Category	Project	Estimate Level
Community Improvement	3403 Fire Station Improvements	1

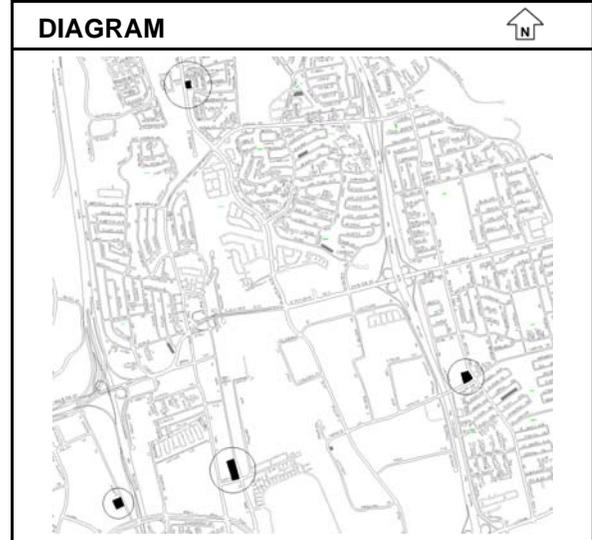

CONTACT: Steve Erickson [3301]

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

DESCRIPTION

This project provides various improvements at all four fire stations. The work involves renovation and/or replacement of electrical and mechanical systems, plumbing renovation, parking lots, emergency power generator systems, interior and exterior paintings, replacement of floor coverings, restroom and shower facilities, kitchen improvements, re-roofing and other building and site related improvements. Work will also include energy savings improvements. All work will be performed on a priority basis.

2012-17 CAPITAL IMPROVEMENT PROGRAM**

Category	Project	Estimate Level
Community Improvement	3406 City Facilities Improvements	1

CONTACT: Michael Boitnott [3315]

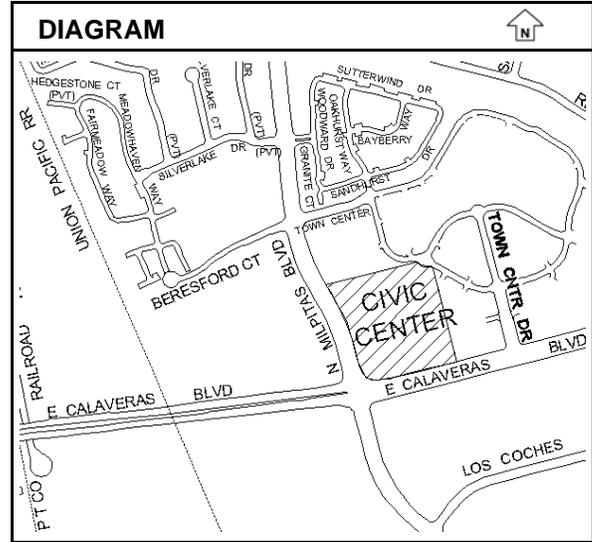

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

DESCRIPTION

This project involves renovation and rehabilitation improvements at all City buildings including Public Works/Police, Community Center, City Hall, and Sports Center. The work involves replacement of electrical and mechanical systems at the Community Center, water heater/co-generator and pool equipment renovations at the Sports Center, electrical upgrades, including an emergency generator at the Sports Center. PW/PD and City Hall retrofit work, interior and exterior painting, carpeting and other related improvements. Work will also include energy savings improvements, such as replacement of lighting fixtures with energy saving fixtures, and installation of a more efficient climate controls systems.

COMMENTS:

Projects will be implemented based on a prioritized building renovation list, to assure a high level of service to the community and to maximize the life of the City Facilities.

Category	Project	Estimate Level
Community Improvement	New 2014 Finance System Upgrade	1

CONTACT: Jane Corpus [3125]

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

DESCRIPTION

This project provides upgrades to keep our Financial system up to date. It is essential that the system be current in order to utilize technology efficiently and effectively. This major system includes General Ledger, Accounts Payable, Cash Collection, Payroll/Human Resources, Job Costing and Purchase Order. In addition, the Finance system also manages Budget Preparation, Business License, Investment Software and Fixed Asset systems.

COMMENTS:

The proposed funding is for the system required upgrades, equipment and staff training.

Community Improvement	New MSC Master Plan Update	1

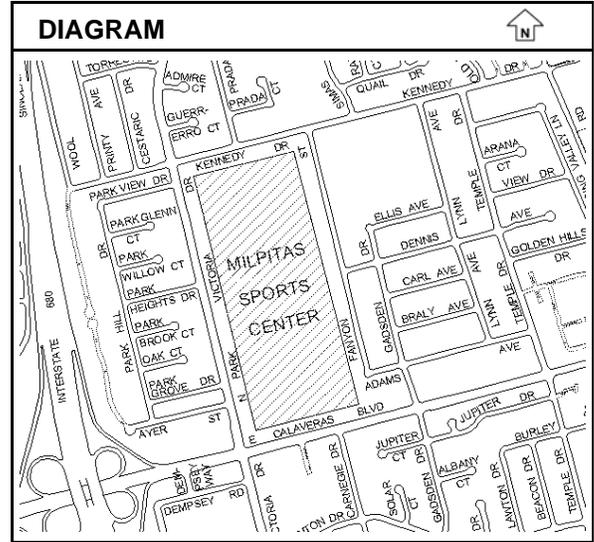

CONTACT: Greg Armendariz [3317]

PRIORITY: Improve the Quality of Life

DESCRIPTION

The Milpitas Sports Center (MSC) Master Plan Update will focus in revising several elements of the existing Master Plan, due to physical changes implemented since the completion of the current Master Plan. The Master Plan update will also look at the MSC building programming and recommend improvements to support the indoor sports and fitness programs. Lastly, the Master Plan update will also include a vehicular, bicycle, and pedestrian circulation element.

**City of Milpitas
2012-17 CAPITAL IMPROVEMENT PROGRAM**

Category	Project	Estimate Level
Park Improvement	5092 Main Street Park	1

CONTACT: Steve Erickson [3301]

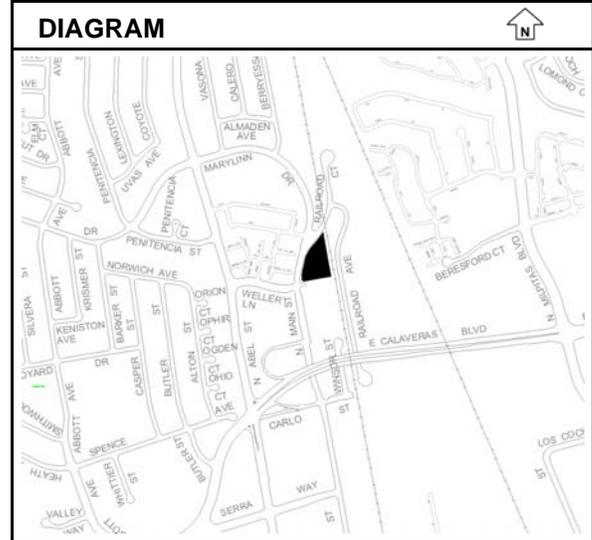

PRIORITY: Improve the Quality of Life

DESCRIPTION

This project provides for the design and construction of a new park on the City owned parcel just north of the Milpitas Library. Improvements will include a large gathering area to accommodate Park's activities such as "Music in the Park", shade structures, landscaping, drainage, hardscape and walkways. This project will also include street modifications to the intersection of Railroad Ave. and Main St., removing the pork-chop island and reconfiguring the south and east curb lines of Main St. and Railroad Ave. Pedestrian improvements to the library parking garage also included.

COMMENTS:

An optional historic museum could be added to the park for an additional \$1 to \$2 million.

Uncommitted Balance as of 1/31/2012: \$350,000

Category	Project		Estimate Level
Park Improvement	New	Berryessa Creek Trail, Reach 4, 5, 6A	1

CONTACT: Greg Armendariz [3317]

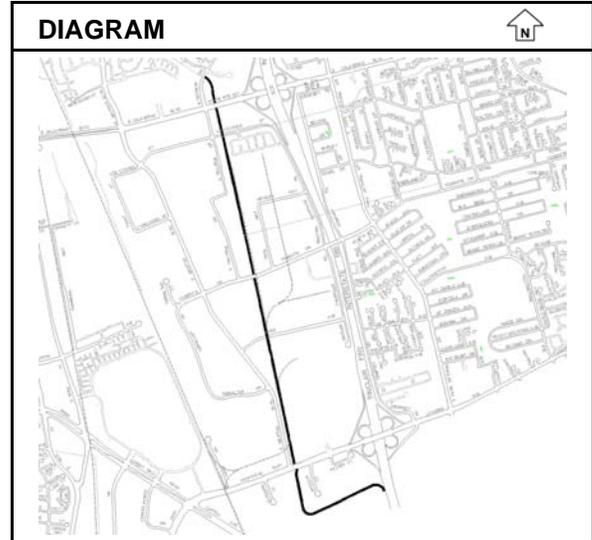

PRIORITY: Improve the Quality of Life

DESCRIPTION

This project provides for the design and construction of Reach 4,5 and 6A of the Berryessa Creek Trail from Calaveras Blvd to San Jose City limits South of Montague Expressway. The scope of work includes trail paving, trail accessibility improvements, intersection modifications at Yosemite/S. Hillview, Ames Ave./S. Milpitas Blvd., and Gibraltar Ave/S. Milpitas Boulevard, and S. Milpitas/Montague, plantings and trail amenities. The project will coordinated with the proposed US Army Corp of Engineers and SCVWD creek flood improvements project. It is also identified in the VTP 2040 Plan, as it provides a direct pedestrian/bicycle connection from the Town Center to the future BART station.

COMMENTS:

This project is identified and described further in the "Berryessa Creek Trail and Coyote Creek Trail Feasibility Report".

Uncommitted Balance as of 1/31/2012: \$0

Park Improvement	New	Park Renovation Project 2013	1

CONTACT: Michael Boitnott [3315]

PRIORITY: Health and Safety Projects

DESCRIPTION

This project provides for safety and accessibility (ADA) improvements in accordance with the Park Master Plan. Renovations can include replacement of playground equipment, drinking fountains, regarding and reconstructing walkways and other park improvements, for safety and accessibility.

COMMENTS:

This project will also replace the tennis practice wall at Robert E. Browne Park.

Park Improvement	New Pinewood Park Picnic Renovation	1

CONTACT: Michael Boitnott [3315]

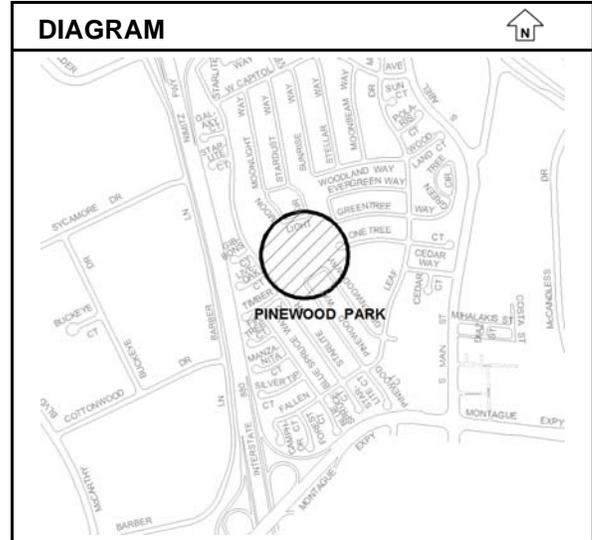

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

DESCRIPTION

This project provides for the design and construction of renovation improvements for various park elements at Pinewood Park. These include the large picnic area and perimeter landscaping, ADA compliance assessment and improvements, drainage, lighting, walkways, irrigation, and related improvements.

COMMENTS:

Pinewood Park is one of the City's oldest and heavily used parks and is in need of major renovation work.

**City of Milpitas
2012-17 CAPITAL IMPROVEMENT PROGRAM**

Category	Project	Estimate Level
Streets	4266 Street Light Improvements	1

CONTACT: Steve Chan [3324]

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

DESCRIPTION

This project will provide for various improvements to renovate and replace some of this aging infrastructure, including replacement of street ballasts/lamps, steel light poles, replacement of electrical wiring systems, modification of foundations, and other related improvements. Work will be performed based on a prioritized database inventory. Scope will also include a pilot program to convert a number of existing street lights to energy efficient Light Emitting Diode (LED) lamps and control systems.

COMMENTS:

This project could be eligible for a \$1mil. PG&E matching program

Uncommitted Balance as of 1/31/2012: \$32,729

Category	Project	Estimate Level
Streets	4267 Soundwall Renovations	1

CONTACT: Steve Erickson [3301] / Julie Waldron [3314]

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

DESCRIPTION

This project renovates the City owned sound walls along N. Milpitas Boulevard, Escuela Parkway, Jacklin Road at Horcajo, La Palma, Hillview Drive at Tularcitos Creek, Nicklaus at N. Park Victoria and other locations. Portions of the walls have deteriorated and will need to be structurally repaired or completely replaced. In some locations, the ground elevation on the residence side is much higher than on the public street side. The soundwalls were not designed as retaining walls, so they require structural retrofit work or replacement.

