to City at Consultant's earliest possible opportunity and in no case later than five days after Consultant is notified of the change in coverage.
