Housing Sub committee

The purpose of the housing subcommittee is to find alternative solutions to address the high cost of rent of our Milpitas families who are facing economic hardship. The committee is to find alternative methods to alleviate rent relief.

Ideas to find ways to alleviate economic hardship on families:
1. Create an emergency rental assistance fund under the auspices of the HA
2. Find outside resources for rent relief programs such as Catholic Charities and Faith based organizations to assist families who face economic hardship
3. Provide city jobs to youth that come from low income families, eg summer jobs to low income HS students
4. Work with employment agencies to help find better paying jobs for unemployed tenants
5. Provide childcare subsidies to qualifying families with children
6. Provide afterschool program subsidies to qualifying families
7. Hire a staff person to manage and execute program
8. Create a waiting list/registry for families to move into current and future affordable housing, Sango Project or other affordable city led units
9. Keep track and monitor current developments that are suppose to provide affordable units
10. Create public utility (water) grants or waivers to qualifying families
11. Provide VTA or Eco passes
12. Referral to food pantry/food gift cards
13. Work with school district to provide educational and counseling services to families
14. Set a standard what is a “qualifying family” based on income and rent
15. Rent mediation program such as the city of Fremont and others
16. Work closely with Project Sentinal to keep stats and assist renters
17. Map out and create a list of all apts in the city that are built before 1995
18. Keep stats of all rent cost of pre 1995 Apts in Milpitas
19. Seek grants from corporations and others to help fund program
20. Connect with Family Resources centers and county resources