COMMENTS:

**City of Milpitas
2012-17 CAPITAL IMPROVEMENT PROGRAM**

Category	Project		Estimate Level
Streets	New	Bicycle Facility Improvements - Phase 1	1

CONTACT: Janice Spuller (3291)

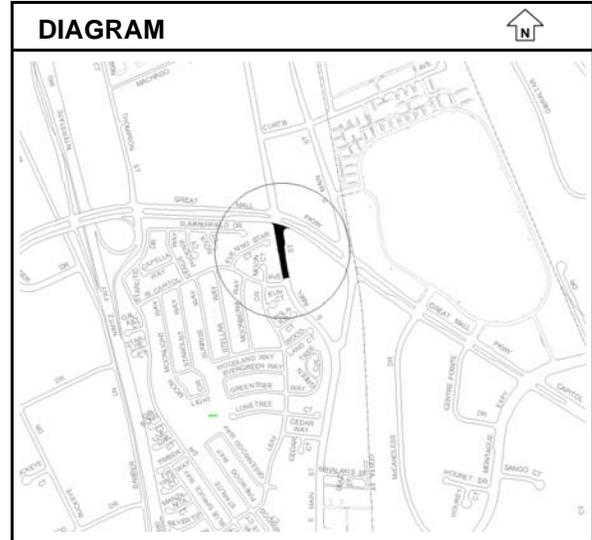

PRIORITY: Improve the Quality of Life

DESCRIPTION

The project provides for bicycle facility improvements throughout the City as described in the City of Milpitas Bikeway Master Plan Update, adopted June 2009. The program will include 5 projects: 1) S. Abel Street, Arterial Connection, Class II Facility, 2) Arizona Avenue Neighborhood Connection, Class III Facility, 3) Calaveras Boulevard, Route Arterial Connection, Class III Facility, 4) Temple Drive, Neighborhood Connection, Class III Facility 5), Sequoia Drive Neighborhood Connection, Class III Facility

COMMENTS:

Projects in the Bikeway Master Plan Update are prioritized and ranked in 3 Tiers , with Tier 1 being implemented within 1-5 years. The projects listed are the highest ranked and prioritized projects in Tier 1. The purpose of the Arterial and Neighborhood Connections are to fill in gaps and connect existing bike facilities with new facilities, providing a cohesive City bicycle network.

Category	Project		Estimate Level
Streets	New	Milpitas Boulevard Plan Line Study	1

CONTACT: Steve Erickson [3301]

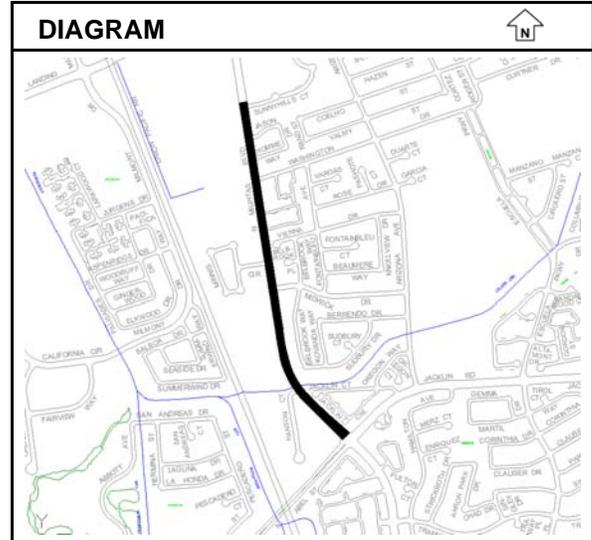

PRIORITY: Studies and Analyses

DESCRIPTION

This project provides for the preparation of a Plan Line Study to evaluate the feasibility of installing landscaped median islands on N. Milpitas Blvd between Jacklin and Sunnyhills Ct. Raised medians can provide improvements to traffic safety and provide an opportunity for street beautification. This study will also evaluate the feasibility of installing other street amenities such as street lighting, access control, pedestrian and bicycle improvements.

COMMENTS:

Plan Line Study will include an extensive community outreach plan, and will recommend a funding plan for the improvements.

Streets	New	S. Milpitas Blvd Bike/Ped. Improvements	1

CONTACT: Steve Chan [3324]

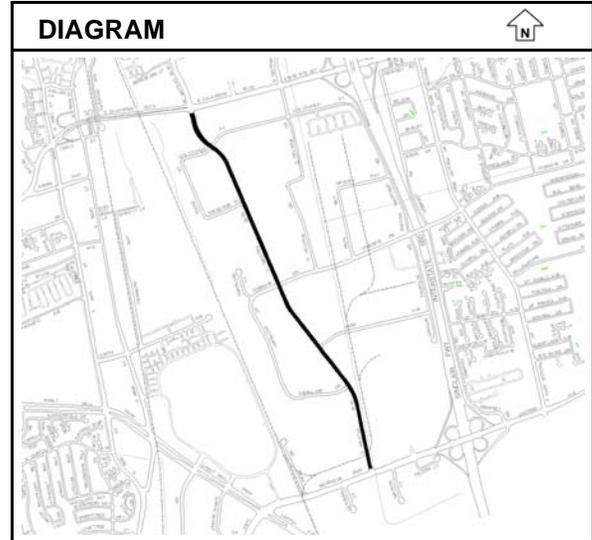

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

DESCRIPTION

This project provides a Plan Line Study to evaluate opportunities and constraints to install Class I bicycle lanes on either side of Milpitas Blvd. and to provide improved sidewalk facilities on South Milpitas Blvd. between Calaveras Blvd. and Montague Expressway. Roadway modifications will also be required to accommodate these enhanced facilities. The Plan Line Study will also identify additional right of way required for these improvements.

COMMENTS:

This project has been added to the VTP 2040 Plan for State Regional Grant Funding.

Category	Project	Estimate Level
Streets	New Sidewalk Replacement 2015	1

CONTACT: Steve Chan [3324]

PRIORITY: Health and Safety Projects

DESCRIPTION

This project involves citywide replacement of existing curb, gutter and sidewalk. The project also involves street tree root cutting to prevent further damage to sidewalks. The workscope also includes installation of ADA ramps. An annual visual inspection is conducted to determine and establish a priority list of candidate sites for replacement. Sections of sidewalk with vertical separation of 3/4" or more are completely removed and replaced. At locations where a vertical separation less than 3/4" exists, a concrete grinding method is used to eliminate trip hazards.

This project provides for a variety of pavement resurfacing treatments, from slurry seal to major rehabilitation and reconstruction. Streets are selected for improvements based on the City's Pavement Management System.

COMMENTS:

There are over 123 centerline miles of streets that are owned and maintained by the City of Milpitas. An annual funding of \$4.5 million is required to maintain the city wide pavement condition index at 68.

2012-17 CAPITAL IMPROVEMENT PROGRAM**

Category	Project		Estimate Level
Streets	New	Traffic Management Enhancements 2013	1

CONTACT: Steve Chan [3324]

PRIORITY: Improve the Quality of Life

DESCRIPTION

This project provides for the upgrade and deployment of traffic management equipment used to monitor and control the City's roadway network. Typical improvements include the deployment of traffic signal control equipment and upgrades to the traffic operations center's video monitoring equipment.

COMMENTS:

This project also provides resources to pursue grant funding sources to augment the traffic management projects.

Category	Project	Estimate Level
Streets	New Traffic Signal Installation	1

CONTACT: Steve Chan [3324]

PRIORITY: Improve the Quality of Life

DESCRIPTION

This project provides for the design and construction of a traffic signal system installation at a yet to be determined intersection. The following three intersections are being monitored for traffic signal warrants: Milpitas Blvd & Tramway Dr., S. Park Victoria Dr. & Mt. Shasta Ave., and McCarthy Blvd. & SanDisk Dr.

COMMENTS:

The State's traffic signal warrant criteria is used to determine the warrants for signaling an intersection.
If S. Park Victoria Dr. & Mt Shasta Ave. are selected, funding source would be "Street Fund", instead of "RDA"

Streets	New	Utility Undergrounding 2014	1

CONTACT: Greg Armendariz [3317]

PRIORITY: Improve the Quality of Life

DESCRIPTION

This project provides preliminary engineering and City administration for the undergrounding of existing overhead electric telephone and CATV facilities at various locations City-wide. Construction is funded by the PG&E Rule 20A Program and other utilities (Approximately \$2.9 million is available as of 2010.)

Category	Project		Estimate Level
Water	2002	Second SCVWD Water Reservoir and Pump Station	1

CONTACT: Kathleen Phalen [3345]

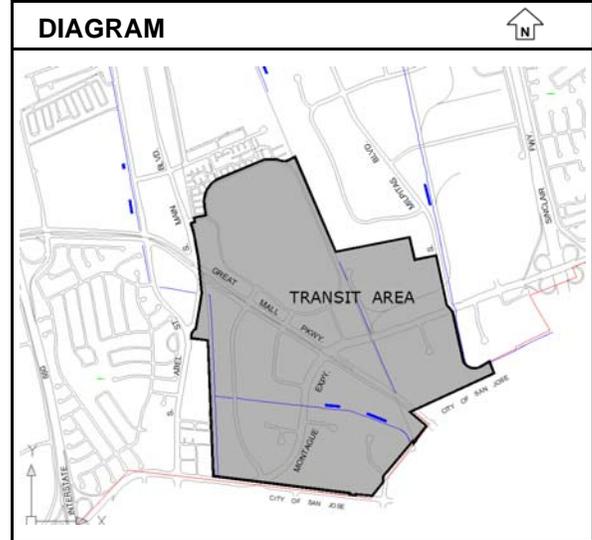

PRIORITY: Mandatory or Committed Projects

DESCRIPTION

This project will provide potable water reservoir (6.6 million gallons) and pump station to serve the SCVWD water service area, as recommended in the Milpitas 2009 Water Master Plan Update. This facility is necessary to serve the Midtown and Transit Area Specific Plan and other future development. The scope includes land purchase, design and construction of a reservoir, pump station, a second SCVWD water supply turnout and related improvements.

COMMENTS:

The new water facility will require acquisition of approximately 3 acres in the Transit Area at an estimated cost of \$6.7 million. Design and Construction will be programmed in the future at a cost estimate of \$15 Million. Total cost estimate is \$21.7 Million.

Uncommitted Balance as of 1/31/2012: \$200,000

FINANCE NOTES

**City of Milpitas
2012-17 CAPITAL IMPROVEMENT PROGRAM**

Category	Project	Estimate Level
Water	7100 Water System Seismic Improvements	1

CONTACT: Greg Armendariz [3317]

PRIORITY: Health and Safety Projects

DESCRIPTION

This project develops a comprehensive Water System Seismic Improvements Program which includes seismic upgrades to the City's "back-bone" water system as defined in the Water System Seismic Improvement Strategic Plan. The scope also includes purchase of water system materials and equipment for emergency response to a major disaster. A complete list of improvements is identified in the priority list (Appendix F of DSWA report) with additional work scope identified in follow up engineering studies.

COMMENTS:

Total program preliminary cost estimate is a minimum of \$25 million, through 2020.

Uncommitted Balance as of 1/31/2012: \$3,602,033

Water	7110 Hydrant Replacement	1

CONTACT: Jorge Bermudez [3313]

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

DESCRIPTION

This project involves replacement of hydrants in the Manor, Sunnyhills, and Milford neighborhoods. Other locations may include Calaveras Blvd, Park Victoria and Jacklin Road. Additional work may include replacement of the water valve for the hydrant.

COMMENTS:

These hydrants have reached the end of their useful life and need to be replaced.

Uncommitted Balance as of 1/31/2012: \$169,379

Water	7112 Reservoir Cleaning	1

CONTACT: Marilyn Nickel [3347]

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

DESCRIPTION

This project provides for the periodic interior cleaning of the new City's water system reservoirs.

COMMENTS:

The Hillside Reservoir were last cleaned in 2002-2003 and Valley Floor Reservoirs were cleaned in 2004-05. Reservoirs should be cleaned every five years to eight years.

Uncommitted Balance as of 1/31/2012: \$50,000

Water	New Abel Street Pipeline Extension	1

CONTACT: Marilyn Nickel [3347]

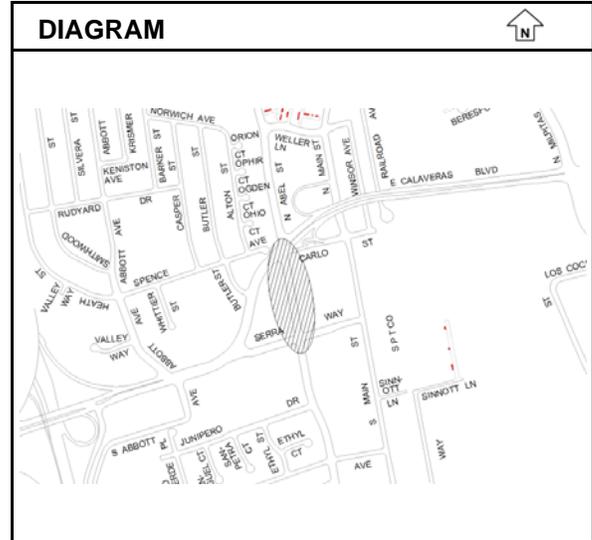

PRIORITY: Health and Safety Projects

DESCRIPTION

This project installs 300 linear feet of 12-inch pipe to connect three "dead-end" pipes, one on Abel Street and two on Carlo Street. This improvement will improve water pressure and water quality through improved system circulation.

COMMENTS:

This is identified Section 6.3.4.4. of the 2009 Water Master Plan Update.

