

PLAN

**Notes:**

1. The entrance shall be maintained in a condition that will prevent tracking or flowing of sediment onto public right-of-ways or private streets. This may require top dressing, repair and/or cleanout of any measures used to trap sediment.
2. When necessary, wheels shall be cleaned prior to entrance onto public right-of-way or private streets.
3. When washing is required, it shall be done on an area stabilized with crushed stone that drains into an approved sediment trap or sediment basin.
4. Use sandbags, straw bales or other approved methods to channelize runoff to basin as required.

NOT TO SCALE
