Hi Leslie!

I hope you're doing well! I had an amazing time at the Youth Leadership Summit and have attached an email detailing what happened. I met people from all over the world and gained an incredible amount of knowledge about water conservation and international water policy. Please thank the commission members for sending me to the conference!

Serving the commission has been a wonderful and fulfilling experience. I hope the commission's work continues to positively influence the people of Milpitas and our sister cities. I'll miss everyone and hopefully spread global diplomacy in college!

Best,
Brenda