Water	New BART Project - Water Improvements	1

CONTACT: Kathleen Phalen [3345]

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

DESCRIPTION

The BART project will cause the relocation of existing utilities along the BART corridor at its own expense. In addition, there are other related water system improvements which have been identified by the City, to be completed as part of the BART utility relocation effort. The City is required to cost share for these enhancements. Water projects include: Upsize of existing water crossing at Montague and Capitol, installation of 2 new water crossings south of Montague, and possible and upsize pipelines in Piper Drive Area.

Water	New Cathodic Protection Improvements	1

CONTACT: Steve Erickson [3301]

PRIORITY: Projects Which Avoid Future Additional Costs

DESCRIPTION

This project provides an evaluation study and installation of corrosion monitoring station and recommendations for retrofit or anode replacement. The project will also provide for upgrades of deficiencies defined in the evaluation study.

COMMENTS:

The soils have been found to be highly corrosive at certain locations in Milpitas. Corrosive soils are detrimental to steel pipes in the water distribution system.

Water	New	Minor Water Projects 2013	1

CONTACT: Steve Erickson [3301]

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

DESCRIPTION

This on-going project involves the analysis and implementation of various water projects which arise during the year. This project also provides for on-going modifications and improvements to existing water system including enhancing security at various water facilities.

This project involves the installation of two new gate valves on the water main, near Brian Court and Santos Court. These valves allow better isolation of the water system during waterline shut-offs. Water shut-offs may occur during routine and emergency repairs of the main water line, fire hydrants, or air and pressure relief valves.

Water	New Supervisory Control and Data Acquisition (SCADA)	1

CONTACT: Jorge Bermudez [3313]

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

DESCRIPTION

A Supervisory Control and Data Acquisition System provides real-time data, such as water tank level, pump operational status, system pressure, and flow rates to water system operators. Operators can use this data to identify operational problems, such as high velocities and low pressures, pressure spikes, both indicators of pipe breaks. SCADA also allows for remote monitoring and operation of pumps and valves to implement corrective actions and maintain water supply.

COMMENTS:

Currently operators rely on unsophisticated alarms at limited locations and customer complaints to become aware of water system problems. Operators must drive to sites to evaluate the problem and implement corrective action, such as starting a back-up pump, when the main pumps fail.

Category	Project	Estimate Level
Water	New Water System Replacement 16-17	

CONTACT: Greg Armendariz [3317]

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

DESCRIPTION

The project involves the replacement or rehabilitation of aging water infrastructure. Work program will be based upon the priorities identified in the 2002 Water Main Replacement Study, maintenance records, other studies and pipe condition evaluations.

COMMENTS:

Over 25% of the Cities' water mains are fifty years or older, and well beyond the design life of the main lines.

Uncommitted Balance as of 1/31/2012: \$0

Water	New Water System Replacement Study	1

CONTACT: Marilyn Nickel [3347]

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

DESCRIPTION

The 2002 Depreciation Study has estimated the remaining life of the existing water system infrastructure. This work is to field verify the projects identified with useful life ending by 2018, confirm need and scope of work, and prioritize improvements. This project evaluates the remaining useful life of water pipelines in the vicinity of Hillview Drive, Los Coches Street, Yosemite Drive, Columbus Drive, Horcajo, Dempsey Road, Landess Avenue and Jacklin Road.

Water	New Water Valve Replacement	1

CONTACT: Marilyn Nickel [3347]

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

DESCRIPTION

This project provides for the replacement of water valves on the water system. These valves are an important element of the aging infrastructure, allowing the system to be isolated during emergency or planned work on the water system.

Category	Project	Estimate Level
Sewer Improvement	6110 Sewer System Hydraulic Modeling	1

CONTACT: Kathleen Phalen [3345]

PRIORITY: Studies and Analyses

DESCRIPTION

This project provides for ongoing hydraulic modeling of the sanitary sewer system as needed for Public works operations and capacity impacts from new developments.

COMMENTS:

Modeling allows verification of existing and future pipe capacity, and capacity reduction due to pipe settlement. Modeling analysis is reimbursed by developers, when analysis is performed to determine project impacts to sewer collection system.

Sewer Improvement	New BART Project - Sewer Improvements	

CONTACT: Kathleen Phalen [3345]

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

DESCRIPTION

The BART project will cause the relocation of existing sewer pipelines utilities along the BART corridor at its own expense. The City has identified sewer pipelines improvements which should be completed as part of the BART utility relocation effort. These include rerouting and upsizing based on the City's Sewer Master Plan. These additional sewer system improvements are outside of the BART project scope and are to be paid for the City.

Category	Project	Estimate Level
Sewer Improvement	New Sewer System Replacement 16-17	1

CONTACT: Steve Erickson [3301]

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

DESCRIPTION

This project provides for the replacement of the highest priority facilities, including upgrades to the Sewer Pump Stations, forecmain and seismic retrofit work. The replacement prioritization is based on several factors including age, type of pipe material, soil conditions and physical evaluation based on video camera observations.

Category	Project	Estimate Level
Sewer Improvement	New TASP Sewer Line Replacement	1

CONTACT: Steve Erickson [3301]

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

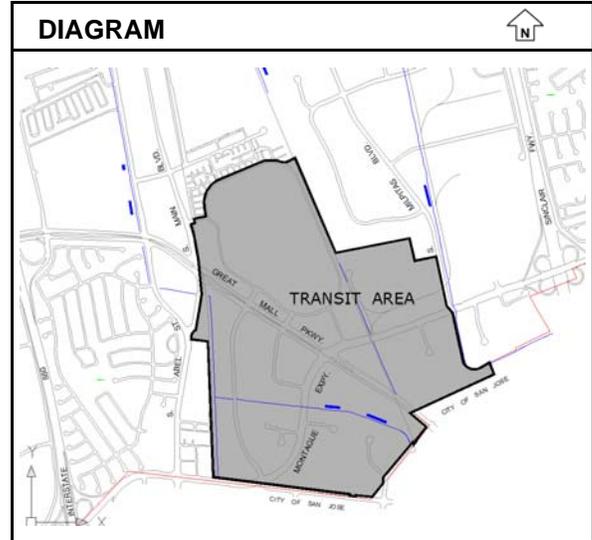

DESCRIPTION

This project constructs sewer pipeline upgrade projects 11A-D as described in the 2009 Sewer Master Plan:

- Project 11A: South Main, North of Great Mall Parkway
- Project 11B: Great Mall Parkway between South Main and Montague Expressway
- Project 11C: Montague Expressway
- Project 11D South Main Street, South of Great Mall Parkway

COMMENTS:

The City's sewer collection system is at full capacity within the Transit Area Specific Plan area. Construction of these sewer pipeline upgrades provide sufficient capacity for planned development.

Storm Drain Improvement	3700 Storm Drain System Deficiency Program	1

CONTACT: Fernando Bravo (3328)

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

DESCRIPTION

This project involves the design and construction of storm drain pipeline at various locations, primarily due to insufficient capacity and aging infrastructure. The areas include but are not limited to: Wrigley and Vista Way, Rocky Mountain Avenue, Watson Court, South Park Victoria Drive, Jacklin Road, Traugber Street, Park Hill Drive, Prada Drive, Abbott Avenue, Coyote Street, UPRR near Jurgens, and Sycamore Drive. In some locations, the existing storm drain pipe will be removed and replaced with larger pipe. In other locations, a second parallel pipe will be installed depending conditions of the existing pipe and space constraints with other utilities. Work scope also includes pump station rehabilitation work to electrical and mechanical systems.

COMMENTS:

Additional projects and work scope will be programmed based on the new Storm Drain Master Plan.

Storm Drain Improvement	New BART Project Storm Improvements	

CONTACT: Kathleen Phalen [3345]

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

DESCRIPTION

The BART project will cause the relocation of existing storm drain utilities along the BART corridor at its own expense. The City has identified additional storm drain improvements which should be completed as part of the BART utility relocation effort, at the City's cost. These include rerouting storm drain lies on Capitol Avenue, to eliminate localized annual flooding and other enhancements.

CONTACT: Steve Smith [2640]

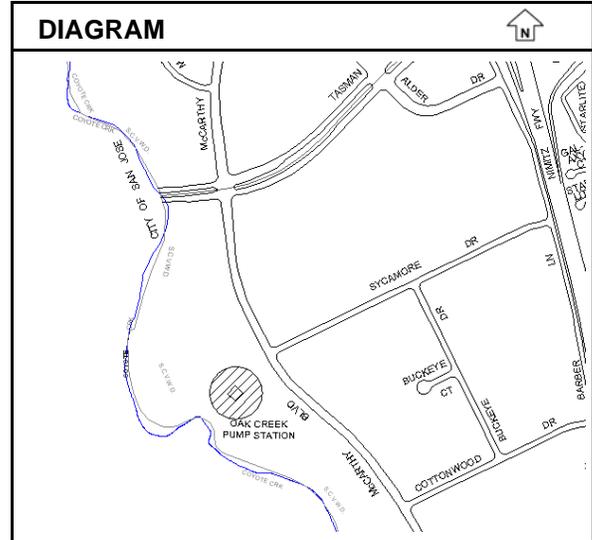

PRIORITY: Major Service Equipment Replacement

DESCRIPTION

This project provides for the replacement of the diesel engines with electric motors. The work also includes wet well modifications and new control panels. The roof is also in need of replacement as well as other minor items. The pump is located near Sycamore Drive and McCarthy Boulevard and provides drainage for the Oak Creek Industrial Park Area.

COMMENTS:

This project is described on page 6-37 of the 2001 Storm Drain Master Plan. The first phase of work includes design. Additional funding will be required in subsequent years for construction.

FINANCE NOTES

**City of Milpitas
2012-17 CAPITAL IMPROVEMENT PROGRAM**

Category	Project	Estimate Level
Storm Drain Improvement	New Penitencia Pump Station Improvements	1

CONTACT: Steve Erickson [3301]

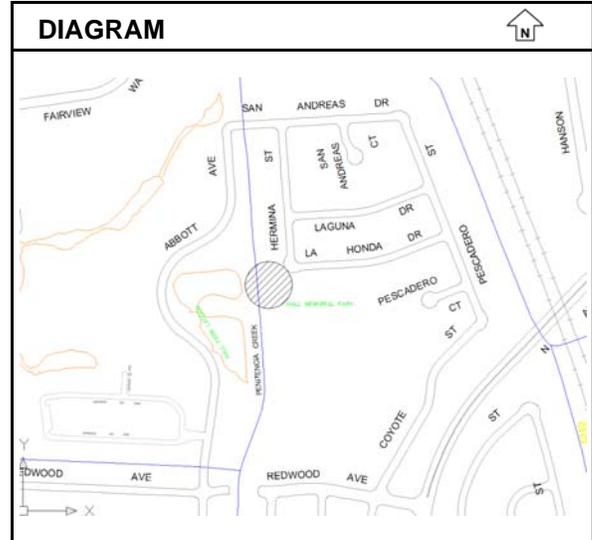

PRIORITY: Major Service Equipment Replacement

DESCRIPTION

This project provides a complete reconstruction of the pump station and wet well, work scope includes: replacement of three diesel engines and pump assemblies, electric jockey pump, station controls and electrical system upgrades. The station is located at Hall Park and provides drainage for approximately 215 acres of residential area (Manor neighborhood.)

COMMENTS:

This is the City's oldest storm pump station built in 1955. The Bay Area Air Quality Management District BAAQMD will no longer permit the diesel engines to be replaced in kind; they will have to be replaced with electric motors and a backup generator. This pump station is approximately 40 years old and the engines and pumps have not been rebuilt or rehabilitated. The Fiat diesel engines and pumps have exceeded their design life and parts are no longer available to even make repairs.

Uncommitted Balance as of 1/31/2012: \$0

**City of Milpitas
2012-17 CAPITAL IMPROVEMENT PROGRAM**

Category	Project	Estimate Level
Storm Drain Improvement	New Storm Drain System Improvements 2017	1

CONTACT: Steve Erickson [3301] / Jorge Bermudez [3313]

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

DESCRIPTION

This project will provide for the procurement of two trailer mounted emergency generators for use at the storm pump stations (with electric capacity of 750kw and 1000kw.)

The work will also include installation of transfer switches at the pump stations to allow switching PG&E power to generator power.

COMMENTS:

Typically, the same storms that drops heavy rainfall into the storm drain system also cause electrical service interruptions. The pump stations are inoperable at a time when they are needed the most. Secondly, a major earthquake during winter storms may also take out PG&E power.

Category	Project		Estimate Level
Streets	2001	Light Rail Median Landscaping	1

CONTACT: Liz Racca-Johnson [3306]

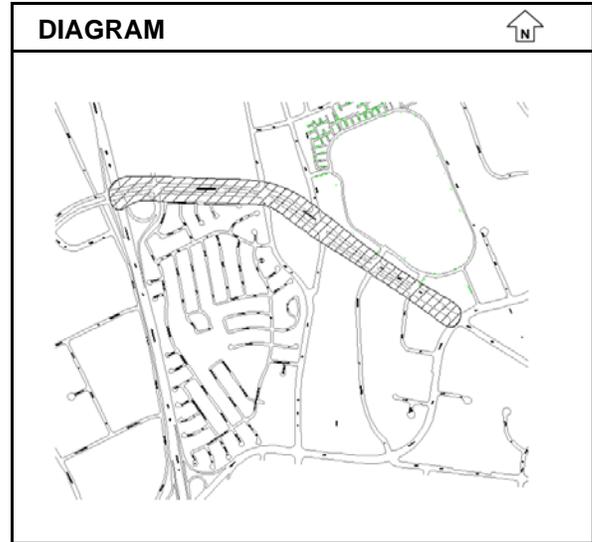

PRIORITY: Mandatory or Committed Projects

DESCRIPTION

This project involves the design and construction of median landscape improvements on Great Mall Parkway from I-880 to the southern City limits at Capitol Expressway. There are eight separate median islands under the LRT viaduct structure which will be landscaped. The scope also includes construction of a recycled water main line for this project and future Transit Area Specific Plan development project.

