Bisnow Presents: Power Women Series

Bisnow's Power Women initiative honors those top-level executives and industry leaders who shape commercial real estate.

Studies show women make up a fraction of C-suite positions in our industry, but these leaders at forward-thinking companies are working to change that. They are not only breaking the glass ceiling, but also offering the support needed to bring more women into the industry and help them succeed.

Our San Francisco Power Women event will bring together the industry's most powerful and influential women to honor them, have them share their stories and market insight and create an unparalleled networking opportunity.

Join us for this premier event celebrating the women who lead our industry, and share your comments, post photos and ask questions using #BisnowSF on Twitter and Instagram. Follow us at @BisnowSF on Twitter for more local news.

BUILDING A RESILIENT REGION

The Bay Area is facing a complex set of challenges that require collaboration — across jurisdictional and geographic boundaries, as well as across disciplines — on solutions that will make our region more resilient in an uncertain future. How can our communities bounce back from the shock and stress of drought, extreme storms and flooding, and expanded wildfire seasons? How do we honor our residents' basic, inalienable rights to access housing, jobs, mobility and a healthy environment?

As an incubator of innovation, the Bay Area is applying its collective brainpower and creativity to the next generation of resiliency tools and approaches. Today's sessions spotlight some of the successes and challenges playing out across the region's cities, towns and counties that can be applied towards building a more resilient region.

PLENARY SPEAKER AND PANEL DISCUSSION

Jeremy Nowak, Brookings Institution

Jeremy Nowak is a co-author of *The New Localism: How Cities Can Thrive in Era of Populism*, recent book focusing on the place where innovation and solutions happen and how it can be used to address our most serious social, economic, and environmental challenges. Power is shifting in the world: downward from national governments and states to cities and metropolitan communities; horizontally from the public sector to networks of public, private and civic actors; and globally along circuits of capital, trade, and innovation.

PANEL DISCUSSION

Elected officials will discuss topics from *The New Localism*, moderated by Journalist, Conor Dougherty, NY Times
