MEMORANDUM

Department of Planning & Neighborhood Services

To: Community Advisory Commission
From: James Lindsay, Planning & Neighborhood Services Director
Subject: Noise Abatement Authority & Process
Date: August 25, 2010

The Police Department receives and enforces the majority of noise complaints in the City and utilizes both the California Penal Code and the City's Noise Ordinance (MMC V-213) for enforcement.

The California Penal Code makes it illegal for any person to maliciously and willfully disturb another person by loud an unreasonable noise during any time of day. Violations of this section are considered misdemeanors and require prosecution by the District Attorney.

The City's Noise Ordinance makes it illegal to create excessive sound in residential areas during the hours of 10:00 P.M. to 7:00 A.M. It also prohibits most construction activities (in all Zoning Districts) during the hours of 7:00 P.M. and 7:00 A.M. and designated holidays. Excessive or "disturbing noise" is defined as any sound or vibration caused by sound which occurs with such intensity, frequency and in such a manner as to disturb the peace and quiet of any person. It includes, but is not limited to: 1) electronic equipment such as, a radio, television, musical instrument, 2) sound of any horn, 3) operation of machinery or tool, 4) revving of engine, or 5) yelling, shouting or whistling on a public street.

The Penal Code and the City's Noise Ordinance are effective in mitigating most noise disturbances. In general the Police Department finds that an officer visitation with a request to cease is usually effective. When deemed necessary citations are issued for violations of the Noise Ordinance- approximately 2% of disturbance calls result in citations being issued.

Santa Clara Valley Water District

California is facing its second year in a row of a low Sierra snowpack. Additionally, the crisis facing the Sacramento-San Joaquin Delta is also impacting the water supply in the Santa Clara Valley and across the state. The Delta delivers water from the Sierra snowpack to about 23 million Californians, but due to court-ordered restrictions on pumping from the Delta, we can't expect to receive the same amount of water we have in the past. The Santa Clara Valley Water District is asking everyone in the county to pitch in by reducing their water use by an additional 10 percent this summer.

By taking simple steps, the residents, businesses and farmers of Santa Clara County helped save roughly 42,000 acre-feet of water this year. That's enough water for about 84,000 families for an entire year. It's especially important to find out if there are any leaks in your outdoor water usage, since more than half of the water used in an average home goes to its landscape.

To help ensure a reliable water supply for today and the future, the Santa Clara Valley Water District offers a variety of conservation programs and incentives. Whether you are a renter, homeowner or business, we have a program to help you conserve and save money on your water, wastewater and energy bills.

For a complete list of district water conservation program incentives and eligibility rules, please visit www.valleywater.org/conservation or call the Water Conservation Hotline at (408) 265-2607, ext. 2554.

Thank you for your efforts to safeguard our water supplies.

Water Conservation Programs for Your Home

Water-Wise House Call Program
Participants of the Water-Wise House Call program receive a thorough evaluation of their home's indoor and outdoor water use. A trained surveyor will make recommendations regarding your home's indoor water fixtures and provide or install free faucet aerators, showerheads, and toilet flappers if needed. The
surveyor will also evaluate the irrigation system and make efficiency recommendations and provide an annual water-wise irrigation schedule.

Home owners and apartment managers can request a free Water-Wise House Call by contacting 1-800-548-1882. San Jose Water Company customers should contact 408-729-7900 to schedule a residential survey.

Replace Your Old Toilet
Apply for a rebate of up to $125 when you upgrade to an approved high-efficiency toilet (1.28 gallons per flush or less), or a dual flush model. Pre-approval is required, and can be obtained by calling (877) 874-8479. Rebate is doubled for Morgan Hill Utility customers. Efficient toilets use 50–80 percent less water per flush—that’s an average savings of 19,000 gallons per year for the average family of four!

Upgrade to An Efficient Clothes Washer
Take advantage of a combined water and energy rebate of $125–$200 when you purchase a new High Efficiency clothes washer. Efficient clothes washers use 40 percent less water and energy than traditional models and are gentler on clothes.

District rebates are now combined with energy-efficiency rebates from Pacific Gas & Electric Company for the purchase of residential high-efficiency clothes washers. For more information, visit www.waterenergysavings.com or call (800) 933-9555.

Residential Irrigation System Hardware Rebate Program (RISHRP)
RISHRP helps residential survey participants save water and money by providing up to $1,000 for irrigation hardware upgrades. The program offers rebates for the installation of weather-based irrigation controllers, replacement sprinkler nozzles, converting shrub bed irrigation to drip, rain sensors and more.

To request a RISHRP application, contact 408-265-2607 ext. 2554.

Convert High Water Using Plants to Low Water Using Plants and/or Permeable Hardscape
Apply for a rebate of up to $1,000 for converting high water using landscapes to low water using plants and/or permeable hardscape. Rebate amount is calculated on a $0.75 per square foot basis. Rebate is doubled for Morgan Hill Utility and Palo Alto Utility customers.

A pre-installation inspection is required and can be scheduled by calling (866) 685-2322. Original landscape must be present during the pre-installation inspection.
Free conservation items

Chances are, you’re using more water in your home than you should be. The water district offers several free water conservation devices that can help you save 20 gallons a day water. Some of the items you can request include:

- Showerheads
- Bathroom aerators
- Kitchen aerators
- Leak detection dye tablets
- Toilet flappers
- Shower timers
- Water efficient landscaping and plumbing literature
- Water-Wise Gardening for Santa Clara County CD-ROM

Small actions can add up to huge water savings. If everyone saved 20 gallons a day, we’d save more than 13 billion gallons a year in Santa Clara County alone.

If you are interested in receiving FREE water conservation devices, call the Water Conservation Hotline at (408) 265-2607, ext. 2554.

I invite you to attend.

Our neighborhood needs your help!

WHAT IS A NEIGHBORHOOD WATCH PROGRAM?
The Milpitas Neighborhood Watch program joins the Milpitas Police Department and neighborhood residents in an effort to combat crime. We cannot expect to have a police officer on our street all the time. We must take the initiative and join together to re-gain control over our neighborhood.

With your help, this can be done. It has happened in other neighborhoods—it can happen in ours!

The program is monitored by the Milpitas Police Community Relations Unit. With the assistance of citizen volunteer (like myself), a meeting is scheduled to discuss a variety of crime prevention related issues, including, but not limited to:

*Home security measures
*Personal safety information
*Operation I.D.

Other topics include:

*What are suspicious circumstances
*How to report suspicious activity
*What to expect from the police
*Specific neighborhood-related issues

A Police Officer will provide information on how we can reduce the chances of becoming a crime victim. The Officer will also advise on how we can create an alert, involved neighborhood willing to be responsible in looking out for each other.

The program will enable us to become familiar with our neighbors and play an active role in reducing criminal activity in our neighborhood.

More criminals would be apprehended and more stolen goods recovered if people took the time to report suspicious persons. During this meeting, you will learn what is, a ‘suspicious person’, and how to make a report to the police.

We can make Milpitas a safer place if we all work together.