COMMENTS:

All landscaping will be irrigated with recycled water. This work is included in the cooperative agreement with the Santa Clara Valley Transportation Authority.

Uncommitted Balance as of 1/31/2012: \$4,271,978

Category	Project	Estimate Level
Community Improvement	3397 Public Cable Access Facility	1

CONTACT: Bill Marion [2701]

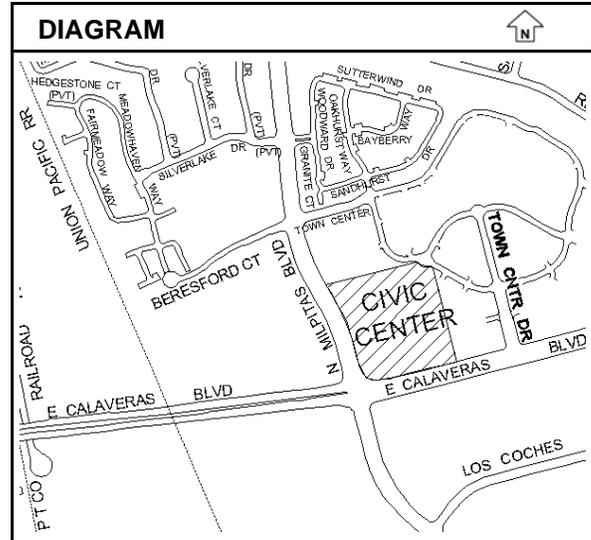

PRIORITY: Improve the Quality of Life

DESCRIPTION

This project provides for the design, development and installation of a Public, Educational and Government (PEG) cable access facility within the Milpitas City Hall. The facility and associated equipment will support the production and broadcast of Public, Educational and Government programming for the resident's of Milpitas. The studio will be located on the first floor of the City Hall.

COMMENTS:

Design and construction work has been completed. The additional franchise funding provides for operating and additional equipment purchases.

Community Improvement	3400 2009 Finance System Upgrade	1

CONTACT: Jane Corpus [3125]

PRIORITY: Improve the Quality of Life

DESCRIPTION

This upgrade will keep our Financial system up to date. The current release, Version 7.4, will no longer have support after May 2008. It is essential that the system be current in order to utilize technology efficiently and effectively. This major system includes General Ledger, Accounts Payable, Cash Collection, Payroll/Human Resources, Job Costing and Purchase Order. In addition, the Finance system also manages Budget Preparation, Business License, Investment Software and Fixed Asset systems.

COMMENTS:

The proposed funding is for the system required upgrades, equipment and staff training.

Community Improvement	3401 Solid Waste Master Plan	1

CONTACT: Kathleen Phalen [3345]

PRIORITY: Studies and Analyses

DESCRIPTION

This Master Plan will review the impacts of the City's short and long term planned growth and associated solid waste disposal needs. Since the current solid waste contracts expire in 2017, the plan will also review and develop strategies for economical solid waste disposal beyond 2017. Particularly, since Newby Island Landfill off Dixon Landing Road, is scheduled for closure by 2023.

COMMENTS:

The City has two existing contracts regarding solid waste disposal. One is for collection and hauling to the Newby Island Landfill and Recyclery for disposal. The second is to reserve capacity at the Newby Island Landfill and Recyclery for Milpitas-generated waste.

Community Improvement	3404 Green Facilities Study	1

CONTACT: Greg Armendariz [3317] / Eddie Loreda [2662]

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

DESCRIPTION

This project provides a study for adding photovoltaic cells (solar panels) and other green building improvements to all existing City buildings and facilities. This assessment will include structural review of roof top installations, electrical power generation and demands, financial rate of return analysis and financing options. The scope will also review available grants and rebates for these improvements.

COMMENTS:

The City buildings include: City Hall, MSC, PD/PW building, Community Center, New Senior Center and Sports fields snack shacks. Other public facilities include, street lights, parks and trails lighting, and pump stations. This study will be the basis for programming CIP projects for design and construction in the future.

2012-17 CAPITAL IMPROVEMENT PROGRAM**

Category	Project	Estimate Level
Community Improvement	3407 Midtown Parking Garage	1

CONTACT: Steve Erickson [3301]

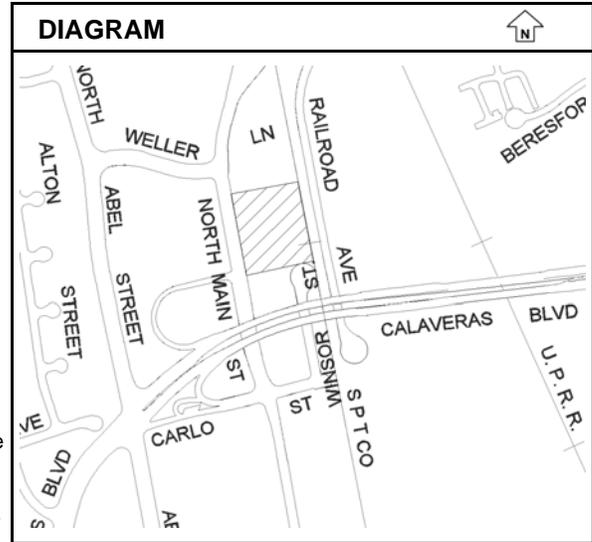

PRIORITY: Mandatory or Committed Projects

DESCRIPTION

The new Midtown East Parking Garage will consist of a four story structure that will serve the new Library and other Midtown uses. It will be located on Main Street, South and East of the new library. The East Parking Garage will have sufficient space for approximately 280 parking spaces. Special features of the parking garage include: a public display area for the City's restored antique fire truck; attractive vehicle entries/exits; pedestrian entries, including direct entry into the new library; elevators and stairs. The library garage grand opening was successfully held on January 10, 2009.

COMMENTS:

Work remaining is the conversion of the existing manual hand crank roll-up doors within the new library and parking garage to a motorized unit, and for the relocation of the fusible link to a location near the new motorized controls for easier access and safer operation, when being reset. Currently, if the fire alarms are actuated during annual testing or other reasons the fire doors close creating a "firewall". The manual hand cranks are located above the ceiling at two locations requiring ladder access.

Storm Drain Improvement	3701 Storm Drain Master Plan Update	

CONTACT: Fernando Bravo (3328)

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

DESCRIPTION

This project provides an update to the City Storm Drain Master Plan. This update is needed due to land use modifications proposed by Midtown Specific Plan and proposed Transit Area Specific Plan. It is also important to revise and update the Master Plan in order to account for land use changes and capital projects that have taken place in the City since the original Master Plan was published in 2001, and to provide proper environmental documentation. In addition, FEMA is requiring creek levee recertification as a result of the New Orleans levee failures. SCVWD and the City are working to complete these studies by August 2009. The Storm Master Plan will model and analyze citywide existing and proposed storm drain infrastructure, identify system deficiencies and recommend improvements.

COMMENTS:

A Master Grading and Storm Drainage Plan is required by the Transit Area EIR

**City of Milpitas
2012-17 CAPITAL IMPROVEMENT PROGRAM**

Category	Project	Estimate Level
Storm Drain Improvement	3703 Emergency Pump Station Generators	1

CONTACT: Jorge Bermudez [3313]

PRIORITY: Major Service Equipment Replacement

DESCRIPTION

This project provides for the procurement of two trailer mounted emergency generators for use at the storm pump stations (with electric capacity of 750kw and 1000kw.)

The work will also include installation of transfer switches at the pump stations to allow switching PG&E power to generator power.

COMMENTS:

Typically, the same storms that drops heavy rainfall into the storm drain system also cause electrical service interruptions. The pump stations are inoperable at a time when they are needed the most. Secondly, a major earthquake during winter storms may also take out PG&E power.

Uncommitted Balance as of 1/31/2012: \$100,000

Category	Project	Estimate Level
Streets	4039 Tasman / I-880 Interchange	1

CONTACT: Fernando Bravo (3328)

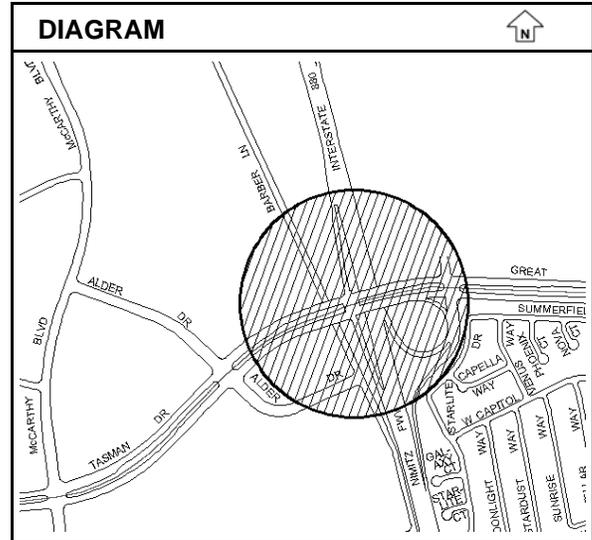

PRIORITY: Mandatory or Committed Projects

DESCRIPTION

This project involved the design and construction of an interchange at Tasman Drive-Great Mall Parkway and Interstate 880. Construction has been completed and Right-of Way transfer is currently in progress with Caltrans.

COMMENTS:

Caltrans and the City agreed to leave an abandoned Shell oil pipeline (now owned by Air Products) in the widened Caltrans right-of-way. If I-880 is widened to an 8 lane freeway in the future, there may be a need to relocate in outside of the Caltrans right-of-way, at an estimated cost of \$40,000 to \$500,000.

Uncommitted Balance as of 1/31/2012: \$45,809

FINANCE NOTES

Grants: SB 300: \$405,902 + Santa Clara County Transit Agency (SCCTA): \$2,526,032 = \$2,931,934

Should a future project require the nitrogen line to be relocated, Caltrans and Milpitas will enter into a 50/50 cost share. An agreement is currently being prepared. The 2004 estimated cost is \$500,000, with Milpitas share of \$250,000. Costs will be adjusted for inflation rise. \$50,000 under ROW Administration is for the additional staff time that will be needed to complete the ROW transfer to Caltrans.

Category	Project		Estimate Level
Streets	4047	Dixon Landing Road / I-880 Interchange	1

CONTACT: Fernando Bravo (3328)

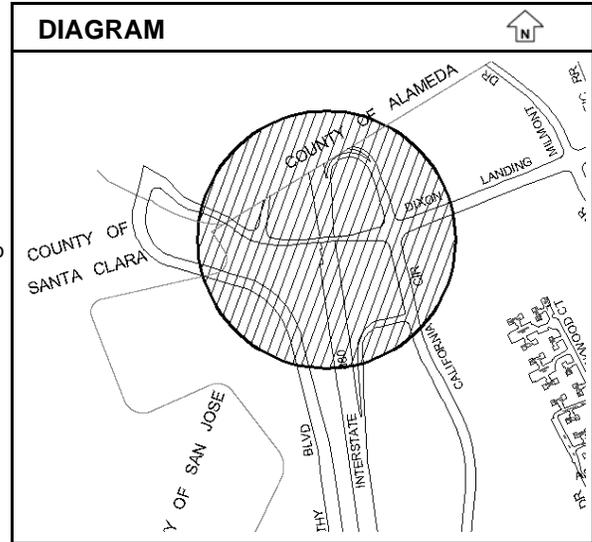

PRIORITY: Enhance Economic Development

DESCRIPTION

This project involved the construction of a full interchange at Dixon Landing Rd. and I-880. It provided access to the industrial parks to the west of I-880 and improved the access from the east. Design is based upon 6 lanes for Dixon and 8 lanes for I-880 including commuter lanes. All the construction work has been completed. The remaining work includes right of way transfer to Caltrans.

COMMENTS:

The interchange was completed and opened for traffic in March 2004. PG&E contract resolution and Right of Way transfer to Caltrans is currently in progress.

2012-17 CAPITAL IMPROVEMENT PROGRAM**

Category	Project	Estimate Level
Streets	4170 Hwy 237/I-880 Interchange	1

CONTACT: Greg Armendariz [3317]

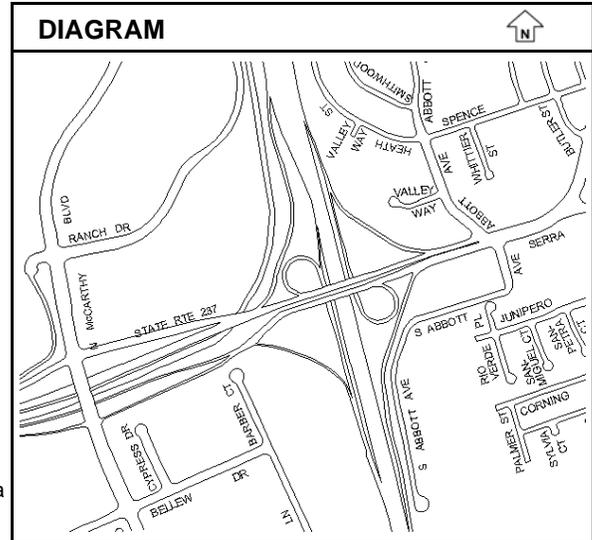

PRIORITY: Mandatory or Committed Projects

DESCRIPTION

This project designed and constructed the 237/880 Interchange through a cooperative agreement between Milpitas and Santa Clara County Traffic Authority (TA). When the TA ceased to exist in March 31, 1997, the City assumed the administration of the TA's remaining consultant design work. TA transferred \$1.6 million to the City for this effort. Construction began late 1997 and was completed in 2004. The remaining work includes transfer of Right of Way to Caltrans, landscaping and recycled water irrigation improvements.

COMMENTS:

Two separate cost-sharing agreements between the City/Caltrans and City/VTA (\$2 million and \$1.5 million respectively) were to provide the funding for the landscape improvements and maintenance. However, also underway is the I-880 Commuter Lane Project. It will include a significant portion of the landscape work.

FINANCE NOTES

Grants: SCVWD \$929,256 + SCC Traffic Authority: \$2,286,424 = \$3,215,680.
 FY04-05: Mid-year appropriation of \$62,500 from VTA was made for repairs at Hwy 237 and Abbott.
 FY 2008-09: Defunded \$174,000 from the RDA Bond Tax Allocation Bonds.
 FY 2009-10 - Grants of \$2 million from CALTRANS (Maintenance Fund) .
 FY 2009-10 - Street Fund: \$1,284,000 currently placed in the Street Fund (VTA cost share for the median landscape project). \$300,000 of the \$1,584,000 was used to fund the street trees and mulch project.
 FY 2010-11- Deprogramming in FY 2010-11, of 390,000 from State grant, due to State budget crisis, funds are not available.
 FY 2011-12- Deprogramming in FY 2010-11, of 2,000,000 from State grant.

**City of Milpitas
2012-17 CAPITAL IMPROVEMENT PROGRAM**

Category	Project		Estimate Level
Streets	4179	Montague Expwy Widening at Great Mall Pkwy	1

CONTACT: Julie Waldron [3314]

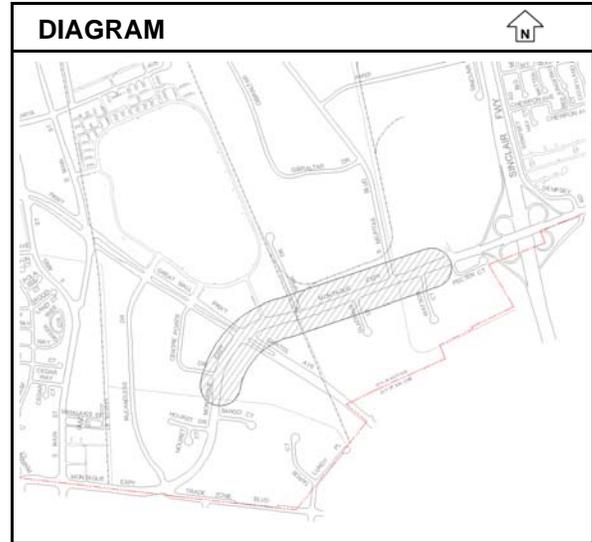

PRIORITY: Mandatory or Committed Projects

DESCRIPTION

This project provides a fourth through lane in each direction on Montague Expressway at Great Mall Parkway. It also includes adding one westbound lane on Montague Expressway from Hwy 680 to UPRR rails, however, these limits may be revised due to right of way availability.

COMMENTS:

A portion of this project, Phase I, is required as a result of the Cisco Systems development. Phase I is the improvement of the Great Mall Parkway/Capitol intersection from Center Point Drive to the UPRR rails, and is funded 50% by Cisco Systems. Phase I was constructed by VTA in conjunction with their LRT project. The remaining portion of the project, phase II, will "close the gaps" that exist between Phase I and Project 4180 which widened the south side of the expressway from west of Gladding CT. to I-680.

2012-17 CAPITAL IMPROVEMENT PROGRAM**

Category	Project	Estimate Level
Streets	4227 Gateway Signs Project	1

CONTACT: Diana Barnhart (3059) / Jeffery Leung [3326]

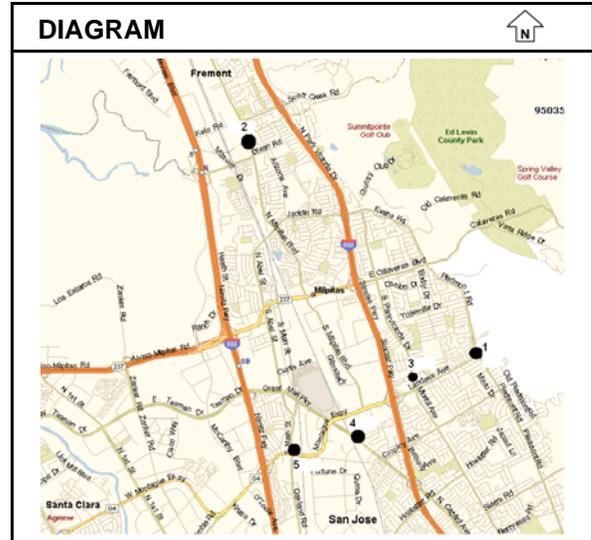

PRIORITY: Enhance Economic Development

DESCRIPTION

In 2006, the City Council approved the location of minor gateway signs at the following locations: 1) Park Victoria Drive at Landess Avenue; 2) South Main Street at Montague Expressway; 3) North Milpitas Boulevard at Dixon Landing Road; and 4) McCarthy Drive at Montague. These locations reflect heavily traveled intersections that will provide more visible promotion for the City.

COMMENTS:

The Economic Development Commission requested that funding for a third minor gateway sign be included in the 2006/07 mid year budget. Staff is working to bring the design of the minor gateways into conformance with the design of the Calaveras Blvd and Route 237 gateway feature that has been submitted for Caltrans approval. The new designs will be presented for City Council approval prior to fabrication and installation.

Category	Project	Estimate Level
Streets	4246 Sidewalk Replacement 2009	1

CONTACT: David Gordillo [2634]

PRIORITY: Health and Safety Projects

DESCRIPTION

This project involves citywide replacement of existing curb, gutter and sidewalk. The project also involves street tree root cutting to prevent further damage to sidewalk. The work scope also includes installation of ADA ramps. An annual visual inspection is conducted to determine and establish a priority list of areas for replacement. Sections of sidewalk with vertical separation of ¾" or more are completely removed and replaced. At locations where a vertical separation less than ¾" exists, a grinding method is used in lieu of concrete replacement.

**City of Milpitas
2012-17 CAPITAL IMPROVEMENT PROGRAM**

Category	Project	Estimate Level
Streets	4247 Suggested Routes to School	1

CONTACT: Janice Spuller (3291)

PRIORITY: Improve the Quality of Life

DESCRIPTION

This is a 3-year school safety program targeting the City's 9 elementary and 2 middle schools to encourage walking and bicycling to school. Program elements include the preparation of Suggested Routes to School maps, walking-biking-carpooling education & programs, and event promoting.

COMMENTS:

This program is fully-funded from a California - Department of Transportation (Caltrans) Safe Routes to School Grant. The grant is for non-infrastructure projects only.

Uncommitted Balance as of 1/31/2012: \$150,658

2012-17 CAPITAL IMPROVEMENT PROGRAM**

Category	Project	Estimate Level
Streets	4248 Traffic Management Enhancements 2009	1

CONTACT: Jimmy Nguyen [3318] / Steve Chan [3324]

PRIORITY: Improve the Quality of Life

DESCRIPTION

This project provides for the upgrade and deployment of traffic management equipment used to monitor and control the City's roadway network. Typical improvements include the replacement of aging and outdated of traffic signal control equipment and upgrades to the traffic operations center's video monitoring equipment.

COMMENTS:

This project also provides resources to pursue grant funding sources to augment the traffic management projects.

Uncommitted Balance as of 1/31/2012: \$7,810

2012-17 CAPITAL IMPROVEMENT PROGRAM**

Category	Project	Estimate Level
Streets	4249 Traffic Signal Modifications 2009	1

CONTACT: Steve Chan [3324]

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

DESCRIPTION

This project provides for minor traffic signal improvement projects resulting from the need for operations improvements or emergency repairs and safety enhancements such as pedestrian countdown signals and battery back-up systems. The scope includes replacing of street light poles and traffic signal poles and related work. This project also provides for studies to determine larger capital improvement projects.

COMMENTS:

Recent improvements include deployment of Pedestrian Countdown Signals and flashing beacon systems for enhanced pedestrian crossings.

2012-17 CAPITAL IMPROVEMENT PROGRAM**

Category	Project	Estimate Level
Streets	4253 Dixon Landing Road Plan Line	1

CONTACT: Fernando Bravo (3328)

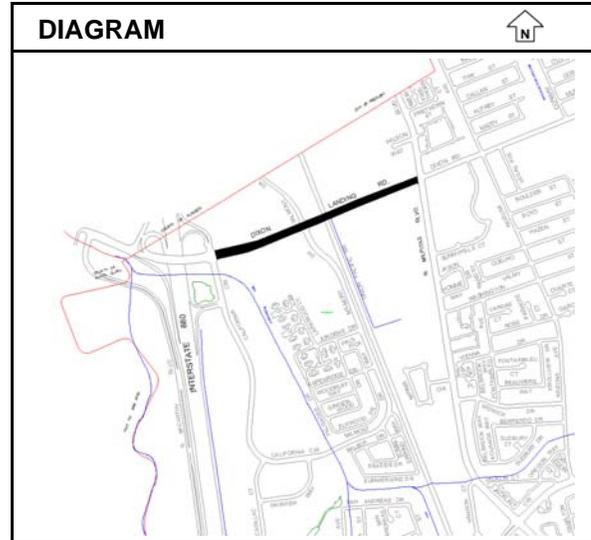

PRIORITY: Studies and Analyses

DESCRIPTION

This project provides for the preparation of a Plan Line Study to evaluate the widening of Dixon Landing Road from N. Milpitas Boulevard to I-880 from 2 lanes to 3 lanes in each direction. The study will evaluate the right of way and feasibility of relocating sidewalks, street lighting, adding bicycle lanes and streetscape in medians and planter strips. This project will also include 35% level design in order to develop an Engineer's Estimate for design and construction of improvements.

COMMENTS:

The Plan Line Study will also be coordinated with the BART roadway/bridge improvements, where BART crosses Dixon Landing Road.

Uncommitted Balance as of 1/31/2012: \$294,491

Council 3/16/10: Approval to apply for Grant: \$150,000, Caltrans Community Base Transportation Planning (CBTP)
 Traffic Impact Fees: \$50,000 - WalMart and Joe McCarthy Development
 City Council - Midyear appropriation \$105,271 from Traffic Impact Fees
 3/11: Defund \$150,000 since Caltrans Community Base Transportation Planning (CBTP) was not received
 City did not receive \$150K grant in 2010-11 and will re-apply in 2011-12.
 City Council 2/7/12 - Midyear Budget Appropriation of \$115,192 from Traffic Impact Fee interest.

City of Milpitas
2012-17 CAPITAL IMPROVEMENT PROGRAM

Category	Project	Estimate Level
Streets	4254 Sidewalk Replacement 2011	1

CONTACT: David Gordillo [2631]

PRIORITY: Health and Safety Projects

DESCRIPTION

This project involves citywide replacement of existing curb, gutter and sidewalk. The project also involves street tree root cutting to prevent further damage to sidewalks. The workscope also includes installation of ADA ramps. An annual visual inspection is conducted to determine and establish a priority list of candidate sites for replacement. Sections of sidewalk with vertical separation of 3/4" or more are completely removed and replaced. At locations where a vertical separation less than 3/4" exists, a concrete grinding method is used to eliminate trip hazards.

City of Milpitas
2012-17 CAPITAL IMPROVEMENT PROGRAM

Category	Project	Estimate Level
Streets	4255 Street Resurfacing Project 2011	1

CONTACT: Jimmy Nguyen [3318]

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

DESCRIPTION

This project provides for the street resurfacing in 2011. The program includes a variety of pavement treatments from slurry seal to major rehabilitation and reconstruction. Streets are selected for improvements based on the City's Pavement Management System. This project also includes \$200,000 to Public Works maintenance for pothole repairs.

COMMENTS:

There are over 122 miles of streets that are owned and maintained by the City of Milpitas. For major roadways these improvements include an increase of the pavement structural section, in order to strengthen the pavement sections due to increases in current and projected traffic.

Uncommitted Balance as of 1/31/2012: \$41,162

Category	Project	Estimate Level
Streets	4258 Calaveras Blvd Widening Project	1

CONTACT: Steve Erickson [3301]

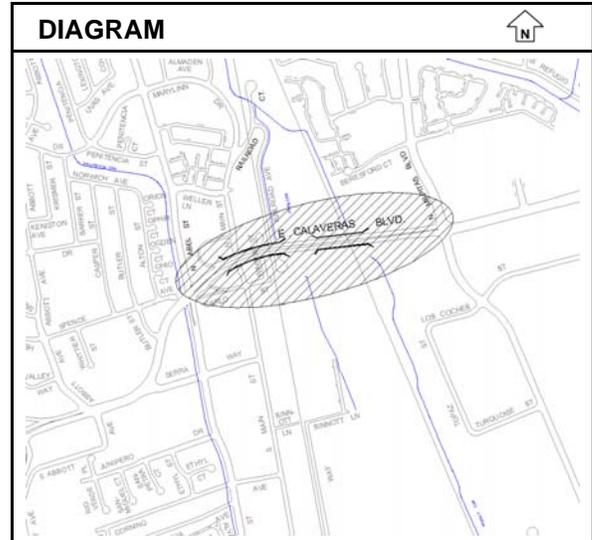

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

DESCRIPTION

This project will replace the existing roadway bridges between Milpitas Boulevard and Abel Street. These bridge structures were constructed over 40 years ago are reaching their design life. In addition these structures do not have adequate bicycle and pedestrian facilities. The replacement bridge structures will be wider to include 3-lanes, 10 foot sidewalks and 6 foot bike lanes in each direction.

COMMENTS:

Calaveras Boulevard is a State Route and the City would be the local sponsor of this project. The City would provide a local funding match generated through Traffic Impact Fees. The total cost estimate is \$75 Million.

Uncommitted Balance as of 1/31/2012: \$172,442

FINANCE NOTES

Street Fund funding source is the Gas Tax Fund

Originally this project was to be funded with \$500,000 of Transient Occupancy Tax (TOT); on 6/7/2011 the TOT was appropriated to CP 4255.

\$1mil Public Art Fund received from 8204 RDA Area Pavement Reconstruction project due to the dissolution of the RDA.

City Council 9/20/11 - Budget appropriation of \$30,000 from Transient Occupancy Tax (TOT)

City Council 2/7/12 - Midyear Budget Appropriation of \$7,000 from Developer Contribution "Wal-Mart".

City Council 2/7/12 - Midyear Budget Appropriation of \$35,000 from fees collected "VTA".

**City of Milpitas
2012-17 CAPITAL IMPROVEMENT PROGRAM**

Category	Project	Estimate Level
Streets	4262 Traffic Signal Modifications 2012	1

CONTACT: Steve Chan [3324]

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

DESCRIPTION

This project provides for minor traffic signal improvement projects resulting from the need for operations improvements or emergency repairs and safety enhancements such as pedestrian countdown signals and battery back-up systems. The scope includes repainting of street light poles and traffic signal poles and related work. This project also provides for studies to determine larger capital improvement projects.

COMMENTS:

Recent improvements include deployment of Pedestrian Countdown Signals and flashing beacon systems for enhanced pedestrian crossings.

Uncommitted Balance as of 1/31/2012: \$40,000

Category	Project	Estimate Level
Streets	4265 BART Extension Coordination & Planning	1

CONTACT: Steve Erickson [3301]

PRIORITY: Mandatory or Committed Projects

DESCRIPTION

The Bart extension from Fremont to San Jose will pass through Milpitas and include a BART station in Milpitas. This project includes the coordination and engineering analysis of utilities, Right of Way and other BART design impacts on the City's infrastructure.

COMMENTS:

Coordination with the VTA for the design of the future Bart Extension will require substantial resources from the City. Most of the work involves the review of proposals, plans, identifying infrastructure improvements and engineering analysis and development of alternatives to BART proposed improvements.

Park Improvement	5055 Alviso Adobe Renovation	1

CONTACT: Greg Armendariz [3317] / Michael Boitnott [3315]

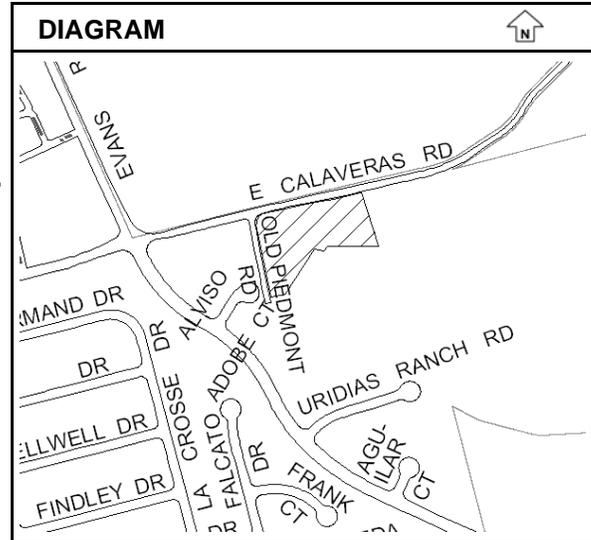

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

DESCRIPTION

This project provides new park improvements and exterior restoration of the historic Alviso Adobe building. The first phase provides structural stabilization, seismic strengthening and exterior renovation of the Alviso adobe building. The second phase provides park improvements including picnic areas, lighting, walkways, a parking lot, apricot orchard, herb garden, landscaping and access improvements. Once completed, park visitors will experience the progressive history of Milpitas' from its origins as a Spanish land grant in the 1830's through the 1920's rural Santa Clara County farming era.

COMMENTS:

The final phase provides the interior restoration of the 1st floor of the Adobe Building to museum quality level. This phase is unfunded and estimated at \$1.0 million. Staff is pursuing additional grants for this work.

Category	Project	Estimate Level
Park Improvement	5086 Park Irrigation System Rehabilitation	1

CONTACT: Michael Boitnott [3315]

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

DESCRIPTION

This project provides new central computer irrigation system and updates the irrigation systems at all City parks. This system will also alert staff of broken sprinklers and irrigation lines, by sensing loss of water pressure during operation. Repair response is much quicker, eliminating loss of water and water damage to the park landscaping.

COMMENTS:

This project will increase staff efficiency and also provide more efficient watering, resulting in reduced operational costs.

Uncommitted Balance as of 1/31/2012: \$30,938

Category	Project	Estimate Level
Sewer Improvement	6073 Sewer Deficiency Program	1

CONTACT: Fariborz Heydari (3303) / Steve Smith [2640]

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

DESCRIPTION

This project involves the design and construction of sewer line replacement due to structural deficiencies, differential settlement, and damaged sewer lines. These sewer lines have been identified through unusually high maintenance and confirmed with the City's video inspection program. The following are the highest priority locations from a list of over 40 problem sites: Cortez St., Moonlight Circle, Capitol Ave., Calaveras Blvd @ Hillview, Calaveras Blvd between Milpitas Blvd and Railroad Avenue.

COMMENTS:

Sewer line settlement, due to such factors as ground water variations and poor soil conditions, can result in sewer line clogging which requires excessively high maintenance. Work at the following sites has been completed: Terra Bella Dr., Spence Avenue., Norwich at Barker, Saturn Court, Carnegie at Edsel, Corinthia Drive, Edsel @ Monmouth, Roswell @ Edsel, Dixon Landing @ Conway, Chestnut @ Larch, Heath @ Chestnut, Erie @ Tramway, Larch @ Maple, and Calaveras Blvd. between Milpitas Blvd. and Railroad Ave. Work will continue on the highest priority locations.

2012-17 CAPITAL IMPROVEMENT PROGRAM**

Category	Project		Estimate Level
Sewer Improvement	6079	Main Sewer Pump Station Site Improvements	1

CONTACT: Greg Armendariz [3317] / Steve Smith [2640]

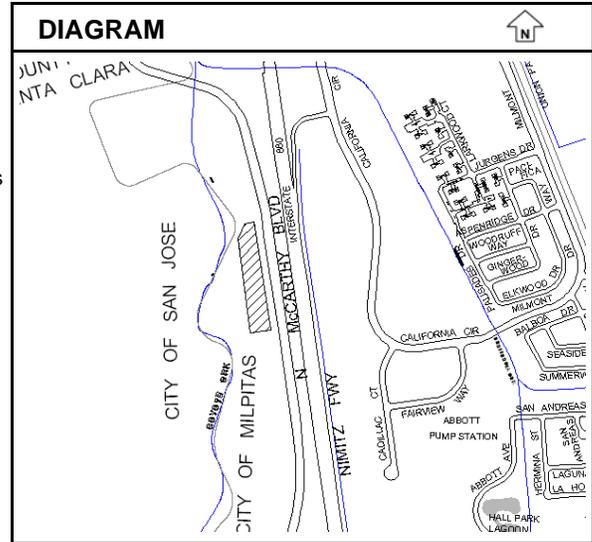

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

DESCRIPTION

This project provides design and construction of drainage, pavement, lighting security and other improvements at the Main Sewer Pump Station (SPS). This project also involves the removal of the existing abandoned facilities, tanks, miscellaneous piping and control panels that were once part of the sewage treatment facility. In addition, this project acquires a 70' wide strip of right-of-way between McCarthy Blvd and the Main Sewer Pump Station, through a no-cost land exchange with adjacent property owner.

COMMENTS:

This site will be improved to accommodate the relocated Public Works Corp Yard at Main St., allowing the construction of the new Library project. This site contained several abandoned treatment plant structures. Phase I, completed in 2005, included demolition and removal of abandoned facilities and hazardous materials. The remaining work includes lighting, security improvements canopies for vehicle storage and photo voltaic equipment.

DESCRIPTION

This project tracks expenditures in accordance with the first amendment to the In-Kind Service Agreement with the City of San Jose on the South Bay Water Recycling Program approved by City Council on June 24, 1997. The project effort consists primarily of private development recycled water irrigation system retrofits. The project costs are reimbursed to the City from the South bay Water Recycling Program.

COMMENTS:

Work may also include evaluation of City Parks for possible conversion to recycle water irrigation. This project is being completed in phases.

Uncommitted Balance as of 1/31/2012: \$35,142

**City of Milpitas
2012-17 CAPITAL IMPROVEMENT PROGRAM**

Category	Project	Estimate Level
Sewer Improvement	6106 Sewer Replacement Study	1

CONTACT: Marilyn Nickel [3347]

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

DESCRIPTION

This project involves field determination of the remaining useful life of the following sewer pipes: 360 linear feet of 42 inch RCP crossing I-880 at the Main Lift Station, 490 linear feet of 42 inch RCP at Cadillac Court and I-880, 310 linear feet of 42 inch RCP at Milmont near Penitencia Creek, 5,400 linear feet of 33-42 inch RCP along Milpitas Blvd between Hidden Lakes and Midwick, 90 linear feet of 24 inch RCP at Folsom and Hetch-Hetchy crossing, 1,500 linear feet of 30 inch RCP between Folsom and Escuela, and 170 linear feet of 12 inch RCP at Dempsey. The first priority includes review of the steel forcemain, Balboa Crossing, and the UPRR crossing south of Calaveras.

COMMENTS:

The Schaaf and Wheeler 2002 Depreciation Study has estimated the remaining life of the existing sewer infrastructure. This work is to field determine the condition of sewers and verify need to replace those sewers identified as having an estimated useful life ending by 2008. The study will refine the scope of work and costs, and prioritize these projects.

Uncommitted Balance as of 1/31/2012: \$76,282

**City of Milpitas
2012-17 CAPITAL IMPROVEMENT PROGRAM**

Category	Project	Estimate Level
Sewer Improvement	6109 Sewer Seismic Study	1

CONTACT: Marilyn Nickel [3347]

PRIORITY: Studies and Analyses

DESCRIPTION

This study includes evaluation of the various soil conditions in Milpitas, and existing sanitary sewer collection system. Recommendations may include new joint construction methods and retrofits at critical sites. The study will also recommend emergency response strategies for Public Works, during and after a major earthquake.

COMMENTS:

A substantial portion of the Valley Floor is subject to soil liquefaction during earthquakes. Movement of these pipes will cause pipe joints to pull apart. Large pipe joint displacements may lead to blockages, sinkholes, and sewer overflows, leading to health concerns. Improvement recommendations will be programmed under separate capital improvement projects.

Uncommitted Balance as of 1/31/2012: \$50,743

Category	Project		Estimate Level
Water	7070	Pressure Reducing Valve Replacement	2

CONTACT: Steve Erickson [3301]

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

DESCRIPTION

This project involves the phased replacement of the existing pressure reducing valves (PRV) within the City's water system. These valves reduce water pressure as water moves from zone 2 to zone 1 in the City's distribution system.

COMMENTS:

All of the valves are over 20 years old and now require an extraordinary amount of maintenance. Proper operation of valves is crucial to assure proper delivery pressures for drinking and fire suppression purposes.

Uncommitted Balance as of 1/31/2012: \$283,574

Category	Project	Estimate Level
Water	7098 South Milpitas Water Line Replacement	1

CONTACT: Liz Racca-Johnson [3306]

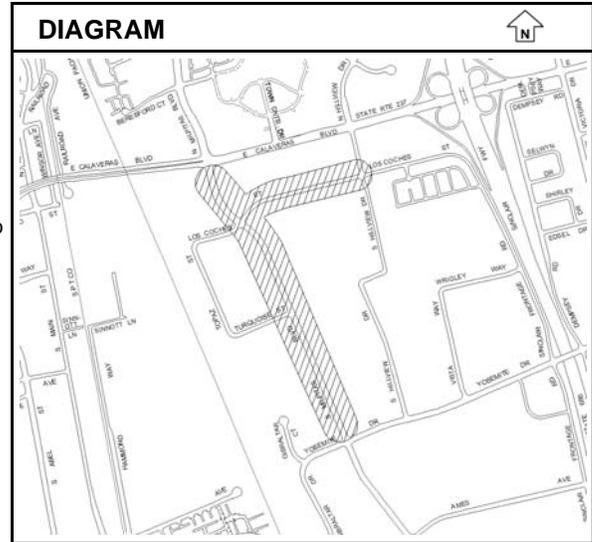

PRIORITY: Health and Safety Projects

DESCRIPTION

This project replaces approximately 3,900 linear feet of 16" diameter steel cylinder pipe along South Milpitas Blvd. between Calaveras Blvd. and Yosemite Drive. This pipe is in a very corrosive soil environment and has reached its useful life of 35 years. In addition, the new pipe will be designed to meet seismic strength criteria, and corrosion protection. The scope includes water valve replacements on Los Coches St.

COMMENTS:

The pipeline has experienced excessive corrosion which is causing line breaks. Replacement must occur to minimize impacting critical water customers.

Uncommitted Balance as of 1/31/2012: \$0

Category	Project	Estimate Level
Water	7101 Gibraltar Reservoir & Pump Station	1

CONTACT: Kathleen Phalen [3345] / Jorge Bermudez [3313]

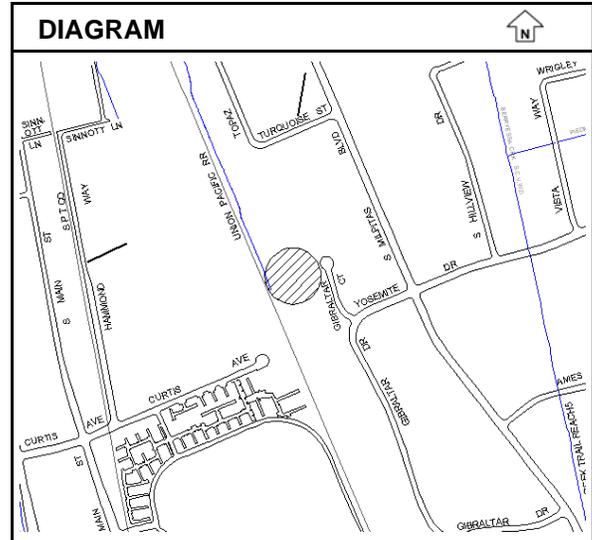

PRIORITY: Mandatory or Committed Projects

DESCRIPTION

This project provides for a complete rehabilitation of the pump station and water storage facilities, in order to comply with Bay Area Air Quality Management District (BAAQMD) and California Department of Public Health regulations. Improvements will include the replacement of pump drives with new electric motors with diesel backup generators, overhaul the pumps and operational controls to allow the station to operate more efficiently. The scope also includes seismic upgrades of building and concrete reservoir. Additional improvements include the installation of a pressure relief valve, concrete sealing of all the floors, soundproofing the control room, stair improvements, seal cracks, paint pump station and reservoir exteriors; pavement repair; exhaust system retrofit, emergency diesel generator system and diesel engines, and various other equipment, expansion of the control room and energy conservation improvements.

COMMENTS:

This reservoir and pump station has reached its design life and is vital to the City's water system day to day operations and the reservoir provides emergency water during service interruptions. The total cost estimate will be determined after completion of the final design, which is currently underway.

Uncommitted Balance as of 1/31/2012: \$299,244

2012-17 CAPITAL IMPROVEMENT PROGRAM**

Category	Project		Estimate Level
Water	7105	Recycled Water Site Improvements	1

CONTACT: Marilyn Nickel [3347]

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

DESCRIPTION

This project converts selected City landscape facilities located near the recycled water line mains to recycled water. It includes modifications and improvements, installation of recycled water line extensions, new valves, providing signs and equipment tags, and other minor system improvements, to meet State requirements of using recycled water. Projects will include street landscaping and park facilities.

COMMENTS:

The City is dedicated to recycled water use since it expands the water supply and is necessary to reduce WPCP sanitary flows below flow cap limits.

Uncommitted Balance as of 1/31/2012: \$576,018

Water	7108	Water System Hydraulic Modeling	1

CONTACT: Kathleen Phalen [3345]

PRIORITY: Studies and Analyses

DESCRIPTION

This project provides for miscellaneous hydraulic modeling of the water system, including impacts from new developments. This project also creates the City's first hydraulic model for the recycled water system. This computer model can be used in order to handle and direct field water system operations during an emergency.

COMMENTS:

Modeling is also necessary to verify pipe capacity, system pressure analysis and assists in analyzing fire flow pressure with planned water line shut offs. Some costs may be reimbursable by developers.

Community Improvement	8161 Midtown Parking Garage East	1

CONTACT: Steve Erickson [3301]

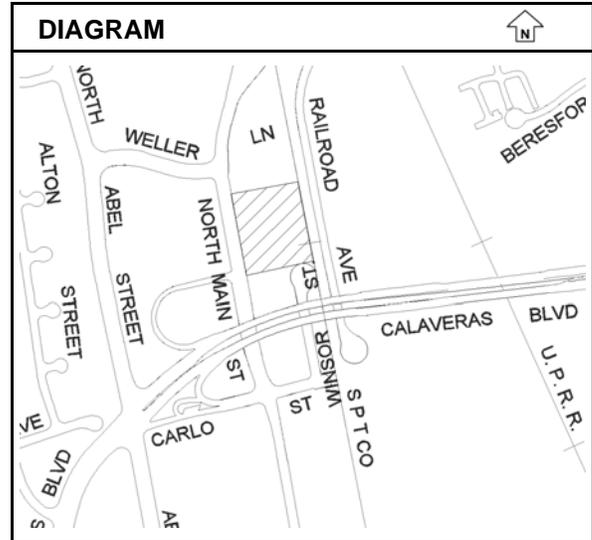

PRIORITY: Mandatory or Committed Projects

DESCRIPTION

The new Midtown East Parking Garage will consist of a four story structure that will serve the new Library and other Midtown uses. It will be located on Main Street, South and East of the new library. The East Parking Garage will have sufficient space for approximately 280 parking spaces. Special features of the parking garage include: a public display area for the City's restored antique fire truck; attractive vehicle entries/exits; pedestrian entries, including direct entry into the new library; elevators and stairs.

COMMENTS:

The library garage grand opening was successfully held on January 10, 2009. Work remaining is screening and fencing along railroad, miscellaneous signage, striping and other minor work.

**City of Milpitas
2012-17 CAPITAL IMPROVEMENT PROGRAM**

Category	Project	Estimate Level
Community Improvement	8162 Library Project	1

CONTACT: Steve Erickson [3301]

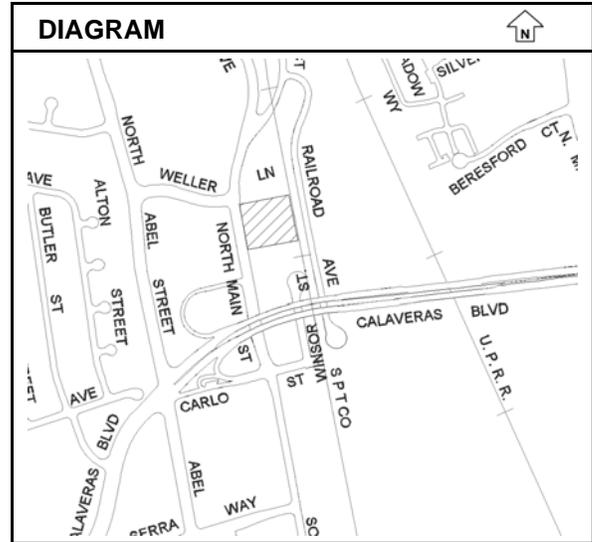

PRIORITY: Mandatory or Committed Projects

DESCRIPTION

This project provides the design and construction of the new library, in response to the Library Needs Assessment, previously approved by the City Council and following the Library Building Program approved by the City Council. The New Milpitas Public Library will be located at the historic Milpitas Grammar School at 160 North Main Street. The new library will be approximately 60,000 square feet and will incorporate and renovate the existing historic grammar school. The library will be a two-story facility, and will be designed with multi-functional spaces, and flexibility to adapt to technological and use changes.

COMMENTS:

The library project grand opening was successfully held on January 10, 2009. Work remaining includes: window shades, donor board, off-site storm drain improvements, other miscellaneous minor building improvements.

2012-17 CAPITAL IMPROVEMENT PROGRAM**

Category	Project		Estimate Level
Streets	8164	Bart Extension Coordination and Planning	1

CONTACT: Julie Waldron [3314]

PRIORITY: Mandatory or Committed Projects

DESCRIPTION

The Bart extension from Fremont to San Jose will pass through Milpitas and include a BART station in Milpitas. This project includes the coordination and engineering analysis of utilities, Right of Way and other BART design impacts on the City's infrastructure.

COMMENTS:

Coordination with the VTA for the design of the future Bart Extension will require substantial resources from the City. Most of the work involves the review of proposals, plans, identifying infrastructure improvements and engineering analysis and development of alternatives to BART proposed improvements.

2012-17 CAPITAL IMPROVEMENT PROGRAM**

Category	Project	Estimate Level
Streets	8165 N. Main St. Midtown Streetscape Improvements	1

CONTACT: Michael Boitnott [3315]

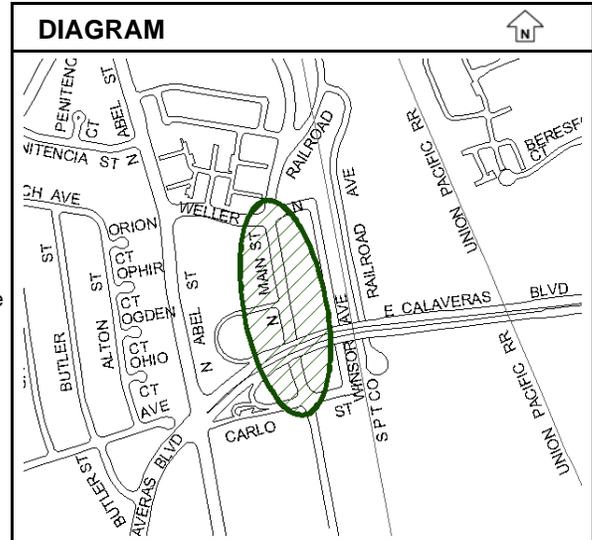

PRIORITY: Mandatory or Committed Projects

DESCRIPTION

This project provides for street reconstruction and streetscape on Main Street from Weller Lane to Carlo St., in accordance with the Midtown Plan. This project transforms Main Street into a pedestrian friendly setting; with decorative lighting, street trees and other landscaping, use of traffic calming elements such as median landscape islands, narrowing the intersections, decorative crosswalks, sidewalk improvements, and street furniture. The first phase of construction improvements is from Weller Lane to 237 off ramp. The second phase is from the off ramp to Carlo Street and portions of Winsor near the new Milpitas Public Library/garage, in order to coordinate with the library improvements.

COMMENTS:

A construction budget will be developed after the design is complete. The scope of the construction will be adjusted to meet available funding. The Construction of phase 1 is underway and will be completed to meet the completion of the Senior Housing project. Phase 2 will be completed to meet the grand opening of the Library Project in 2008.

Community Improvement	8182 City Building Improvements	1

CONTACT: Michael Boitnott [3315]

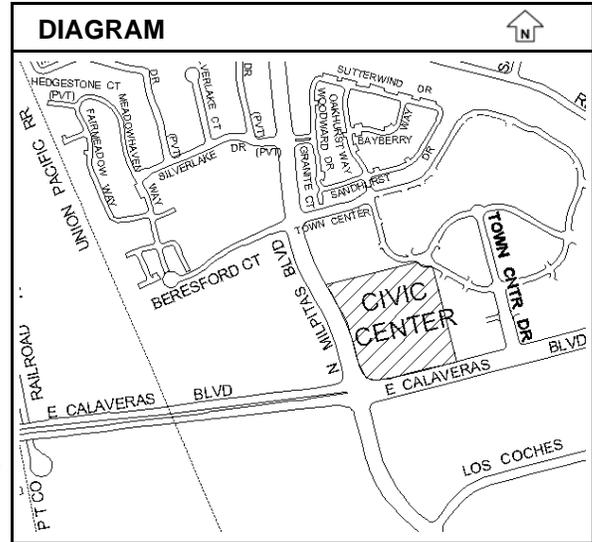

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

DESCRIPTION

This project involves renovation and rehabilitation improvements at all City buildings including Public Works/Police, Community Center, City Hall, and Sports Center. The work involves replacement of electrical and mechanical systems at the Community Center, water heater/co-generator and pool equipment renovations at the Sports Center, electrical upgrades, including an emergency generator at the Sports Center. PW/PD and City Hall retrofit work, interior and exterior painting, carpeting and other related improvements. Work will also include energy savings improvements, such as replacement of lighting fixtures with energy saving fixtures, and installation of a more efficient climate controls systems.

COMMENTS:

Projects will be implemented based on a prioritized building renovation list, to assure a high level of service to the community and to maximize the life of the City Facilities.

CONTACT: Greg Armendariz [3317] / Eddie Loreda [2662]

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

DESCRIPTION

This project provides a study for adding photovoltaic cells (solar panels) and other green building improvements to all existing City buildings and facilities. This assessment will include structural review of roof top installations, electrical power generation and demands, financial rate of return analysis and financing options. The scope will also review available grants and rebates for these improvements.

COMMENTS:

The City buildings include: City Hall, MSC, PD/PW building, Community Center, New Senior Center and Sports fields snack shacks. Other public facilities include, street lights, parks and trails lighting, and pump stations. This study will be the basis for programming CIP projects for design and construction in the future.

Category	Project	Estimate Level
Streets	8196 Soundwall Renovation	1

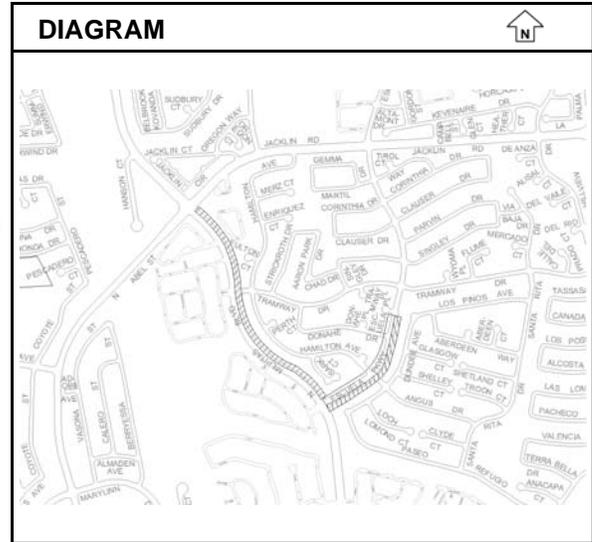

CONTACT: Steve Erickson [3301] / Julie Waldron [3314]

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

DESCRIPTION

This project renovates the City owned sound walls along N. Milpitas Boulevard, Escuela Parkway, Jacklin Road at Horcajo, La Palma, Hillview Drive at Tularcitos Creek, Nicklaus at N. Park Victoria and other locations. Portions of the walls have deteriorated and will need to be structurally repaired or completely replaced. In some locations, the ground elevation on the residence side is much higher than on the public street side. The soundwalls were not designed as retaining walls, so they require structural retrofit work or replacement.

Community Improvement	8198 Department of Energy Grant Program	1

CONTACT: Greg Armendariz [3317] / Marilyn Nickel [3347]

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

DESCRIPTION

This grant funded project provides three primary activities: a mandatory Department of Energy (DOE) study to calculate job creation and reductions in greenhouse gas emissions for various City facilities, replace aging and inefficient HVAC chillers and controls at the Police/Public Works Building, and convert lighting at the Sports Center parking lot to energy efficient LED fixtures.

COMMENTS:

The DOE has earmarked \$662,400 for the City of Milpitas through its Energy Efficiency and Conservation Block Grant program. City's local funding match is \$507,350. Some of the parking lot lighting work may not be eligible for reimbursement and a cost-share is necessary. Staff anticipates that the replacement chillers will be eligible for a PG&E rebate of \$26,000.

FINANCE NOTES

2/2/10 - budget appropriation of \$150,000 (\$75,000 from Street fund and \$75,000 from RDA fund)
Project closed January 31, 2012 due to the dissolution of the RDA.

**City of Milpitas
2012-17 CAPITAL IMPROVEMENT PROGRAM**

Category	Project	Estimate Level
Community Improvement	8200 Climate Action Plan	

CONTACT: Diana Barnhart (3059)

PRIORITY: Studies and Analyses

DESCRIPTION

This project provides for preparation of a Milpitas Climate Action Plan (CAP). This plan will include several elements including: an inventory for the general community and City owned facilities, greenhouse emission analysis, land use recommendations in order to comply with new CEQA criteria (created under SB 375 & AB 32), and criteria to evaluate new development against CEQA thresholds of carbon footprint.

FINANCE NOTES

Council 6/21/11 - The City was awarded \$57,500 grant funding from the VTA's Community Design and Transportation (CDT) Planning Grant FY 2011. VTA requires a local match of 20% of total project cost. Project closed January 31, 2012 due to the dissolution of the RDA.

**City of Milpitas
2012-17 CAPITAL IMPROVEMENT PROGRAM**

Category	Project	Estimate Level
Community Improvement	9001 City Hall AV Equipment Replacement & Upgrades	1

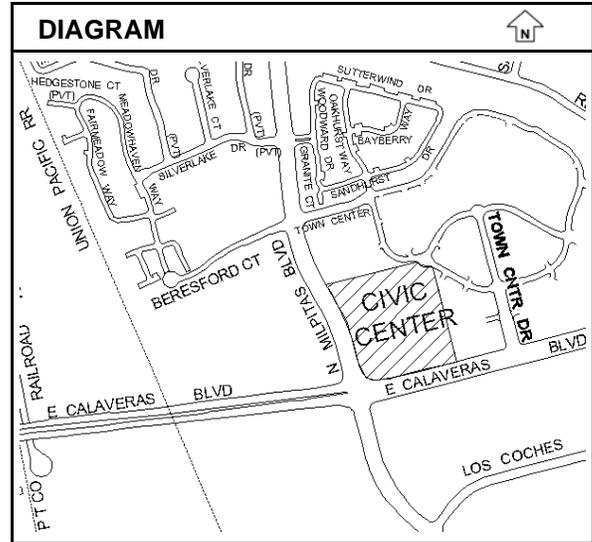

CONTACT: Steve Erickson [3301] / Bill Marion [2701]

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

DESCRIPTION

This project provides for the replacement and or upgrades to the audio and visual systems that were installed within nine conference rooms, council chambers public meeting area, audio video control room, committee meeting room, and the council chambers at City Hall. This equipment was originally installed when the building was constructed in 2002. The improvements will also provide a dedicated network and address the overall power consumption concerns, allow for future upgrades and expansion, maintenance, and scalability of the system.

**City of Milpitas
2012-17 CAPITAL IMPROVEMENT PROGRAM**

Category	Project	Estimate Level
Storm Drain Improvement	9002 Wrigley Ford Dredging	1

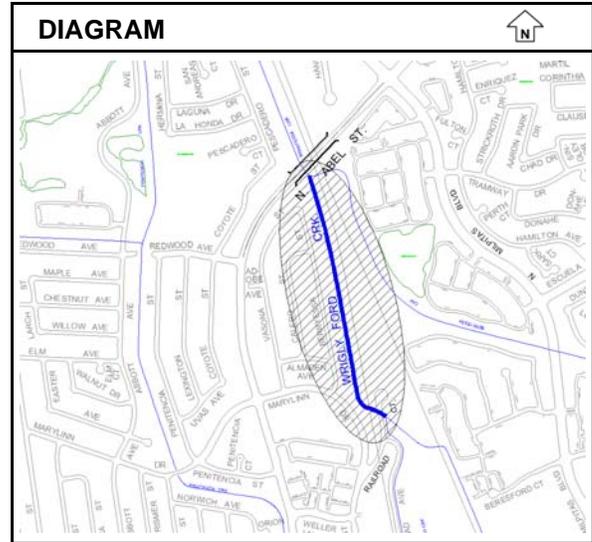

CONTACT: Julie Waldron [3314]

PRIORITY: Rehabilitation of Existing Capital Assets or Systems

DESCRIPTION

This project will remove sediment from portions of Wrigley Ford Creek and culverts to help increase capacity and provide for better flow within the creek. The project will also provide for tree removal, tree trimming, and planting restoration as required by the various permitting agencies.

APPENDIX A

ESTIMATE LEVEL DESCRIPTIONS

The following are detailed descriptions for each of the three estimate levels used in this document:

Estimate Level 1 – Conceptual Estimate

This level of estimating is the least accurate and is used when the conceptual idea or plan has been prepared without precise details. Examples of such would be freeway interchanges prior to completion of any plans (and estimates based thereon), projects where final location is unknown and right-of-way or land costs are involved.

Estimate Level 2 – Detailed Estimate

This level of estimating is based on an approved design plan or conceptual plan which has some level of assurance that the items contained within are complete and acceptable to the approving agency. Examples of this category are most street projects where City staff has prepared estimates based on typical street structural and geometric details, using experienced bid prices. Other examples are water or sewer lines that have been proposed and identified with estimates in consultant reports.

Estimate Level 3 – Design Estimate

This is the highest level of estimating and is based on a completed set of design drawings and specifications that are ready for bidding. This level is what could also be called the bid or engineer's estimate.

APPENDIX B

ABBREVIATIONS - DEFINITIONS

ABAG	Association of Bay Area Governments
AC	Asphalt Concrete
ADA	Americans with Disabilities Act.
CAD	Computer Aided Dispatch
CADD	Computer Aided Design and Drafting
CDBG	Community Development Block Grant
CIP	Capital Improvement Program
CRF	Capital Reserve Fund
CRS	Community Rating Service
CU	Customer
DEV	Developer
DG	Decomposed Granite
DOHS	Department of Health Service
EOC	Emergency Operating Center
FEMA	Federal Emergency Management Agency
GF	General Fund
GIS	Geographic Information System
GUI	Graphical User Interfaces
HR	Human Resources
I/I	Infiltration/Inflow
LRT	Light Rail Transit
MCT	Mobile Computer Terminal
MHS	Milpitas Historical Society
MSC	Milpitas Sports Center
OSA	Office of the State Architect
OCR	Optical Character Recognition
PF	Park Fund
PM	Project Manager
PMS	Pavement Management System
PRV	Pressure reducing valve
R/W	Right-of-Way
RDA	Redevelopment Agency
RFQ	Request for Qualifications
RMS	Records Management System
RWQCB	Regional Water Quality Control Board
SCADA	Supervisory Control and Data Acquisition
SCC	Santa Clara County
SCVTA	Santa Clara Valley Transportation Agency
SCVWD	Santa Clara Valley Water District
SF	Street Fund
SP	Sponsor
SPS	Sewer Pump Station
TA	Traffic Authority
TDA	Transportation Development Act
WF	Water Fund
WLF	Water Line Extension Fund
VTA	Santa Clara Valley Transportation Authority
COP's	Certificates of Participation
TPF	Treatment Plant Fee
UPS	Uninterrupted Power Supply
Y2K	Year 2000 Compliant

APPENDIX C

PRIORITIZATION DESCRIPTIONS

In order to assist in the review of the various projects, all CIP projects are prioritized using the following categories (listed in priority order):

1. **Mandatory or Committed Projects**

Mandatory projects are those which the City is legally required to undertake. These include Federal or State mandated activities such as access modifications to public facilities to meet Americans with Disabilities Act requirements, Clean Water Act, etc. Committed projects are those that the City has contracted or partially completed. This can also include projects that have received grants with time restrictions. A funded project that has not yet started, does not necessarily mean that the project is “committed”, since the project is still subject to review. If this project is no longer necessary, it can be delayed or deleted and defunded.

2. **Health and Safety Projects**

Health and Safety projects are those infrastructure improvements needed for health and/or safety reasons. Examples include such projects as sidewalk repair work, installation of traffic signals and signs, modification of park playground equipment to eliminate a hazardous situation and additional lighting in public areas, etc.

3. **Rehabilitation of Existing Capital Assets or Systems**

These are projects that are required to maintain the City’s investment in infrastructure and capital equipment. This includes projects ranging from street resurfacing/reconstruction, to bridge maintenance, water, sewer improvements, facilities rehabilitation, etc.

4. **Major Service Equipment Replacement**

These are projects involving the replacement of equipment required in the operations of the City services. This would include pumps at storm drainage pump stations, MSC swimming pool pumps and motor replacements.

5. **Projects which Avoid Future Additional Costs**

This includes those projects which assists the City in reducing and/or eliminating future operating or capital costs. This would include acquisition of image processing equipment for document control, computer networking, replacing existing high maintenance landscaping with drought resistant and low maintenance plantings, automation of maintenance or data gathering activities, etc.

6. **Studies and Analyses**

This category is for projects that allow the City to examine new approaches for improvements to service delivery, cost savings, capital improvement projects and/or ways to enhance the financial stability of the City. Examples include the Calaveras Plan Line Study and San Jose Parallel Forcemain Study.

7. **Enhance Economic Development**

This category is for those projects that will attract new businesses or retain existing. Examples include the installation of utilities for future development and fiber optics installation for telecommunications.

8. **Improve the Quality of Life**

These are projects that allow the City to enhance the City’s quality of life, such as landscaping projects, new Sports Center improvements, etc.

APPENDIX D

Previously Funded Projects to be closed as of January 31, 2012 due to the dissolution of the RDA

Community Improvement Projects

8161	Midtown Parking Garage East
8162	Library Project
8176	Senior Center
8182	City Building Improvements
8190	Green Facility Study
8198	Department of Energy Grant Program
8200	Climate Action Plan

Parks Projects

8191	Park Master Plan Improvements – Phase I
------	---

Streets Projects

8164	BART Extension Coordination and Planning
8165	N. main St. Midtown Streetscape Improvements
8196	Soundwall Renovation
8199	Street Light pole Improvements

Water Projects

Sewer Projects

Storm Drain Projects

8188	Storm Pump Station Improvements
------	---------------------------------

APPENDIX E
Previously Funded Projects to be closed as of June 30, 2012

Community Improvement Projects

3397 Public Cable Access Facility
3404 Green Facilities Study

Parks Projects

5088 Cardoza Playground Renovation

Streets Projects

4227 Gateway Signs Project
4245 Minor Traffic Improvements 2009
4246 Sidewalk Replacement 2009
4247 Suggested Routes to School
4248 Traffic Management Enhancements 2009
4251 Abbott Avenue Street Resurfacing Project

Water Projects

7105 Recycled water Site Improvements

Sewer Projects

6073 Sewer Deficiency Program
6082 Recycled In Kind Services

Storm Drain Projects

3701 Storm Drain Master Plan Update
3703 Emergency Pump Station Generators
